Year: 0

Event 0 (979AEFAA)

Date: 0's
Description: Greek and Roman records of UFO's
Type: ufo sightings
Reference: Keziah Poster
Source: Maj2

Year: 812

Event 1 (5AA87AC1)

Date: 812
Description: Agobard, the archbishop of Lyon, France, writes De Grandine et Tonitruis ("On Hail and Thunder"), in which he condemns pagan folk beliefs, such as the notion of a "certain region called Magonia, from which ships, navigating on clouds, set sail to transport back to this same region the fruits of the earth ruined by hail and destroyed by the storm." He cites an episode in which some foolish peasants capture "three men and one woman who they said had fallen from these ships." Brought out in front of an enraged mob, Agobard intervenes and prevents their lynching, persuading the crowd that the charges are false and absurd. Some ufologists interpret this as a visitation from an alternate reality or an abduction case, while Jean-Louis Brodu observes that in the 9th century the atmosphere was likened to an ocean in which aerial ships could navigate from point to point on the earth. Miceal Ross argues that Magonia is a corruption of Magonianus, relating to the city of Mahón, the port of the island of Menorca, Spain.

Year: 1547

Event 3 (047D9906)

Date: 12/15/1547
Description: Mariners in the port of Hamburg, Germany, see a fireball moving to the south. Its rays are so hot that passengers cannot remain inside the ships. Thinking the vessels are about to burn, they hide and take cover.
Reference: Eberhart

Year: 1557

Event 4 (82FB3902)

Date: 12/5/1557
Description: Above Tubingen, Germany fiery clouds circled in the sky around seven o'clock in the morning, from which emerged "large, tall and wide" hat-shaped objects. The glow cast upon the ground was yellow and "bloody". The hat-shaped flying objects were multicolored: black, red, blue, and green.

Year: 1561

Event 5 (9EC8C3DD)

Date: 4/4/1561
Description: Dusk. A "frightening vision" is seen in the sky above Nuremberg, Germany, said to be observed by many. Printer Hans Glaser describes in his broadside many blood-red, blue, and black balls or discs near the Sun. "They were three alongside each other, sometimes four in a square, and several alone, and between these balls blood- colored crosses" are seen. Two "great pipes" (cannon) are also observed, and everything starts to "fight against each other." The battle lasts about one hour, then the burning balls fall to the earth and vanish on the ground. Although cited as a possible early UFO report, the narrative is simply about a battle in the sky by phantom armies told as an allegory of what awaits an unrepentant humanity on Judgment Day.

Event 9 (CE4E7B24)

Date: 1638
Description: Night. John Everett and two companions are crossing the Muddy River near Boston, Massachusetts, in a boat when a "great light" appears above them. It darts back and forth across the river, sometimes hovering and "flaming up," for about 2–3 hours. After they stop watching it, they discover that their boat has moved about one mile against the current to the place where they had embarked.

Year: 1663

Event 10 (4BB36054)

Date: 8/15/1663
Description: 12:00 noon. The faithful gathered in a church in a village near Lake Zarobozero, Vologda Oblast, Russia, hear a loud noise outside and see a large ball of fire descend from the north and then head south following the lake, low over its surface. The fireball seems to measure about 140 feet across and has blue smoke issuing from its sides. Two fiery rays extend from its front part. Less than an hour later, a similar fireball reappears over the same lake. Moving from south to west, the object again disappears. It reappears a third time a short while later, this time larger than before, and stays over the lake for an hour and a half. Peasants in a boat try to get close to it, but the heat is too intense. The water of the lake is illuminated to a depth of 30 feet, and fish are seen swimming away from the object, which then flies off to the west.

Event 11 (AF0E80F4)

Date: 8/15/1663
Description: At noon on this day a large ball of fire, 45 meters in diameter, descended toward Lake Robozero,

Bieloziero, Russia. Two beams of light came from the object and was directed onto fisherman in a boat on the lake. The water in the lake was illuminated to a depth of 30 feet. The fisherman were burned by the heat from the beams, and the water became covered with a “rust” material.

Year: 1665

Event 12 (97C821AB)

Date: 4/8/1665
Description: 6:00 p.m. Numerous wonders are seen in the sky over Stralsund, Germany, including ships, large flocks of birds, fire, and smoke, as well as a dark “round flat form like a plate and like a big man’s hat” that hovers above St. Nicholas Church for one hour. Witnesses include several fishermen who later complain of tremors in their hands and feet.

Event 17 (BCE24C4F)

Date: 12/5/1737
Description: 5:00 p.m. Physician Thomas Short witnesses a blood-red luminous display in the sky around Sheffield, England, which moves from west to north and then to the east. The cause seems to be one or more clouds in which are embedded brilliant lights as bright as the full moon that give off slow-moving streamers or rays. The display is accompanied by unseasonable heat and lasts until 10:30 p.m. Short hears that a similar phenomenon is seen at the same time in Venice, Italy, and Kilkenny, Ireland, where it appears as a bursting fireball.

Year: 1741

Event 19 (A0495A0E)

Date: 9/21/1741
Description: Dawn. Parson-naturalist Gilbert White wakes up at his vicarage in Selborne, Hampshire, England, and finds the neighboring clover fields matted all over with a thick coat of cobwebs, laced with dew. The dogs are blinded by it when they attempt to hunt. At 9:00 a.m. more cobwebs fall from the sky and continue until dusk. They are "perfect flakes or rags; some near an inch broad, and five or six long, which fell with a degree of velocity that showed they were considerably heavier than the atmosphere." The fall extends to the neighboring villages of New Alresford and Bradley.

Year: 1742

Event 20 (5BC0C89C)

Date: 12/16/1742 (approximate)
Description: 8:40 p.m. Physician Cromwell Mortimer, secretary of the Royal Society, is walking through St. James's Park in Westminster, London, England, when he sees a light ascend from behind the trees and houses in the southwest. When it reaches 20° against the sky, it takes a horizontal path with an undulating motion before disappearing in the northeast after a full 30 seconds. The front part is luminous with a frame-like structure behind it, and it has a faint trail. The date is questionable since Mortimer calls this a "Thursday" and December 16 was a Sunday.

Year: 1745

Event 21 (314B6B9F)

Date: 7/14/1745
Description: Astronomer George Costard observes a meteoric stream of fire that persists for at least one hour at Standlake Broad west of Oxford, England.
Reference: Eberhart
Reference: "Part of a Letter from the Reverend Mr. Geo. Costard to Mr. John Catlin, concerning a Fiery Meteor Seen in the Air on July 14, 1745," Philosophical Transactions of the Royal Society 43 (1745): 522–524
Source ID: 12
Source: EberhartUFOI

Year: 1749

Event 22 (0C0E1DEA)

Date: 11/4/1749
Description: 11:50 a.m. The crew of the HMS Montagu watches a large blue fireball, apparently low on the water, head directly toward them from the northeast and explode some 150 feet away from the ship, causing some damage to the mast, before it continues on toward the southwest. The incident takes place in the North Atlantic Ocean some 240 miles west of Cape Finisterre, Spain.

Source: EberhartUFOI

Year: 1758

Event 25 (F7FBDE28)

Date: 1758
Description: Swedish theologian and mystic Emanuel Swedenborg writes in The Earths in the Universe that that he has conversed with spirits from Jupiter, Mars, Mercury, Saturn, Venus, and the Moon, as well as spirits from planets beyond the solar system. From these encounters, he concludes that the planets are all inhabited and that such an enormous undertaking as the universe cannot have been created for just one race on one planet.

Year: 1762

Event 27 (4CD676DE)

Date: 8/9/1762
Description: 12:00 noon. An amateur astronomer named de Rostan is observing the Sun at Lausanne, Switzerland, when he notices a large, spindle-shaped body moving across the solar disc from east to west at a slower rate of speed than sunspots move. It is surrounded by a thin "nebulosity." An observer named Croste in Solothurn, Switzerland, also observes the object, but French astronomer Charles Messier, who is also taking solar measurements in Paris, France, does not see it. It remains visible until September 7, when it passes the Sun's western limb.

Source: EberhartUFOI

Year: 1777

Event 29 (B0ED6E4F)

Date: 6/17/1777
Description: 11:46 a.m. French astronomer Charles Messier views a large number of round, dark-brown globules

passing in front of the disc of the sun for 5 minutes from west-southwest to east-northeast. He sees them through an achromatic refractor at the naval observatory located in the Hôtel de Cluny in Paris, France. His estimate of their size (one-600th the size of the solar disc) puts them near the limit of resolution for his telescope, but Messier claims the objects are far away and in focus.

Year: 1783

Event 31 (CB7C73A2)

Date: 1783
Description: British astronomer William Herschel has been observing the lunar surface since the mid-1770s in Bath, England, and writes journal entries in which he details sightings of immense trees, forests, and pastures, comparing it to the English countryside. By 1778, he is seeing circular formations that he thinks are towns and villages. He also notes canals, roads, and patches of vegetation, but never writes about it publicly, since he knows that telescopic observations can be tricky.

Source ID: 21
Source: EberhartUFOI

Event 32 (626D65C3)

Date: 8/18/1783
Description: 9:15–9:30 p.m. An unusually bright bolide is observed in the British Isles on a clear, dry night. Analysis indicates that the meteor has entered the Earth's atmosphere over the North Sea, before passing over the east coast of Scotland, England, and the English Channel; it finally breaks up, after a passage within the atmosphere of around 1,000 miles, over southwestern France or northern Italy. Perhaps the most prominent witness is Tiberius Cavallo, an Italian natural philosopher who happens to be among a group of people on the terrace at Windsor Castle, Berkshire, England, at the time the meteor appears.

Year: 1790

Event 33 (9A5230B6)

Date: 6/12/1790
Description: 5:00 a.m. Several farmers in Alençon, Normandy, France, see a large globe surrounded by flames and making a whistling sound. The object slows, oscillates, and moves toward the top of a hill, unearthing some plants along the slope. The heat is so intense that grass and small trees start burning. In the evening the sphere is still warm. Witnesses include two mayors, a doctor, and three other authorities in addition to the dozens of peasants who are present. A kind of door opens and a person emerges. He is dressed in a tight-fitting suit and, seeing all the people, says some words that are not understood. He runs into the woods. The sphere explodes silently, throwing pieces everywhere, and these pieces burn until they are powder. The original source is allegedly from a June 17 report by a Police Inspector Liabeuf and forwarded to the French Academy of Sciences. However, the Academy reported in 2006 that it has no knowledge of such a report in its archives. Probable hoax.

Year: 1798

Event 34 (5DC22480)

Date: 9/10/1798
Description: Before midnight. Schoolmaster Alexander Campbell and one other person observe a "remarkable comet, or meteor" at Alnwick, Northumberland, England. It rapidly increases in brightness, changing from a star-like object to a shape like "two half-moons, back to back, having a short luminous stream between the two backs" over the course of 5 minutes.

Event 36 (23E6F2B5)

Date: 2/22/1803
Alternate date: 3/24/1803
Description: An attractive young woman aged 18–20 years old arrives on a beach aboard a "hollow ship" (Utsuro-bune) that looks like a rice cooking pot or incense burner in Hitachi province, Japan. Fishermen bring her inland to investigate further, but the woman is unable to communicate in Japanese. She is dressed in a foreign fashion made of unknown fabrics and is clutching an ornate box also marked with the unknown script. The vessel is covered in hieroglyphs that no one can decipher. The fishermen return her and her vessel to the sea, where it drifts away. Accounts of the tale appear in three texts: Toen shōsetsu (1825), Hyōryū kishū (1835), and Ume-no-chiri (1844), but no official records mention it.

Event 37 (CC999384)

Date: 5/16/1808
Description: 4:00 p.m. Swedish lichenologist Erik Acharius watches a stream of dark-brown spherical objects moving slowly through the sky in a straight line over Biskopsberga, near Skänninge, Sweden. Some hover temporarily and speed up, while others fall to earth. The objects appear in the western sky and stream to the east for 2 hours. Some are apparently linked together in groups of three, six, or eight, and all of them have some kind of trail. A few of them fall in the vicinity of K. G. Wettermark, who has also been observing. They resemble soap bubbles and dissipate quickly, leaving a film like cobweb.

Event 38 (80AD7966)

Date: 8/13/1819
Description: 8:00–9:00 p.m. A brilliant white fireball streaks across the sky at Amherst, Massachusetts. The next morning, Erastus Dewey finds a strange substance 20 feet from his front door and assumes it is residue from the meteorite. It is about 8 inches in diameter, resembles an upside-down salad dish, and consists of buff-colored pulpy substance with an overwhelmingly bad smell. It is covered with a nap that, when removed, causes the interior to liquefy and form a starchy substance. A couple days later, it largely dissipates. Geologist Edward Hitchcock thinks it is some kind of "gelatinous fungus" common to the area in the late summer.

Event 42 (CFD2771A)

Date: 1824
Description: Bavarian astronomer Franz von Gruithuisen of Munich, Germany, writes Discovery of Many Distinct Traces of Lunar Inhabitants, Especially of One of their Colossal Buildings, in which he announces his discovery of a city on the Moon in the rough terrain to the north of Schröter crater that he names the Wallwerk. This region contains a series of somewhat linear ridges that have a fishbone-like pattern, and, with the small refracting telescope he is using, can be perceived as resembling buildings complete with streets. His claims are readily refuted using more powerful instruments. Gruithuisen also thinks that the mysterious "ashen light" observed on Venus's dark side is due to a festival of fire in honor of the "ascension of a new emperor to the throne of the planet." Later, he speculates that the illumination is caused by burning jungles to create new farmland.

Event 47 (0018787F)

Date: 11/13/1833
Description: On this date in 1833 a series of incidents involving a luminous aerial object and the fall of mysterious jelly-like substances were reported in New York, New Jersey and Ohio. At dawn in West Point, New York, a woman milking her cow saw a luminous object descend "with a sposh" sound. She discovered a flattened, jelly-like transparent mass. By 10:00 in the morning it had sublimed and disappeared. The same kind of jelly-like substance was found on the ground in Newark and Rahway, New Jersey. In Poland, Ohio a luminous object in the northeastern sky, at dawn, hovered for nearly an hour. It was described as very brilliant, and was shaped like a "pruning hook." Earlier, at a short time after 2:00 a.m., a luminous object was also seen in the sky at Niagara Falls, New York. It was shaped like a square table, remained stationary in the sky, and emitted rays of light.

Event 49 (A264B037)

Date: 8/25/1835
End date: 8/31/1835
Description: The New York Sun publishes a series of six articles on the alleged discovery by English astronomer John Herschel of plants, animals, and winged people on the lunar surface. Using a huge and powerful telescope, Herschel supposedly sees herds of bison-like quadrupeds, a spherical amphibious creature, and a bipedal beaver that lives in huts. The humans are man-bats "covered, except on the face, with short and glossy copper-colored hair, and had wings composed of a thin membrane, without hair, lying snugly upon their backs." The article is an elaborate hoax. Herschel hasn't observed life on the moon at all, nor is Herschel even aware of the story until much later. The announcement causes enormous excitement throughout America and Europe. Authorship of the article is usually attributed to Richard Adams Locke, a reporter who is working for The Sun at the time. Locke publicly admits to being

the author in 1840, in a letter to the weekly paper New World, although his intent is satire, not misinformation.

Year: 1845

Event 54 (19F7E1AD)

Date: 6/18/1845
Description: 10:30 p.m. The British brig Victoria, captained by George Henry Caithness, is becalmed in the Strait of Sicily about 30 miles southwest of Licata, Sicily, Italy, when a huge wind suddenly blows from the east for two hours. Then the wind suddenly stops, and the crew feels an overpowering heat and smells a sulfuric stench. At this moment three "luminous bodies" emerge from the sea about one-half mile away and remain visible for 10 minutes. Shortly thereafter the wind picks up again. (This could be a magma plume from an undersea volcanic vent.) Around 7:10 p.m., at Ainab, Lebanon, two objects five times as large as the moon, joined by "streamers or appendages," are observed in the west and remain visible for one hour, moving slowly on an easterly course. The objects are so bright they are painful to look at. A possible outgassing event from the Madrepore subsea vent.

Event 63 (BD6457AB)

Date: 7/20/1860
Description: 9:40 p.m. A poem by Brooklyn, New York, poet Walt Whitman, "Year of Meteors (1859-60)," published in a later edition of Leaves of Grass, describes a "strange huge meteor-procession dazzling and clear shooting over our heads." For many years, no one could identify the event. Then in 2000, Texas State University–San Marcos physicist Donald W. Olson discovered a painting by Hudson River artist Frederic Edwin Church depicting two large meteors streaming across the sky and dated July 20, 1860. An examination of contemporary newspapers revealed that this was probably Whitman's meteor procession. Around 9:40 p.m., two meteors with trails, one behind another, are seen in New York, Philadelphia, Washington, D.C., Baltimore, Norfolk, and other locations in the East, proceeding slowly from northwest to southeast for nearly one minute. They are as bright as Venus. A rare event, and little understood until 1913, a meteor procession occurs when an earth-grazing meteor breaks apart and the fragments travel across the sky in the same horizontal path. Olson and his colleagues finally publish their discovery in the July 2010 issue of Sky & Telescope.

Event 69 (86A95265)

Date: 12/1865
Description: The British Board of Trade asks Trinity House to investigate the "false lights" of the Durham, England, coast, mysterious revolving lights seen above a rocky headland at Whitburn by mariners negotiating a hazardous stretch of the northeast coast. Between 1860 and 1870, more than 150 ships are wrecked on the rocks near Whitburn after following a light or lights in the sky that they wrongly believe are from a lighthouse at the mouth of the Tyne. A commission led by Rear Admiral Richard Collinson meets in Sunderland on December 28 to interview witnesses and determine whether salvagers are responsible for the lights that are causing shipwrecks. Although the commission decides that the false lights are not deliberately lit, they are puzzled about the true cause. The lights and wrecks continue until January 1871 when the Souter Lighthouse is erected on Lizard Point.

Event 75 (5156FA5C)

Date: 7/25/1868
Description: Engineer Frederick William Birmingham of Parramatta, New South Wales, watches a bizarre procession of the faces of two prominent Australians (Archbishop of Sydney Frederic Barker and New South Wales Premier James Martin) through the air as well as a vessel he calls an "ark." He hears a voice suggesting that "That's a machine to go through the air." The voice comes from a "spirit" whom he describes as "like a neutral tint shade and the shape of a man in his usual frock dress." After the ark maneuvers for a while in the air, the spirit says, "Have you a desire or do you wish to enter upon it?" He is then lifted up and carried through the air into the object about 60 feet away. The spirit guides him into the "pilot house" of the machine where he is given some papers with formulas on them that will help him construct a flying machine. He observes another UFO-like craft on March 9, 1873, and later attempts to build a mechanical replica of what he has seen.

Year: 1869

Event 76 (4D007E1B)

Date: 1869
Description: French poet and inventor Charles Cros is convinced that pinpoints of light observed on Mars and Venus are the lights of large cities on those planets. He spends years petitioning the French government to build a giant mirror to communicate with the Martians and Venusians by burning giant lines on the deserts of those planets.

Event 77 (F5C87461)

Date: 8/7/1869
Description: 12:00 noon. Four or five witnesses watch a luminous object land in a vacant lot about 200 yards north of the village of Adamstown, Pennsylvania. It is originally square-shaped but shoots up into a column about 3–4 feet high and 2 feet thick. The object glitters like a "column of burnished silver." It gradually fades away and disappears after 10 minutes. No unusual traces are found on the lot.

Event 78 (D107C31D)

Date: 8/7/1869
Description: Around midday a luminous square body settled near the center of an empty lot in Adamstown, Pennsylvania in Lancaster county. It shot up a shiny column four feet high and two feet thick that glittered like burnished silver. It gradually faded away, and was gone in 10 minutes. It frightened the four witnesses, but left no traces.

Event 79 (2CE99AC9)

Date: 8/7/1869
Description: About 4:45 p.m. During a total solar eclipse, four amateur observers in St. Paul's Junction [possibly a railroad stop between Maynard and West Union], Iowa, both with and without instruments independently notice a bright object below the lunar disc and just outside the solar corona. There are no visible stars in that position in the sky.

Year: 1870

Event 80 (6D6E7E40)

Date: 3/22/1870
Description: 6:30 p.m. Capt. Frederick William Banner, master of the barque Lady of the Lake, is sailing in the North Atlantic 400 miles north of the Equator and 860 miles from the coast of West Africa when he sees a "curious- shaped" light-gray cloud in the south-southeast. It is circular, with four rays or arms extending from the center to the edge, and a curved tail. It is visible for about 50 minutes until it is too dark to see.

Event 88 (DE85F056)

Date: 1873
Description: English-American geologist and psychometrist William Denton of Wellesley, Massachusetts, publishes volume 3 of The Soul of Things, in which he describes his astral visit to Mars along with his sister Anna Cridge and wife Elizabeth. He finds it harbors a thriving civilization with a technology based on aluminum. He reports that they soar above traffic on their individual fly-cycles and seem particularly fond of air travel, with as many as 30 Martians occupying some of the large flying conveyances.

Event 89 (E199A459)

Date: late 3/1873
Description: Evening. Thomas Inman and his son are traveling home from the village of Taylorsville [now Philo], Ohio, and are possibly in Bristol Township when they see a bright light descending swiftly with a roaring noise. It strikes a short distance in the road [probably Lawrence Road] ahead of them, flickers and flares, then fades. A man dressed in a suit of black carrying a lantern emerges from the object. He walks a few paces and steps into a buggy, which Inman has not noticed before. The buggy begins to move silently and quickly, even though there is no horse attached to it, until it reaches a deep gully, into which it plunges and disappears. Historian William Alexander Taylor, who supplies the story to the New York Herald, vouches for the witnesses.

Event 92 (BEEFC721)

Date: 8/13/1874
Description: 11:00 p.m. A large, "luminous electric cloud" flies over the western edge of Pascagoula, Mississippi, from the northwest to the southeast. It illuminates the ground and emits heat so intense that some witnesses think their houses are about to ignite. When last seen over the Gulf of Mexico, it renders the spars and rigging of a ship "distinctly visible."

Year: 1876

Event 93 (7E0128F3)

Date: 12/21/1876
Description: 8:30–8:45 p.m. A bright bolide that explodes and breaks up into a group of 20–100 smaller balls is seen over a wide swath of the US from Topeka, Kansas, to western Pennsylvania. Over Columbus, Ohio, it is described as "a cluster or flock of meteors seemingly huddled together, like a flock of wild geese, and moving with the same velocity and grace of regularity. The color of their light was a yellowish red, like red rocket-balls." A stony chondrite falls 3 miles northwest of Rochester, Indiana, at the same time.

Year: 1877

Event 94 (76CD15A3)

Date: 10/1877
Description: Astronomer Giovanni Schiaparelli reports seeing canali on the Martian surface from Brera Observatory in Milan, Italy, during the Great Opposition. While the term "canals" indicates an artificial construction, its proper translation as "channels" implies that the observed features are natural configurations of the planetary surface. From the incorrect translation into the term "canals," various assumptions are made about life on Mars; as these assumptions are popularized, the canals become famous, giving rise to waves of hypotheses, speculation, and fiction about the possibility of intelligent life on Mars—the Martians.

Event 96 (FA361EDE)

Date: 7/29/1878
Description: About 12:30 p.m. Astronomers James Craig Watson, director of the Ann Arbor (Mich.) Observatory, and Lewis Swift, an amateur from Rochester, New York, both claim to see a planet-like object close to the Sun during the total solar eclipse. Watson, observing from Separation, Wyoming, places the object about 2.5° southwest of the Sun and estimates its magnitude at 4.5. Swift, observing from a location near Denver, Colorado, sees what he takes to be an intra-mercurial planet about 3° southwest of the Sun. He estimates its brightness to be the same as that of Theta Cancri, a fifth-magnitude star which is also visible during totality, about six or seven minutes from the object. Both Watson and Swift describe the object as red in color. Watson says it has a definite disc, unlike stars, which appear as shimmering pinpoints of light.

Event 103 (B1FB52DA)

Date: 3/26/1880
Description: Night. The train depot operator and a few friends are walking at Galisteo, New Mexico, when they hear loud voices and laughter coming from a “large balloon” shaped like a fish approaching from the west. A flower is dropped from the car of the balloon to which is attached a slip of silk-like paper on which Chinese characters are written. The next morning, searchers find a cup of peculiar workmanship, but both artifacts are purchased by a “wealthy young Chinaman” and a “collector of curiosities” who visits town on March 28, although this part of the tale seems facetious and racist. The yarn is typical of sensational newspaper hoaxes that have no basis in reality.

Event 117 (923AB262)

Date: 2/5/1883
Description: 6:45 p.m. A witness at Lake Glasfjorden, near Arvika, Sweden, spots a meteor-like object high on the horizon moving from southeast to northwest. It makes several minor course changes, varies its color from white to yellow, and emits some sparks. After 18 seconds, it changes its course to the southeast and is so low to the ground that its light is reflected in the lake. By this time, it has a distinct tail. Total duration is 50 seconds.

Event 119 (66272935)

Date: 8/12/1883
End date: 8/13/1883

Description: Astronomer José Árbol y Bonilla, director of the El Cerro de la Bufa Meteorological Observatory in Zacatecas, Mexico, is observing the sun by eyepiece projection when he and an assistant see a large number of small bodies crossing the solar disc. Over the course of two days, they count a total of 447 dark objects. They seem bright as they approach the sun but are dark as they pass across its face. He takes several photographs and suspects that they are relatively near the earth. Mexican astronomers in 2011 suggested that a comet may have split into several pieces; these objects were estimated to have had a size of between 150 and 3,350 feet, and to have passed only 334 to 5,000 miles from the Earth; they thought a fragmented Comet 12P/Pons-Brooks was one possibility, in which case Earth barely avoided multiple Tunguska events or even a mass extinction; this was reported in the media and disputed in October 2011; but the source of these objects could also have been comet C/1883 D1 (Brooks-Swift) or even a third, unknown comet that year; the event also coincided with the annual Perseid meteor shower; even migrating birds cannot be ruled out.

Event 121 (D13F29FE)

Date: 6/6/1884
Description: 1:00 p.m. Rancher John W. Ellis and some of his ranch hands in south-central Dundy County, Nebraska, allegedly see a blazing object fall from the sky and crash into many pieces, burning the grass and fusing the sand. The light is so intense it blinds one of them. The newspaper suggests it is a "vessel belonging originally to some other planet." The remains of the object are said to have dissolved in a rainstorm. However, the tale is actually a fictional story written by a correspondent in Benkelman.

Event 122 (80EB590D)

Date: 7/3/1884
Description: 8:30 p.m. L. C. Yale of Norwood, New York, watches an object with a long tail move slowly from east to west. It has a "nucleus like a globe, as large as the moon, surrounded by a bright ring, two dark lines crossing the nucleus in vertical direction, the lines larger in the middle, straight on inside, curved on outside, tapering both ways to points." The general appearance is of a "gigantic sword of fire, moving handle first."

Event 125 (FCC415C8)

Date: 2/25/1885
Description: 5:00 a.m. Sailing in the North Pacific some 800 miles west of Victoria, British Columbia, Captain John Waters of the barque Innerwick and his mate see the sky turning fiery red. Suddenly a large fireball appears above the ship and falls hissing into the sea about 150 feet away from them, causing a wave of water to impact the ship. Electrical discharges run through the rigging and the masts.

Event 132 (5CA8AB02)

Date: 10/24/1886
Description: Night. Nine persons who are sleeping in a hut some 10 miles from Maracaibo, Venezuela, are awakened by a loud humming noise and a dazzling light that illuminates the interior. The people begin to pray but they start vomiting as extensive swellings appear on the upper part of their bodies, especially around the face and lips. They feel no heat, although the light has a smoky appearance and a peculiar smell. The next morning, the swellings subside but leave black blotches. By November 2, the skin peels off and the blotches are round sores. Portions of their hair falls off. Trees around the hut show no damage until November 2, when they suddenly wither. The symptoms are similar to those of ionizing radiation syndrome.

Event 134 (9A188592)

Date: 3/19/1887
Description: 5:00 p.m. Captain Cornelis Dirks Swart of the Dutch bark J.P.A. sees a "meteor in the shape of two balls" during a storm in the North Atlantic about 590 miles northeast of Bermuda. One ball is black and the other is luminous and oblong. The luminous object descends with a roar and lights up the ship and surrounding water. The crew feels heat from the object even as solid lumps of ice fall on the deck and the rigging becomes iced. The side of the ship where it falls turns partially black and the copper plating is blistered. The wind increases to "hurricane force."

Year: 1888

Event 137 (71D90F41)

Date: early 9/1888
Description: 3:15 p.m. During a severe thunderstorm, after a flash of lightning and a peal of thunder, witnesses see a huge flame at Highland Lake, near Winsted, Connecticut. The water is parted for yards by a huge ball of fire at least 10 feet in diameter, and billows rise on either side to a height of 20 feet. The light moves toward the head of the lake with great velocity. When it is within 100 yards of the shore, another flash of lightning strikes, and the fireball disappears. The waters of the lake remain disturbed for hours.

Event 154 (7040A82E)

Date: 2/24/1893
End date: 2/25/1893
Description: 10:00 p.m. Charles James Norcock, captain of the corvette HMS Caroline, is sailing about 16 miles south of Jeju Island, South Korea, in the Korea Strait when the officer of the watch observes some round lights resembling "Chinese lanterns festooned between the masts of a lofty vessel." They are moving slowly north and appear to be in the air between the ship and the Hallasan volcano on Jeju. They are visible until roughly 12:00 midnight, sometimes appearing as a mass, other times strung out more in an irregular line. The ship's crew observes them again the next night as they are sailing east from Port Hamilton [now the Korean islands of Geomundo]. This time they are visible until dawn. Although there are some odd characteristics of this observation, the likeliest explanation is that they are inferior mirages of distant fishing boats, as atmospheric conditions are favorable on these dates.

Event 159 (7B87D8F7)

Date: 5/1894
Description: During the opposition of Mars, the idea that Schiaparelli's canali are really irrigation canals made by intelligent beings is first hinted at, and then adopted as the only intelligible explanation, by American astronomer Percival Lowell in Flagstaff, Arizona, and a few others. The visible seasonal melting of Martian polar icecaps fuels speculation that an advanced alien race indigenous to Mars has built the canals to transport the water to drier equatorial regions. Newspaper and magazine articles about Martian canals and "Martians" capture the public imagination. Lowell publishes his views in three books: Mars (1895), Mars and Its Canals (1906), and Mars As the Abode of Life (1908). He remains a strong proponent for the rest of his life of the idea that the canals were built for irrigation by an intelligent civilization.

Event 161 (57B05043)

Date: 7/20/1894
Description: Sunset. Bernard Parry and his wife are near Marriott [now Marriott-Slaterville], Utah, when they see a "small black cloud" in the northeast quickly approaching them. It grows bigger, then smaller, as they watch it. When it is only 450 feet away, it stops and hovers. Its sides seem to be folded up toward the center. Many small black-and- white objects (birds?) are moving in its center. Suddenly the object pivots to the east and moves away toward Ogden.

Event 162 (E3B2DC5F)

Date: late 11/1894
Description: 11:00 p.m.–2:00 a.m. Mennonite farmers Henry W. J. Smith and Benjamin W. Blue see a luminous ball in the northeastern sky about 30° above the horizon some 3 miles west of Manchester, Kansas. The object, in the shape of a "casket," shoots toward the west 3° then returns to its original position. As it maneuvers near them, it opens several times, revealing various entities each time, from a crowned man to a "haughty woman" and a military leader. The original report appears in the Evangelical Visitor.

Year: 1895

Event 163 (90A526E6)

Date: 1895
Description: French parapsychologist Albert de Rochas is asked to hypnotize a family friend, "Mireille," who is suffering from some ailment. In one of her sessions, Mireille describes how she is rising in space, which she describes as luminous and peopled with phantoms. Subsequent sessions reveal that she has visited Mars and other planets in astral form. Mars has canals, of course, but also Martians who are less intelligent than earthlings.

Event 164 (F0FFB861)

Date: 8/1895
Description: US psychical researcher James Hyslop begins investigating a case of automatic writing by Sarah Harper Cleaveland ("Mrs. Smead") in Onondaga County, New York. She keeps records of her planchette experiments and puts them at Hyslop's disposal. In August, she makes several references to the planet Mars and Jupiter. She provides a crude map of Jupiter's surface, and the planet is said to be the "babies' heaven." At the next sitting, she draws a map of Mars, the different zones named in the Martian language; she gives several communications about the inhabitants and the canals. Martian revelations cease for another 5 years until September 1900, when the communications return in a developed state. She draws men, boats, houses, and flowers, named in Martian and written in hieroglyphic characters. Some of the sketches (a self-winding double clock) are very ingenious, while others (a Martian airship) are peculiar but unconvincing.

Event 165 (E15D34CE)

Date: 8/31/1895
Description: 8:00 p.m. Oxford English Dictionary lexicographer James Murray watches a "brilliant luminous body" move slowly over the Oxford University campus in Oxford, England, toward the east. At roughly the same time, other observers in London see a similar meteor pass over slowly for about 5 minutes, and A. Warren Melhuish sees it at Margate, Kent, around 10:15 p.m.

Event 170 (30A07E2C)

Date: mid 7/1896
Description: Night. Chester N. Crotsenburg, a postal clerk on the Chicago, Rock Island, and Pacific Railway, is on a train heading north from Princeton, Missouri, when he notices a round, dull-rose-colored light low on the western horizon. It then rises in height to 45°, and appears to be pacing the train, keeping a half-mile or one mile distance. After the train reaches Lineville, Iowa (13.7 miles away), it passes out of sight behind buildings. Possibly the moon.

Event 175 (57F566BE)

Date: early 11/1896 (approximate)
Description: Evening. Some of the employees at the Sutro Heights estate [now Sutro Heights Park in the Richmond District] of San Francisco, California, Mayor Adolph Sutro watch a brilliant light approaching from the sea at a height of 500 feet. Two lights are visible, one a "misty-looking mass" and the other a searchlight. The object disappears in the direction of the city and turns to the north just before it passes from view. Another report suggests that the object passe over Seal Rocks and shone its searchlight on the seals.

Event 177 (DDE4E83C)

Date: 11/17/1896
Description: Afternoon and evening. A mystery airship wave begins in California when residents of the Oak Park neighborhood of Sacramento see a high-flying object moving slowly in a circle, leaving a trail of smoke. Around 6:30 p.m., a light resembling an electric arc lamp appears in the night sky above Sacramento. Horse trainer David Carl notices it close to the ground and hears a voice saying, "We are too low down here. Send her up higher." Hundreds watch as it passes at low altitude for 30 minutes, avoiding buildings and hills. Some people claim to hear voices, either arguing or singing. R. L. Lowry sees four men pushing the vessel by its wheels. The witnesses include streetcar workers Charles Lusk and Granville C. Snider, who watch the object rise and fall as it moves southwest.

Event 178 (1FA101F3)

Date: 11/20/1896
Description: 5:30 p.m. Passengers on a streetcar in Oakland, California, notice a "peculiar-looking contrivance" high in the sky and moving in a westerly direction toward San Francisco. It has a powerful headlight and another light on the bottom. It is also seen over Folsom, San Francisco, Sacramento, Modesto, Manteca, Sebastopol, and several other cities later in the evening and is reportedly viewed by hundreds of witnesses.

Event 180 (5E5E298D)

Date: 11/22/1896
Description: 7:05 p.m. M. H. Cohen, a conductor on the Hayes Street line, sees an aerial light at about 300–400 feet altitude when he is at Market and 8th streets in San Francisco, California. Other people on the streetcar also watch the light, which is moving across the Golden Gate and flashing periodically. When the streetcar disembarks at 1st Street at 7:13 p.m., Cohen and the others see the light over the Twin Peaks downtown. At the top of Pierce Street hill, Cohen sees it returning from Twin Peaks, and at 7:51 p.m. he watches it from Ashbury Street. Airships are seen later at Oakland, Alameda, San Leandro, San Jose, California, and Tacoma, Washington.

Event 181 (4C8D2275)

Date: 11/22/1896
Description: 5:30 p.m. Another mystery light moving in a wavering fashion toward the southwest is seen in Sacramento, California, by many people. At times it disappears, then flashes out again with renewed brilliance. Edward Carragher, owner of the Saddle Rock Restaurant, views the light through binoculars and is able to see a large object supporting an arc lamp. Cigar store vendor Jacob Zemansky watches the undulating light through a telescope until it fades into nothingness.

Event 182 (CD6502CB)

Date: 11/22/1896
Description: San Francisco attorney George D. Collins announces that he represents the airship inventor, a "very wealthy man who has been studying the subject of flying machines for fifteen years" and who moved to California from Maine in 1889. He claims the airship is a 150-foot metal contraption with two canvas wings 18 feet wide and shaped like a bird's tail. It has been built in Oroville and is now hidden in the San Francisco, California, area as the inventor deals with technical problems. However, people in Oroville sense a hoax, as they know of no such inventor. On November 24, Collins complains to the San Francisco Call that another newspaper, the San Francisco Examiner, has been printing falsehoods about him, including an interview with another attorney, Frederick Bradley. Suspicion falls on an itinerant dentist from Maine, Elmer H. Benjamin, who insists his only inventions are dental fittings. A prominent citizen of Oakland, George H. Carleton, claims to know the inventor but has been sworn to secrecy. Former California Attorney General William H. H. Hart soon claims to represent the mystery inventor, who has fired Collins for talking too much. But Hart is also blabbing prolifically, saying that two or three airships exist (a second built in an eastern state) and his role is to "consolidate both interests." Hart asserts that the airship can carry four men and 1,000 pounds of dynamite for dropping on Havana, Cuba.

Event 183 (2EDBDF7D)

Date: 11/23/1896
Description: Several observers in Stockton, California witnessed a fast moving, bright light in the sky that had exited from a shadowy ovoid object at 10:10 p.m.; it dips low near buildings in the city. There were several other reports this evening from Antioch, Chico, Lathrop, Oakland, San Francisco, and San Jose, California.

Event 185 (0C75B774)

Date: 11/24/1896
Description: 6:45 p.m. Several passengers on a train crossing the bay from San Francisco to Oakland, California, see an airship alternately stop, hover, and move on. Minutes later, 6th Street in Oakland is overflowing with onlookers as the object passes above Broadway, flashing its light. One spectator is watching through binoculars and says the airship's turns causes the searchlight to shine in different directions. Among the witnesses are Col. Thomas F. Garrity, city electrician George H. Carleton, George Hatton of the Oakland Tribune, and Melvin Holmes.

Event 186 (7FCF472A)

Date: 11/24/1896
Description: Many witnesses in Red Bluff, California witnessed a light maneuvering in the sky for several minutes at 7:00 p.m. In Visalia, California several observers saw a "vessel" in the sky moving at the speed of a train; it moved up-and-down and left-and-right, and departed quickly to the northwest. At 11:30 p.m. two witnesses in Tacoma, Washington watched a flying object beam vari-colored rays of light in all directions. It then flew to the southeast and examined the Mount Rainier mountain peak.

Event 187 (6D5DFA6E)

Date: 11/25/1896
Description: Evening. A mystery light flies in circular patterns around Sacramento, California, at a rapid rate of speed. Observers include Deputy Secretary of State George A. McCalvy, District Attorney Frank D. Ryan, and E. D. McCabe, the governor's personal secretary. It is three times as large as Venus, also visible. The light is observed for 20 minutes then reappears later in the evening. A Professor Dodge of Galt, California, claims he can make out the "outlines of a dark body" just above the light.

Event 188 (E6C2F94B)

Date: 11/25/1896
Description: 6:00 p.m. Col. H. G. Shaw and Camille Spooner are riding in a carriage near Lodi, California, when their horse stops suddenly. Looking up, they see three slender beings about 7 feet tall. Shaw walks up to them and asks them where they are from; they reply in an odd warbling language. He notes that they are hairless and wear no apparent clothing. The eyes are large and lustrous, and they each seem to be carrying and egg-shaped light and a breathing apparatus under the left arm. Shaw claims the beings try to lift him but they are not strong enough. They then notice a 150-foot airship hovering 20 feet above the water close to a bridge. The three beings float to the craft, open a door in the side, and disappear inside. The ship flies quickly out of sight. Shaw speculates that the beings are from Mars.

Event 198 (B1942007)

Date: 12/7/1896
Description: A large airship flew over the small town of Camptonville, Yuba County,California and landed nearby at 9:00 p.m. Five men went out to investigate, and found the ship with its sole occupant, a bearded man who appeared to be deaf and mute. Some written communication was attempted, in response the man produced an "alphabet" and spelled out a message saying he lived in the Montezuma Mountains with his wife and two children. He declined to answer any further questions, so the five men left. The craft was seen flying off the next day.

Event 202 (05A566F3)

Date: 1/30/1897
Description: A mystery airship with an immense artificial bright light was sighted in the early evening by several "sober observers" in Hastings, Nebraska. It was estimated to be 12 meters in length, and perhaps 800 feet in the air. Days later it was seen 40 miles south of Invale, Nebraska.

Source: Johnson

Event 203 (3AAE0CC0)

Date: 1/31/1897
Description: 9:30 p.m. A "large, glaring light," apparently from an airship, is seen for nearly 30 minutes west of Hastings, Nebraska, hovering, ascending, descending, and moving at a "most remarkable speed."
Reference: Eberhart
Reference: "See an Air Ship at Hastings," Omaha (Neb.) Daily Bee, February 2, 1897, p. 2
Source ID: 132
Source: EberhartUFOI

Event 204 (68DE0D1D)

Date: 2/1897
End date: 7/1897
Description: The mystery airship wave continues, from Nebraska and Colorado to Texas and Ohio. Hoaxes and pranks pollute the information pool in a major way during this era and the planet Venus and other celestial objects undoubtedly play a major role, but many airship reports emanate from manifestly sober, puzzled citizens, and they continue long after the initial excitement subsides. To all appearances, they are objects of some kind, but since newspapers rarely question witnesses critically about details at this time, little can be deduced from the mass of reports.

Event 205 (21103218)

Date: 2/1/1897

Description: A large glaring light circled for a few minutes in the sky over Hastings, Nebraska at 9:30 p.m. It then descended to an altitude of 200 feet, traveled at a remarkable speed, slowed, and again circled for 15 more minutes. Finally, it descended once more and disappeared mysteriously.

Event 206 (AFF4AC14)

Date: 2/4/1897
Description: Night. A dozen people returning home from a prayer meeting in Inavale, Nebraska, see a bright light passing overhead. Six smaller lights are placed at intervals around a larger dark body. After 10 minutes it returns at a lower altitude, now visible as a conical object 30–40 feet long with two sets of wings and a large rudder. Voices can be heard plainly. ("Air Ship Is Seen at Inavale," Omaha (Neb.) Daily Bee, February 6, 1897, p. 6) February 17 —Night. Hy Smith, Charles Braternitz, and Harry Reese see a bright light moving to the east just west of Big Springs, Nebraska. The light repeatedly rises up about 300 feet then descends quickly, sending out sparks.

Event 208 (6BFF900F)

Date: 2/26/1897
Description: 10:15 p.m. People at the railway depot in Falls City, Nebraska, see an object with a large searchlight in the northern sky. According to dispatcher Ike Chidsey, it is moving west at 60 mph and also has a red light. Chidsey alerts other Missouri Pacific train stations to the west. Over the next four and a half hours, the object is seen over Stella, Beatrice, Wymore, Hastings, Kenesaw, and Hartwell.

Event 210 (E974EED8)

Date: 3/14/1897
Description: 9:30 p.m. An object with a "big engine headlight" flies over South Omaha, Nebraska, and remains visible for 30–40 minutes. It is moving to the west and disappears behind some buildings. One of the witnesses is Isaac J. Copenharve, a compositor for the Omaha Bee.

Event 211 (25E6E9DE)

Date: 3/23/1897
End date: 3/26/1897
Description: Night. Residents of Belleville, Kansas, watch a lighted airship moving at 75 mph and "lighting up the houses and city like an immense meteor." It hovers for 20–30 minutes, changes direction, and is seen on four nights in succession. At 9:20 p.m. on March 25, workers at the Chicago, Rock Island, and Pacific Railroad depot and others in Belleville watch a bright light pass above the city for 45 minutes. It disappears to the northwest and reappears two more times.

Event 214 (187CB222)

Date: 3/27/1897
Description: 8:30 p.m. A blood-red light appears in the western sky over Topeka, Kansas, moving northward parallel with the horizon until after 20 minutes it disappears "with a flicker." Among the witnesses is Kansas Gov. John W. Leedy, who describes it as a "very strange light." Harold T. Chase, editor of the Topeka Capital, is on the State House steps with Leedy and says the object is a large, oblong shape.

Event 218 (37B4226B)

Date: 4/1/1897
Time: 2100
Description: The whole town saw an object fly under the cloud ceiling. It came down slowly, then flew away very fast to the southeast. When directly over the town it swept the ground with its powerful light. It was seen to rise up at fantastic speed until barely discernible, then to come down again and sweep low over the witnesses. At one point it remained stationary for 5 min at the edge of a low cloud, which it illuminated. All could clearly see the silhouette of the

craft.

Event 225 (3386E21E)

Date: 4/4/1897
Description: 12:15 a.m. Dairy farmer Dick Butler is returning to his farm in Wolf Creek Township, Iowa, after delivering milk in Sioux City when he notices an electric-like light on his right about 200 feet away in a cornfield. He can see a dark object with light coming through its windows. It appears to be a "long, narrow car, resembling a corset box in shape," some 30–35 feet long and 6–7 feet high. Above the car floats a cigar-shaped bag about the same length and 8–10 feet thick. When his horses see the object, they bolt and tumble his wagon into the ditch. By the time Butler recovers, the object is moving briskly in a descent to the south. He watches it as it moves out of sight.

Event 226 (C7817E9C)

Date: 4/6/1897
Description: 2:00 a.m. James Southard gets lost on his ranch near Peru, Nebraska, looking for strayed cattle. He notices a light on a bar in the Missouri River, and it turns out to be on a landed airship 200 feet long, whose crew are apparently repairing its searchlight. The aeronauts answer all of Southard's questions, telling him that "the craft is loaded with several tons of dynamite and is bound for Cuba" to bomb Spanish ships.

Event 228 (401E4785)

Date: 4/8/1897
Description: A dark bulk with a narrow, rectangular shape and illuminated windows flew over a dairy farm in the western part of Iowa after midnight. It was 30 to 35 feet long and 6 or 7 feet wide. Over the rectagular shaped was a cigar-shaped bag, about the same length but 10 feet thicker in width. The two horses of a carriage being driven by a dairy farmer spooked at the sight of the craft and bolted, throwing the man into a ditch. The object rose vertically on its departure.

Event 229 (2D3BE71A)

Date: 4/9/1897
Description: 8:30 p.m. Hundreds of people in Chicago, Evanston, Niles Center, and Schermerville, Illinois, see an airship earing multicolored lights and swinging a huge white searchlight from side to side. Nearly 800 witnesses on Davis Street in Evanston watch the object, estimated to be 400 feet in length. Using binoculars, the outline of a structure can be seen behind the powerful light. By 9:30 p.m., the airship is last seen over South Chicago. Northwestern University astronomer George W. Hough, director of the Dearborn Observatory, tells the newspapers he is sure the airship is the star Alpha Orionis (Betelgeuse).

Event 232 (ED7C0B7D)

Date: 4/10/1897
Description: 10:30 p.m. Policemen, firemen, and many other residents of Jacksonville, Illinois, see a bright light moving swiftly from east to west a few hundred feet in the air. The light sways from side to side and throws out beams several hundred feet in length. When it is above the city, the object the light is attached to can be seen as metallic and long with possible wings. Some witnesses can hear voices. The object reverses direction over Jacksonville, throwing its searchlight in all directions, and disappears to the east.

Event 233 (86E74809)

Date: 4/10/1897
Description: 11:00 p.m. A bright white light with red and green lights on either side of it is observed by many residents of Quincy, Illinois, flying low above the Mississippi River on the city's west side. At one point it is no more than 400–500 feet above the ground. The light is attached to a metallic cigar-shaped object. Two wings extend from the sides and on top is some kind of superstructure. Witnesses estimate its length to be 50–100 feet. The object ascends, moves east, then south, then west, hovers above South Park for a few minutes, then moves north and stops again. It reverses direction and leaves toward the south at "tremendous speed."

Event 234 (D6D1E640)

Date: 4/11/1897
Description: 5:30 a.m. An alleged photo of an airship is taken at 4356 East Ravenswood Park in Rogers Park, Chicago, Illinois, by an ex-policeman named Walter R. McCann and George A. Overrocker, who provide copies to several newspapers. The Chicago Tribune photo editor pronounces it a fake because it looks like it is taken by a Kodak with a small lens that cannot achieve a panoramic view. A later report claims that McCann has photographed a piece of canvas on which an airship is painted.

Event 247 (D297B957)

Date: 4/12/1897
Description: At 6 p.m. a large crowd of miners in Girard, near Green Ridge, Illinois saw an unknown object land three kilometers north of Green Ridge and 4 km south of Girard. The night operator of the Chicago and Alton Railroad, Paul McCramer, stated that he came close enough to the craft to see a man emerge from it to repair the machinery. Traces were found over a large area. The object was elongated like a ship, with a roof and a double canopy. It left toward the north.

Event 248 (3FB761BB)

Date: 4/12/1897
Time: 1800
Description: A large crowd of miners saw an unknown object land 3 km north of Green Ridge and 4 km south of Girard. The night operator of the Chicago-and-Alton Railroad, Paul McCramer, stated that he came sufficiently close to the craft to see a man emerge from it to repair the machinery. Traces were found over a large area. The object itself was elongated like a ship with a roof and a double canopy. It left toward the north.

Event 249 (6EC43A2A)

Date: 4/12/1897
Time: 1430

Description: On the property of Z. Thacker, 19 km north of Carlinville, an unknown object landed. Before the three witnesses could reach it, the craft, which was shaped like a cigar with a dome, rose slowly and left majestically toward the north. Witnesses: Edward Teeples, William Street and Franklin Metcalf.

Event 252 (E5CE513D)

Date: 4/13/1897
Description: At 11:15 p.m. two men, Chamberlain and Jones, saw a very large figure walking around in a clearing looking for something near Lake Elmo, Minnesota. Nearby was a grayish white cylindrical object with two rows of lights, red and green. It took off with a rushing sound. Fourteen giant footprints, two feet long by six inches wide, were found at the site.

Event 253 (A4F81AC5)

Date: 4/13/1897
Description: 11:15 p.m. Frederick Chamberlain and O. L. Jones are riding one mile west of Lake Elmo, Minnesota, when they notice a figure in a clearing, walking around as if he is looking for something. They turn off the road to investigate and hear a cracking sound followed by a rushing noise. A moment later they notice a gray-white object that looks like the top of a covered wagon. It has two rows of four red or green lights. The object rises quickly at a sharp angle to clear the treetops. They can make out no machinery or wings or rudders or even an outline of the object. In the

mud, Chamberlain finds 14 footprints, each 2 feet long, 6 inches wide, “arranged seven on each side, and in an oblong pattern.” Adam Thielen, a nearby farmer, independently sees a dark object with red and green lights flying overhead about the same time.

Event 255 (1A1C23BA)

Date: 4/13/1897
Description: Before sunrise. Augustus Rodgers, a farmer living two miles south of Louisville, Kentucky, goes outside to attend to his livestock. He sees an oblong object, some 40 feet long by 15 feet tall, flying about 400 feet in the air at 100 mph. His wife comes out to watch it with him, and they both see “a form like that of a man” standing in the front and directing its course.

Event 256 (9C649EBB)

Date: 4/13/1897
Description: A telegraph operator between Girard, Illinois and Carlinville got a message from Carlinville, Illinois that an airship was headed his way. He went out and saw a 100 foot long object that landed near the railroad track. It had what looked like a large “M” on its side, and several occupants in the cupola. The craft rose vertically, and then flew off quickly toward the north.

Event 265 (6FF0FADA)

Date: 4/14/1897
Description: Night. The Rio Grande Railroad operator at Cresson, Texas, sees an object about 60 feet long and "resembling the top of a passenger coach in shape" with a powerful searchlight in the front and several smaller lights on the sides. It is moving to the southwest at a "terrific rate of speed" and has wings "something like that of a bat." It turns to the southeast after passing the station and disappears in the clouds after a few minutes.

Event 266 (8E836C98)

Date: 4/14/1897
Description: 4:30 a.m. Farmers see an airship land about 3 miles northwest of Howard City, Michigan, and some go to investigate. Inside the craft is a "strange man" dressed in heavy furs although he seems "to have no use for them, as he was almost naked and seemed to be suffering from the heat." The man is 9.5 feet tall and speaks in a musical language

that, however, sounds like bellowing. One farmer gets too close, and the giant kicks him severely enough to break his hip.

Event 293 (642A24D3)

Date: 4/16/1897
Description: Morning. A large object passes slowly over Linn Grove, Iowa, heading north. Five men—James Evans, F. G. Ellis, Ben Buland, David Evans, and Joe Croskey—jump into a rig and follow it 4 miles north of town where it has landed. But when the pursuers get within 2,100 feet of the airship, it spreads out four massive wings and ascends again. The two occupants have extremely long beards and make desperate efforts to conceal themselves. They toss two enormous boulders “of unknown composition” out of the airship.

Event 294 (347CC7A8)

Date: 4/16/1897
Description: While wandering in the hills east of Springfield, Missouri, W. H. Hopkins, a traveling insurance agent, spots a landed airship in a clearing. Next to it is a nude female with hair down to her waist. As she picks flowers, she speaks in an unknown language with a musical voice and fans herself as if the day is hot. In the shade cast by the craft lies a naked man with shoulder-length hair and a long beard. After a few minutes, Hopkins approaches the woman, who shrieks and runs toward the man. Hopkins speaks soothingly and the two aeronauts relax. Hopkins asks where they come from, and they point upward, pronouncing a word that sounds like “Mars.” The two examine Hopkins’s clothing, hair, and watch with great curiosity. They show him the interior of the ship but take off shortly afterward, “laughing and waving their hands.”

Event 296 (5CD4FC23)

Date: 4/16/1897
Description: Night. Judge John Spencer Bounds is riding in a buggy in Hillsboro, Texas, when his horse whirls around in fright. A brilliant light as if from an arc lamp shines on him for less than a minute and then moves over to a nearby field. The light suddenly ascends to an altitude of 1,000 feet. As he watches, the searchlight blinks out and smaller lights surrounding a dark object become visible. The object moves slowly to the south and disappears.

Event 297 (A02CB94B)

Date: 4/16/1897
Description: 12:00 midnight. C. G. Williams is walking across a field two miles south of Greenville, Texas, when he comes across a brilliant light and a large, cigar-shaped object resting on the ground. Three aeronauts emerge from it; two go to work on the ship, and the third approaches Williams and asks him to mail some letters. The man tells him that the airship runs on electricity and that his invention was perfected in a small town in New York State.

Event 300 (DBF5B1E3)

Date: 4/16/1897
Description: On the same night a man named Williams in Greenville, Texas came upon a landed airship. He described it as an “immense cigar-shaped vessel” with large wings, and having a “sidewheel like a steamboat” in front, with a fish tail at the rear. He claimed it was 75 feet long and 30 feet wide, and he encountered three men performing repairs on the craft.

Event 301 (880368D1)

Date: 4/16/1897
Description: On that night there was a sudden flash in the sky over Logan, Ohio and then a 40-foot long dark shape flew over the town slowly. Witnesses thought they could hear voices coming from the object. Some followed it three miles south of town in a buggy. The craft descended to about 50 feet altitude, then rose swiftly and flew out of sight.

Event 304 (573790EA)

Date: 4/17/1897
Description: 1:30 a.m. R. E. Draughon, a night watchman at a lumber plant in Beaumont, Texas, sees a "globular" object with a bright light the size of a star in one end. It is moving to the northwest at a high altitude.
Reference: Eberhart
Reference: "Seen at Beaumont," Dallas (Tex.) Morning News, April 18, 1897, p. 4
Source ID: 192
Source: EberhartUFOI

Event 305 (DF3A8C67)

Date: 4/17/1897
Description: 6:00 a.m. An airship is said to collide with the tower of Judge James Spencer Proctor's windmill in Aurora, Texas, causing it to explode and strew debris over several acres. The pilot (reportedly "not of this world," or a "Martian" according to an alleged Army Signal Service officer named Thomas Jefferson Weems from nearby Fort Worth), does not survive the crash and is buried "with Christian rites" at the Aurora Cemetery. Wreckage from the crash site is either dumped into a nearby well located under the damaged windmill or ends up with the alien in the grave. Adding to the mystery is the story of Brawley Oates, who purchases Judge Proctor's property around 1935. Oates cleans out the debris from the well in order to use it as a water source, but later develops an extremely severe case of rheumatoid arthritis, which he claims is the result of contaminated water from the wreckage dumped into the well. As a

result, Oates seals up the well with a concrete slab and places an outbuilding on the spot in 1945. The entire yarn is widely regarded as a hoax, although Proctor's windmill apparently did exist.

Event 313 (5614AE04)

Date: 4/19/1897
Description: After 11:00 p.m. John R. Ligon, an agent for a brewery in Houston, and his son Charley notice lights in a pasture a few hundred yards away near Beaumont, Texas. They walk over and discover four men moving around a large dark object, who ask for water. They accompany Ligon to his house, each bringing two baskets, which they fill and return. One of the men identifies himself as “Wilson” and says they are traveling in a flying machine that has been over the Gulf of Mexico and is now headed toward Iowa. Ligon says the airship is 130 feet long and 20 feet wide, propelled by four large wings and powered by electricity. Wilson gives Ligon a tour of the ship and says it is one of five built in a

small Iowa town. Rabbi Aaron Levy of Beaumont also claims to have met aeronauts from a landed airship near the city around the same time.

Event 314 (5D288434)

Date: 4/19/1897
Time: 2230
Description: Alexander Hamilton was awakened by a noise among the cattle and went out with his son and his tenant. They saw an elongated cigarshaped object, about 100 m long with a transparent cabin underneath showing narrow reddish bands, hovering 10 m above ground. They approached within 50 m of it. It was illuminated and equipped with a searchlight. Inside it were "six of the strangest beings" the witness had seen, also described as "hideous." They spoke a language no witness could understand. A cow was dragged away by the object with the help of a strong red cable; it was found butchered in a field the next day.

Event 315 (D6E8ED5D)

Date: 4/19/1897
Description: 10:30 p.m. Rancher Alexander Hamilton, his son Will, and his hired hand Gid Heslip are awakened by a noise in the cattle pen of their ranch at Yates Center, Kansas. They watch as a 300-foot-long, cigar-shaped airship with a carriage underneath descends to about 30 feet above the ground. Two men, a woman, and three children are heard talking in the carriage. They see a calf caught in a nearby fence with a cable knotted around its neck that connects to the airship above. They cut the cable and the airship floats away. A few weeks later, Hamilton admits he made the story up.

Event 319 (B754F71F)

Date: 4/19/1897
Description: 12:00 noon. George Dunlap, a man known to Davis H. Tucker, physician at the Harlem Prison Farm [now the Jester State Prison Farm] in Fort Bend County, Texas, is riding in the country near Lake Charles, Louisiana, when he sees an airship moving toward him about half a mile distant. It makes a loud whistling noise, scaring his horses and causing him to be thrown from the buggy. As the horses flee, the ship lands, a rope comes down, and two men rush over to apologize. They are the owner Mr. Wilson (formerly of Fort Worth, Texas) and his friend Scott Warren. The man is taken into the airship and introduced to two others, a Mr. Waters and a Hispanic man. Wilson tells him the airship is sustained by a gas, and that several of them have been built.

Event 322 (46755C96)

Date: 4/20/1897
Description: 10:00 p.m. Sheriff Henry W. Baylor of Uvalde, Texas, sees a bright light and hears strange voices behind his house. He finds a landed airship and its crew of three men, one of whom is named "Wilson" (from Goshen, New York), who inquires after an acquaintance, C. C. Akers of Eagle Pass, Texas. After procuring water from a hydrant in Baylor's yard, the men board the airship, which speeds away northward toward San Angelo. County Clerk Henry J. Bowles sees the airship as it passes over Getty Street in Uvalde. Akers tells a reporter in Galveston that he knew a New Yorker named Wilson when he lived in Fort Worth in 1876–1877. Baylor's seemingly compelling testimony disintegrates after he confesses in late May to making the whole story up, possibly in collusion with Akers.

Event 326 (7D5F5D62)

Date: 4/21/1897 (approximate)
Description: 8:00 p.m. A man is riding his horse between Lancaster and Baltimore, Ohio, when something scares his horse. He sees an object with two brilliant white lights on either end landing in a nearby field. He tethers his horse and approaches the object, which seems as large as a house. Inside he can see two men conversing, so he walks up to ask them questions. One of the aeronauts seems to be Japanese and the other speaks English with a British accent. The craft is called the Aeribarque, and they are on a test flight. The aeronaut says that they often land in remote areas and come to nearby towns for supplies or mechanical parts, posing either as tourists or "harmless cranks trying to invent perpetual motion." After giving the witness a demonstration of the electrical lighting system, they take off into the sky.

Event 332 (C0F88352)

Date: 4/22/1897
Description: 11:00 p.m. John M. Barclay wakes up when he hears a whirring noise that causes his dogs to bark wildly outside his home near Rockland, Texas. He goes outside and sees an oblong airship with wings and brilliant lights. When he first sees it, the object is hovering 150 feet above the ground. It circles a few times then lands in a nearby pasture. Barclay goes down to investigate with his Winchester rifle, but the lights go out as he gets closer. Some 90 feet away from the airship he is stopped by a man who asks him to put his rifle down. He identifies himself as "Smith" and gives Barclay $10 to purchase lubricating oil, two chisels, and bluestone. When Barclay returns with the materials, the aeronaut will only say he is from "anywhere," adding that "we will be in Greece tomorrow."

Event 333 (128FA090)

Date: 4/22/1897
Description: 12:00 midnight. Frank Nichols, a farmer living 2 miles east of Josserand, Texas, is awakened by a whirring noise. Outside, he sees a huge airship in his cornfield. Before he can get close, two men with buckets ask him if they can draw water from his well. Nichols consents and in return they give him a tour of the vessel, whose motive power is "highly condensed electricity." One aeronaut tells him that five airships have been built in an Iowa town.

Event 334 (6AF33972)

Date: 4/22/1897
Description: John M. Barclay was intrigued when his dog barked furiously and a high-pitched noise was heard. He went out, saw a flying object circling 5 m above ground. Elongated with protrusions and blinding lights, it went dark when it landed. Barclay was met by a man who told him his purpose was peaceful and requested some common hardware items to repair the craft. He paid with a ten-dollar bill and took off "like a bullet out of a gun."

Event 335 (5DB24CDD)

Date: 4/22/1897
Time: 2400
Description: Frank Nichols, who lived 3 km east of Josserand and was one of its most respected citizens, was awakened by a machine noise. Looking outside, he saw a heavy, lighted object land in his wheat field. He walked toward it, was stopped by two men who asked permission to draw water from his well. He then had a discussion with a half-dozen men, the crew of the strange machine. He was told how it worked but could not follow the explanation.

Event 336 (9033BEC1)

Date: 4/23/1897
Description: According to the Houston Post, two men reported that they had discovered a landed airship near the town of Kountze, Texas. It was cigar shaped, 50 feet long and 20 feet wide. They talked to the two human occupants of the airship, named Jackson and Wilson, who were allegedly repairing a punctured "air compartment."

Event 344 (2857072E)

Date: 4/25/1897
Description: Evening. As some residents of Merkel, Texas, are leaving a church service, they notice a heavy, anchor-shaped object being dragged by a large rope that is attached to an airship in the sky not far above them. After 10 minutes, a small figure dressed in a blue sailor suit starts climbing down the rope. But when he sees people watching him, he cuts the rope and returns to the airship, which moves away to the northeast. The anchor goes on exhibit at a local blacksmith shop.

Event 356 (4FC9D56E)

Date: 5/6/1897
Description: During a rainstorm five miles west of Hot Springs, Arkansas, Deputy Sheriff John McLemore and Constable John J. Sumpter Jr. see a light in the sky descend behind a hill one half-mile away. After seeing two persons carrying lights, they draw their rifles and demand to know who is there. A man with a long, dark beard tells them that he and two others are traveling around the country in an airship and hope to end up in Nashville, Tennessee. He invites the officers to take a ride and transport them to somewhere dry, but they tell him they prefer to get wet. They return to the spot 40 minutes later and the airship is gone.

Event 357 (1D917C8E)

Date: 5/6/1897
Description: Two policemen, Sumpter and McLenore, were riding northwest of Hot Springs when they saw a bright light in the sky. About 7 km farther they saw the light again coming down to the ground. One km farther the horses refused to walk. Two men were seen carrying lights. The lawmen took their rifles, called the strangers, and were told that they crossed the country with a flying craft. The silhouette of the machine, about 2O m long, could be seen in the clearing. There was a woman with an umbrella nearby. It was raining, and the younger of the men was filling a large container with water. The elder man had a beard and suggested that the policemen fly with them "to a place where it does not rain." The same witness went back through the same spot 40 min later and found nothing.

Event 378 (36292BEC)

Date: 10/4/1898
Description: 9:00 p.m. A brilliant object passes over Italy, Greenville, Garland, and Blossom, Texas. Initially moving in an easterly direction, it seems to change course and shoot upwards then burst, throwing out three distinct objects, one red, the other white, and the last one blue. The red and blue lights die out, but the white one continue a few seconds before it too bursts, emitting a shower of sparks. Blossom merchant Dick Moore says the light is so glaring that he thinks his "house was falling on him." About 2.5 miles north of Sherman, 12-year-old George Campbell is riding with his father when they see the fireball descending, apparently coming as close as 3 feet above the ground before moving upward; they can hear a buzzing noise and think the object is about 10 feet in diameter.

Event 379 (97FFA31F)

Date: 10/4/1898
Alternate date: 10/3/1898
Description: Night. At Fort Washita, Oklahoma, Mrs. William Peveto (possibly Mary Peveto) watches a fireball (probably the same one as October 4) descend. A few minutes later, distracted by the meteor, she is standing in her kitchen when a "female ghost" appears and chats with her for a few minutes, saying that if she would follow her, she will lead her to a fortune. Peveto becomes terrified, and the entity flees through a closed door. The entity visits her again on other nights, again talking about treasure in the basement. They continue until February 1899 when they occur nightly. At one point the ghost claims to have been murdered years ago in Fort Washita and shows her strangle marks around her neck. Poltergeist phenomena (tables moving) occur and a male ghost also talks to her. Peveto becomes ill and apparently moves away from the place.

Year: 1899

Event 380 (6976439F)

Date: 1899

Description: Serbian-American inventor Nikola Tesla is working in his laboratory near Colorado Springs, Colorado, when he observes unusual signals from his receiver that he speculates are communications from another planet. He mentions them in a letter to a reporter in December 1899 and to the Red Cross Society in December 1900. Reporters treat it as a sensational story and jump to the conclusion Tesla is hearing signals from Mars. In 1901, Tesla writes that it has not been immediately apparent to him that he is hearing "intelligently controlled signals" and that the signals could have come from Mars, Venus, or other planets. It is possible that he is intercepting Guglielmo Marconi's European experiments in July 1899—Marconi may have transmitted the letter S (dot dot dot) in a naval demonstration, the same three impulses that Tesla hinted at hearing in Colorado—or signals from another experimenter in wireless transmission. Brian Dunning of the Skeptoid podcast attributes Tesla's signals to pulsars, which are not identified until 1968.

Event 381 (9AC3FF85)

Date: 1899
Description: Swiss psychologist Carl Jung investigates his 15-year-old cousin, Hélène Preiswerk ("S.W."), in Basel, Switzerland, who claims to be a spiritualist medium. Her trances frequently involve journeys to other planets. She claims that Martians have flying machines, and they irrigate the land with canals and artificial lakes.

Event 385 (A8BB4035)

Date: 6/1/1899
Description: Late evening. Observers in Kamen-Rybolov, Primorsky Krai, Russia, see a blue sphere about 28 inches in diameter flying silently from south to north near the steamboat Kazak Ussuriyskiy moored on Lake Khanka. It is seen for 20 minutes, then it returns later in the evening flying north to south at greater speed, disappearing 11 minutes later.

Event 387 (1C87569D)

Date: 10/1899
Description: Midnight. Physician Malcom McKinnon is driving home to Fosston, Minnesota, in his carriage when a dazzling ball of white light crosses the road ahead about one-quarter of a mile away, lighting up the road like daylight. It resembles an electric arc lamp and moves slowly from north to southeast about 3 feet above the ground, throwing the field furrows into visible relief. As it passes closer, McKinnon sees that it is clearly "disk shaped, about the size of an umbrella." It is in sight for 30 minutes.

Year: 1900

Event 388 (BEB1183F)

Date: 1900
Description: Psychic medium Catherine-Elise Müller (under the pseudonym "Hélène Smith") of Geneva, Switzerland, becomes famous with the publication of Des Indes à la Planete Mars (From India to the Planet Mars) by Théodore Flournoy, professor of psychology at the University of Geneva. The medium and the psychologist remain very close until 1900, when the book is first published, documenting her various series of somnambulatory trances in which she

experiences a civilization on Mars and her former lives: the “Martian” cycle, “Ultramartian” cycle, “Hindu,” “Oriental,” and “royal” cycles. She writes out the Martian communications on paper and translates them into French, popularizing automatic writing.

Event 389 (8D938019)

Date: summer 1900
Description: Dusk. A 12-year-old girl is walking back to her farm from Cadwst, Denbighshire, Wales, when a large disc- shaped object about 14 feet in diameter silently passes above her and over a nearby meadow. (Lorenzen, UFOs: The Whole Story, Signet, 1969, pp. 13–14) Mid-summer — 3:00 a.m. Perrian A. McGilvra, 14, is returning on horseback from a dance near Reedsburg, Wisconsin, when his horse begins acting up. He sees a large, dark, dirigible-shaped object passing over a grove of poplar trees. The trees bend like they are in a strong windstorm, but he notices no wind. The object flies over his head with a whooshing sound. The horse remains frightened even after the object leaves.

Event 392 (9DE4F4C0)

Date: summer 1901
Description: Day. A 10-year-old boy is walking home to Bournbrook, West Midlands, England, through a path behind his family’s garden when he comes upon a large box-shaped device with a small, centrally placed turret. The only opening is a door, through which two small men (less than 4 feet tall) in military uniforms (but no insignia), each

wearing an odd-looking cap with a wire sticking up on both sides, step out. One stays by the door, but the other walks toward the boy and waves him away. The beings go back in the craft, a bright flash surrounds it, and it shoots into the air with a whooshing sound.

Event 404 (D1382DF2)

Date: 2/28/1904
Description: Mid-evening. The steamer USS Supply is transporting the ill Governor of Guam, William Elbridge Sewell, from Guam to San Francisco, California. About 300 miles west-southwest of San Francisco, commanding Lt. Frank Herman Schofield observes three objects “beneath the clouds, their color a rather bright red.” As they approach the ship they appear to soar, passing above the broken clouds. After rising above the clouds, they appear to “be moving directly away from the earth. The largest had an apparent area of about six suns. It was egg-shaped, the larger end forward. The second was about twice the size of the sun, and the third, about the size of the sun. Their near approach to the surface appeared to be most remarkable.” The objects are in sight for over two minutes by three people. Barry Greenwood thinks they are meteors, but Bruce Maccabee is not so sure.

Event 405 (90CDC3B7)

Date: 2/28/1904
Description: At 35.97 N 128.60 W in the Pacific Ocean between Honolulu and San Francisco at 6:10 a.m., three large dull red bodies flew in from the northwest over the U.S.S. Navy ship Supply. The largest one was egg or pear shaped, and six times the apparent size of the sun. The objects flew in an eschelon formation, flying very fast below the clouds. They gained altitude, turned, and travelled off to the west-northwest while climbing above broken clouds. There were at least three sailors as witnesses, including the main witness named Schofield. The duration of the event was more than two minutes.

Event 406 (6C5A3775)

Date: 6/1904
Description: 10:00 p.m. When Tony Darby goes outside to the well on his farm 5 miles north of Rolling Prairie, Indiana, he notices two round, orange-colored, silent objects hovering 5–6 feet from the ground near the barn. He estimates they are the size of wagon wheels. One of the objects is 2 feet behind and to the left of the other. Running back to the house, he calls for his mother and brother, and all three walk toward the objects, which move away slightly then stop when the witnesses stop. Soon the objects move steadily away to the northeast, still maintaining their relative positions, at about the speed of a man walking. They pause briefly in a small hollow, then continue over a small hill and out of sight.

Event 407 (12CA954E)

Date: 1905
Description: Frederick Spencer Oliver’s book A Dweller on Two Planets is published posthumously. It is a narrative channeled by Oliver in Yreka, California, through automatic writing and mental dictations by a spirit calling itself Phylos the Tibetan, an Atlantean who reveals his story from 1883 to 1886. The book deals with deep esoteric subjects including karma and reincarnation and describes Phylos’s final incarnation in 19th century America where his Atlantean karma plays itself out. In that incarnation (as Walter Pierson, gold miner and occult student of the Theo-Christic Adepts) he travels to Venus in an astral body while his physical form remains at a temple inside Mount Shasta, California.

Event 420 (13259649)

Date: 7/2/1907
Description: Burlington, Vermont. The Bishop John Michaud was standing on a Burlington street corner around 2 in the afternoon, engaged in a conversation with Ex-Governor Woodbury and Mr. A.A. Buell, when without warning they were startled by what sounded like a nearby explosion. Looking eastward along College Street they observed a torpedo-shaped object, some 300 feet away, hovering in the air about 50 feet over the tops of the buildings. It was estimated to be about 6 feet long and 8 inches in diameter. It was dark, with red flames being emitted from spots on the surface resembling unburnished copper. The object began to move slowly toward the south. As it moved the surface seemed to

be rupturing in places, and through these ruptures came the intense red flames.

Event 421 (19284D4C)

Date: 7/2/1907
Description: Just before 12:00 noon. Bishop John Stephen Michaud is talking with Vermont ex-governor Urban A. Woodbury at the corner of Church and College streets in Burlington, Vermont, when they hear a loud explosion and see a torpedo-shaped object about 6 feet long and 8 inches in diameter suspended in the air about 300 feet away. It is dark, with several tongues of flame issuing from it at various points, as if its covering is ruptured. It slowly begins to move to the southeast. The explosion has either knocked down or stunned a horse in College Street. A strong downpour of rain ensues shortly afterward. Although described as a "possible case of ball lightning," the object appears more likely to have been an exploded balloon that someone has attached fireworks to in preparation for a Fourth of July celebration.

Event 422 (217013E8)

Date: 7/7/1907
Description: 6:40 p.m. W. E. Thomas is watching a vivid sunset in Phoenix, Arizona, when he sees a "blue disk floating in the heavens apparently close to the sun." It passes in front of the sun, completely covering it. Other discs appear until there are seven of them. His wife also sees the objects, which are constantly in motion, changing directions and sometimes moving in a straight-line formation. The disks are visible for another hour until sunset, when they are last seen as blue blotches.

Year: 1908

Event 423 (B325551B)

Date: 1908
Description: The English ship "Mohican," piloted by Capt. Urghart, was going to Philadelphia when it was surrounded by a thick, luminous cloud which "magnetized" everything on board. The compass was observed to swing wildly. When seamen tried to move some chains on the bridge, they found that they were glued to the metal floor. Suddenly the cloud rose and was seen above the sea for some time.

Event 424 (EBD22362)

Date: 3/30/1908
Description: 10:15 p.m. F. W. Longbottom in Queens Park, Chester, England, is photographing the Whirlpool Galaxy (NGC 5194) in Canes Venacti with a 12.25-inch reflector. When the plate is developed, it shows an unknown nebulous object some 25 minutes of arc northeast of the galaxy. He does not see the object when he examines the same spot again on April 6.

Event 425 (0E2E3B1C)

Date: 5/1908
Description: Late evening. Helen C. Peterson sees a string of lighted beads in the sky over Great River, Long Island, New York. The first light stops and as the others reach it, they seem to bump into it. It grows a little bigger, appearing like a large star. Suddenly it begins to spin like a pinwheel, but without sparks. The motion stops and what looks like a very bright star takes off at great speed toward the southeast.

Event 426 (23A57164)

Date: summer 1908
Description: Repeated sightings of unidentified airships, sometimes flying against the wind, take place in Denmark. They usually have wings and searchlights; on one occasion, an antenna is seen jutting from the front end. Other reports are of oddly shaped clouds from which a searchlight emanates, sweeping the ground.

Event 428 (8130FD80)

Date: 6/30/1908
Description: On this morning at 7:17 a.m. the Tunguska, Russia explosion occurred in a remote region of the Siberian taiga, which brightened the pre-dawn sky as far away as London and had the equivalent energy of a 15 to 40-megaton

nuclear explosion. Detailed scientific analysis shows that the object that caused the devastation exploded above an altitude of three miles and left an area of destruction for more than 850 square miles, in a heart-shaped pattern. It is widely thought to have been either an asteroid or comet impact, but it has sometimes been interpreted as the crash or mid-air explosion of an alien spaceship. Several anomalies still remain to be explained if the explosion was caused by a celestial body entering Earth's atmosphere. For example, why was radioactive Cesium 137 found in 1908 tree rings from the area.

Event 429 (497D0B8C)

Date: 6/30/1908
Description: 7:14 a.m. A large explosion takes place near the Podkamennaya Tunguska River in Yeniseysk Governorate [now Krasnoyarsk Krai], Russia. Evenki natives and Russian settlers in the hills northwest of Lake Baikal observe a column of bluish light, nearly as bright as the sun, moving across the sky. About 10 minutes later, there is a flash and a sound similar to artillery fire. Eyewitnesses closer to the explosion report that the source of the sound moves from the east to the north of them. The sounds are accompanied by a shock wave that knocks people off their feet and breaks windows hundreds of kilometers away. The explosion over the sparsely populated eastern Siberian taiga flattens 770 square miles of forest and possibly causes up to three human casualties. The event is generally attributed to the air burst of a meteoroid. It is classified as an impact event, even though no impact crater has been found. The object disintegrates at an altitude of 3–6 miles rather than hitting the surface of the Earth. The area is so remote that the site is not inspected until 1927 by a team led by Russian mineralogist Leonid Kulik, who finds a zone about 5 miles across where trees are scorched and devoid of branches but still standing upright. More exotic explanations for the event include a black hole impact, antimatter, a UFO crash (as recently as 2004 by Russian ufologist Yuri Labvin), a nuclear explosion, and an inadvertent experiment by Nikola Tesla.

Event 430 (620979B1)

Date: 7/25/1908
Description: About 6:00 p.m. A "large airship sailing very high" is seen passing from north to south over the Forestville neighborhood of Bristol, Connecticut. It seems to be an elongated gas bag under which a framework with a propeller is suspended. After "maneuvering" a while, it stops and circles over Lake Compounce then changes course toward the southwest. An East Bristol man named Wilson later claims it was a pig-shaped balloon he had sent up for his daughter's birthday party, but "balloon" sightings continue in Massachusetts through December.

Event 432 (E46B19F9)

Date: 10/1908
Description: Skipper J. H. Stockman of the smack Superb is fishing in the North Sea 35 miles out of Lowestoft, Suffolk, England, when he sees a large "star" rise out of the water and approach his ship. He signals it with a red flare, and to his surprise he is immediately answered with a red flare above him. He then shows a white flare and receives a blue flare in response. The object appears sausage-shaped and carries a single light. It disappears in the direction of the Netherlands.

Event 450 (8A28A2F5)

Date: 5/17/1909
Description: The subject of mystery airships is brought up in a debate in the House of Commons. Arthur Fell, MP for Great Yarmouth, England, had asked Secretary of State for War Richard Haldane if he could give the number of dirigibles, either built or in progress of being built, in Germany. Haldane replies that 7 dirigible airships have been built and another 5 are under construction. Horatio Myer, MP for Lambeth North, follows up by asking Haldane: "Will the honourable gentleman, in any report he may circulate, tell us about a certain dirigible supposed to be hovering about our coast?" The question is greeted with laughter and Haldane does not reply.

Event 452 (42010464)

Date: 5/18/1909
Description: 11:00 p.m. Charles Lethbridge (part-time dock worker and Punch-and-Judy showman) is traveling on a "spring cart" from Senghenydd on his way home to Cardiff, South Wales. At the summit of Caerphilly Mountain he sees a long, tube-shaped object sitting on the grass by the roadside, with two men busily working on something. They are wearing heavy fur coats and fur caps that fit tightly over the heads. Lethbridge proceeds to about 60 feet of them when they notice him and start jumping up and jabbering in a foreign language. They quickly pick up something from the ground, then jump into a little carriage suspended from the object (with wheels at the bottom), which rises into the air in a zig-zag fashion. When it clears the telegraph wires, two electric lights shine out and the craft heads toward the

southeast. Lethbridge returns to the site with a newspaper reporter and they find signs of trampling in the grass for about 45 feet. They also pick up a small red French military label, letterhead from a London stockbroker, many newspaper clippings with references to airships or the German army, and a tin box with paste for polishing metal.

Event 459 (8F801B31)

Date: 5/19/1909
Description: 1:15 a.m. Robert Westlake, railroad signalman at King's Junction in the Queen Alexandra Dock at Cardiff, Wales, sees a cigar-shaped object flying swiftly at perhaps 2,600 feet and making a whizzing noise. It has two lights and is moving eastward. Some dock workers who are loading the SS Arndale also see the object for "a minute or two." It passes over the Bristol Channel towards Weston-super-Mare. Aeronaut Percival G. Spencer says that he recently sold several of his "man-lifting" 25-foot-long model airships to advertising firms in the UK, one of them in Cardiff.

Event 460 (A981D916)

Date: 6/16/1909
Time: 0410
Description: An elongated object following a west to east trajectory flew over the town. It gave off a strong light and was seen by two fishermen to plunge into the sea 6 km away from the coast, after a steady flight of about 9 min.
Type: ufo sighting

Event 462 (811D6FE6)

Date: 7/1909
End date: 8/1909
Description: A mystery airship wave begins in New Zealand with numerous sightings of unusual nocturnal lights and airships seen in both daytime and nighttime. The sightings are at first most intense over the southern end of South Island. In the following weeks the reports appear to move northward and by August, Australia also falls under the grip of what press accounts call "aerialitis."

Event 464 (620390C1)

Date: 7/24/1909
Description: At Kaka Point, southwest of Riwaka, New Zealand six boys on the beach sighted a house-sized luminous dirigible-shaped airship at around 9:00 p.m. It glided and maneuvered near some rocks on the coast, zigzagged, rose and fell, then shot away to the north.

Event 466 (F3559582)

Date: 7/30/1909
Description: 5:00 a.m. Two men working on a dredge on the Mataura River north of Gore, New Zealand, see a lighted object descend out of the mist. It appears to be a narrow, boat-shaped craft that circles the dredge over a period of several minutes, rising and falling like a bird, and varying its speed. Two figures can be seen inside. It disappears into the mist, leaving behind a yellow glare.

Event 469 (70C92348)

Date: 7/31/1909
Description: In Greenvale, New Zealand a farmhand saw an "airship" about 150-feet long at dawn. It had a light at each

end, and made a strange whirring noise that frightened the horses. A flying fuselage-shaped airship flew over Dunedin, New Zealand later that morning. A brilliant light shone from atop a mast antenna. That afternoon a dark, fat, cigar-shaped object flew over the hills around Fairfax, New Zealand. It had a box-shaped cabin on the bottom, center, and it flew on towards the west.

Event 471 (8C110DCE)

Date: 8/3/1909
Description: Night. A man is riding in Waipawa, New Zealand, when his horse becomes nervous. He sees a large, gray, torpedo-shaped object passing overhead. Three persons are visible in it, one of whom shouts to him in an unknown language. The object rises to a great height, showing lights fore and aft. After circling around, it disappears behind a hill.

Event 472 (D6AA08C2)

Date: 8/3/1909
Description: A dark silent cigar-shaped object flew slowly at a low altitude over Waihi, New Zealand at 8:30 p.m. It had windows on each side and an intense blue-green light in front. Later that same evening a man was thrown from his horse in Waipawa, New Zealand when a gray cigar or torpedo-shaped object hovered overhead and frightened the animal. Three human looking figures stood on deck, and one waved and shouted. The craft had lights at both ends. It rose to a higher altitude, circled, and then went behind hill.

Event 475 (2CA17EE5)

Date: 8/9/1909
Description: 7:30–8:00 p.m. A flying object with lights on its front and back sails at a great altitude from west to east over Concord, New Hampshire, eventually disappearing into a cloud. Capt. Lyman Jackman at first thinks it is a balloon, but its estimated speed of 45–50 mph against the wind leads him to think otherwise. ("Air Ship or Meteor," Concord (N.H.) Evening Monitor, August 10, 1909, p. 3) At about the same time, Bertha Niles of Vale Perkins, Quebec, watches a similar lighted object moving west to east.

Event 476 (59AFEB9E)

Date: 8/13/1909
Description: At 11:00 p.m. a top-shaped object was observed through a night glass as it moved in a northerly direction over Glen Innes, New South Wales, Australia. Its lower portion was lighted while the upper portion was dark, and as the body of the object revolved a light kept turning on to the terrain beneath.

Event 477 (B1864F87)

Date: 8/18/1909
Description: 2:30 a.m. Four men (Capt. Edward P. Sisson, Ernest T. Newton, Prentice Lanphear, and Edward M. Knapp) at the Coast Guard life-saving station on the south side of Fishers Island, New York, see a winged airship 60 feet long and 20 feet wide. Moving swiftly against the wind, it moves in from the northeast, its engines whirring and a dazzling white light at its head. Two dark figures can be seen in the center of the object. Visible for 3 minutes, the object moves off to the west.

Event 482 (0AC3DC56)

Date: 9/20/1909
Description: During the opposition of Mars, astronomer Eugène Antoniadi uses the 83cm aperture telescope at Meudon Observatory in Paris, France, to observe Mars. He sees no canals. The outstanding photos of Mars taken at the new Baillaud dome at the Pic du Midi Observatory in the French Pyrenees also bring formal discredit to the Martian canal

theory, and the notion of canals begins to fall out of favor. Around this time, spectroscopic analysis also begins to show that no water is present in the Martian atmosphere.

Event 487 (F5EDBCB0)

Date: 12/22/1909
Description: 6:30 p.m. Many residents of Worcester, Massachusetts, see a "brilliant ray" emitted by a large black object 1,000 feet high in the southwestern sky. After circling over the town, the object heads to the west, where it is seen over Marlboro. It returns to Worcester between 7:00 and 7:30 p.m., flying at low altitude and sporting a searchlight. One policeman thinks he sees enormous wings; others detect one or two figures inside. The airship is attributed to a Worcester businessman named Wallace E. Tillinghast, who has told the Boston Herald on December 12 that he has invented a heavier-than-air monoplane and has made more than 100 test flights at night to Boston and New York City. But Tillinghast never offers his aircraft for public viewing, and people gradually realize it is a hoax.

Event 509 (B01151AD)

Date: 4/8/1912
Description: Sunset. Charles Tilden Smith at Little Bedwyn, Wiltshire, England, observes the apparent fan-shaped shadow of a stationary object 45° in the sky against the altostratus cloud layer. The dark patch remains stationary against the moving clouds and is visible for 30 minutes. Meteorologist Charles John Philip Cave suspects the object is a pilot balloon.

Event 512 (E6F848D8)

Date: 10/14/1912
Description: 7:00 p.m. Noise from an unseen aircraft startles the residents of Sheerness, Kent, England. Nearby at Eastchurch, residents light flares to guide the craft in case it needs to land. The incident comes up in a debate in Parliament on November 21. MP William Joynson-Hicks asks First Lord of the Admiralty Winston Churchill whether the government has any zeppelins capable of traveling at 60 mph, but Churchill answers no. However, some authorities conclude that the incident is caused by the intrusion of the LZ 13 Hansa Zeppelin over British airspace.

Event 527 (CDC1CEC7)

Date: 2/9/1913
Description: 9:00 p.m. An earth-grazing meteor procession is seen from locations across Canada, the northeastern United States, and Bermuda, and from many ships at sea, including eight off Brazil, giving a total recorded ground track of over 7,000 miles. The meteors are particularly unusual in that there is no apparent radiant—no point in the sky from which the meteors appear to originate. Witnesses are surprised to see a procession of between 40 and 60 bright, slow-moving fireballs moving from horizon to horizon in a practically identical path. Individual fireballs are visible for at least 30 to 40 seconds, and the entire procession takes some 5 minutes to cross the sky. Subsequent observers also note a large, white, tailless body bringing up the rear, but the various bodies making up the procession continue to disintegrate and travel at different rates throughout their course, so that by the time observations are made in Bermuda, the leading bodies are described as "like large arc lights in appearance, slightly violet in colour," followed closely by yellow and red fragments. Research carried out in the 1950s by Alexander D. Mebane uncovers a handful of reports from newspaper archives in the northern United States. At Escanaba, Michigan, the Press states the "end of the world was apprehended by many" as numerous meteors travel across the northern horizon. In Batavia, New York, a few observers see the meteors and many people hear a thundering noise, while other reports are made in Nunda and Dansville, New York (where several residents again think the world is ending) and Osceola, Pennsylvania. The observations are analyzed in detail later in 1913 by the astronomer Clarence Chant, leading him to conclude that as all accounts are positioned along a great circle arc, the source is a small, short-lived natural satellite of the Earth. One curious feature of the reports, highlighted by Mebane, is that several appear to indicate a second meteor procession on the same course around 5 hours later, although the Earth's rotation means that there is no obvious mechanism to explain this. One observer, A. W. Brown from Thamesville, Ontario, reports seeing both the initial meteor procession and a second one on the same course at 2:20 a.m. the next day. Chant's original report also refers to a series of three groups of "dark objects" that pass on the same course as the previous meteors from west to east over Toronto on the afternoon of February 10, which he suggests are "something of a meteoric nature."

Event 528 (780BC264)

Date: 2/21/1913
Description: Evening. An airship is seen at several locations around Selby, North Yorkshire, England. It alternately flies and hovers, flashing a searchlight and skirting the roofs of houses before vanishing to the north at "great speed." At one point a group of businessmen waiting for a train at the Church Fenton railway station are treated to the sight of a powerful searchlight running along the tracks. Other witnesses hear the whir of motors as the vehicle passes by.

Event 531 (424AD3D4)

Date: 3/13/1913
Description: 6:00 p.m. Two women walking along a forest road by the Schwielowsee between Caputh and Ferch, Brandenburg, Germany, observe an airship catch fire and explode. The fire brigades of three villages, 40 riflemen from a local garrison, and several police officers and medical attendants rush to the scene. They search the woods south of Potsdam until early morning but find nothing. Though the women are considered trustworthy, they are accused later of hoaxing the report. Later, airman Lt. Zwickau claims that he was firing rockets while flying from Leipzig to Döberitz in order to see his way in the night.

Event 533 (66EDFD9B)

Date: 5/1913
Alternate date: 5/1914
Description: Morning. Silbie J. Latham, 12, is working with his brothers Sid and Clyde on a cotton farm 2.5 miles west of Farmersville, Texas. Their two dogs, on the other side of a picket fence 50–75 feet away, begin barking and howling. The boys stop work and go to investigate. They see a little man, dark green in color and 18 inches high, who "looked like he was sitting on something." His arms are hanging down by his sides. He has a Mexican-looking hat on, but no other clothes. Right after the boys get there, the two dogs jump him and tear him to pieces. Blood and internal organs spew out, but it doesn't cry out. The boys go back and check the spot the next day, but the remains are gone.

Event 543 (1A448038)

Date: 8/1914
Description: William J. Kiehl, 18, is with seven others in a small cove along the shore of Georgian Bay, Ontario. They see a strange machine on the surface of the lake. Two little men wearing square masks and purple-green coveralls are working with a hose leading from the water to inside the UFO. Three other figures, dressed in khaki, are adjusting some rods that are pulsating with various colors. The beings notice the group watching them and run into the machine, which starts vibrating with colors. It starts to ascend, but one being has not made it inside and is hanging on. After hovering 12 feet in the air to balance itself, it rapidly accelerates upward. A likely hoax.

Event 548 (A3868356)

Date: 8/14/1914
Description: Afternoon. A large ball of fire sweeps over the southeast portion of Montpelier, Vermont, seen by employees of the C. P. Gill stone cutting plant near the Winooski River. It is accompanied by a loud noise. One man says the heat of the object has scorched his hands. The plant motor stops as the object passes over, and insulation from some electrical wires is found burned off. ("Great Ball of Fire," Rutland (Vt.) Daily Herald, August 18, 1914, p. 5) Autumn (or 1915) — Dusk. A man is having an outdoor meal with his family in Bujoreanca, Romania, when they see a reddish object moving to the east 60 feet above the ground, causing trees to bend from its movement, and making a whistling noise. It leaves a trail of glowing sparks and reappears for 6–7 days in the same position.

Event 550 (FCFC2E0E)

Date: 9/6/1914
Description: Flight Commander C. E. Rathbone of the Felixstowe Naval Air Station, Suffolk, England returned from an early morning patrol in his seaplane to make perhaps the first report of a UFO sighting by a military officer. He reported that, "At 5:35 a.m. whilst on patrol, I sighted an airship steering south-southeast with a silver-colored envelope on the horizon, while flying at 1,300 feet, 27 miles south of Orfordness."

Event 551 (CD44F48C)

Date: 9/9/1914
Description: Mid-day. Amateur astronomer William Herbert Steavenson points his 3-inch refracting telescope in West Norwood, south London, England, at the planet Mercury, then about 8° distant from the Sun, when a round, luminous object the apparent size of the planet, but brighter, speeds across his field, passing centrally from south to north in about 3 seconds. A few seconds later, another appears going in the same direction. More follow, and the display continues until at least 3:00 p.m. when the sky becomes overcast. He watches several hundred bodies pass; about half are perfectly round and the rest are dumbbell shaped. All the objects are well defined and intrinsically brighter than Venus. The prevailing color is yellowish white. Steavenson sends a telegram to the Rev. T. E. R. Phillips at Ashstead, Surrey, but the sky is now overcast and he cannot confirm the observation. Steavensen thinks high-altitude seeds are the most likely explanation.

Event 557 (A0D11083)

Date: 2/14/1915
Description: 9:15 p.m. The mayor and three city constables of Brockville, Ontario, see the lights of unknown aircraft crossing the St. Lawrence River heading for Ottawa. They can hear the sound of motors. A second flying machine is heard as it crosses the river from the direction of Morristown, New York. Three balls of fire drop from it into the river. Two more objects pass from the east and west ends of Brockville. The mayor, who has seen one of the planes flash a searchlight beam that lights up a city block, tells the police chief to alert the mayor and police chief in Ottawa. At 9:30 p.m., the mayor of Gananoque, Ontario, reports that two invisible aircraft are heard flying over his town. Prime Minister Robert Borden hears about the reports and orders the lights on Parliament Hill to be turned off at 11:15 p.m. The entire city follows suit 5 minutes later. The airplanes do not reappear, but Ottawa is placed on high alert. Later, Brockville police find two paper balloons that might explain the sightings.

Event 563 (B4984C35)

Date: 9/4/1915
Description: 9:30 p.m. Two British Naval Intelligence officers, Lt. Col. William Price Drury and Lt. C. Brownlow, on Dartmoor, Devon, England, watch a "bright white light, considerably larger in appearance than a planet" ascend steadily from a meadow to a height of 50–60 feet. It then swings 300 feet or so to the left and suddenly vanishes. The officers have been investigating reports of similar lights seen in the region during the summer. In December, GHQ Home Forces issues a 16-page confidential report on the investigation and concludes there is "no evidence on which to base a suspicion that this class of enemy activity ever existed" and that 89% of the reports are explained. Some "moving lights in the air" are attributed to marsh gas.

Event 566 (983CF03E)

Date: 1/31/1916
Description: Royal Flying Corps pilot Lt. Morgan was flying at 5000 feet over Rochford, Essex, England on this evening on the lookout for Zeppelins. At 8:25 p.m. he saw an object with a row of lights like the windows on a railway carriage with the blinds drawn. He tried to close but his airplane's engine started malfunctioning. When he fired a pistol at the lights they rose rapidly into the heavens and disappeared out of sight.

Event 567 (09B72601)

Date: 1/31/1916
Description: 8:25 p.m. Royal Flying Corps Lieut. Reginald Maxwell is cruising his B.E.2c biplane at 10,000 feet near Romford, Essex, England, patrolling for German Zeppelins. He sees an "artificial light" to the north. He follows it northeast for 20 minutes, but it moves higher and he loses it in the clouds. At the same time, Royal Flying Corps pilot Sub-Lieut. J. Eric Morgan, also flying a B.E.2c at 5,000 feet near Rochford, Essex, and looking for Zeppelins, sees an object about 100 feet away with a row of windows "like a railway carriage with the blinds drawn." He tries to close on it, but his engine is malfunctioning. When he fires his pistol at it, the lights rise and rapidly disappear. Morgan is forced to make a crash landing.

Event 577 (6685C66D)

Date: 5/13/1917
Description: Three shepherd children at the Cova da Iria in Fátima, Portugal—Lúcia dos Santos and her cousins Francisco and Jacinta Marto—report seeing a woman "brighter than the sun, shedding rays of light clearer and stronger than a crystal goblet filled with the most sparkling water and pierced by the burning rays of the sun." The woman wears a white mantle edged with gold and holds a rosary in her hand. She asks them to devote themselves to the Holy Trinity and to pray "the Rosary every day." The children had seen an "angel" at the cove since the spring of 1916.

Event 585 (18C515B9)

Date: 10/1917
Description: Seven-year-old Elizabeth Klarer and her older sister Barbara have their first alleged encounter with a UFO on their parents’ farm Connington in the KwaZulu-Natal midlands, South Africa. While playing outside the farmhouse, Elizabeth claims to witness a giant orange-red wheel rolling across the sky. The plummeting object, also described as a fiery pockmarked meteor or planetoid, is intercepted by a silver disc bathed in a pearly luster. Around this time Elizabeth begins receiving occasional telepathic messages from a friendly space alien named Akon.

Event 586 (F3A9AB4E)

Date: 10/13/1917
Description: Approximately 70,000 people crowded the fields surrounding the Cova da Iria, a grotto in Fatima, Portugal to witness a promised miracle. Miraculous events and apparitions of the Blessed Virgin Mary had been occurring monthly on the 13th of every month since three children–Lucia, Jesus and Marto– had first met a mysterious lady in blue there in May. Not many of those in the crowd, even those close to the three children, were able to witness the apparition of the Lady on this day, but it is reported that everyone present saw “something.” The most common description was of a “gyrating sun” that became a silver disc, and emitted bright rainbow shafts of light, changing colors in succession from red to violet to blue to yellow. The flat silver disc plunged downward toward earth in a zigzag fashion. Catholics present interpreted these events as a sign from God, and the religious event was later sanctioned as a miracle by the Roman Catholic Church. The prophesies revealed that day have been kept secret by the Vatican, but

reportedly involve the assassination of "the last Pope."

Event 587 (02944276)

Date: 10/13/1917
Description: After some newspapers report that the Virgin Mary has promised a miracle for the last of her apparitions, a huge crowd, possibly between 30,000 and 100,000, including reporters and photographers, gathers at Cova da Iria, Portugal. What happens then becomes known as the "Miracle of the Sun." Various claims are made as to what really happened. The three children report seeing a panorama of visions during the event, including those of Jesus, Our Lady of Sorrows, Our Lady of Mount Carmel, and Saint Joseph blessing the people. Father John de Marchi, an Italian Catholic priest and researcher who wrote several books on the subject, included descriptions by witnesses who believe they observed a miracle created by Mary, the mother of Jesus. After a period of rain, the dark clouds break and the Sun appears as an opaque, spinning disc in the sky. It appears significantly duller than normal and casts multicolored lights across the landscape, the people, and the surrounding clouds. The Sun then seems to careen towards the earth before zigzagging back to its normal position. Witnesses report that their previously wet clothes become "suddenly and completely dry, as well as the wet and muddy ground that had been previously soaked because of the rain that had been falling." Not all witnesses report seeing the Sun "dance." Some people only see the radiant colors, and others, including some believers, see nothing at all. The only known picture of the Sun taken during the event does not show anything unusual. No unusual solar phenomena are observed by scientists. Some theologians, scientists, and skeptics have offered alternative explanations that include psychological suggestibility of the witnesses, temporary retinal distortion caused by staring at the intense light of the Sun, a sundog, and optical effects caused by natural meteorological phenomena. The Miracle of the Sun is interpreted by others as a UFO event. Investigator Joe Nickell thinks that the effects are "a combination of factors, including optical effects and meteorological phenomena, such as the sun being seen through thin clouds, causing it to appear as a silver disc. Other possibilities include an alteration in the density of the passing clouds, causing the sun's image to alternately brighten and dim and so seem to advance and recede, and dust or moisture droplets in the atmosphere refracting the sunlight and thus imparting a variety of colors."

Year: 1918

Event 588 (93B73342)

Date: 3/1/1918
Description: Early morning. A woman at Tahunanui Beach, Nelson, New Zealand, sees two distinct "seaplanes" flying together near the surface of the water. They soon diverge, one going in the direction of the eastern hills and both getting lost in the clouds.

Event 589 (2BD7BA41)

Date: summer 1918
Description: 7:30 p.m. At an isolated ranch 60 miles from Malta, Montana, 9-year-old Theodore Warren sees a cigar-shaped "airship" with windows that shine with greenish light. It flies in from the mountains in the east and hovers above the ranch house. He watches it for a while, and then it "whooshes" away to the northwest.

Event 591 (2F057179)

Date: 8/13/1918
Description: Evening. Mr. C. Rawlinson is cycling to a dance on Carrington Road, New Plymouth, New Zealand, when he sees a bright star against some mountains about 6 miles away. It starts flashing red and white and moves closer and downward, then rises to 400–500 feet and performs other maneuvers. He rides home to tell his sisters, who also see the light until about 8:30 p.m., when it moves off to the sea.

Year: 1919

Event 595 (04B20FF5)

Date: 1919
Description: Wireless inventor Guglielmo Marconi claims that he has detected large-wavelength radio signals from Mars. He claims the most frequent signal is the Morse code for "S," or three short dots. The signals, however, are subsequently traced to an experiment conducted by chemist Irving Langmuir at the General Electric Laboratories in Schenectady, New York.

Event 596 (1D8039DF)

Date: 1/22/1919
Description: After 10:00 p.m. A brilliant light the size of a tennis ball appears in a garden at Shuttlewood, Derbyshire, England. When the witness approaches it, it moves away at a leisurely pace and passes through wire netting. It follows the top of a hedge, turns right, and ascends until it finds a break in the high branches of a tree, where it hovers for 3 minutes before flying on. The witness then notices his neighbor's farm is illuminated with bright white light. Several minutes later, the sphere returns to the garden, hovers another 3 minutes, then approaches the witness. As it does so, it turns from white to orange. It moves away, stops above a neighbor's garden, travels along a hedge, traverses a field, and circles a row of houses before soaring into the sky and disappearing. The light is seen for 40 minutes.

Event 599 (6066E081)

Date: 6/2/1919
Description: 9:30 a.m. A tiny circular cloud appears in an otherwise cloudless sky over Ottertail, Minnesota. Suddenly it expands to several times its size. Seconds later, the window that the witness is watching through starts to shake and creak. By the time it stops, the cloud has expanded more and now has a ragged appearance, bending toward the earth. A black object shoots out of the bottom of the cloud, leaving a vapor trail, and begins making 6–7 barrel rolls. It then peels off in a straight line, headed north.

Event 600 (98EEC81E)

Date: 6/28/1919
Description: Treaty of Versailles was a peace treaty signed on 28 June 1919. One of the most important treaties of World War I, it ended the state of war between Germany and the Allied Powers.
Type: historical event
Reference: Wikipedia
Source: Maj2

Event 601 (CCDB72C2)

Date: 7/1919
Description: 11:00 a.m. A young brother and sister who live on a farm near Webster City, Iowa, hear a strange chirping sound while out playing. They turn and see a brown-green object under a tree near a creek 75 feet from them. They notice a similarly colored figure standing in a door that has been lowered down. It makes strange guttural sounds. They see another figure running toward the stream leading to a pond. This smaller one dips up some water into a can. The larger figure seems to be hurrying the smaller figure back into the object. The door slams shut with a metallic sound, and the vehicle rises up quickly with its three legs still out and goes over a hill. The soil where the object had been is covered with round spots that resemble cane marks. (Clark III 263; Patrick Gross, URECAT, July 23, 2009) Late summer — 10:00 p.m. Harry Anderson, 13 (or 16), is out riding with his family and two friends when their car runs out of oil east of Barron, Wisconsin. A passing farmer offers to give them some oil, and Harry accompanies him 2 miles away to his farmhouse. Harry walks back to the car alone and sees 20 little men walking in single file towards him. Their heads are bald, and the figures are dressed in leather “knee pants” held up by suspenders. They are mumbling but

pay no attention to him. Terrified, he continues and does not look back.

Event 602 (27F7345B)

Date: 12/1/1919
Description: Boni & Liveright publishes Charles Fort's first book of scientific anomalies, The Book of the Damned. Fort gathers reports of objects or "vessels" that he humorously speculates might be visitors from a multitude of worlds that have come to earth over the centuries. Among his wilder expressions is the suggestion that floating land masses in the sky harbor civilizations and oceans. Fort also speculates that someone is fishing for us and that an alien race considers us its property, warning off all interlopers. It receives positive reviews from Ben Hecht and Booth Tarkington.

Year: 1922

Event 618 (866C237C)

Date: 1922
Description: County Donegal, Ireland: Irish Republic Army man, Lawrence Bradley, wrote to the editor of "Watfordand West-Hersts Post" magazine (4/30/64) that while he was fighting a scattered rear-guard, mostly in the mountains of Donegal, he came upon a cave with vegetation at the entrance that had been scorched. The only occupants in the cave were the sick and the wounded that had been unable to walk. The six able-bodied soldiers that were looking after them said they had been awakened early pre-dawn by a whirring noise outside of the cave and had fired their rifles in the direction of the noise, thinking that it was an armored car. Suddenly the object retaliated by firing jets of flame at the cave entrance. After near suffocation, the soldiers ran out to see the flame throwing UFO ascending into the sky. Clearly visible, it was circular in shape and glowing and of a shiny metal.

Event 630 (0678C906)

Date: 8/22/1924
Description: Mars enters an opposition closer to Earth than at any time in the century before. In the US, a National Radio Silence Day is promoted during a 36-hour period in August 21–23, with all radios quiet for 5 minutes on the hour, every hour, just in case the Martians take the opportunity to communicate with Earth. At the US Naval Observatory in Washington, D.C., an SE-950 radio receiver is lifted 1.9 miles above the ground in a dirigible tuned to a wavelength between 8 and 9 kilometers, using a "radio photo message continuous transmission machine" recently invented by Amherst College and Charles Francis Jenkins of Washington. The program is led by retired astronomer David Peck Todd with the military assistance of Chief of Naval Operations Adm. Edward Walter Eberle, with William F. Friedman (US Army chief cryptographer), assigned to translate any potential Martian messages. The device records radio signals on chemically treated film. One signal consists of a "fairly regular arrangement of dots and dashes along one side" and on the other "at almost evenly spaced intervals … curiously jumped groups each taking the forms of a crudely drawn human face." Todd tells a reporter, "It may not be a message from Mars, but if it isn't from Mars, where is it from?" Astronomer Frederick E. Fowle of the Smithsonian thinks they are "disturbances introduced by solar or terrestrial causes not yet understood." Other scientists suggest the images are caused by static discharge from a passing trolley car, malfunctioning radio equipment, or the natural symphonic radio waves produced by Jupiter.

Event 631 (F4A97199)

Date: fall 1924
Description: Dusk. A hunter in a rowboat on Okanagan Lake, British Columbia, sees a faint blue light moving from northeast to southwest. It temporarily disappears behind a mountain but reappears and approaches the boat, passing it at a distance of 200 feet and a speed of 30–40 mph. The object is pearly silver in color with faint dark blue light at the rear. After moving a quarter mile away, it ascends and disappears at terrific speed.

Year: 1925

Event 632 (0DE6C376)

Date: 1925
Description: Thomas Green is riding with another young man on a farm near Moora, Western Australia, when they come across an object "like two saucers placed edge on edge" resting on a paddock. Some oval-shaped windows are visible, and it is resting on four legs splayed outwards. The two decide to return home. Several days later they return and find the earth "scuffed about" on the spot.

Event 641 (B4B58D47)

Date: 10/27/1926
Description: Attorney and "telepathist" Hugh Mansfield Robinson, who has been in contact with a female Martian entity named Oomaruru since 1918, convinces the central radio office in London, England, to send out a message, "MMM opesti nipitia secomba" over the airwaves. He intends for it to be picked up by Martian wireless. The next day, he claims that Oomaruru telepathically told him that only the first three letters had been received. Robinson describes the Martians as 7–8 feet tall with large ears, a wealth of black hair, and almond eyes. Over the years he continues receiving messages from Oomaruru while in a trance and attempting to send signals to Mars. Psychic investigator Nandor Fodor, who has attended some of Robinson's séances, calls him "as slippery as a human eel."

Event 642 (004ECAE5)

Date: 11/1926
Description: Early evening. Playing hide-and-seek with friends in Bolton, Lancashire, England, Henry Thomas slips into a backyard and finds three figures dressed in odd suits made of silvery gray rubber tubes. They are looking into a window in the back of a house. A tube extends from their helmets into a tank on each figure's back. They turn to look at him and he sees their heads are pale and "shaped like lightbulbs" and they have slits for mouths. Thomas runs away.

Event 647 (582CF3CF)

Date: 8/5/1927
Description: Explorer Nicholas Roerich and others in his caravan observe a UFO near Qinghai Lake, Tibet. "We all saw, in the direction north to south, something big and shiny reflecting sun, like a huge oval moving at great speed. Crossing our camp this thing changed in its direction from south to southwest, and we saw how it disappeared in the intense blue sky. We even had time to take our field glasses and saw quite distinctly the oval form with the shiny

surface, one side of which was brilliant from the sun." (Nicholas Roerich, Altai-Himalaya, Frederick A. Stokes, 1929, pp. 361–362; Brad Sparks, "Analysis: Roerich Case, Aug. 5, 1927") Late summer — Long delayed echoes—radio echoes that return to the sender several seconds after a radio transmission has occurred—are first observed by civil engineer and amateur radio operator Jørgen Hals from his home near Oslo, Norway. The cause of LDEs remains unknown, although A. G. Shlionsky has proposed 15 different explanations.

Event 651 (79A72C75)

Date: 5/1928
Description: Mystic and white supremacist William Dudley Pelley claims he has an out-of-body experience in which he travels to other planes of existence devoid of corporeal souls. He describes his experience in an American Magazine article titled "My Seven Minutes in Eternity," expanded to a book 1933 as Seven Minutes in Eternity. In later writings,

he describes the experience as “hypo-dimensional.” During this event, he meets with God and Jesus, who instruct him to undertake the spiritual transformation of America. He later claims that the experience gives him the ability to levitate, see through walls, and have out-of-body experiences at will.

Year: 1929

Event 657 (EF12D4FB)

Date: 1929
Description: In Hertford, England, a 5-year-old girl and her 8-year-old brother have such an unsettling experience that they do not talk about it themselves until about 1960, and the woman herself does not reveal it to outsiders until 1970. They are playing in a garden when they hear engine sounds and see a tiny (12 or 15 inches wide) biplane coming over the fence from the direction of an orchard. It swoops down, nearly hitting a trash can, and lands for a few seconds before resuming its flight. While it is stationary, the girl can see a "perfectly proportioned tiny pilot wearing a leather flying helmet, who waved to us as he took off."

Year: 1930

Event 666 (0DA6AB7B)

Date: 1930
Description: 10:00 a.m. A woman is driving the family car in an isolated hilly area of Texas when she rounds a curve and sees a huge object about 100 feet across by the side of the road. A small door is open with steps leading down to the ground. One side of the object is braced up by two slender legs with round plates for feet. A man of normal size comes walking toward her and forces her to stop. He seems to speak to her telepathically, telling her to leave the road and make a shortcut through a gully. Some 8–10 other figures walk forward, much smaller and with slanted eyes. They are wearing tan coveralls and tight caps. Despite potential damage to her car, she drives through the gully as the larger man walks alongside. The next thing she remembers is walking up to her porch at her home 15 miles away. It is around 12:00 midnight. In March 1968, having read Interrupted Journey about the Betty and Barney Hill case, she writes to the Colorado project and offers herself for hypnosis and research. Edward Condon files the letter under “psychological” and does not respond.

Event 675 (1FD00523)

Date: 5/1931
Description: 4:30 p.m. Pasquale Masala is out riding his horse with a friend a few miles southeast of Paulilatino, Sardinia, Italy. When they reach a megalithic tomb known as Nuraghe Trudumeddu, they dismount to enjoy the view. Suddenly, a strange object the size and shape of a football emerges from the partially blocked entrance of the tomb. It travels at a height of about 3 feet above the ground at a constant speed of about 10–15 mph and enters a thick patch of undergrowth. Marsala runs after it for about a half mile and notices that the bushes part in front of the object and close up after it passes. His companion is frightened and insists on returning to the village.

Event 678 (AFD01F74)

Date: summer 1931
Description: Alice May Williams of Auckland, New Zealand, begins writing letters over a two-year period to Edison Pettit and Seth Barnes Nicholson, astronomers at the Mount Wilson Observatory in Pasadena, California, describing her encounters with telepathic aliens who fly in a circular machine "like a great big lamp." She writes that "The Planet mars is inhabited by human spirits like us can talk eat & drink wear clothes, but have great power. They are something people of this earth have never seen." Their ships "are round like the moon with airtight shutter at the front, glass. The machine must be built with some light material, airproof fireproof, waterproof. The inside must be like a room, 2 beds tables & chairs." Much of her information seems to be derived from articles in the Auckland Star about conditions elsewhere in the solar system.

Event 680 (D163EA4C)

Date: 4/1932
Alternate date: 5/1932
Description: Terry F. Lapeza sees an aluminum-like disc with yellowish lights or "portholes" on the underside, about 100 feet in diameter over Durham, New York. It is moving north at about 300 mph. (UFOEv, p. 129) Early summer (or early summer 1933)— 7:30 p.m. Teenager Fred W. Van Sant and his brother Milton see 7–8 "meteors flying in a bunch" over hills east of Oakland, California. They maintain the same altitude from east to west in a great arc. The objects are silent and are so bright they seem to be emitting their own light.

Event 681 (EE47E8C0)

Date: 5/4/1932
Description: During a time of personal crises, the witness, now a retired pastor, found himself in a city of 16,000 located 150 miles west of Toronto, Ontario. On this particular night he was standing on a street lit up by a brilliant white light from above. Looking up, he saw the light came from a round cloud with a scalloped edge, about 200 yards overhead. From the cloud-like object streamed down a light like a laser beam. He next saw a young man with golden hair standing beside him, dressed in a suit of a similar color. The man had radiant blue eyes, and was about 5.5 feet tall. He smiled at the witness and told him that his work would be in that city, and reminded him that "the cottages in the rear of the mansion are as important as those who dwell in the mansion." He told him the witness would reside there for six years and would then work his way to the west coast. According to the man's account, the prophecies were fulfilled.

Event 682 (D54B0D0B)

Date: 6/1932
Description: Evening. Reuben D. Knight is standing on the porch of his farmhouse near Wattsburg, Pennsylvania, when he notices a bright speck of light approaching from some woods to the south. Growing in size, it comes to within 4 feet of him and appears as a silvery-blue ball about 14 inches in diameter. It travels in a loop and circles back to the woods in a steady path of 35–40 mph. After it circles past him again, he calls his wife and she sees the ball make a final loop before it disappears in the woods.

Event 690 (9E1050E1)

Date: summer 1933
Description: 2:30 a.m. A man who still insists on anonymity in 1964 is driving near Cherryville, Pennsylvania, when his car gets a flat tire. As he is jacking it up, he sees a faint violet light in the field on his right. Curious, he walks about 200 feet toward the light and sees a bell-shaped object about 10 feet in diameter and 6 feet high on the grass. Light is issuing from a circular door about 1 foot in diameter. He pushes it and it swings open. Putting his head inside, he cannot see much because of the peculiar light coming from the ceiling. The chamber inside is about 6 feet in diameter, 4 feet high, and full of tubing and dials on a console. An ammonia scent pervades the room, which is notably chilly. The man then walks around the object, touching the surface, which is slick, metallic, and cold. After 10 minutes, he goes back to the car, replaces the tire, and drives home.

Event 692 (0193BBB4)

Date: summer 1933
Description: For weeks, strange lights in the sky are reported around Tobin Lake, Saskatchewan. Curious about the reports, two young men and a woman drive to the lake from Napawin. On their way they see a glow near the horizon, so they park and trek a quarter mile into the woods where they can see a large, oval-shaped craft sitting on legs. From an open central doorway shines a bright orange glow; a ladderlike stairway extends downward with a dozen figures dressed in silver suits moving up and down the steps. They appear to be repairing the craft. The witnesses watch for 30 minutes when they decide to return to their truck and get closer. Two nights later they return and find imprints and burn marks, which they photograph. Two of them write an article that they submit to magazines, which refuse to publish what they consider outlandish fiction.

Event 701 (DC14C8BD)

Date: 12/24/1933
Description: 6:00 p.m. Witnesses in Kalix, Norrbotten, Sweden, see beams of light coming from a machine that seems to be searching the ground below. The beams are "blinding." The sighting is part of a wave of "ghost flier" reports of gray monoplanes without identifying markings that are reported over rural areas of Scandinavia from November 15, 1933, through February 11, 1934. The Swedish Military Record Office accumulates 96 reports from Sweden, 234 from Norway, and 137 from Finland, and the Swedish Air Force undertakes at least two reconnaissance missions in search of the mystery planes. More than 50% of the reports take place between 5:00 p.m. and 7:00 p.m., when Venus is low over the horizon.

Event 723 (33C9454D)

Date: 8/9/1934
Description: Around 5:00 a.m. Musician Leon M. Thompson is boating on Keuka Lake in western New York when he notices an odd cloud on the west side of the lake. It is in the form of an elongated cone some 60–75 feet in length and 10–15 feet in diameter at its largest point. Suddenly the sky lights up in a flash and the cloud emits a fireball that arcs across the lake to the east and leaves a fiery train. It falls on a cottage and throws up a cloud of mist or steam that slowly dissipates.

Event 727 (E1D65F34)

Date: 1/10/1935
Description: Charles Spayde, the operator of a telegraph station west of Lima, Ohio, claims that he has been receiving a "series of strange, unintelligible signals" that are broad in wavelength and "come in all over the dial." He is convinced they are not static or mechanical disturbances and they do not originate on this planet.

Event 729 (5DF6C6F2)

Date: spring 1935
Description: Night. A Mr. Aerts sees a brilliant circular object “like aluminum” in the sky above the roofs of nearby houses in Mechelen, Belgium. It lands and he sees two small occupants come out of the rear; they wear square helmets with short antennas and are apparently examining the exterior surface.

Event 732 (40A42FC2)

Date: 5/1935
Description: Radu Popescu and his cousin are walking by the Olt River near Drăgășani, Romania, when they come upon what seems to be a Romany wagon. They see five figures—one next to the object, two farther away, and another two next to a boat on the shore. Suddenly the figures run toward the object, something black covers it, an antenna appears, and it rises up above the river. It turns to a white color as it moves away.

Event 740 (C09ED88C)

Date: 8/17/1936
Description: A metallic disc with a diameter of 33–40 feet is seen flying soundlessly near Venice, Italy. It has windows and alternating white and red lights. Two fighters from a nearby air base attempt to intercept it but cannot reach it. After maneuvering for an hour and passing above Mestre, Veneto, it appears more like a torpedo-shaped object. Two other smaller, domed discs are also seen following it. A report on the incident is sent to Foreign Minister Galeazzo Ciano.

Year: 1938

Event 758 (B4B7A919)

Date: 1938
Description: The Ford Foundation and Rockefeller Foundation begin contributing large amounts of money to the Council on Foreign Relations. They create various Committees on Foreign Relations throughout the country, which later become governed by the American Committees on Foreign Relations in Washington, D.C., funded by a grant from the Carnegie Corporation. Influential men are chosen in several cities and are brought together for discussions in their own communities as well as participating in an annual conference in New York. These local committees serve to influence local leaders and shape public opinion to build support for the council's policies, while also acting as "useful listening posts" through which the Council and US government can "sense the mood of the country."

Event 769 (4F0D3C6A)

Date: 10/30/1938
Description: 8:00 p.m. “The War of the Worlds” episode of the American radio drama anthology series The Mercury Theatre on the Air, directed and narrated by actor and future filmmaker Orson Welles, is an adaptation of H. G. Wells’s novel The War of the Worlds (1898). It is performed and broadcast live in New York City as a Halloween episode over the Columbia Broadcasting System radio network. The episode becomes famous for allegedly causing panic among its

listening audience, though the scale of that panic is disputed as the program has relatively few listeners. In the days after the adaptation, widespread outrage is expressed in the media. The program's news-bulletin format is described as deceptive by some newspapers and public figures, leading to an outcry against the broadcasters and calls for regulation by the FCC, which declines. Some government agencies in the US, Germany, and Russia take note of how segments of the population are easily manipulated into thinking fiction is fact. According to Annie Jacobsen, the confusion allegedly inspires Joseph Stalin to create a similar scenario with a fake alien crash in the US.

Year: 1939

Event 771 (1B44B986)

Date: 1939
End date: 1941
Description: Richard E. Byrd's third Antarctic expedition. President Roosevelt asked Byrd to command the U.S. Antarctic programme. This time they again used the Little America base but also set up on Stonington Island, near the Antarctic Peninsula. This expedition would complete extensive studies of Antarctic geology, biology, meteorology and continue exploring new areas. Due to the impending involvement of America in the Second World War, Byrd was recalled to active duty in 1940 and assigned to the Office of the Chief of Naval Operations. The expedition continued without him.
Type: historical event

Event 772 (4B2C6E21)

Date: 1939 (approximate)
Description: Sisters Lucile and Allene Holt, daughters of Rev. Turner Hamilton Holt, claim they are separately told by their father, a cousin of Secretary of State Cordell Hull, that Hull personally showed Holt a wrecked circular craft of some kind and glass jars holding unknown creatures. These are stored in a sub-basement of the US Capitol building in Washington, D.C. Both sisters are told the story when Holt is a minister at the Shenandoah Christian Church in Greenwich, Ohio, before 1947, but researchers can find no confirmation in any of Hull's papers or memoirs.

Event 775 (BA9DAE77)

Date: 1/26/1939
Description: The Carnegie Institution of Washington holds a press conference at the Fifth Washington Conference on Theoretical Physics in D.C. to announce the discovery of nuclear fission. (Atomic Heritage Foundation, "Atomic Timeline") Late summer — A girl sleeping in the back yard of her home in Fort Worth, Texas, is awakened by a whirring noise. She sees a small object approaching from the east at an altitude of 20–30 feet. When it gets close, it descends to the level of her bed and hovers briefly at the foot, so close that she can touch it. It has the shape of an "old-time Mississippi steamboat with a deck around the bottom." Strata or veins run through it, and a soft, blue-green glow surrounds it. It is 3 feet around and 1 foot high. It rises suddenly and disappears.

Event 777 (C946F841)

Date: 8/2/1939

Description: Einstein's atomic bomb warning letter to President Roosevelt stating "it may be possible to set up a nuclear chain reaction in a large mass of uranium, by which vast amounts of power and large quantities of new radium-like elements would be generated. Now it appears almost certain that this could be achieved in the immediate future… This new phenomenon would also lead to the construction of bombs"
Type: historical event

Location: Washington DC
Attributes: Einstein
Source: Maj2

Event 778 (B46B63D4)

Date: 8/2/1939
Description: Hungarian-American physicist Leo Szilárd writes a confidential letter to President Roosevelt, in consultation with fellow Hungarian physicists Edward Teller and Eugene Wigner. He has persuaded Albert Einstein to sign it as well. The letter warns that Germany might develop atomic bombs and suggests that the United States should start its own nuclear program. It results in the establishment of research into nuclear fission by the US government, and ultimately to the creation of the Manhattan Project. Delayed by the outbreak of war in Europe, the letter is eventually hand-delivered to Roosevelt by economist Alexander Sachs on October 11. Roosevelt gives the letter to his aide, Brig. Gen. Edwin "Pa" Watson with the instruction: "Pa, this requires action!"

Event 779 (30743A76)

Date: early 8/1939
Description: George Pârvu and four other schoolchildren are playing in an open field in Armășești, Romania, when they see a bright light in the sky moving in a zigzag fashion. It circles a few times then descends in their direction, getting bigger and brighter. The egg-shaped object hovers silently at an altitude of 230–260 feet. Suddenly it becomes a dull coppery color and lands about 140 feet away. Two of the children flee but Pârvu and two others remain. The bottom of the object has a ring of small turbine blades that look like paddles in a water mill. It seems to be 16 feet high. A hatch opens and two little men about 4 feet tall come out, dressed in gray diving suits. They walk toward the children, one of them holding a rectangular box pointing at the ground. The children approach them, holding hands, but when they are about 23 feet away the other man points a thick stick-like device at them and they are no longer able to move forward. The little men bow in their direction, waist deep, then turn around and reenter the object, which takes off. The children find a circular area of yellowed grass where the object had been. Pârvu feels energized, but one of the other boys is temporarily sick. Pârvu encounters what he perceives to be the same object in August 1944, August 1949, and the summer of 1954 (in the center of Bucharest).

Event 782 (03EB5BF8)

Date: 10/21/1939
Description: After reading Szilárd's letter, Roosevelt creates an Advisory Committee on Uranium, which meets for the first time at the National Bureau of Standards in Washington, D.C. The committee consists of NBS Director Lyman James Briggs, Army Lt. Col. Keith F. Adamson, and Navy Cmdr. Gilbert C. Hoover. It is attended by physicists Fred L. Mohler from the National Bureau of Standards and Richard Brooke Roberts from the Carnegie Institution of Washington, and Szilárd, Wigner, and Teller. Einstein is invited but declines to attend. Adamson is skeptical about the prospect of building an atomic bomb, but is willing to authorize $6,000 (equivalent to $107,000 in 2018 dollars) for the purchase of uranium and graphite for Szilárd and Enrico Fermi's experiments into producing a nuclear chain reaction at Columbia University.

Event 784 (5DEFCAD9)

Date: 11/13/1939
Description: 7:00 a.m. A building foreman is driving past a deserted farm near Brockworth, Gloucester, England, when he hears a high-pitched humming sound. He watches a gray, bell-shaped object hovering about 20 feet above a field 100 feet away. He estimates it is about 25 feet across. Dark window-like patches are visible on the side. A "curtain" of blue-green light emanates from the underside. After about two minutes, the green light retracts into the base of the object. The object then tilts to an angle of about 80° and moves away without a sound.

Event 788 (6DFC3AA1)

Date: 3/1940
Description: Otto Robert Frisch and Rudolf Peierls, two researchers at the University of Birmingham in England—who ironically have been assigned to investigate nuclear weapons by Australian physicist Mark Oliphant because, as enemy aliens in Britain, they are ineligible to participate in secret war work—issue the Frisch-Peierls memorandum. It contradicts the common thinking of the time that many tons of uranium would be needed to make a bomb, requiring delivery by ship. The calculation in the memorandum shows that a bomb might be possible using as little as 1–10 kilograms of pure uranium-235, which would be quite practical for aircraft to carry.

Description: Physicist and his wife north of Bakersfield, California watch a long slender UFO traveling at 50mph, 200–300 feet altitude
Type: UFO sighting
Reference: link
Location: Bakersfield, CA
Source: Maj2

Event 802 (0383A7AA)

Date: 1941
Description: A physicist and his wife are traveling notrh on US Highway 99 north of Bakersfield, California, and pull off to the side to watch a long, slender object of a blazing red, green, and yellow color moving about 8 miles east of them. It is traveling at about 50 mph at an altitude of 200–300 feet and is clearly outlined against the foothills. It seems to be several times longer than a bomber. (“Recent Sightings,” APRO Bulletin, January 1957, p. 5) Early spring — 9:00–9:30 p.m. Rev. William Guy Huffman of the Red Star Baptist Church in Cape Girardeau, Missouri, is summoned to an apparent airplane crash one Saturday. When he arrives at the scene, about 15 miles from town, he finds a weird-looking craft “broken and scattered all around,” but smooth and rounded without edges or seams. A cockpit with a chair facing an instrument panel remains intact. Police officers, military men, and plain-clothes individuals are sifting through the wreckage. He also sees three non-human bodies about 4 feet tall with long arms, oversized heads, and large eyes. He says a prayer for them, and afterward sees someone take a photo of an alien propped up by the arms between two plainclothesmen. The following evening, he is given a copy of the photo by a member of his congregation (thought to be Garland D. Fronabarger), but he loans it later to someone who never returns it. Huffman’s wife Floy reveals the story to her granddaughter, Charlette Mann, on her deathbed in 1984, who relates the story to ufologist Leonard Stringfield.

Event 825 (0260F937)

Date: 2/24/1942

End date: 2/25/1942
Description: The Battle of Los Angeles takes place, a rumored enemy attack and subsequent anti-aircraft barrage over Los Angeles, California. Air raid sirens sound throughout Los Angeles County on the night of February 24. A total blackout is ordered, and thousands of air raid wardens are summoned to their positions. At 3:16 a.m., the 37th Coast Artillery Brigade begins firing .50 caliber machine guns and 12.8-pound anti-aircraft shells into the air at reported aircraft; more than 1,400 shells are eventually fired. Pilots of the 4th Interceptor Command are alerted, but their aircraft remain grounded. The artillery fire continues sporadically until 4:14 a.m. The "all clear" is sounded and the blackout order lifted at 7:21 a.m. Several buildings and vehicles are damaged by shell fragments, and five civilians die as an indirect result of the anti-aircraft fire. Three are killed in car accidents in the ensuing chaos and two die of heart attacks attributed to the stress of the hour-long action. The incident is front-page news along the Pacific coast and earns some mass media coverage. Within hours of the end of the air raid, Secretary of the Navy Frank Knox holds a press conference, saying the entire incident was a false alarm due to anxiety and "war nerves." Knox's comments are followed by statements from the Army on February 26 that reflect General George C. Marshall's belief that the incident was caused by commercial airplanes used as a psychological warfare campaign to generate panic. Some contemporary press outlets suspect a cover-up. Rep. Leland M. Ford (R-Calif.) calls for a congressional investigation, saying, "none of the explanations so far offered removed the episode from the category of 'complete mystification' … this was either a practice raid, or a raid to throw a scare into 2,000,000 people, or a mistaken identity raid, or a raid to lay a political foundation to take away Southern California's war industries." The Japanese government, after the war ended, declares that they had flown no airplanes over Los Angeles during the war. In 1983, the US Office of Air Force History attributes the event to a case of "war nerves" triggered by a lost weather balloon and exacerbated by stray flares and shell bursts from adjoining batteries. A number of fake documents about this incident have been circulated by Timothy S. Cooper.

Event 827 (D99105DF)

Date: 2/25/1942
Description: At around 2:30 a.m. on this night in Los Angeles County, California a formation of 6-9 luminous white balls of light flying in a triangular formation flew in from the northwest, moving very slowly. They also appeared as

steady radar blips coming in from the sea. As they flew over aircraft factories and this was shortly after the United States entry into World War II, widespread panic resulted, and five people were killed by the anti-aircraft fire hitting the ground and in subsequent traffic accidents. In the evening in Santa Monica, California a white disc was sighted hovering high in the sky.

Event 843 (2D0C9265)

Date: summer 1942
Description: 5:50 p.m. An RAAF pilot is on flying patrol off the Tasman Peninsula, Tasmania, following reports by fishermen of strange lights on the waters of Bass Strait. A "singular airfoil of glistening bronze color" appears out of a cloudbank. It's about 150 feet long, 50 feet in diameter, and has a dome on top. It accompanies his plane for a few minutes before departing at "a hell of a pace." It turns again and dives into the ocean, throwing up a "whirlpool of waves." (Bill Chalker, "Australian A.F. UFO Report Files," APRO Bulletin 30, no. 10 (October 1982): 6–7) Late summer — Pvt. Albert Lancashire, 27, is standing guard at Cresswell radar station near Newbiggin-by-the-Sea, Northumberland, England, when he sees a cloud-enshrouded light approaching from the North Sea. As it descends, he is drawn up into it by a beam. Small men grab him and carry him into the craft, where he sees other human figures of normal height, including an apparent captain with dark hair and goggles. He is made to lie down on a couch or table. He has only vague memories of what happens next, but he thinks a medical exam is performed. He wakes up back at his sentry post.

Event 844 (4CF60FEC)

Date: 6/25/1942
Alternate date: 3/25/1942
Description: Midnight. Flight Lt. Roman (Ray) Sabiński of the 301 Polish Bomber Squadron is flying an RAF Wellington bomber after returning from a run on the Ruhr Valley, Germany; he sees a bright copper-colored light the "size of the moon" following the aircraft over the Zuiderzee in Holland. When it gets within 200 yards, the rear gunner shoots at it with all four machine guns. After two minutes, it moves at terrific speed to the port side, and the front gunner starts firing at it. Sabiński takes evasive action, but the object keeps pacing him. Finally, it moves in front of the bomber, stays there a while, then takes off at fantastic speed.

Event 846 (3CC986BE)

Date: 8/5/1942
Description: Early morning. The Navy destroyer USS Helm is on its way to the Solomon Islands in preparation for the Guadalcanal landings. A radio blackout is in effect. An aircraft approaches, a full alert is sounded, and three cruisers (Vincennes, Quincy, Astoria) and seven other ships open fire on it. The object is not hit and proceeds to circle around the fleet. An anonymous sailor on security detail on the Helm watches it through binoculars and sees it as 90 feet in diameter, oval, with a round dome on top. The ships continue to fire on the UFO, which attains extremely high speeds. Commanding Officer Chester Edward Carroll later hears that the aircraft is neither German nor Japanese.

Event 858 (AB16805D)

Date: late 1942 (approximate)
Description: According to records released in August 2010, Prime Minister Winston Churchill supposedly classifies for 50 years an alleged UFO incident because of fears it could create mass panic. The incident allegedly involves an RAF reconnaissance plane returning from a mission in Europe. The aircraft is over or near the English coastline when it is allegedly intercepted by a strange metallic object that matches the aircraft's course and speed for a time before shooting away. The plane's crew photograph the object, which "hovered noiselessly" near the aircraft before moving off. According to the documents, details of the cover-up emerge when a man writes to the government in 1999 seeking to find out more about the incident. He describes how his grandfather, who served with the RAF, was present when Churchill and Gen. Dwight Eisenhower discussed how to deal with the encounter. However, the evidence is hearsay and somewhat questionable.

Event 864 (FFF30023)

Date: 12/1942
Alternate date: 1/1943
Description: THEY FOLLOW THE LEADER - Mrs. A.M. Strickler, while out walking between 9 and 10pm, sighted in the sky over the Susquehanna Bridge, on Route 30, a string of highly illuminated objects which, she says she can best describe as being similar to a train of passenger coaches, seeming to weave in and out in a highly specialized follow-the-leader pattern. Illumination seemed to emanate from an endless string of portholes which were arranged on a straight line or plane and were yellowish like an incandescent bulb. The objects were cigar-shaped, but could have been one side of a flat, saucer-shaped form. Each "coach" was identical in size and shape except the first, which was larger, brighter and seemed to have a proboscis-shaped appendage in front like a figure head. The objects traveled extremely fast, emitting no noise, jet exhaust, or flame.

Event 865 (2F9A7580)

Date: 12/1942
Description: 8:00 p.m. RAAF Lt. Bruce Clyde Lumsden is flying a Hawker Hurricane heading for the French coast. About 7,000 feet over the mouth of the River Somme, France, he observes two orange lights climbing, one slightly above the other. He completes a full turn, putting the lights behind him on the port side. They now appear brighter and larger. When they reach his altitude, they stop climbing and stay at his altitude. He makes another full turn, but the objects stay with him. Lumsden dives to 4,000 feet, but the lights match his maneuvers. He increases his speed to 260 mph and gradually leaves them behind. His squadron mates do not believe him, but the next night another squadron member has a similar encounter with a green light.

Event 870 (B91C1B33)

Date: 1943
Description: SAUCERS GIVE NAVAL GUNS THE BRUSHOFF - In conversing with a former Navy man who is presently a radio technician for the Santa Fe railroad, he related that sometime in 1943 while he was stationed at San Diego and assigned to a gun crew on a naval destroyer they were alerted to their stations. Shortly five saucers (such as those pictured by George Adamski) appeared over the ship and hovered. Orders were given to fire upon them. He asserted that they could see the tracers and shells heading directly toward the saucers. The shells either exploded or disintegrated before reaching the objects. This attack continued for 10 minutes but nothing affected them. At the approach of naval planes the saucers disappeared.

Event 883 (59733403)

Date: 4/9/1943
Description: 5:00 p.m. Kazimierz Bzowski and other resistance fighters are monitoring a fire in the Warsaw Ghetto in Poland. They notice a flying object approaching them at about 60 mph. Through binoculars it appears to be a sphere colored with tangled strips of both raspberry and blue-green colors. Bzowski estimates it is at an elevation of 200 feet and is about 25 feet in diameter. They observe German and Lithuanian snipers on Bonifraterska street shooting at it, although the bullets seem to pass through it. The object alters course and heads toward Old Town, then stops dead and shoots away at great speed.

Event 898 (CE277093)

Date: 7/18/1943
Description: A French prisoner in a German labor camp near Gdynia, Poland, is walking to work along the Baltic Sea when he sees a flat, metallic object embedded in the sand. A human figure is standing next to it, apparently trying to dig it up. When he passes by, the figure, apparently an Asian woman with long blonde hair and dressed in a tight- fitting overall, turns in his direction. The witness assumes she is the famous German aviator Hanna Reitsch and helps her dig the experimental aircraft out of the sand. The object is 20 feet in diameter and looks like two metallic saucers put together. The woman touches the witness's chest with her hand and points to the sky. She touches her belt and a door in the object opens. She crawls inside, the door closes, and the object ascends and departs at a tremendous speed.

Event 903 (445AF5D6)

Date: 9/6/1943
Description: 9:50 a.m. During an aerial fight over Stuttgart, Germany, the crews of two aircraft of the 384th Bomb Group, commanded by Capt. Raymond P. Ketelson, observe two round objects "resembling silvery discs" floating downward through the aircraft formation. One hits the wing of a B-17 bomber, setting it on fire. The bomber does not return from the mission. (Strange Company 43) Autumn — A Polish bomber unit based in England claims that silver-blue balls of fire appeared near their wing on six missions when they raided the Nazi V-1 weapons plant in Peenemünde, Germany. RAF intelligence officer Michael Bentine debriefs them later and asks, "But what did it do to you?" They reply, "Nothing." Bentine points out, "Well it was not a very effective weapon, was it?"

Event 907 (37B5699C)

Date: 10/14/1943
Description: Night. A group of B-17s from the 384th Bombardment Group are returning from a mission over Germany when they see a cluster of silver-colored discs in the path of their formation and closing with the bombers. The crews talk back and forth, discussing and confirming the sight before them. They describe the objects as "about one inch thick and three inches in diameter…gliding down slowly in a very uniform cluster." One of the bombers goes directly through the cluster "with absolutely no effect on engines or plane surface," even though one is heard to strike the tail assembly. A mass of black debris about 3-4 feet long is also observed.

Event 908 (EE73B27A)

Date: 11/1943
Description: Ray Palmer publishes an article, "An Ancient Language?" on the language of Mantong in the January 1944 issue of Amazing Stories and enters into correspondence with Richard S. Shaver, who responds with a 10,000- word document titled "A Warning to Future Man." Shaver writes of advanced prehistoric races who built underground cities before abandoning Earth for another planet because of damaging radiation from the Sun. Those ancients also abandoned some of their own offspring here, a minority of whom remained noble and human "Teros," while most degenerate over time into a population of mentally impaired sadists known as "Deros"— short for "detrimental robots." Shaver's robots are not mechanical constructs, but robot-like due to their savage behavior. These Deros still live in the cave cities, according to Shaver, kidnapping surface-dwelling people by the thousands for meat or torture. Deros can be blamed for nearly all misfortunes, from minor "accidental" injuries or illnesses to airplane crashes and catastrophic natural disasters. Though generally confined to their caves, the Deros sometimes travel in spaceships or rockets, and have dealings with equally evil extraterrestrials. Shaver claims to possess first-hand knowledge of the Deros and their caves, insisting he had been their prisoner for several years. The article stirs considerable reader interest, and the pages of Amazing Stories are soon filled with stories and articles about the "Shaver mystery."

Event 912 (DC467B86)

Date: 12/2/1943
Description: Night. Some 105 German Junkers Ju 888 bombers attack the port of Bari, Italy, a key supply center for Allied forces. 28 Allied ships are sunk, including the US Liberty ship SS John Harvey, which is carrying mustard gas intended for retaliation in case German forces use chemical warfare. Liquid sulfur mustard from the bombs spills into waters already contaminated by oil from the other damaged vessels. The many sailors who abandoned their ships into the water become covered with the oily mixture. The wounded are pulled from the water and sent to medical facilities whose personnel are unaware of the mustard gas. Medical staff focus on personnel with blast or fire injuries. Within a day, the first symptoms of mustard poisoning appear in 628 patients and medical staff, including blindness and chemical burns. That puzzling development is further complicated by the arrival of hundreds of Italian civilians also seeking treatment, who have been poisoned by a cloud of sulfur mustard vapor that blows over the city when some of John Harvey's cargo exploded. As the medical crisis worsens, little information is available about what is causing the

symptoms, because US military command want to keep the presence of chemical munitions secret from the Germans. By the end of the month, 83 of the 628 hospitalized military victims have died. The number of civilian casualties, thought to have been even greater, cannot be accurately gauged since most have left the city to seek shelter with relatives.

Event 927 (974871EC)

Date: 2/20/1944
Description: 2:30 a.m. Two guards of the 3rd Marine Division on Guadalcanal in the Solomon Islands see what they first assume are the headlight beams of a truck coming from a swamp about three-quarters of a mile from their position. It moves laterally about 50 feet and they see it is a circular light about 50–60 feet long and 20 feet high. It then rises into the air about 25 feet and heads in the direction of the guards at about 45 mph. It makes a 45° turn and passes about 100 feet above the trees of a coconut grove. Several days later, a 200-foot cut in the reeds is discovered in the approximate spot where the light originated.

Event 928 (B2466175)

Date: 2/23/1944
Description: Brig. Gen. George C. McDonald is appointed assistant chief of staff for intelligence for the newly created US Strategic Air Forces in Europe. "Many months preceding the collapse of Germany, McDonald recognized the imperative need for the creation of a new type of intelligence activity to investigate and exploit air intelligence objectives in Germany and liberated countries. This unique system was established and consisted of a great number of highly qualified technical and scientific personnel to exploit all the worldwide aeronautical research developments of Germany. This resulted in the collection of priority intelligence information of value in the prosecution of the war against Japan; technical and non-technical information of immediate operational significance and value; as well as a substantial portion of important documents and personnel of the German Air Ministry that enabled the US Army Air Forces to undertake long-range research with respect to many valuable- phases of air doctrine, research, employment, organization, procedure, and plans of the German air force." Among the personalities involved in the operation are some who will become involved in UFO investigations in the future: Col. John A. O'Mara, Col. Howard H. McCoy, Col. Harold E. Watson, and Col. Malcolm D. Seashore.

Event 932 (3371EC9F)

Date: spring 1944
Alternate date: 1945
Description: Two grammar school teachers are driving in the mountains near Auberry, California, when their car stalls and they see a cigar-shaped object with lighted portholes along the side hovering in a nearby ravine. They watch it for several minutes until it begins moving slowly out of the ravine, ascends, and shoots away to the west at a tremendous speed. The car engine remains stalled for a while, then starts by itself.

Event 933 (8B79ED23)

Date: 4/1944
Description: Late afternoon. Near the Eastern front in western Slovakia, a man is standing on a hill near his home when he sees a dark round object moving at high speed to his right for less than one minute. It moves at a steady speed and is followed by another object about 20 seconds later. As many as 6 others appear, and five are visible at one time, each beginning as a pinpoint of light, growing bigger, then decreasing back to a pinpoint. The display lasts for about 5 minutes.

Event 961 (3DE9B012)

Date: late 8/1944
Description: 4:20 p.m. A nurse, Mrs. E. M. Church, on her way to a tram station in Christchurch, New Zealand, sees an object like an "upturned saucer" resting on the ground near the road. It seems to be 20 feet across and 9 feet high. Two beings, not quite 4 feet tall, are inside, visible through a rectangular window. A third stands motionless, just outside an open door. All three seem to be looking toward the lights of a nearby fairground. The nurse cannot decide if their skin color is green or they are dressed in green, but all are encased in a transparent oblong box. The head takes up half of their bodies and there are no apparent legs or arms. She inadvertently makes a noise, and the outside figure notices her. Its helmet flips over automatically, and it drifts inside the object, which rises up and disappears in the clouds.

Event 970 (6F7C3DA0)

Date: 9/7/1944
Description: First V-2 rocket attacks begin. Two launched at Paris. V-2's speed and trajectory made it practically invulnerable to anti-aircraft guns and fighters, as it dropped from an altitude of 100–110 km (62–68 mi) at up to three times the speed of sound at sea level (approximately 3550 km/h). The British government, concerned about spreading panic or giving away vital intelligence to German forces, initially attempted to conceal the cause of the explosions by making no official announcement, and euphemistically blaming them on defective gas mains. The public did not believe this explanation and therefore began referring to the V-2s as "flying gas mains".

Event 977 (6A1F8886)

Date: 10/28/1944
Description: Physicist David T. Griggs, a civilian adviser on radar to the War Department, is asked by Gen. Henry H. "Hap" Arnold to look into incidents of unusual aerial phenomena in Europe and interview pilots. He later moves his investigation to the Pacific Theater. His report to Arnold at the end of the war has never been located. He was interviewed by James E. McDonald on April 10, 1969.

Event 978 (5E869C81)

Date: 10/30/1944
Description: Late night. RAF Flight Engineer Maurice Juberley of the 640 Squadron is returning from a bombing mission over Köln, Germany. His Halifax III is flying at 19,000 feet above the clouds when the rear gunner reports a ball of orange fire closing in on them. He orders an evasive maneuver and loses the light.

Event 979 (F68CF85D)

Date: early 11/1944
Description: Night. Lieut. Col. Oris B. Johnson's 422d Night Fighter Squadron, equipped with P-61 Black Widow fighters, reports seeing 15–20 mystery objects every night over Germany, either alone or in formations of four. Johnson says he could accept that the reports are rocket planes or night fighter jets.

Event 980 (47C0ED66)

Date: 11/3/1944
Description: The Japanese Army launches the first of some 9,300 Fu-Go bomb-bearing fire balloons intended to land in North America to instill fear and terror. About 300 are found or seen in America. It is likely that more of them land in unpopulated areas. On November 4, a US Navy patrol craft discovers one of the first Fu-Go balloons floating off San Pedro, Los Angeles, California. National and state agencies are placed on heightened alert status when balloons are found in Wyoming and Montana before the end of the month.

Event 984 (C23634CF)

Date: 11/16/1944
Description: 11:55 p.m. Lt. J. L. Besmond, officer of the day on the USS Gilliam, enroute from Oro Bay, Papua New Guinea, to Leyte Gulf, Philippines, observes an unusual object at a distance of 21 miles. Fire Control Officer P. Kendall Bruce describes it as a bright green globe that rises from behind the ship and moves in a "perfect parabola at great

speed, finally disappearing behind the horizon to the north."

Event 986 (EAD9681C)

Date: 11/24/1944
Description: Capt. William D. Leet's B-17 crew (part of the 2nd Bombardment Group, 5th Wing of the Fifteenth Air Force) is returning from bombing a target at Klagenfurt, Austria. While flying over northeastern Italy near Trieste, Leet notices a blinding light and feels an intense heat. It goes away quickly, but seconds later he sees a "round amber light" sitting off the left wingtip of the B-17. It is bright and perfectly circular. Leet orders the gunners not to shoot at it. Sgt. Harris, the upper gunner, thinks it is 10 feet in diameter and 150–300 feet away. The object stays with them over the Adriatic Sea for 50 minutes, until it "just turned off" like a light bulb.

Event 989 (3405068C)

Date: 11/29/1944
Description: Night. A Bristol Beaufighter crew (pilot Lieut. Edward A. Schlueter and radar observer Lieut. Donald J. Meiers of the 415th Night Fighter Squadron, and intelligence officer Capt. Fred B. Ringwald as observer) is on a bombing mission and flying above the Rhine River north of Strasbourg, Bas-Rhin, France. They see "eight to 10 bright orange lights off the left wing…flying through the air at high speed." Neither the airborne radar nor ground control registers anything nearby. Schlueter and Meiers also see red lights on November 26 above Mannheim, Germany.

Event 992 (A74C0089)

Date: 12/14/1944
End date: 12/28/1944
Description: Numerous balls of light are reported by the Night Fighter Squadrons during bombing raids over Germany. Pilot and operations officer Charlie Horne of the 415th Night Fighter Squadron suggests calling the objects "foo fighters," a name gleaned from the men's favorite comic strip, "Smokey Stover" by cartoonist Bill Holman. The comic follows the escapades of a madcap fire fighter who calls his fire truck the "Foomobile." Smokey Stover often states, "where there's foo, there's fire."

Event 994 (F9D14D95)

Date: 12/23/1944
Description: Night. Navy Lt. George Arents III and copilot Lt. Elon Forster are flying a military DC-3 at 9,000 feet between Blackstone and Richmond, Virginia, when they notice a cigar-shaped object hovering below them at about 4,000 feet. It appears to be 200 feet long and has two horizontal rows of blue-lighted windows and a flaming exhaust coming out of its tail. (Jan Aldrich) Late December through February 1945 — Radar operators at Naval Air Station Pasco, Washington, report unusual blips that appear out of nowhere and proceed from northwest to southeast. A Grumman F6F Hellcat fighter is scrambled on at least two occasions with orders to shoot down anything that appears to be hostile, but nothing is seen. In another incident, Lt. JG Clarence R. Clem accompanies Lt. Commander Richard Brown and Ensign C. T. Neal to a waiting aircraft and Brown takes off in pursuit of a ball of fire that quickly leaves him behind as it speeds off to the northwest and is lost to radar. On another occasion, naval officer R. W. Hendershot, flying an SNJ aircraft, is asked by ground radar to make contact with two high-altitude blips flying at the speed of a single-engine Piper Cub. Though he can see nothing, he is convinced the blips are real.

Event 1000 (986301D4)

Date: 1/1945
Description: Ray Palmer edits, rewrites, and publishes Richard S. Shaver's description of the cave-dwelling Dero for the March 1945 issue of Amazing Stories under the title "I Remember Lemuria." The issue sells out and generates quite a response. Between 1945 and 1949, many letters arrive attesting to the truth of Shaver's claims (tens of thousands of letters, according to Palmer). The correspondents claim that they, too, have heard strange voices or encountered denizens of the Hollow Earth.

Event 1013 (A16C2D50)

Date: 2/2/1945
Description: The first flight of the H.IX V2 is made in Oranienburg, Germany. All subsequent test flights and development are done by Gothaer Waggonfabrik in Gotha. By this time, the Horten brothers are working on a turbojet-powered design for the Amerika Bomber contract competition and do not attend the first test flight. The test pilot is Leutnant Erwin Ziller. Two further test flights are made in February. There are reports that during one of these test flights, the H.IX V2 undertook a simulated dogfight with a Messerschmitt Me 262, the first operational jet fighter, and that the H.IX V2 outperformed the Me 262. However, the Me 262 is considered by many as unsuitable for fighter missions, being slow in turning.

Event 1015 (4DE3F439)

Date: 2/10/1945
Description: The Chicago Tribune and Washington Times-Herald reveal Bill Donovan's plans for a postwar intelligence agency and publishes a secret memo he has sent to Roosevelt proposing its creation. The article compares the proposed agency to the Gestapo. Knowing that Americans want a smaller federal government after the war, Roosevelt is not entirely sold on Donovan's proposal, although Donovan feels reasonably confident that he can talk the president into the idea. J. Edgar Hoover disapproves of Donovan's plan, which he sees as a direct threat to FBI authority, even though Donovan has stressed that his agency will operate only abroad, not domestically.

Event 1018 (3B90E9E5)

Date: 2/18/1945
Description: Disaster strikes during the third test flight of the H.IX V2 in Gotha, Germany. Erwin Ziller takes off without any problems to perform a series of flight tests. After about 45 minutes, at an altitude of around 800 meters, one

of the Jumo 004 turbojet engines develops a problem, catches fire and stops. Ziller is seen putting the aircraft into a dive and pulling up several times in an attempt to restart the engine and save the precious prototype. He undertakes a series of four complete turns at a 20° angle. Ziller does not use his radio or eject from the aircraft. He already is unconscious as a result of the fumes from the burning engine. The aircraft crashes just outside the boundary of the airfield. Ziller is thrown from the aircraft on impact and dies from his injuries two weeks later. The prototype aircraft is completely destroyed.

Event 1022 (431BD4F1)

Date: 3/1945
Description: A man is squirrel hunting in a wooded area near Belfast, Maine, when he sees a huge, elongated object just above the trees. He runs after it, thinking it is a dirigible about to crash. The object crashes into the trees at the far edge of a clearing, splitting a huge pine tree down the middle. He smells burned rubber. The object seems to be as big as several B-36 bombers. As he stands there stunned, the lowest end of the craft begins to rise and he hears a humming sound of increasing intensity. After it rises to a horizontal position, it begins to spin faster and faster and the hum becomes very intense. Suddenly one end spews a shower of fine, silvery threads that glint in the sunlight. The object

begins to change to a white metallic color and it takes off straight up at fantastic speed.

Event 1025 (3F75AE7F)

Date: 3/10/1945
Description: A Japanese Fu-Go balloon strikes a high-tension wire on the Bonneville Power Administration in Washington State. The balloon causes sparks and a fireball that results in the power being cut. Coincidentally, the largest consumer of energy on this power grid is the Hanford site of the Manhattan Project, which suddenly loses power. The officer in charge at Hanford, Col. Franklin Matthias, says "it shut down the plant cold, and it took us about three days to get it back up to full power again."

Event 1030 (4ADD4923)

Date: 3/22/1945
Description: 1:00 p.m. The USS New York is off New Guinea preparing to rejoin the Seventh Fleet. Gunner Cpl. Donald Pratt is preparing for a Japanese attack when he sees a shiny silver object hovering directly over the battleship. It remains stationary over the ship for 30 minutes and is tracked on ship radar. Two antiaircraft guns fire on the object, but it does not move or seem affected. Capt. Kemp C. Christian Sr. orders the guns to stop. Immediately the object shoots up and away at a fantastic rate of speed.

Event 1033 (F8A72DFE)

Date: 3/26/1945
Description: During an air operation, Lieut. Calvin P. Lamb (pilot), Lieut. James G. Holmes (radar observer), and Sgt. John W. McIsaac (gunner) notice lights on an airborne object. The lights follow them through a few turns but move away as the crew orbits north of Iwo Jima, Japan. They give chase, obtaining a slight target on the aircraft radar, then the object pulls out of sight. A similar lighted object is again seen March 28 by Lieut. William F. Sill (pilot), Flight Officer George W. Hayden (radar observer), and PFC William Brasvell (gunner).

Event 1037 (97671209)

Date: 4/1945
Description: During operations around Okinawa, Japan, the radar crew on the aircraft carrier USS Independence frequently notices strange radar returns that move at slow speeds (30–70 mph). Aircraft and destroyers sent to search for them never find anything. These radar ghosts are usually detected 25–30 miles away at an altitude of 1,500 feet, but occasionally 3,500 feet. The primary diagnostic for these false returns is their speed. The Navy nicknames them the "ghost of Nansei-shoto" after the Japanese name for the Ryukyu Islands, of which Okinawa is one.

Event 1046 (6E9BCB76)

Date: 4/18/1945

Description: There were two radar-visual UFO reports on this day from the Far East near Iwo Jima. At three o'clock in the morning ground control radar made radar contact with an unknown radar target over the Pacific Ocean at a distance of 18 to 8 miles from the island. The gunner in a P-61B "Black Widow" aircraft attached to the 549th NFS squadron saw a yellow, star-like light approach and lose altitude. Radar contact was then lost. The gunner saw a second light, but no radar contact was made with it. At 4:15 a.m. Ground control again made radar contact with a target. The gunner of a P-61B plane saw a reddish, round light. Contact on the radar screen showed two blips engaging in evasive action, which soon outdistanced the P-61, one of the fastest propeller driven aircraft of its time.

Event 1050 (B9CAF60F)

Date: 4/25/1945
Description: 9:45 a.m. Acting Squadron Leader Kit Francis Williams of the RAF 617 Bomber Squadron is flying a Lancaster with 25 other aircraft to bomb Hitler's headquarters at Berchtesgaden, Germany, in the Bavarian Alps. Just after a turn near Kaiserslautern, Germany, at 16,500 feet, Williams witnesses an object like a large woolly blanket that takes up his entire windshield. He thinks it could be as much as 4–5 miles wide. It moves vertically and is gone in an

instant. Suddenly his aircraft loses its electrical power and loses one of its bombs. He and his bomber and engineer get severe headaches. They return to base in England after regaining power.

Event 1060 (499B6068)

Date: summer 1945
Description: After 5:00 p.m. Future ufologist Ann Druffel is on a bus returning from her summer job in Long Beach, California, when she sees out of the left-hand window a bright, stationary, yellowish-white light in the northeastern sky. It looks like Venus but has a yellow color. She gets off the bus and still watches it, walking home. Soon she sees it is moving slowly to the northwest. She gets her mother to view it as well. Druffel thinks it is too high to be a coastal defense balloon. Druffel watches it for 90 minutes, after which it takes on some "activity." Some 10–15 pieces of light begin separating from it, fading from view after moving several diameters away from the large object.

Event 1065 (E67905C8)

Date: 7/1945
Description: The 9th Bombardment Group on Tinian in the Northern Marianas: "During our night missions in June and July a UFO phenomenon was reported. Our air crews started sighting balls of fire, i.e., glowing objects about the size of a full moon which flew around in the vicinity of our flying patterns over Japan. One of our crews reported that one of the objects followed their airplane halfway to Iwo Jima. I saw them on two missions. I don't remember any reports of any hostile action by these objects and the reports of sightings stopped after a couple of months. The object of these reports was dismissed by some experts as the planet Venus. And, after these reports started coming in, some crews did mistake the rising full moon as one of these balls of fire. Some reports speculated that these balls of fire were exhausts from a Japanese development called a Baka Bomb, but exhaust flames can only be seen from the rear; and these objects appeared to have the same size and intensity in whatever direction they were traveling. I have never heard of any official assessment as to what these objects were. I had an occasion to ask General LeMay about them several years after the war and he had no explanation. I am sure that what I saw was neither Venus nor the moon nor a Baka Bomb."

Event 1076 (D2776CD2)

Date: 8/1945
Description: 5:00 a.m. Ilona Johansson-Paasonen, staying in a sauna along lake Längelmävesi, Finland, wakes up and sees a 35-foot dazzling ball of fire streaking in her direction along the opposite shore. She throws herself to the floor,

but when nothing happens she looks outside and sees a big dog, frozen in terror, its gaze fixed on the lake and a dark log-like object, 6 feet long, gliding through the water with a tall, slender man at the prow. He is dressed in a green coverall. On the other side another man sits steering an engine enclosed within a big glass bulb.

Event 1077 (E84BB529)

Date: 8/6/1945
Description: 8:15 a.m. An atomic bomb (a fission weapon containing 64 kilograms of Uranium-235, Little Boy) is detonated 1,900 feet above Hiroshima, Japan, by the Enola Gay. The weapon is considered very inefficient, with only 1.7% of its material fissioning, but it is enough to obliterate the city. Some 78,000 people die instantly or immediately afterward in the firestorm. By the end of the year, another 25,000 will also sicken and die from radiation exposure.

Event 1085 (83DBBAF9)

Date: 8/21/1945
Description: Manhattan Project physicist Harry Daghlian is conducting an after-hours experiment at the remote Omega Site of the Los Alamos Laboratory in New Mexico when his hand slips. The test assembly he has built—a ball of plutonium surrounded by tungsten carbide bricks—goes critical. He sees a momentary blue flash and is struck by a wave of gamma and neutron radiation amounting to more than 500 rem. He disassembles the experiment, walks away, and admits himself to medical care. He falls into a coma and dies on September 15, the first person to die accidentally from close exposure to nuclear fission.

Event 1091 (3C6C7B6A)

Date: 9/1945
Description: The US Army atomic bomb production unit, Z Division, named for its director, Jerrold R. Zacharias from Los Alamos, New Mexico, moves to Oxnard Field, New Mexico, from Wendover Field [now Airport], Utah, to be closer to Los Alamos. This marks the beginning of Sandia Base [now part of Kirtland AFB]. Nearby Kirtland Field is used as a B-29 base for aircraft compatibility and drop tests. By October, all the staff and facilities at Wendover are transferred to Sandia. As reservist officers are demobilized, they are replaced by about 50 hand- picked regular officers.

Event 1104 (91ADF844)

Date: 12/5/1945
Description: A training flight (Flight 19) of five TBM Avenger torpedo bombers disappears while over the Atlantic Ocean. The squadron's flight plan is scheduled to take them due east from Fort Lauderdale, Florida, for 141 miles, north for 73 miles, and then back over a final 140-mile leg to complete the exercise. The flight never returns to base. A report by Navy investigators concludes that flight leader Lt. Charles C. Taylor mistook small islands offshore for the Florida Keys after his compasses stopped working, resulting in the flight heading over open sea and away from land. The report is later amended by the Navy to read "cause unknown" to avoid blaming Taylor for the loss of five aircraft and 14 men. One of the search-and-rescue aircraft deployed to look for them, a PBM Mariner with a 13-man crew, also disappears. The report attributes the loss of the PBM aircraft to an explosion in midair while searching for the flight. According to contemporaneous sources, the Mariner has a history of explosions due to vapor leaks when heavily loaded with fuel, as it might have been for a potentially long search-and-rescue operation. A tanker off the coast of Florida sees an explosion and a widespread oil slick when fruitlessly searching for survivors. The weather is becoming stormy by the end of the incident. None of the Avenger bombers have been found.

Event 1115 (503FD69F)

Date: 1946
Description: A farmer named Gunyon in Westerham, Kent, England, calls the British Technical Intelligence staff asking that the Air Ministry come and remove one of these "darned contraptions" which has fallen on his farm. The intelligence officers ask for directions and are told to drive from Croydon to Westerham, turning onto a lane when they reach a pub called The White Dog. Amid great security, two staff cars are dispatched, but fail to find the farm. They locate a pub called The White Hart and a farmer named Bunyan, who strenuously denies having made the call. Although the incident appears to be a hoax, few people can reach the Technical Intelligence staff and convince them to make a field visit. Indeed, the intelligence officers believe that former Air Intelligence scientist Reginald Victor Jones, who has been skeptical of foo fighters and ghost rockets, is behind the affair. Jones writes that a signal is received from Gen. Douglas MacArthur's staff in Tokyo, asking for confirmation of a report that a Russian flying bomb had recently crashed in England. The other Director of Intelligence on the Air Staff, Air Commodore Roland Eugene Vintras, suggests to Jones that this might tie in with the "Westerham Incident."

Event 1124 (1088081B)

Date: 3/5/1946
Description: Sr. Joao Prestes Filho, age 40, had anticipated an uneventful day of fishing in Aracariguama, Sao Paulo State, Brazil but he returned home at 7:30 p.m., terrified by his encounter with a beam of light that came from the sky and struck him without warning nor any noise. He went into his house saying that he had been hit by a silent beam of light, which stunned him and knocked him to the ground. A little while later his flesh looked like it had been cooked, as

if it had been exposed to intense microwave energy, and started a rapid deterioration. He died from the effects.

Event 1127 (A151A25E)

Date: 3/14/1946
Description: Dusk. Paul Cummings Jr. is driving east on US Highway 136 about 10 miles east of Havana, Illinois, with Douglas Gowdy. A bright orange ball appears in the road about 1 mile ahead, gliding down the highway only one foot above the pavement and possibly touching both shoulders of the road. When it is within 2,000 feet, Cummings pulls the car over and stops, and they rush out to lie down in a ditch, fearing an explosion. When they look up again, the object is nowhere in sight.

Event 1130 (6AE1A727)

Date: 4/1946
Alternate date: 5/1946
Description: Around 12:00 noon. Richard R. Hill and Stanley Ogdrzyiak are driving in an open convertible on the Country Club Road near Lafayette, New York. Suddenly they see a gleaming, metallic, cigar-shaped object in the sky. It remains motionless at 5,000–10,000 feet altitude, which at that height would make it 300–400 feet long. After 2 minutes, it disappears instantaneously.

Event 1141 (011B1968)

Date: 5/18/1946
Description: 10:45 p.m. Gösta Carlsson, later to become founder and owner of Cernelle AB, is walking in the forested area of Kronoskagen near Ängelholm, Sweden, when he sees a disc-shaped machine more than 50 feet in diameter. On the top is a cupola with oval windows, and beneath it are an oblong "fan," two legs, a small ladder, and openings. A man dressed in a white, one-piece outfit gestures to Carlsson to stop. Two other occupants, three of them women, all wearing suits and transparent helmets, are nearby. One of the males points a boxlike device at the witness, who leaves the scene but returns by a different route 30 minutes later, just in time to see the UFO depart. A concrete model of the UFO is dedicated in 1963 as a memorial.

Event 1155 (130B818A)

Date: summer 1946
Description: Late evening. Two women on a walk in Johannesburg, South Africa, see an aerial object hovering 5 feet above the roof of a nearby hotel. It is shaped like a saucer with a round, golden ball in the center, evenly split between the top and bottom sections. They hear a clicking noise, and the ball drops through the saucer until it is level with the roof. More clicks are heard, and the ball rises through and above the saucer 8–9 feet. In the space between the ball and the disc the witnesses see two figures larger than normal height (7 feet), fair-complexioned and broad-shouldered, with short wavy hair. They are wearing white uniforms with stiff collars and stand motionless until the object floats away and is lost to view.

Event 1160 (C95253A3)

Date: 7/1946
Description: Amazing Stories publishes four short articles in its September 1945 issue by William C. Hefferlin, each describing a wonderful new invention that has come to the author, according to editor Ray Palmer, “from Tibet by mental telepathy.” One of the inventions is a “circle-winged airplane.” In later issues, Hefferlin and his wife Gladys go on to describe the Rainbow City, an underground Martian city beneath Antarctica where the flying saucers originate.

Event 1164 (A4D77572)

Date: 7/3/1946
Description: The Joint Research and Development Board is established. Essentially it is Vannevar Bush's existing cadre of brain trust from the still active Office of Scientific Research and the postwar Joint New Weapons Committee. Added to this are other reconstituted R&D committees and advisers like Lloyd Berkner of the Carnegie Institution of Washington. The original founding members are physicist Alfred Lee Loomis, biologist Caryl Parker Haskins, physicist Luis Walter Alvarez, physicist William Shockley, and George Doriot. Two military representatives each from the Army, Navy, and Air Force complete the board's membership. Counting Bush, this makes a board of 12.

Event 1180 (920DCF9B)

Date: 7/10/1946
Description: A brilliantly glowing projectile trailing luminous smoke crashes into a beach near Norrvikssand, Sweden. Airline pilot Torvald Linden and other witnesses find a shallow crater a little more than 3 feet in diameter. A mass of slag-like material, some of it reduced to powder (which burns the hands when touched) is found at the site and collected into bags. A journalist from Svenska Dagbladet on July 11 finds a "burnt-brown object with a hollow cylinder" with a diameter of about 1–2 inches. Military authorities take over the site. The debris is taken to Dr. B. Backlund at a laboratory in Kubikenborg, who finds it contains paper with microscopic black-and-white squares like a screen. Some porous, rust-colored fragments are also present. The same day, the beach is visited by Lt. Col. Rudberg, Capt. C. Ljungdahl, and Capt. R. Westlin, who conclude that the material has been in the area for a long time.

Event 1190 (94C983A8)

Date: 7/18/1946
Description: 12:00 noon. Sigvat Skaug and his son, who live along Lake Mjøsa in southeastern Norway, and his sister Åse Tandberg watch two rocket-like objects about 7 feet long pass over their heads at a very low altitude. They fall simultaneously into the lake, throwing the water several feet into the air. The objects look like V-1 rockets and come in low from the west at about 150 feet, causing the trees to sway. They fall into the lake about 1.2 miles from the western shore and 4.3 miles from Minnesund.

Event 1193 (B1E6BDD4)

Date: 7/19/1946
Description: 11:45 a.m. Many witnesses see a gray, winged rocket crash into Lake Kölmjärv, Sweden, with a loud bang close to the southwest bank. Knut Lindbäck says it generates a high plume of water when it hits the surface, "followed by another cascade as if something had detonated." Water lilies and other aquatic plants are torn up and thrown on the shore. Lieut. Karl-Gösta Bartoll from the Boden engineer corps arrives the next day to supervise the salvage operation. Engineers Roland Rynniger and lab technician Torsten Wilner from the Defense Research Department also arrive with a Geiger counter. A three-week search turns up no traces of metal, even though the evidence points to an underwater explosion.

Event 1211 (FEEA3E58)

Date: 8/1/1946
Description: President Truman signs the Atomic Energy Act, transferring the control of atomic energy from military to civilian hands, effective on January 1, 1947. It categorizes information on atomic energy as "born classified," even if it is not created by any US government agency. "Restricted Data" is not a level of classification; rather, a document can be classified as Confidential, Secret, or Top Secret, while also containing Restricted Data. In addition, a document containing Restricted Data can also contain Critical Nuclear Weapon Design Information. In this way, a document can be classified as Secret (S), Secret//Restricted Data (S//RD), or Secret//Restricted Data- Critical Nuclear Weapon Design Information (S//RD-CNWDI), depending on the type of information it contains.

Event 1231 (CD3E2259)

Date: 8/13/1946
Description: The Hungarian report of August 6 causes Maj. Gen. Stephen J. Chamberlin, Army assistant chief of staff for intelligence, to ask Budapest for further information. Top-secret requests are sent to military attachés in London, Stockholm, Oslo, Helsinki, and Copenhagen asking for listings of all ghost rocket reports, as well as V-3 and V-4 missiles. The military attaché in Oslo reports that a Soviet ship in the north Baltic Sea has been transmitting code to shore stations regarding the ghost rockets. The military attaché in Moscow asks other European officials about where the rockets originate and gets several answers, which he forwards on to Chamberlin: Hiiumaa island, Estonia; Latvia; or Peenemünde, Germany. Gen. Joseph T. McNarney of the US Forces in Europe Theater replies that Peenemünde is a likely origin, since the site has been refurbished. The military attaché in Stockholm suspects Hiiumaa, Peenemünde, or Parikkala in Finland, while the naval attaché in Stockholm thinks that Łeba, Poland, is the launch site.

Event 1234 (CF404DFC)

Date: 8/13/1946
Description: Capt. Roscoe H. Hillenkoetter, US naval attaché in Paris, forwards as top secret a report by the French government on ghost rocket activity in Scandinavia. It states that "a good number of these projectiles are of the V- 1 type in the form of a torpedo with two small wings." A map shows them originating in the Leningrad [now St. Petersburg] area, Russia.

Event 1237 (A49F5E9A)

Date: 8/14/1946
Description: 10:02 a.m. Swedish Air Force pilot Lieut. Gunnar Irholm and his signaler, Cpl. Möller, are flying a B-18A bomber at 650 feet 4 miles northeast of Malingsbo in central Sweden when they see a dark cigar-shaped object approaching on their left. It has no visible wings, rudders, lights, flame or projections of any type. It appears to follow the terrain at 370–430 mph, maintaining the same height, then vanishes into a storm cloud.

Event 1239 (1FED2CFA)

Date: 8/15/1946
Description: Night. Several residents of the east side of Waterloo, Iowa, see an object buzzing rapidly around some trees. It gradually ascends, surrounded by a cloud of white vapor, and disappears high in the sky. One person calls it "a great white bird; another, a bomb." Mrs. Russell Lampman says that the object is "6 feet, 3 inches tall, like a large man, and rather rectangular in shape." She and her husband watch it for an hour after it starts hovering about 20– 25 feet above a nearby alley.

Event 1241 (8CDC6019)

Date: 8/16/1946
Description: Col. L. H. Johnson, US naval attaché in Stockholm, transmits a "Top Secret Report R334-46 of 13 August 1946 Subject: SWEDEN Guided Missiles Rocket Sightings Over Sweden." It concludes: "No tangible evidence to date as to nature or origin of rockets reported over Sweden, although Swedish Defense Staff insists that they are rockets."

Event 1244 (C7DFB52E)

Date: 8/19/1946
Description: The US military attaché in Moscow reports on the visit of Maj. Stig Wennerström of the Swedish Air Force, who reveals that radar indicates the ghost rocket launch site is at Peenemünde, Germany. The rockets appear to be radio-controlled, carry no warheads, are self-destructive, and are plotted over a range of 620 miles. Sometimes they follow zigzag courses.

Source ID: 844
Source: EberhartUFOI

Event 1245 (944A94E1)

Date: 8/19/1946
Description: Two US experts on aerial warfare, aviation legend General Jimmy Doolittle and British Group Captain Douglas Bader, and General David Sarnoff, president of RCA, arrive in Stockholm, Sweden, ostensibly on private business, and independently of each other. The official explanation is that Doolittle, who is now vice-president of the Shell Oil Company, is inspecting Shell branch offices in Europe, while Sarnoff, a former member of General Dwight D. Eisenhower's London staff, is studying the market for radio equipment. However, the story indicates that the Chief of the Swedish Defense Staff, Col. C. R. Kempf, makes no secret that he "was extremely interested in asking the two generals advice and, if possible, would place all available reports before them." However, Doolittle denies the correlation to Barry Greenwood in 1984, and researchers have found no evidence to support a collaboration.

Event 1247 (20A6FAEE)

Date: 8/22/1946
Description: V-2 missile test at White Sands Pad 33, 0km altitude (Control failure led to cut-off command at 6.5s)
Type: rocket launch
Reference: link
Location: White Sands Pad 33, White Sands Proving Grounds, NM
Rocket type: V-2
Rocket altitude: 0km
Source: Maj2

Event 1248 (AC6CE0DD)

Date: 8/22/1946
Description: Director of the Central Intelligence Group (CIG) Lt. Gen. Hoyt Vandenberg writes a top secret memo to President Truman via Adm. William D. Leahy, stating that the "weight of evidence" points to Peenemünde (which has become a Soviet naval base), East Germany, as the origin of the ghost rockets, and that a US military attaché in Moscow has been told by a "key Swedish Air Officer" [Wennerström] that radar course-plotting leads to the conclusion that Peenemünde is the launch site. CIG speculates that the missiles are extended-range developments of V-1s being aimed for the Gulf of Bothnia for test purposes and "do not overfly Swedish territory specifically for intimidation; self-destruct by small demolition charge or burning."

Event 1255 (8E783A76)

Date: late 8/1946
Description: Margaret Sprankle, a civilian employee at Tinker AFB near Oklahoma City, Oklahoma, is returning from work when she sees, about 300 feet away, a large, metallic, lens-shaped structure about 75 feet in diameter. On the lower right side are 12–14 square windows; in each, visible from the shoulders up, is a figure. Their heads are very round. The object rotates 90° on its vertical axis and silently flies northwest and disappears in seconds.

Event 1262 (98D9AD4B)

Date: 9/9/1946
Description: The scientific advisor to MI6, English physicist Reginald Victor Jones, considers the ghost rockets a social panic phenomenon. An RAF Intelligence report, "Investigation of Reported Missile Activity over Scandinavia," identifies eight types of ghost rocket sightings: iron cylinder, magnesium-like light, white core surrounded by blue-green, shining ball with tail, torpedo-shape, black object with flame, small rocket, small missile. It takes the daytime reports seriously but concludes are probably only a few genuine reports of actual missiles.

Event 1280 (4F4B3719)

Date: 10/10/1946
Description: 4:00 a.m. Waltraut Anlauf, a telephone operator in Friedland Refugee Camp, Lower Saxony, Germany, sees small, elongated flashes at a great height in the sky. They look like cigars and are luminescent white in front and bluish-white in back. She sees about 10 objects pass per minute. Sometimes there is an interruption of about 10 minutes, and then new groups appear. The sighting lasts one hour. Possibly these are part of the Taurid meteor shower.

Event 1302 (B8EACC83)

Date: 1/16/1947
Description: 11:30 p.m. An RAF Mosquito plane chases an unidentified target detected on radar at RAF Trimley Heath Radar Station [now closed] near Felixstowe, Suffolk, England, moving at a speed calculated to be faster than sound at an altitude of 38,000 feet over the North Sea, 50 miles north of the Netherlands acoast. It descends to 17,000 feet and takes controlled, evasive action. The plane pursues it for 40 minutes, even though the pilot cannot see it visually, until he loses it over the Norfolk coast.

Event 1304 (4F8C2D21)

Date: 1/17/1947
Description: 11:37 p.m. After two unidentified targets similar to yesterday's are reported by RAF Neatishead, northeast of Norwich, England, over the North Sea, another radar track enters the Eastern Sector area, and an RAF Mosquito

piloted by Flight Lt. William Kent is scrambled to 18,000 feet. Kent attempts to close in, but his onboard radar is unable to keep it on track because the target is "jerking violently" and taking evasive action. After 20 minutes, the target descends below 2,000 feet and is lost from ground radar. Unofficially the radar operators give the intruder a name—Charlie—and when the Air Ministry later begins a concerted effort to solve the mystery, its code name is "Operation Charlie."

Event 1313 (D2EA353F)

Date: 2/17/1947
Description: Capt. J. B. Pearson Jr., US naval attaché in London, England, sends an intelligence report to the Chief of Naval Intelligence about his conversation with Col. Westergard, head of the Airplane Design Section for the Swedish Air Ministry. Westergard tells him some 40% of the 1,000 ghost rocket sightings are "reliable." They seem to originate in Peenemünde, Germany, and fly toward Finland. The best observation is from an artillery officer who sees an object in his optical range finder and follows it for about 90 seconds. It is in level flight at 4.5 miles distance and is about 36 feet long and torpedo shaped.

Event 1327 (6EE76A74)

Date: late 4/1947
Alternate date: early 5/1947
Description: 12:05 p.m. Mrs. William Down and Mrs. H. G. Olavick of Tucson, Arizona, see an unusual, fleecy cloud in an otherwise cloudless sky. Moving around it in "yo-yo fashion" are a number of small discs with a dull-white finish. They move up and down and sideways, occasionally disappearing into or behind the cloud. They watch the objects for 5–7 minutes, then all the discs disappear above the cloud, while a larger object emerges from the cloud and moves eastward. Behind it comes a V-formation of nine of the smaller discs, which then climbs at high speed toward the northeast and disappears in 2–3 seconds. The witnesses assume the objects are some new type of aircraft.

Event 1345 (62418B81)

Date: late 5/1947
Description: 11:00 a.m. Colden R. Battey, a physician from Augusta, Georgia, is fishing 10 miles off St. Helena Sound, near Beaufort, South Carolina. He notices a formation of four disc-like objects flying overhead in a southeasterly direction at a terrific rate of speed. The discs appear to be spinning on their axes and are at an estimated altitude of 20,000 feet. They are silvery and appear highly polished, and on their undersides Battey can see a circular rim or projection, about one-quarter of the way from the edges. No sound is heard as they fly overhead. The formation speeds out of view in less than 20 seconds.

Event 1349 (1D012C65)

Date: 5/31/1947
Description: A former military photographer claimed that a UFO, 30-40 feet in diameter and about 15 feet in height, crashed near the area of Socorro, New Mexico and was recovered on this day. One occupant of the craft was killed in the crash, while three others allegedly emerged alive. When they were found by the U.S. military, the survivors reportedly made crying-like sounds and clutched box-like devices to their chests. One of them appeared to be injured. The occupants were of small height and had copper based blood. This object was reportedly eventually sent to Wright-Patterson Air Force Base near Dayton, Ohio, and ended up at the "Hangar 18" facility.

Event 1381 (D721262A)

Date: 6/22/1947
Description: Edward Louis DeRose in Greenfield, Massachusetts, sees a small, round-shaped, silvery-white object moving in a northwesterly direction faster than a speeding plane at an estimated altitude of 1,000 feet. The object stays in view for 8–10 seconds until obscured by a cloud bank. It reflects the sunlight strongly as if is made of polished aluminum or silver.

Event 1382 (74043889)

Date: 6/22/1947
Description: Dahl claims he is visited by a mysterious dark-suited man who knows all about the sighting. He tells his associate Fred L. Crisman, and they allegedly go to the beach to pick up fragments. Dahl mails Ray Palmer in Chicago, Illinois, some fragments.

Event 1383 (FC18F588)

Date: 6/22/1947
Description: In 1947 during the beginning days of the great UFO wave of 1947, a rapidly moving, round, silvery-white object was seen at 11:30 a.m. in the town of Greenfield, Massachusetts. It was one of the early cases secretly investigated by the FBI. Later that same day, at 1 o'clock in the afternoon, Mr. Hammond and his son were vacationing in Radium Springs, New Mexico and saw a "flying pie-plate" disc while swimming.

Event 1388 (FBD116D0)

Date: 6/23/1947
Description: In the afternoon, a railroad engineer sees something very strange in the sky and reports it to the local newspaper. "They looked like ten shiny, disc-shaped things. They were very, very high, fluttering along in a string and pretty soon they vanished toward the northwest." He guessed they were travelling at 500mph - faster than any plane he ever saw.

Location: Cedar Rapids, Iowa
Source: Maj2

Event 1389 (ADF05F02)

Date: 6/24/1947
Description: 1:50 p.m. Railroad engineer Charles Kastl sees 9 or 10 spinning discs in the air about 12 miles east of Joliet, Illinois. They are a string of flat circular objects "going faster than anything I've ever seen." Kastl can see no connecting link between them, but they act as though the leading disc has a motor in it to power the others, because when it flips, the others do as well. When it rights itself, the others also right themselves.

Event 1390 (50820BF1)

Date: 6/24/1947
Alternate date: 6/30/1947
Description: Afternoon. Bill Schuening, a farmer, is driving his pickup truck down a remote rural road 25 miles north of Pendleton, Oregon, when he hears a loud humming sound. Coming over a rise, he sees in a nearby field a large disc-shaped object hovering 5–6 feet off the ground. He can also see two short (3 feet tall) figures wearing green suits and white helmets standing underneath the object. The figures suddenly vanish, and the craft then shoots towards the Columbia River, makes a big circle, and flies towards the mountains.

Event 1392 (59C99A5F)

Date: 6/24/1947
Description: On this morning a prospector named Johnson in the Hood River region of the Cascade Mountains of Oregon sighted five or six discs flying silently overhead, heading toward the southeast. He noticed that his compass began spinning when the discs passed over. His watch also stopped running.

Source: Johnson

Event 1393 (4DC73B4B)

Date: 6/24/1947
Description: At 2:58 p.m. Kenneth Arnold, flying his private plane near Mount Rainier, Washington was attracted by reflected sunlight from nine distant metallic flying objects. He watched as they flashed across the sky, one behind the other, "skipping as saucers upon water." They tilted back and forth as they flew. One object was definitely crescent shaped, the others may have been disc shaped or crescent shaped with a 10 to 1 width to thickness ratio. He clocked them as they flew past Mount Adams, and calculated that they were flying at a speed of 1,500 miles per hour and at an altitude of 9,500 feet. When he landed in Pendleton, Oregon he was interviewed at the local radio station where the term "flying saucer" was first coined, despite the fact that the objects he sighted may not have been discs.

Event 1395 (33547966)

Date: 6/24/1947
Description: Afternoon. Fred M. Johnson, a prospector in the Mount Adams, Oregon, area, sees 5-6 oval objects with tails about 30 feet in diameter. He watches one through a telescope. They are not flying in any sort of formation and as they bank in a turn, the sunlight flashes off them. As they approach, Johnson notices that his compass begins to spin wildly. When the objects finally vanish in the distance, the compass returns to normal. Johnson's report is the very first "unidentified" case in the Project Sign files.

Event 1397 (8A22ECD2)

Date: 6/24/1947
Description: 3:00 p.m. Boise, Idaho, businessman Kenneth Arnold, flying his CallAir Model A-2 from Chehalis to Yakima, Washington, sees a string of nine objects flying in an echelon formation past Mount Rainier, Washington. At first he assumes they are jets, but he can see no trails. They cover the 50-mile distance between Rainier and another peak in 1 minute 42 seconds. He estimates their speed to be at least 1,200 mph. The objects swerve in and out of the smaller peaks, flipping from side to side in unison, dipping, and presenting their lateral surfaces, which reflect the bright sunlight and cause the flashes he saw earlier. They are in view for about two and a half minutes and are last seen heading south over the last high peak of Mount Adams. Arnold tells the airport staff about it in Yakima at 4:00 p.m. and they call ahead to Pendleton, Oregon, to alert them of Arnold's arrival at an air show and his story. A large crowd awaits him, and a discussion follows. The consensus is that Arnold has seen guided missiles. But no such technology exists at

the time that can match the objects' description and performance, and the late 1990s explanation that Arnold observed a flight of white pelicans is equally improbable. Researcher Martin Shough concludes in 2010: "Examination of the sighting report in detail improves its evident internal consistency, rather than degrading it, and study of the principal contending explanations reveals that they are each very much less attractive when tried out in quantitative detail against the best information than they may appear at first sight."

Event 1399 (E51E40F5)

Date: 6/25/1947
Description: Kenneth Arnold goes to the East Oregonian office in Pendleton, Oregon, and speaks with reporters Nolan Skiff and William C. Bequette. Arnold says the "saucer-like" objects were racing over the Cascade Mountains with a peculiar weaving motion "like the tail of a Chinese kite." Bill Bequette writes the first saucer news story for the newspaper. He does not use the term "flying saucer," but headline writers in other papers use it (such as the Philadelphia Inquirer on June 26), and reporters start picking it up.

Event 1406 (0AB7CAAF)

Date: 6/27/1947
Description: In a United Press dispatch from Pendleton, Oregon, Kenneth Arnold expresses frustration over the furor that his saucer sighting has caused. A preacher has called him from Texas to say that the flying discs are "harbinger of doomsday." A woman recognizes Arnold in a Pendleton café and runs out shrieking that he is "the man who saw the men from Mars." He says the whole thing has gotten out of hand: "Half the people I see look at me as a combination Einstein, Flash Gordon, and screwball. I wonder what my wife back in Idaho thinks."

Event 1424 (6D8C70A3)

Date: 6/30/1947
Time: 0910
Description: A Navy lieutenant was flying at 9000 m toward the south when he saw two circular objects diving at "unconceivable" speed. They were gray, about 3 m in diameter, and appeared to land 40 km south of the Grand Canyon.
Type: ufo sighting

Type: scientist
Reference: Bragalia
Attributes: Einstein
Source: Maj2

Event 1427 (785F5C8F)

Date: 7/1947
Description: Conclusion to an FBI/ARMY Intelligence Report: Based on a detailed study of the Kenneth Arnold case (6/24/47) and 15 other UFO encounters during the first month of the "flying saucer" mystery the conclusion is "this flying saucer situation is not all imaginary or seeing too much in some natural phenomenon. Something is really flying around." (This report was declassified FOIA, 1976.)

Event 1431 (320E4D90)

Date: 7/1/1947
End date: 7/3/1947
Description: US Signal Corps radar sites in southern New Mexico and one at Kirtland Air Force Base near Albuquerque allegedly track an object "flitting around" the sky, frequently returning but finally disappearing on the night of July 4. Much of this story originates with now-discredited Roswell witness Frank Kaufmann, who claims he was ordered to bring a group of radar experts to Alamogordo to evaluate unexplained radar targets at White Sands Missile Range.

Event 1432 (E9A199B6)

Date: 7/1/1947
End date: 7/3/1947 (approximate)
Description: According to Annie Jacobsen's informant, EG&G engineer Alfred O'Donnell, the upcoming Roswell, New Mexico, crashes are the result of a psychological warfare operation by Soviet leader Joseph Stalin to fly into US airspace two disc- or wing-shaped aircraft based on a Horton brothers design obtained at the end of World War II. One craft allegedly contains living dwarves or children (human guinea pigs) who had been surgically altered using similar

methods to those used in Auschwitz concentration camp by Nazi doctor Josef Mengele. This aircraft is remotely controlled by the crew of the second craft. The idea is to land the first aircraft in a visible location in the US, perhaps in Washington, D.C. The children would exit the craft and present themselves to the highest echelons of the government. However, the two aircraft crash in the New Mexico desert and, he claims, the Atomic Energy Commission is put in charge of the remains.

Event 1435 (0BBAF624)

Date: 7/1/1947 (approximate)
Description: 11:00 p.m. Mrs. A. M. King is with another passenger on the deck of the Union-Castle Mail SS Llandovery Castle as it is steaming through the Mozambique Channel. They notice a star-like object traveling fast toward the ship. It shines a strong beam of light on the water within 150 feet of the ship, then descends, the beam shortening and becoming brighter as it nears the water. Soon the light switches off and they can see a metallic object that looks like a cigar with the end cut off. It remains about 20 feet above the sea, moving parallel with the ship. King estimates it is about four times the length of the ship and four times as tall. After a few seconds, a large flame erupts from the rear of the object. It vanishes soundlessly in the darkness.

Event 1449 (6C03E0A8)

Date: 7/2/1947
Description: Magdalena, N.M.: Mr. Barnett sighted a shiny object out in the desert and, upon investigation, came upon a crashed disc-shaped object, 9 meters (30 ft.) across. Later a military truck arrived to supervise the investigation of the crash site. Barnett saw dead bodies strewn about the crash site. They weren't wearing military uniforms, and in fact didn't even look human. Seen from a distance, the bodies had on silvery suits and appeared to be about 3 ft. tall.

Event 1452 (EA425CAA)

Date: 7/3/1947
Description: 6:30 p.m. Mrs. Walter Johnson and her family see 8–9 discs flying out of the southern sky 6 miles west of Saint Maries, Idaho, over the St. Joe River. The objects came in "very fast, slow down jerkily, then flutter to the ground like leaves." Mrs. Johnson thinks the objects are about the size of a "five-room house." When they reach a clearing in the timber, they appear to "settle Down" a few at a time. Mrs. Johnson reports the sighting to intelligence officers at the Spokane Army Air Base [now Fairchild AFB], and an intensive air search is carried out by two missions of the National Guard's 116th Fighter Group. Local sheriff's deputies also make a ground search, but no traces of alanding can be found.

Event 1454 (3C0684EF)

Date: 7/3/1947
Description: Harborside, Maine - John F. Cole, an astronomer, watched a series of objects that gave off a roaring noise at 2:30 in the afternoon from Harborside, south of Brooksville, Maine. The objects were in the north and were proceeding northwest at a high speed. He estimated their diameter at 100 feet. Calling the report an "unusually well-supported incident," the Air Force had no explanation. However, years later the Air Materiel Command publicly explained the event as "birds or insects". This sighting was also one of the 1947 cases investigated by the FBI.

Event 1456 (5705E49A)

Date: 7/3/1947
Description: There are 35 unexplained UFO, USO (unidentified submarine object), and humanoid reports for this day in UFOCAT, including the alleged discovery of the famous Roswell debris field by Mac Brazel on a ranch near Corona, New Mexico and the discovery of a crashed disc by Barney Barnett in an arroyo near Magdelena, New Mexico. A cluster of three reports came from around Cincinnati, Ohio between 10:30 a.m. and 5:30 p.m. A cluster of another three reports came from Prince Edward Island, Canada at 5:45 p.m. including the sighting of a black cigar-shaped object in Charlottetown. There was a third cluster of sightings from Sonoma County, California where a forest fire lookout in Fort Ross saw what looked like a burning ship sink slowly into the Pacific Ocean where no ship was reported missing. There was a fourth cluster of three sightings between Baltimore, Maryland and Washington, DC.

Event 1462 (97EEA70D)

Date: 7/3/1947
Description: The St. Louis Post-Dispatch reports that the Air Research Center at Wright Field, Ohio, and the army intelligence service are looking into the flying discs. An INS dispatch states that Commander of the Army Air Force Gen. Carl Spaatz has asked Wright Field to look into such reports. Air Materiel Command's Lt. Gen. Nathan F. Twining tells Idaho Evening Statesman reporter David N. Johnson that officials are indeed looking into the discs and that Wright Field has no comparable technology. Lieut. William C. Anderson, Wright Field public relations officer, says there is no confirmation that the discs exist. Maj. Paul Gaynor says the Army Air Force needs more concrete information. German scientists working at Wright Field are asked about the discs, but they say they have heard nothing about any such experiments in Europe.

Event 1464 (C84BAD01)

Date: 7/4/1947
Description: At 1:05 p.m. a police officer at police headquarters in Portland, Oregon saw five flying discs, two going south, three flying to the east at high speed. They were oscillating around a central vertical axis. Minutes later two police, both pilots, saw three more discs trailing one another. Then four patrolmen reported seeing 3-6 "chrome hubcaps" flying over the city. At about the same time a highway patrolman in Milwaukee, Oregon watched two or three shiny white saucers fly quickly toward the northwest.

Date: 7/4/1947
Description: Sunset. M. K. Leisy, a junior intern at the Institute of the Pennsylvania Hospital at 44th and Market streets in Philadelphia, is reading on the porch of the hospital when he hears a loud roar. A large transport plane passes overhead, but he also sees a dark sphere with a luminous halo around it moving below the clouds at a moderate speed. It disappears into the clouds.

Event 1471 (F8F00AB1)

Date: 7/4/1947
Description: A young woman driving in the afternoon on the outskirts of Fort Worth, Texas saw a 25-foot diameter flying disc. She got out of her car and waved. The object tipped and the human-appearing occupants waved back to her, and then the disc flew away in silence.

Event 1472 (6B294463)

Date: 7/4/1947
Description: 11:27 p.m. Army Signal Corps radar sites in southern New Mexico supposedly continue to track a mysterious object. Kirtland AFB's commander scrambles a fighter jet piloted by Kenny Chandler to locate the object, but he cannot find it. Before midnight, Frank Kaufmann allegedly sees a brilliant glow on the radar display, pulsates a number of times, then explode in a starburst. The belief is that the object has now crashed. Jim Ragsdale and "Trudy Truelove" supposedly see a bright flash of light and hear a roaring sound that passes overhead. Ragsdale knows that something has struck the ground close to their campsite.

Event 1473 (F198F00C)

Date: 7/4/1947
Description: At noon while flying between Tonopah and Austin, Nevada and cruising at an estimated 10,000 feet altitude, Mr. Harris and his passenger sighted five circular objects flying below his airplane. They were shiny and reflected sunlight. He tried to catch up to them but could not.

Event 1474 (C65A8D9B)

Date: 7/4/1947
Description: The retrieval of UFO wreckage and bodies allegedly occurred on this day from a crash site near Corona, New Mexico. The bodies were taken later to Roswell AFB, New Mexico and then flown to Carswell AFB in Texas. According to the relatives of witnesses who shared details about the alien humanoid bodies, they had baldheads, small sunken eyes, small noses, no ears, long forearms, and only four long slender fingers on each hand.

Event 1475 (F9137C90)

Date: 7/4/1947
Description: There are 73 UFO reports from across the United States and one report from Canada recorded for this day in UFOCAT. The majority of the reports fall in a swath from the Pacific Northwest down through the Mississippi River Valley. Most of these sightings were of flyovers by daylight discs, although there was one humanoid report from Fort

Worth, Texas.

Event 1476 (3EA069DF)

Date: 7/4/1947
Description: At 5:30 p.m. at the residential area of Greenwood Lake in north Seattle, Washington Mr. Larson sighted a round white object descend vertically, then make a ninety-degree turn and proceed horizontally flying toward the south. Two more people at the nearby University of Washington campus also saw the UFO, as did 21 more in the Lake City area of the city. One of the witnesses in the Lake City area took a photograph.

Event 1478 (0964B64B)

Date: 7/4/1947
Description: 9:12 p.m. United Air Lines Flight 105 pilots Capt. Emil J. Smith and First Officer Ralph Stevens are flying from Boise, Idaho, to Seattle, Washington, when they see a formation of five discs over Emmett, Idaho, silhouetted against the sunset. Stewardess Marty Morrow sees them as well. The objects appear to merge and speed away to the northwest. Another group appears and arranges itself in a straight line. The nine objects are seen at least 12 minutes over a distance of 45 miles.

Event 1479 (18545DFA)

Date: 7/4/1947
Description: The first of the special flights from Washington, D.C., arrives at Roswell Army Air Field [now closed], New Mexico (presumably to investigate the radar reports claimed by Frank Kaufmann). On the plane is Warrant Officer Robert Thomas. Thomas and his companions are in uniform upon arrival, but quickly change to civilian clothes. Thomas wants an on-site briefing as soon as it can be arranged. These men remain at RAAF throughout the later retrieval.

Event 1481 (FB564AC6)

Date: 7/4/1947
Description: Also that day four silent discs passed the summit of Mount Jefferson in Oregon flying at a high rate of speed. In Troutdale, Oregon a V-shaped object flew toward the northeast over the Columbia River. It made dipping motions during its flight, and was observed through binoculars by three men. In Vancouver, Washington 20-30 round objects flew toward the west and south in straight-line formations. A low humming sound was heard. North of Craig, Montana a string of twelve plate-shaped objects flew over a couple while they were out fishing on a bridge at 3:00 p.m.

Event 1486 (85927C81)

Date: 7/4/1947
Description: The United Press service rounds up theories about the flying discs. It quotes Army Air Force "experts" saying that the sightings might be caused by weather conditions, or meteorites, or foreign aircraft that it is "our responsibility to know about it and take proper action." Occultist Ole J. Sneide from San Francisco, California, thinks they are "oblate spheroid space ships from other planets" with hidden bases on the dark side of the moon. This is apparently the first public mention of an extraterrestrial origin for flying saucers in the media.

Event 1491 (3B973914)

Date: 7/4/1947
Description: 1:05–5:30 p.m. Many people in Portland, Oregon—including KOIN newsman Frank Cooley, deputy Clark County Sheriff Fred Krives, Portland police officer Kenneth A. McDowell, and Oregon highway patrol Sgt. Claude Cross—view five large discs moving at high speed to the east, two flying south and three to the east, with an oscillating or wobbling motion, sudden 90° turns or zigzagging. Radio reports alert other officers (including Walter Lissy, Robert Ellis, and Earl Patterson, all WWII veterans) who see the metallic objects that look like a disc or hubcap or pie-pan or half-moon flashing in the sun. No vapor trail or noise (except possible humming) is reported.

Event 1504 (FBC8D283)

Date: 7/5/1947
Description: 5:30 a.m. According to discredited Roswell witness Frank Kaufmann, a small contingent of men from Roswell Army Air Field in New Mexico drive north on what is now US Highway 285. Near mile marker 132, they turn off the road and began driving across the desert, stopping from time to time to cut the barbed-wire fencing. They discover a heel-shaped craft measuring about 25 feet long and 12 feet wide embedded in a cliff. The soldiers find civilians on the site already. Besides the archaeologists, a local man named Larry Campbell (later called Jack Armstrong or Cactus Jack) also claims to have been there. They escort them off while others secure the area. Five bodies are allegedly found on the site. The impact site is cleaned and secured by 11:30 a.m. Annie Jacobsen has interviewed Alfred O'Donnell, later an engineer at EG&G, who tells her that one of the objects crashed and was recovered by the Joint Chiefs, including the airframe, propulsion equipment, and the power plant. It has no wings or tail. The fuselage is round and there is a dome on top. Inside there are Cyrillic letters stamped or embossed in a ring running around the inside. Army intelligence officers suspect that the craft is the brainchild of German airplane engineers, Walter and Reimar Horten, working for the Russian military. A frantic search to find what happened to the brothers allegedly takes place; informants like Austrian physicist Adolf Smekal of Frankfurt, Germany, provide leads, with confusing results for several months.

Event 1507 (8A5A954F)

Date: 7/5/1947
Description: 10:00 a.m. W/O Robert Thomas and his crew proceed to the impact site. The bodies, originally covered by sheets, are now in lead-lined body bags. Only those with the highest clearance are allowed close to the center of the impact. Guards are posted, facing out, to keep the curious away. According to researcher Kathy Kasten, the dead bodies are taken to Roswell Army Air Field, but one is still alive and taken to Fort Stanton [now closed] in Lincoln, New Mexico, whose Marine Hospital was used to confine troublesome German and Japanese detainees during World War II. Allegedly, aerospace physician William Randolph Lovelace II travels there from Albuquerque to examine the survivor, who reportedly dies one week later and is buried in the Fort Stanton cemetery.

Event 1508 (280AEBAA)

Date: 7/5/1947
Description: 5:00 a.m. Archaeologists, including William Curry Holden, working the sites around Roswell, New Mexico, stumble across an impact site where an object has crashed. One of them heads to the closest phone to tell Sheriff George A. Wilcox of the discovery of the remains of a crashed aircraft of some kind. Wilcox calls the local fire department to alert them about the crash. One truck, with Dan Dwyer on it, responds to the call. The site is about 35–40 miles north of Roswell. The Roswell Fire Department, escorted by members of the Roswell Police Department, makes a run along Pine Lodge Road northwest of Roswell. They are among the first civilians to stumble across the impact site.

Event 1509 (2DD935BB)

Date: 7/5/1947
Description: Following the rain the night before, Brazel inspects the pastures surrounding the J. B. Foster ranch house southeast of Corona, New Mexico. Riding with him is the young son of the Proctors, William D. Proctor. During the inspection, Brazel discovers a large debris field. Scattered on the slopes and into the sinkhole and depressions are plastic-like beams, pieces of lightweight balsawood-like material only stronger, light metallic foil (which doesn't stay bent or folded, resumes its original shape, and won't tear), and heavy-gauge monofilament. The debris is thick enough

that the sheep refuse to cross the field and are driven around it to water more than a mile away. Brazel, taking a few scraps of the material, heads to the home of his closest neighbors, Floyd and Loretta Proctor. He shows them "a little sliver" of material that he can neither burn nor cut. Some of the beams have symbols on them that reminds Brazel of Chinese ideograms. The Proctors suggest he take it into town to show the sheriff.

Event 1510 (5FEF37C1)

Date: 7/5/1947
Description: Later that evening, Brazel removes the large, circular piece of the debris from the range. Brazel either loads it into the back of his truck or drags it along behind. He stores it in a livestock shed about three miles north of the crash site.

Event 1511 (D1444099)

Date: 7/5/1947
Description: 3:00 a.m. Acting on what he claims are orders from Brig. Gen. Martin F. Scanlon of the Army's Air Defense Command, discredited Roswell witness Frank Kaufmann returns to Roswell Army Air Field from Alamogordo to alert Colonel William H. Blanchard, Roswell AAF commanding officer, about a potential crash.

Event 1512 (502897E0)

Date: 7/6/1947
Description: At 5:15 p.m. in Sioux Falls, South Dakota a silver orb shot toward the southwest "faster than any plane." It flew at an estimated altitude of ten thousand feet. It had what appeared to be a road stuck through the center of the object.

Event 1513 (EDED423A)

Date: 7/6/1947
Description: At 5:30 p.m. a low flying shiny circular object, floated like dirigible near the ground over a wheat field in Emporia, Kansas. It veered slowly to pass over a hill and fly toward the southwest.
Reference: Johnson

Event 1514 (5F56BD89)

Date: 7/6/1947
Description: At 6:00 p.m. Mrs. Stollmaier in Terrace Park, Ohio saw two "shiny silver plates" travel north to south at high rate of speed. They appeared to be gaining altitude as they flew. At the same time northwest of Richmond, Virginia twelve shiny metallic discs wavered and flipped across the sky, just below the clouds at an estimated altitude of 500 feet. At 7:00 p.m. a black disc flew across the sky in Portsmouth, Virginia. It flight was silent, "as if towed."

Event 1515 (5D114DF3)

Date: 7/6/1947
Description: At six o'clock in the evening in Norman, Oklahoma the University of Oklahoma Dean of Engineering and four others watched one, then two more UFOs shoot to the west at a very high speed. They were estimated to be flying at 20,000 feet altitude. A round object flew across the sky to the west "awfully fast" over Anadarko, Oklahoma at 6:30 p.m. That same evening a light colored 40-foot wide disc flew just below the clouds in Edgewood, Texas. It speed was judged to be faster than a plane, and it seemed to be gaining altitude as it flew toward the northwest.

Event 1521 (46B3352B)

Date: 7/6/1947
Description: Brazel gets up early, completes his chores, and then drives into Roswell, New Mexico, about 75 miles away. He stops at the office of Sheriff George A. Wilcox. Contrary to published reports, Wilcox is excited about the find and suggests the military at the Roswell Army Air Field [now closed] be notified. While waiting for the military officers to arrive, Wilcox dispatches two of his deputies to the ranch. They have only the directions given by Brazel, but both men are familiar with the territory; and Wilcox believes they will be able to find the debris field. KGFL reporter Frank Joyce calls Wilcox, who tells him Brazel is in his office with an interesting story. Brazel allegedly gets on the phone with Joyce and mentions debris and a stench from dead bodies.

Event 1522 (A2105D76)

Date: 7/6/1947
Description: 1:45 p.m. Maj. A. B. Browning and the crew of a B-25 flying over Clay Center, Kansas, see a silvery disc about 30–50 feet in diameter slightly lower than their plane. It paces them for a while then shoots off.

Event 1525 (0B104169)

Date: 7/6/1947
Description: Afternoon. Francis Howell and his wife are in their yard at 317 Ash Street in Tempe, Arizona, when they see an object floating down to the ground with a kite-like motion. It appears to be about 2 feet across and made of aluminum. It disappears behind some trees. The Howells and some neighbors walk toward the place where it apparently has landed, and they see the disc ascend at a 45° angle and move at high speed toward the northwest.

Event 1526 (4D3DC3D8)

Date: 7/6/1947
Description: Colonel William H. Blanchard, Roswell AAF commanding officer, entrusted with oversight of the first and only atomic-bomb strike force in the world, the 509th Bomb Group, orders Jesse A. Marcel, the air intelligence officer, to investigate the debris report. Marcel immediately drives to the sheriff's office. Marcel interviews Brazel, examines the pieces of the material that Brazel brought in, and decides he had better visit the ranch to examine the field for himself. Marcel, taking some of the debris with him, returns to the base and reports to Blanchard on what he has seen. Blanchard, convinced that he is in possession of something highly unusual, perhaps Soviet, alerts the next higher headquarters. Marcel and Blanchard all know this is from not any type of balloon. Marcel returns to the sheriff's office with the senior counterintelligence agent assigned to the base, CIC Captain Sheridan W. Cavitt. They escort Brazel back to his ranch and examine the debris field. Acting on orders from Major General Clements McMullen, deputy commander of the Strategic Air Command, Blanchard obtains more of the debris from the sheriff's office. It is sealed in a courier pouch and loaded on an airplane to be flown on to the Fort Worth Army Air Field, where it is given to Colonel Thomas J. DuBose for transport on to Washington, D.C. After Marcel and Cavitt leave with Brazel, the two deputies return to say they did not find the debris field but observed a burned area in one of the pastures. There the sand has been turned to glass and blackened. It looks as if something circular has touched down.

Event 1527 (2E6BAA64)

Date: 7/6/1947
Description: 8:45 p.m. Army Staff Sgt. Ira L. Livingston watches a procession of glowing round objects moving at 500 mph over Birmingham, Alabama. A new one appears every 5 seconds. Many others report UFOs in the area between 8:00 and 9:00 p.m. Robert Crossland, a copy reader for the Birmingham Age-Herald, takes a photo that shows two round white spots close together.

Source: EberhartUFOI

Event 1528 (CE4E2BA2)

Date: 7/6/1947
Description: 9:00 p.m. Because of the distance to the ranch over roads that are less than adequate, Brazel, Marcel, and Cavitt do not arrive until after dark. They stay at the "Hines" house (an old ranch house close to the debris field), eat cold beans, and wait for daylight. Marcel runs a Geiger counter over the large piece of wreckage Brazel has stored in the cattle shed. He detects no sign of radiation.

Event 1529 (FE826415)

Date: 7/6/1947
Description: At 7:00 p.m. three families in West Hartford, Connecticut including a physician, saw a reddish brown disc move at great speed in a straight line flying toward the northwest. At about the same time in New Hampshire two large discs flew over the town of Londonderry, making a whistling noise. That same night a disc with a Maltese cross inscribed on it flew on a straight, northerly course over East Providence, Rhode Island.

Event 1532 (2FC0CBFF)

Date: 7/6/1947
Description: Mr. Bates, an airline passenger in a plane flying southeast of Boise, Idaho watched a disc flash by his window at one o'clock in the afternoon. It was heading toward the southwest. A stewardess quickly rushed over to look. That evening over Boise, silver discs whirled and changed directions several times in several minutes, as if searching for something.

Event 1539 (AD47B02E)

Date: 7/7/1947
Description: Gen. Hoyt Vandenberg's activity log: 1:10 p.m., answers a Toronto Star reporter's question about possible secret military aircraft. Vandenberg says no AAF planes are looking for discs, but National Guard planes are looking into the discs on their own. 1:50 p.m., Stephen Leo, public relations officer for AF Secretary Stuart Symington, calls concerning the Shreveport, Louisiana, incident. 1:55 p.m. Leo and Gen. Curtis LeMay discuss the discs. Col. Warren, at Ellington Field [now Ellington Airport] in Houston, Texas, calls concerning the Shreveport disc. 4:20 p.m., Col. Warren calls back and says the incident is a hoax.

Event 1541 (1600D8AF)

Date: 7/7/1947
Description: 9:00 p.m. Orrin Williams and his wife Albertine, along with Mr, and Mrs. Cecil Grant, are fishing on Great Pond near Rome, Maine, when they see a "spinning rocket" come out of the southern sky and stop abruptly overhead, where it hovers as a ball of fire. A similar object comes from the east, passing close by the first one. A third object approaches from the east and stops by the first object before moving on. The first object then retraces its path to the south at high speed. The display lasts several minutes.

Reference: Bloecher, p. II-10
Source ID: 1015
Source: EberhartUFOI

Event 1542 (7D2FD004)

Date: 7/7/1947
Description: Brazel takes Marcel and Cavitt out to the debris field. It is three-quarters of a mile long and 200–300 feet wide. A gouge starting at the northern end of it extends for 400–500 feet toward the other end. It looks as if something has touched down and skipped along. The largest piece of debris is recovered at the southern edge of the gouge. The debris is as thin as newsprint, but incredibly strong. There is foil that, when crumpled, unfolds itself without a sign of a wrinkle, I-beams that flex slightly and have some symbols on them, and material resembling Bakelite. Marcel and Cavitt walk the perimeter of the field and then range out looking for more details or another crash site but find nothing else. Finally, they return and spend the remainder of the day collecting debris. They load the rear of Marcel's car and then the jeep carryall driven by Cavitt. About dusk they begin the trip back to Roswell.

Event 1555 (F39740F8)

Date: 7/7/1947
Description: On this afternoon at around 3:30 p.m. William Rhodes was working in his backyard in Phoenix, Arizona when he heard a whooshing sound and saw an unusual looking, gray flying craft in the sky. He grabbed his camera and took two photographs. The flying object was twenty to thirty feet long, crescent-shaped, and flying at an estimated 1,000 feet altitude. It circled in the east for about 30 seconds. The photograph quality was sharp and clear, although the reproduction below is from the newspaper that first published it and suffers from deterioration in quality due to age and print technique.

Event 1557 (23CE1C28)

Date: 7/7/1947
Description: 2:30 p.m. Capt. Robert J. Southey and Clem Hackworthy are flying a private aircraft near East Troy, Wisconsin, when they see a fast-moving silver object flying southeast from Eagle to Muskego, covering 17 miles in 20 seconds (approximately 3,060 mph). They try to photograph it, but it quickly disappears, then suddenly reappears about 10 miles away.

Event 1558 (5021CC52)

Date: 7/7/1947
Description: 9:30 p.m. Charles Crockett, 15, is walking along Western Avenue in Manchester, Maine, when he sees a cluster of luminous objects to the west, just above the treetops on the north end of Cobboseecontee Lake. They are still visible when he arrives home and alerts his mother and grandmother. Possible searchlight beams.

Event 1559 (7A4EAC3B)

Date: 7/7/1947
Description: 9:00 p.m. William A. Rhodes, an independent scientist and inventor in Phoenix, Arizona, takes two photos of a dark, heel-shaped disc at his home at 4333 N. 14th Street. The photos are reproduced in the July 9 issue of the Arizona Republic. A few weeks later, an Army Air Corps Intelligence officer from Hamilton Army Airfield [now closed] in Novato, California, visits Rhodes and takes the prints and negatives, but Rhodes is unable to get them back. However, Kenneth Arnold obtains them on a later visit to Hamilton, and they wind up with James E. McDonald. Rhodes actually has an informal top-secret clearance because of his invention of a degaussing device for ships. He dies in 2007 at the age of 90.

Event 1561 (A134AAFF)

Date: 7/7/1947
Description: 11:30 a.m. Flight instructor Kenneth Jones out of Elkhart, Wisconsin, is practicing take-offs and landings with a student near Koshkonong. They watch a disc descending vertically on edge through the alto-cumulus clouds at 6,000 feet, stop at 4,000 feet, assume a horizontal orientation, and fly horizontally for 15 seconds, covering 23 miles at 5,500 mph. At one point it heads straight towards them on a course of about 120°, then stops again (apparently overhead) and disappears.

Event 1563 (0C75BA5C)

Date: 7/7/1947
Description: A hoax in Shreveport, Louisiana. A 16-inch aluminum disc with smoke coming out of it is found. Army investigators find "Made in USA" on the disc. It is one of many homemade gadgets, weather balloon radar targets, circular saws, and other disc-like debris that people find or make in order to have some fun in the press or with gullible saucer-seekers.

Source: BerlinerBBUnknowns

Event 1571 (AE762C1A)

Date: 7/8/1947
Description: 9:30 a.m.–9:20 p.m. Five separate UFO sightings take place at Muroc AFB [now Edwards AFB] in southern California, the Air Force's aircraft testing and development center. Ruppelt says these are the first sightings "that really made the Air Force take a deep interest in UFOs." At 9:30 a.m., 1st Lt. Joseph C. McHenry and three others see three discs heading in a westerly direction. At 10:10 a.m., XP-84 test pilot Maj. Jowell C. Wise sees a yellowish-white object at 10,000 feet traveling about 200 mph. At 11:50 a.m., Maj. Richard R. Shoop, Col. S. A. Gilkey, and Capt. John P. Stapp are sitting in an observation truck at Rogers Dry Lake and see a round, white aluminum-like object descending from 20,000 feet for about 90 seconds; it has two knobs or thick fins on the top. Around 4:00 p.m., a pilot flying an F-51 some 40 miles south of Muroc sees a "flat object of a light-reflecting nature"; it is flying too high for him to climb up to it. At 9:20 p.m., spherical objects are again seen in the area, this time at 8,000 feet and moving against the wind at 300 mph.

Event 1572 (CF3E3961)

Date: 7/8/1947
Description: 4:30 p.m. The Roswell Daily Record carries the "RAAF Captures Flying Saucer" story. In Fort Worth, Texas, Ramey issues a statement saying the Roswell officers were fooled and that the material is a Rawin target device suspended by a Neoprene rubber balloon. ("Rawin" is a method of determining wind speed and direction by using radar or radio waves to track a balloon carrying either a radar-sensitive target or radio transponder.). The debris is switched for the newspaper photographer, James Bond Johnson, at a press conference held by Ramey and Col. Thomas J. DuBose in late afternoon. Johnson takes six photos of the debris and leaves after 20 minutes. One of the photos shows Ramey holding a piece of paper (the "Ramey memo") with words written on it; unfortunately, the resolution is inadequate to decisively "deblur" the text using modern technological methods. A weather officer, Maj. Irving Newton, is called in to identify the debris as from a balloon. A photo of Newton with the debris is taken by another photographer.

Source: ValléeMagnonia

Event 1574 (80987B71)

Date: 7/8/1947
Description: There are at least 74 UFO reports recorded for this day in the UFOCAT database. At ten o'clock in the morning an aluminum colored, pancake shaped object was sighted by a farmer as it flew over Corapeake, North Carolina. It flew at an estimated 800 mph at 2,000 feet altitude. He described it as having two windows and protruding pipe-like extensions, and emitting vapor and making a slight noise. At 11:45 a.m. Eastern Time an ovoid object was sighted over Norfolk, Virginia. It was seen rocking and spinning, and followed by smaller objects. An Air Force major observed a metallic object at Muroc Field (now Edwards AFB) in California at noon. The object reflected sunlight and oscillated up and down in the sky, going down to ground level then rising again. It was observed simultaneously by a captain in Rodgers Dry Lake Bed. At the same time a student pilot sighted at flying disc that looked like it had a hole in its center, flying at 500 feet altitude over Spokane, Washington. At 5:33 p.m. an object flew in a zigzag pattern over Pearl Harbor in Honolulu, Hawaii. At 9:47 p.m. five teenagers camping out at a golf course in Madison, Wisconsin saw a flat, brilliant disc close to the horizon. It flew from the southeast to the northwest very quickly.

Event 1579 (DEEAD3A6)

Date: 7/8/1947
Description: 1:00 p.m. Marcel goes on a B-29 special flight (the second) to Fort Worth Army Air Field, Texas, with the wreckage to report to Gen. Roger M. Ramey. The pilot is Lt. Col. Payne Jennings Jr. with Lt. Col. Robert Barrowclough riding in the bombardier's seat. Only a few packages are loaded onto the plane. One, a triangular package about two feet long, is wrapped in brown paper. The other three are about the size of shoe boxes. They are so light that it feels as if there is nothing in them. When it lands in Fort Worth, the enlisted soldiers on the plane are ordered to remain aboard until a guard is posted and Marcel gets off taking one of the packages that he has been carrying on his lap. According to Flight Engineer M/Sgt. Robert Porter, the soldiers go to the mess hall once the guard is posted. The remaining debris is transferred to a B-25 that is flying to Wright Field in Dayton, Ohio. Marcel goes to

Ramey's office and puts the package on his desk. They both go to a map room, where Marcel shows him where the debris was found. When they return to Ramey's office, Marcel sees that the package he brought has been substituted by a torn-up weather balloon. Ramey proposes a plan that possibly originates from his bosses at the Pentagon. Attention needs to be diverted from the more important impact site north of Roswell by acknowledging the Corona location. Too many civilians are involved, and the press is already alerted.

Event 1581 (125C1AD3)

Date: 7/8/1947
Description: 2:26 p.m. Haut's press release about the recovered disc reaches the Associated Press wire. The story announces: "The army air forces here today announced a flying disc had been found" the previous week. It says that the disc is recovered by intelligence officers of the 509th Bomb Group at Roswell Army Air Field [now closed], New Mexico, with the help of local ranchers and the Chavez County Sheriff's Office. It adds that the disc is being loaned by Maj. Marcel "to higher headquarters."

Event 1586 (3D0FCA6C)

Date: 7/8/1947
Description: 5:17 p.m. Special Agent Percy Wyly II in the Dallas, Texas, FBI office sends a teletype headed "Flying Disc, Information Concerning" to J. Edgar Hoover and Strategic Air Command in Cincinnati, Ohio, expressing some doubt about the balloon explanation: "telephonic conversation between [Eighth Air Force] and Wright Field had not borne out this belief. Disc and balloon being transported to Wright Field by special plane for examination." Wyly receives this information from Maj. Edwin M. Kirton at Fort Worth. Roswell mortician Glenn Dennis, intrigued by inquiries from the base about small caskets, visits the base hospital but is turned away forcibly; a nurse friend (possibly 1st Lt. Adeline "Eileen" M. Fanton) warns him to leave before he gets into trouble and supposedly tells him that three alien bodies had been found. Other witnesses to recovered bodies include T/Sgt Ernest R. Robbins, Maj. Edwin D. Easley, Ruben and Pete Anaya, New Mexico Lieutenant Governor Joseph Montoya, Sgt. Melvin E. Brown (who says the bodies looked Asian), Capt. Oliver "Pappy" W. Henderson, Staff Sgt. Robert A. Slusher, and Charles H. Forgus.

Event 1588 (E9391A97)

Date: 7/8/1947
Description: 7:30 a.m. The regular 9:00 a.m. Roswell Army Air Field staff meeting is moved up 90 minutes. The main topic for discussion is Marcel and Cavitt reporting an extensive debris field near Corona in Lincoln County, New Mexico, approximately 75 miles northwest of Roswell. A preliminary briefing is provided by Blanchard about the separate impact site approximately 40 miles north of Roswell. Samples of wreckage are passed around the table. Pieces that resemble metal foil, paper-thin yet extremely strong, and pieces with unusual markings along their length are handed from man to man, each voicing their opinion. No one is able to identify the crash debris.

Event 1589 (514EB39B)

Date: 7/8/1947
Description: 6:00 a.m. Marcel and Cavitt visit with Blanchard in his quarters and tell him what they have seen. Blanchard calls base Provost Marshal Maj. Edwin D. Easley and orders him to post guards on the roads around the debris field. Armed guards encircle the primary areas, denying access to anyone without official business. Easley is directed to locate Brazel and have him escort the MPs to the debris field. Blanchard calls Eighth Air Force headquarters in Fort Worth, Texas, and advises them of the new find.

Event 1597 (10CFF270)

Date: 7/9/1947
Description: RAAF officers locate Mack Brazel and take him to the base for questioning, then to the Roswell Daily Record and radio station KGPL for a revised, sanitized version of his story, this time saying he found the debris on June 14. Copies of Haut's original press release are recovered. Three fully loaded C-54's carry debris to Los Alamos, New Mexico, via Kirtland AFB, according to Robert E. Smith, First Air Transport Unit. A crate allegedly carrying alien bodies is flown from Roswell to Fort Worth in a B-29, according to Staff Sgt. Robert A. Slusher, who says he was on board.

Event 1610 (8D15C774)

Date: 7/9/1947
Description: Shortly after 5:00 p.m. Electrician Raymond Edward Lane and his wife are picking huckleberries near Midland, Michigan, when they hear a kind of "puff" noise nearby. Looking up, they see a ball of white, sparkling fire, like a Fourth of July sparkler, about the size of a bushel basket, no more than 100 feet away. It is hovering several feet above a stretch of sand. After about 10 or 15 seconds, the light goes out and the object vanishes. The only thing that remains is a peculiar dark substance on the sand and some metallic fragments. Lane collects fragments of the material in a tin can and brings them the next morning to Robert S. Spencer, a senior researcher at the Dow Chemical Company materials research laboratory in Midland. Spencer goes to the site with Lane and Dow's internal security chief Edward Fales. Spencer has the Dow spectroscopy laboratory analyze the fragments and reports that the shiny pellets are largely silver mixed with a bit of silicon. They conclude that it consists of fused sand. By the end of September, the lab has analyzed ashlike powder found at the site. It turns out to be thorite that is slightly radioactive, mixed with magnesium hydroxide and other trace minerals. The conclusion is that the sighting is the result of some kind of home-made

fireworks experiment, although Dow chemist John Josef Grebe suspects it might have been a small missile.

Event 1615 (29FC7E9C)

Date: 7/9/1947
Description: Brig. Gen. George F. Schulgen, chief of the Requirements Intelligence branch of Army Air Force Intelligence, requests FBI help with the problem of the flying discs from Special Agent S. Wesley Reynolds. Army intelligence claims they are not Army or Navy craft. He says that Air Corps Intelligence is utilizing all its scientists to study the cases to see whether they are natural or artificial or inspired by "individuals of Communist sympathies with the view to causing hysteria and fear of a secret Russian weapon."

Event 1616 (B24D601D)

Date: 7/10/1947
Description: 5:30 p.m. Three civilian airline mechanics (John N. Mehrman Jr., Robert Leidy, and John E. Woodruff) at Ernest Harmon AFB [now Stephenville International Airport] are returning from a fishing trip and driving up a mountain road near Stephenville Crossing, Newfoundland. They see a bluish-black exhaust trail that has cut through some clouds leaving a "hole." Woodruff sees a disc-shaped object the apparent size of a C-54 transport plane coming out of the clouds and traveling at a terrific rate of speed. The hole remains in the cloud for more than an hour. Leidy takes two Kodachrome photos of the exhaust trail. The sighting later impresses Project Sign personnel to the extent that they ask questions about UFO effects on clouds.

Event 1638 (0CF2F9DB)

Date: 7/10/1947
Description: 4:47 p.m. University of New Mexico astronomer Lincoln LaPaz, his wife Leota, and two daughters, Jean and Mary, are driving west on Highway 60 near Fort Sumner, New Mexico, when they see a sharply outlined, white ellipsoidal object wobbling in the sky to the west about 25 miles away. They watch it for about 30 seconds, then it disappears behind a cloud, but reappears 5 seconds later further to the right. He estimates its size as 245 feet long and 100 feet thick at the maximum, with a horizontal speed of 120–180 mph and a vertical speed of 600–900 mph. It moves silently with no vapor trail. It resembles no known aircraft.

Event 1639 (230BCF87)

Date: 7/11/1947
Description: Debriefings of all military participants in the debris recovery operation take place. They are taken into a room in small groups and told that the recovery is highly classified and not to talk about it. Military personnel warn civilians around Roswell, New Mexico, that they are not to talk about what happened.

Event 1640 (033574ED)

Date: 7/11/1947
Description: 11:00 a.m. USAAF Col. Bruce H. Perry and Maj. William E. Geyser, 59th AACS Group, see a round 2–3 foot or 10-foot aluminum or silver-metallic sphere traveling at great speed to the south of Elmendorf AFB [now Joint Base Elmendorf-Richardson], Anchorage, Alaska. Estimated altitude is 3,000–4,000 feet.

Event 1642 (9DD34BE6)

Date: 7/12/1947
Description: 6:30 p.m. USAAF Maj. Edward Graham and others at Elmendorf AFB [now Joint Base Elmendorf-Richardson], Anchorage, Alaska, see a balloon-like grayish object, 10 feet long, flying northwest at 100 mph at an altitude of 1,500 feet and following the contour of mountains 5 miles away. It is paralleling the course of a landing C-47.

Event 1643 (CF077A24)

Date: 7/12/1947
Description: Kenneth Arnold is interviewed at the Hotel Owyhee in Boise, Idaho, by Lt. Frank M. Brown and Capt. William L. Davidson, who have flown in from Hamilton Army Airfield [now closed] in Novato, California. He also submits a written statement to Army Air Force intelligence, referring to the objects as "saucer-like." At the end of the report he draws a picture of what the objects appeared to look like at their closest approach to Mt. Rainier, Washington. He writes, "They seemed longer than wide, their thickness was about 1/20th their width." As to motion, Arnold writes, "They flew like many times I have observed geese to fly in a rather diagonal chain-like line as if they were linked together." (James Easton suggests in 2007 that Arnold may have seen pelicans, based on their movements, but this seems unlikely.) While they are at Arnold's house, Brown and Davidson hear that pilot Emil J. Smith is in Boise on a layover, and all three go to the airport to talk to him.

Event 1644 (2AB6CAD7)

Date: 7/12/1947
Description: 6:35 p.m. Seamen John C. Kennedy and Ben Bobberly are on duty at Naval Air Station Seattle at Sand Point [now closed and redeveloped as Magnuson Park], Seattle, Washington. They notice a silvery disc-shaped object flying overhead to the east at 12,000 feet. At about the same time, Arnold Bergh and James Calahan watch three silvery discs flying quickly north from their location near North 82nd Street and 11th Avenue in Seattle.

Source: Maj2

Event 1648 (15B4DDF7)

Date: 7/13/1947
Description: At 9:30 p.m. four or five bright white, one-meter wide discs flew over New Cumberland, West Virginia one after the other at 15-minute intervals. They flew away to the south. At 10:30 in Topeka, Kansas a disc-shaped object flew in from the northwest, stopped in midair, and circled. Two more discs, one each from the southwest and southeast fly in and join the first one. All three fly away silently toward the west.

Event 1650 (8AA39BE7)

Date: 7/14/1947
Description: At 10:30 a.m. in Syracuse, New York a 13-year-old boy saw a long, featureless cigar-shaped object hovering over an orchard only 100 meters away. At 1:00 p.m. in Wilkesboro, North Carolina a buzzing noise was heard and then a disc shot through the sky fast at an altitude of 1500 meters. At 7:20 p.m. a small disc flew over a farm south of Idaho Falls, Idaho flying on an irregular course, low and slow. It tilted, then flew away to the southwest making an odd sound.

Event 1651 (25EE1C0B)

Date: 7/15/1947
Description: 12:15 p.m. Col. Frank A. Flynn is flying a Vultee BT-13 Valiant over Concord, California, when a group of 12–15 objects approaches and passes him. At first he takes them for birds, but he can see no necks or wings and they are moving in excess of 200 mph. They are moving in a see-saw fashion at three different altitudes about 200 feet apart, and they appear to be about 15 feet across, white on the top and gray and black on the bottom. At their closest point, they are about one mile away. Flynn turns his plane around to pursue them, but they outdistance him quickly.

Event 1664 (B80C9B07)

Date: 7/23/1947
Description: A group of survey workers working northeast of Pitanga, Parana State, Brazil ran away when they heard a hissing noise and saw a disc-shaped object land only 50 meters away from them. Jose C. Higgins saw two figures through a window inside the craft. Later three beings in shiny clothes and translucent suits, with oversized baldheads, huge round eyes, no eyelashes or eyebrows, and a metal box on their back, emerged from the craft. They were over two meters (6.6 feet) tall. They drew a sketch of the solar system and pointed to Uranus as if to suggest that was their point of origin.

Event 1665 (F9A18EC6)

Date: 7/23/1947
Description: On this day a private pilot named Jenssen, flying at 6000 feet over Morristown, New Jersey encountered a shaft of light from above. The aircraft's engine faltered, then died, but the plane maintained its altitude. He felt a prickling sensation and saw a metallic disc above and ahead of him. He was able to re-start the plane by putting the nose down when he got control back.

Event 1666 (DCE447A9)

Date: 7/23/1947
Description: Day. John H. Janssen, aviation editor of the Morristown Daily Record, is flying his Piper J-3 Cub at 6,000 feet near the Morristown Airport in New Jersey. He sees a flash of light, the engine gives out, and the plane seems to be motionless. Then he sees two UFOs (this time with portholes) and manages to get the propeller going again. This is one of the first cases of "vehicle interference" UFO cases involving an airplane.

Event 1667 (48FBF0E8)

Date: 7/23/1947
Description: José C. Higgens and some assistants are surveying a field in Campina do Amoral in the Colônia Goio-Bang, located between Luiziana and Mamboré, Paraná, Brazil. On hearing a sharp sound, they see a grayish-white disc-shaped object about 100 feet in diameter, which soon lands and rests on curved metal feet. His assistants flee, but Higgens goes up to examine it. He sees a small, glass window, then two odd-looking beings observing him curiously. A door opens in the craft, and three other hairless beings dressed in transparent overalls. They have large, round eyes with eyebrows and pronounced eyelashes. Their legs are disproportionately long and they are about 7 feet tall. One points a small tube at Higgens. They are speaking in an unknown, sonorous language. He walks toward the door and can see only a small cubicle, bordered by another door, and several portholes. Higgens by gestures asks where they are from and the leader draws a map in the dirt, indicating a seventh planet, presumably Uranus. He eludes them by pretending to look for his wife and goes into a hidden spot in the woods. After 30 minutes the beings climb into the object and take off.

Event 1673 (E0E9C86A)

Date: 7/26/1947
Description: President Truman signs the National Security Act, a major restructuring of the military and intelligence agencies. It creates a unified National Military Establishment (Army and Navy) and a Department of the Air Force, both under the new Secretary of Defense. The Joint Research and Development Board becomes the R&D brain center. Each of the three service secretaries maintains quasi-cabinet status. It establishes the National Security Council to advise the president and the Central Intelligence Agency, the first peacetime intelligence agency in the US. The CIA is prohibited from conducting domestic surveillance, but Allen Dulles ensures it can handle "other functions" affecting "national security" without scrutiny from Congress or (sometimes) the president. Much of the CIA's funding initially comes from wealthy Americans. The act creates the first black military and intelligence budget.

Event 1682 (1D8F58CB)

Date: 7/29/1947
Description: 6:55 a.m. Kenneth Arnold is flying to Tacoma, Washington, to investigate the Maury Island mystery. As he is over Union, Oregon, preparing to land at La Grande to refuel, he sees a cluster of 25 small (24–30 inches) brass-colored discs with a spot in the middle moving at a terrific speed. They come within 1,200 feet of his aircraft before veering away. At La Grande, he phones aviation editor David N. Johnson about his sighting, then reaches Tacoma at dusk. He gets a room (502) at the Winthrop Hotel, where a room and a bath have already been mysteriously reserved for him. Harold A. Dahl visits Arnold that night, then takes him to Fred Crisman's place to see some Maury Island fragments. Arnold thinks it looks like lava.

Event 1687 (D25CD506)

Date: 7/30/1947
Description: Arnold calls United Airlines pilot Capt. Emil J. Smith and asks him to come listen to the Maury Island, Washington, story. Smith arrives in Tacoma in the afternoon and cross-examines Dahl and Crisman. Smith stays with Arnold at the Winthrop Hotel. Journalist Ted Morello of United Press calls Arnold and says that a crackpot has been calling him, explaining everything that is going on in the hotel room, including conversations with Smith when they are alone. They try but fail to locate a listening device in the room.

Event 1688 (D6E910A3)

Date: 7/30/1947
Description: The Garrett Estimate, an Air Force Base Intelligence Report on "Flying Discs"—an informal estimate of the situation based on 16 reports selected by Collections Officer Lt. Col. George D. Garrett—says that the "flying saucer situation is not all imaginary or seeing too much in some natural phenomena. Something is really flying around." Also, "Lack of topside inquiries . . . give more than ordinary weight to the possibility that this is a domestic project, about which the President, etc., know." The study is passed up the line to Gen. George Schulgen and Hoover at the FBI for comment, subtly indicating that investigating a domestic project is a waste of time.

Event 1692 (A56C6233)

Date: 7/31/1947
Description: Crisman and Dahl bring heavy fragments and white metal from the Maury Island case to the Winthrop Hotel room in Tacoma, Washington. They cannot locate the photos. Arnold calls Brown and Davidson at Hamilton Army Airfield in Novato, California. They quickly depart for Tacoma. Morello calls Arnold and says his informant knows that Brown and Davidson are on their way in a B-25. They arrive in the late afternoon. The five men talk until 11:00 p.m., when Crisman offers to go home and get more Maury Island fragments. He returns with slightly different, more slag-like rock stuffed in a large cereal box, which is loaded into Brown's army vehicle. Brown and Davidson leave to go back to Hamilton for Air Force Day the next day. Morello calls again and says his informant told him everything about what has just taken place.

Event 1698 (3BDA625D)

Date: 8/1/1947
Description: Brown and Davidson make a stop at McChord Field near Tacoma, Washington, to speak with intelligence officer Maj. George Sander, then board the B-25 for Hamilton Army Airfield [now closed] in Novato, California. It explodes and crashes near Kelso, Washington, at 1:30 a.m., 20 minutes after taking off, when the left engine catches fire. An army hitchhiker and engineer parachute to safety. Brown and Davidson fail to signal distress or bail out. After hearing the news, Arnold calls Palmer and offers to return his money. Palmer says to just mail him some fragments. Arnold and Smith visit Morello and Dahl and Crisman. They talk to Tacoma Times reporter Paul Lantz in the hotel lobby, who writes the article "Sabotage Hinted in Crash of Army Bomber at Kelso." Debris from the crash is not discovered until 2007.

Event 1703 (F0623DA3)

Date: 8/4/1947
Description: Pilots Capt. Jack Peck and Vince Daly see a smooth UFO northwest of Bethel, Alaska, dead ahead as they are flying a DC-3 for Al Jones Flying Service. Peck hauls back on his controls to bring his plane up to safer altitude. Now 1,000 feet higher, the pilots glance downward and spot the UFO closer but on a changed course. Still dark against the sky, it looks to be as large as a C-54. Intrigued, Peck dives on the object as it pulls away, doing his best to get a better view, but it speeds up to an estimated 500 mph and is lost to view in four minutes.

Event 1708 (EFA910E7)

Date: 8/7/1947
Description: The Seattle, Washington, FBI office interrogates Crisman and Dahl and announces the Maury Island incident is a hoax. The FBI file notes that Dahl stated that "if questioned by the authorities he was going to say it was a hoax because he did not want any further trouble over the matter." Dahl's daughter Louise admits in 2007 that the whole story was made up, as did her brother Charles in the late 1960s, who called Crisman a "smooth-talking con artist." The affair had started as a joke and blossomed into something worse. Associated Press reporter Elmer Vogel says that Dahl's wife had compelled him to tell Vogel the truth. Morello also speaks to Crisman, who admits the story is baseless.

Event 1710 (AF58FB0C)

Date: 8/9/1947
Description: John Derry, serving as acting general manager of the Atomic Energy Commission, proposes a set of guidelines that restate the proposition that secrecy can be based on reasons other than national security. The definition of Confidential that he proposes goes beyond the Army and Manhattan Project rules: "CONFIDENTIAL: Documents, information or material, the unauthorized disclosure of which, while not endangering the National security, would be prejudicial to the interests or prestige of the Nation or any Governmental activity, or individual, or would cause administrative embarrassment, or be of advantage to a foreign nation shall be classified CONFIDENTIAL." The Derry memo calls for review by a classification board assembled from the AEC's regional sites. In September, this board assembles in Oak Ridge, Tennessee. The available documentation does not show that Derry's proposed rules go into effect, but it does show that the Classification Board blesses the illustrations of matter that "should be graded" Secret or Confidential. The former category includes "certain selected human administration experiments performed under MED [Manhattan Engineer District]."

Event 1712 (99C24BA4)

Date: 8/13/1947
Description: 1:00 p.m. Albert Clarence Urie and his two sons Billy and Kenneth see a straw hat–shaped, sky-blue object about 10 wide, 10 feet high, and 20 feet long. It has "pods" on the side emitting flames and is flying along the Snake River Canyon six miles west of Blue Lakes Ranch near Twin Falls, Idaho. The UFO is moving up and down towards them at 1,000 mph and an altitude of 75 feet about 1/2 mile away. Urie is about 300 feet from the object, which is about level with him and silhouetted against the canyon wall. It disappears behind a hill about one mile away. Hynek, for Project Blue Book, later identifies it as an "atmospheric eddy."

Location: Twin Falls, Smoke River Canyon, Idaho
Source ID: 62
Source: ValléeMagnonia

Event 1715 (18D0F82F)

Date: 8/13/1947
Description: Mr. A. C. Urie and his two sons were fishing in the Snake River Canyon near Twin Falls, Idaho at about

one p.m. when they saw a sky blue, seven-meter wide inverted plate-shaped flying object 100 meters away and 25 meters above the ground. Treetops under it were spinning wildly, although the object itself did not appear to spin. It made a swishing sound. There was a red flame visible on one side of the top. According to the FBI investigative report of this case, at about 1:00 p.m. Mr. Urie "sent his boys to the (Salmon) river to get some rope from his boat. When he thought they were overdue he went outside to his tool shed to look for them. He noticed them about 300 feet away looking in the sky and he glanced up to see what he called the flying disc. This strange object was flying at high speed along the canyon which is about 400 feet deep and 1,200 feet across at that point. It was about seventy-five feet above the floor of the canyon (and so more than 300 feet below the edge of the canyon) and moving up and down as it flew. It seemed to be following the contours of the hilly ground beneath it. Urie, who said he was at about the same level as the UFO, so that he had a side view, estimated it was about twenty feet long, ten feet wide and ten feet high, with what appeared to be exhaust ports on the sides. It was almost hat shaped with a flat bottom and a dome on top.

Its pale blue color made Urie think that it would be very difficult to see against the sky, although he had no trouble seeing it silhouetted against the opposite wall of the canyon. On each side there was a tubular shaped fiery glow, like some sort of exhaust. He said that when it went over trees they didn't sway back and forth, but rather the treetops twisted around, which suggests that the air under the object was being swirled into a vortex. He and his sons had an excellent view of the object for a few seconds before it disappeared over the trees about a mile away. He thought it was going 1,000 miles an hour.

Event 1718 (45331514)

Date: 8/14/1947
Description: At around nine o'clock in the morning R. L. Johannis of Raveo, Italy saw a 10 meter wide, red domed, disc-shaped object with an antenna on top, on the ground across an ice field. There were two dwarfs less than three feet tall near the craft, wearing dark blue coveralls with red collars and belts. They had oversized heads and greenish toned faces. Their eyes were huge, without eyelashes or eyebrows but surrounded by some kind of ring-like muscle. The beings had greenish hands with eight talon-like fingers. They wore something similar to crash helmets. When he waved

his ice axe at them in a friendly gesture, one of the beings discharged a thin puff of smoke or "vapor" at him which knocked him down, and the witness started to suffocate, feeling at the same time a strong electrical discharge.

Event 1720 (DABA15CD)

Date: 8/14/1947
Description: Shortly after 9:00 a.m. Italian artist and author Luigi Rapuzzi (who uses the pseudonym L. R. Johannis) is hiking along the left bank of the Torrente Chiarzò near Raveo, Udine, Italy, when he sees a vivid red, metallic, domed disc on the riverbank about 165 feet ahead. It is about 33 feet wide and embedded in a cleft in the rock about 20 feet above thqwe stream. Looking around, he sees two "boys" on the edge of a grove of trees. He shouts at them and points to the object, walking toward them, but notices they are actually odd-looking dwarfs who are approaching him stiffly. They are about 3 feet tall and wearing dark blue coveralls with red collars, cuffs, and belts. Their greenish heads are covered in tight-fitting, brownish caps. He looks at them in astonishment for 2–3 minutes, then waves his geologist's pick at them and asks where they come from. One of the entities raises its right hand to its belt, which emits a puff of smoke that knocks Rapuzzi to the ground as if from an electric shock. As he is lying there, one of them grabs his pick and he notices its green hand has 8 claws. They climb up the rock and into the disc, which soon shoots straight out and into the air, hovering briefly at an angle, then vanishes. Rapuzzi feels a blast of wind that blows him across the ground. His pick is missing.

Event 1721 (35A5C400)

Date: 8/14/1947
Description: The first Gallup poll on UFOs shows that 90% of Americans have heard of flying saucers; 33% don't know what they are, 39% consider them hoaxes or misidentifications, 16% consider them US or Russian secret weapons. The ETH is not mentioned.

Event 1722 (5CEB6866)

Date: 8/14/1947
Description: 10:40 a.m. Three men of the 147th Airways and Air Communications Service Squadron at Harmon Field, Guam, see two small crescent-shaped objects zigzagging at 1,200 feet. They disappear in the clouds and another object emerges and proceeds west.

Event 1723 (A27E1BE4)

Date: 8/15/1947
Description: In response to the August 13 San Francisco Examiner report, FBI Director J. Edgar Hoover asks the agency to look into whether Soviet spies are looking into whether the flying discs are a secret US technology. Assistant Director of the Domestic Intelligence Division D. Milton "Mickey" Ladd at FBI headquarters assures FBI Deputy Director Edward Allen Tamm that he is unaware of any such effort.

Event 1724 (B57A7E27)

Date: 8/15/1947 (approximate)
Description: 9:30 p.m. Maj. Elmer H. Hammer of the 28th Bombardment Wing at Rapid City Army Air Base [now Ellsworth AFB] near Box Elder, South Dakota, sees 12 objects flying at 6,000–10,000 feet in a tight diamond formation at 300–400 mph. The objects level off at approximately 5,000 feet and make a gentle large-radius turn of about 110° to the right about 4 miles away. They start climbing at an angle of 30–40° and appear to accelerate rapidly in the climb. The objects are approximately 100 feet long and have a brilliant yellow-white luminous glow.

Event 1726 (159FE8F5)

Date: 8/17/1947

Description: A forest ranger at a fire lookout tower on Mt. Josephine, Skagit County, Washington, observes an object shaped like a huge clam that appears to fall tipped at an angle northeast of the fire tower. It slows to a stop, levels off, and floats "leisurely as if suspended by a cord" for a few minutes and finally moves off to the southeast with ever increasing speed.

Event 1728 (F188C9AB)

Date: 8/18/1947
Description: Two silver round flat disc-shaped objects, described as looking like "skeet targets", passed beneath a United Airlines transport plane flying at 8,000 feet near Mountain Home Army Air Base, Idaho at around noon. The objects flew off to the south, at a speed estimated at 900 miles per hour. There were two witnesses on board the aircraft.

Event 1729 (5E52E543)

Date: 8/19/1947
Description: FBI memo to D. M. Ladd from E. G. Fitch on "Flying Discs" mentions SAC Reynolds's conversation with Lt. Col. George Garrett, who strongly suspects the Army or Navy is testing some new technology, condluding that "there were objects seen which somebody in the Government knows all about." However Gen. Stephen Chamberlin and the War Department claim to have no involvement.

Event 1731 (D8ED166F)

Date: 8/20/1947
Description: An Anglo-American intelligence team releases a report on secret German weapons. Foo fighters are said to be caused by a rocket-propelled plane launched straight up from the ground, intercepting Allied bomber formations by firing a spray of rocket shells from the nose. The pilot then parachutes back to the ground, a chute opens on the rocket, and it is recovered for re-use.

Event 1732 (FAA594F9)

Date: 8/22/1947
Description: Col. Robert Taylor III, Collection Branch of Army Air Force Intelligence, summarizes the findings of Lt. Col. Garrett's investigations of UFOs in a letter to Gen. Curtis LeMay, Deputy Chief of Air Staff for Research and Development. Taylor requests any information on AAF projects that might give rise to such UFO reports.

Event 1737 (2B5563B3)

Date: late 8/1947
Description: Brig. Gen. George F. Schulgen passes the updated Garrett Estimate on to Air Materiel Command head Gen. Nathan Twining with a request for a statement on the discs so an authorized UFO project can be requested. Col. Howard McCoy asks for a meeting between Alfred Loedding (aeronautics engineer at T-3), Lt. Col. George Garrett (Collections), and Charles Carroll (a math and missiles expert who has been correlating UFO sightings with approaches of planetary bodies) "in order to set up a system for evaluating the information being received." These four will later form the core of the ETH-friendly faction at Project Sign.

Event 1767 (44D8AE0F)

Date: 9/23/1947
Description: Head of Air Materiel Command Gen. Nathan Twining responds to Schulgen's request for UFO information with a classified letter composed by Col. McCoy with the assistance of Alfred Loedding, "AMC Opinion Concerning 'Flying Disks.'" Twining notes the discs are "real and not visionary or fictitious." Reports (based on the cases in the Garrett Estimate) include "extreme rates of climb, maneuverability (particularly in roll), and action which must be considered evasive." Twining gives three reasons to study the discs: They might represent a deep-black domestic project; to pick up physical evidence; and to find out if they are nuclear- propulsion devices from Russia or elsewhere. The letter lists common descriptions of the objects and recommends that USAF "issue a directive assigning a priority, security classification, and code name for a detailed study of the matter." This will ultimately result in Project Sign. Henceforth all disc reports are to be sent to the Army and Navy Research and Development Board, the USAF Scientific Advisory Group, the Atomic Energy Commission, the National Advisory Committee for Aeronautics, Project RAND, and the Nuclear Energy for the Propulsion of Aircraft project at Oak Ridge. Twining promises a detailed "Essential Elements of Information" (EEI) to be formulated immediately so that all agencies will have guidance.

Date: 9/26/1947
Description: A memorandum from Col. James F. Olive Jr., Chief of Air Intelligence Division, to the Assistant Chief of the Air Staff, A-2, summarizes three radar trackings of high-speed targets in Japan (Chitose Air Base, July 1; and MEW Radar Station, Fukuoka, August 28 and September 16). It concludes that there is insufficient information to state that they involved aircraft or missiles but supports the conclusion that they were not natural phenomena. The report is forwarded to T-2 on September 29.

Event 1796 (9EEF10C6)

Date: 10/28/1947
Description: Brig. Gen. George F. Schulgen, Chief of USAF Intelligence Requirements Division, writes a five-page report based on the characteristics listed in the September 23 Twining letter (though in greater detail) and the

preliminary EEI of October 21. Titled "Intelligence Requirements on Flying Saucer Type Aircraft: Draft of Collection Memorandum," it lists things investigators should try to determine about UFO propulsion, control, construction, arrangement, landing gear, and power plant. It considers the objects "to be a manned aircraft, of Russian origin, and based on the perspective thinking and actual accomplishments of the Germans" (page 5, paragraph 4). [However, a fake version of this document has the phrase "it is the considered opinion of some elements that the object may in fact represent an interplanetary craft of some kind…. The presence of an unconventional or unusual type of propulsion system cannot be ruled out and should be considered of great interest." Other deletions and additions are present in the fake document.]

Event 1825 (D671F1DF)

Date: 12/30/1947
Description: Gen. Laurence C. Craigie, director of USAF R&D and successor to Gen. Curtis LeMay (who has returned to Europe), advises the AMC commanding general that USAF policy is not to ignore UFO reports, but to collect, evaluate, and act on the information. He establishes Project Sign (Project HT-304 under USAF Technical Instruction no. TI-2185) in a memo titled “Flying Discs.” Alfred Loedding, who is convinced that the flying discs are extraterrestrial, may have come up with the “Sign” designation. It carries a 2A restricted classification. (Gen. Laurence C. Craigie, “Flying Discs,” Memorandum to Commanding General, Air Materiel Command, December 30, 1947; Sparks, p. 11; Condon, p. 896; “Report by the Director of Intelligence, USAF, to the Joint Intelligence Committee on Unidentified Aerial Objects,” April 28, 1949, p. 2; Michael David Hall and Wendy Ann Connors, “Alfred Loedding: New Insight on the Man behind Project Sign,” IUR 23, no. 4 (Winter 1998): 24). Craigie, after his retirement from the Air Force in 1955, indicates that he believes UFOs are a waste of time and only approved Project Sign because of internal USAF politics.

Event 1831 (00187DDE)

Date: 1948
Description: An airman stationed in Arizona is called out with a scientific team to examine a flying saucer that has crashed near Taos, New Mexico. When he arrives, the area is roped off and under military guard. The object is metallic with a flat circular airfoil. The cabin at the top center is too small for a normal-sized human. He is told by workers on the scene that bodies of "little men" have been removed from the craft. They discover that the ship is constructed of interlocking sections pinned together, but they cannot locate a power plant, except possibly some electromagnets below

the cabin.

Event 1832 (92C05B4B)

Date: 1948
Description: David T. Keating, an employee of the USAF Nuclear Energy for the Propulsion of Aircraft group, is flying with the 166th Fighter Squadron of the Ohio National Guard out of Lockbourne AFB [now Rickenbacker Air National Guard Base] in Lockbourne, Ohio. While executing a flip of his P-51 at 18,000 feet, he sees a silvery disc zoom above his plane. He goes in pursuit of it at 325 mph and closes to within 240 feet of it. It seems to be 40 feet in diameter and 6 feet thick, with a vertical stabilizer rudder on the end. He keeps flying after it even when he loses sight of it. "About 10 miles south of the Ohio River," he claims, "I spotted litter on a hillside and a path that had obviously been ripped up by a crashing plane." Short on fuel, he returns to Lockbourne. He persuades his major to fly over the crash scene, and they send a truck to retrieve the remains.

Event 1833 (24B13825)

Date: 1948 (approximate)
Description: Sylvia Hall, 11, wakes up at her home on the corner of Riggs Road and Lateral 1 Road south of Yakima, Washington, when her bedroom fills with bluish-white light pouring in through the closed west window. Some 100 feet above the ground is a huge bright cloud. Gliding down from it in groups of four on something like a ramp are tall people with bluish-silvery robes. She watches them for 10 minutes, then she has an overpowering desire to go back to bed. She tells no one about the experience until she is an adult.

Event 1836 (CCDCB108)

Date: 1/6/1948
Description: Mrs Bernice Zaikowski of Chehalis, Washington heard a "sizzling and whizzing" sound at three o'clock in the afternoon, and looked up to see a "birdman" hovering 200 feet above her barn. She watched "a man equipped with long silver wings fastened over the shoulders with a strap" ascend rapidly, hover, bank, then fly away. "He flew in an upright position and appeared to be manipulating controls strapped to his chest." The wings did not flap, instead they retracted close to his body during ascent, and were extended to hover or proceed in horizontal flight. Mrs Zaikowski said five other adult witnesses and a number of children also saw the birdman.

Event 1838 (79A0A62C)

Date: 1/7/1948
Description: 2:50 p.m. Capt. Thomas F. Mantell Jr., a 25-year-old Kentucky Air National Guard pilot, and three others are flying F-51D fighters to Louisville, Kentucky. After Mantell reports his position to Standiford Field in Louisville, Tech/Sgt. Quinton A. Blackwell at Godman Army Airfield at Fort Knox breaks in over the radio to request Mantell to intercept and identify the object. The object maintains a constant angular position as seen from Godman as it apparently moves away at about 240–300 mph at an altitude of 50,000–60,000 feet during most of Mantell's pursuit. Flying at 300 mph and gradually climbing to about 22,000–23,000 feet, Mantell gradually overtakes the UFO from below, past Bowling Green, Kentucky, at about 3:10 p.m. In one of his last radio reports, Mantell says the UFO "appears to be a metallic object or possibly reflection of sun from a metallic object, and it is of tremendous size." At 3:15 p.m., at 22,500 feet with oxygen running low, two other F-51Ds quit the chase. Mantell continues to 25,000, blacks out, and crashes at 3:18 p.m. about 4 miles south-southwest of Franklin, Kentucky. The UFO disappears from view behind a cloud at Godman at 3:50 p.m. The Project Sign staff, still not yet formally organized, are under pressure to come up with some kind of answer, so they quickly float Venus (offhandedly suggested by Ohio State University astronomer J. Allen Hynek) as an explanation. This implausible explanation is not even believed by the Air Force, but it remains unchallenged for several years. In 1952, Ruppelt reopens the case and identifies the object as a secret Skyhook balloon, although he cannot confirm a launch that day. Army veteran Clifford Stone finds later that there had been no Skyhook

launches since late December. However, Barry J. Greenwood and Robert Todd tentatively identify the balloon as one launched from Camp Ripley near Little Falls, Minnesota, on January 6.

Event 1839 (34A2CFCE)

Date: 1/7/1948
Description: Top Secret Report (100–203–79,p.12,sec. k.) Capt. Thomas Mantell, a Nat. Guard pilot, was killed trying to chase an UFO up to 30,000 ft. His last message to the tower was, "it appears to be metallic object….oftremendous size.directly ahead and slightly above….I am trying to close for a better look." The F-51 exploded in mid-air and disintegrated before it struck the ground. The aircraft's metal was hit with fragments before it collided with the ground. State Police estimated the saucer to be 250 ft. diam.

Event 1842 (07485F70)

Date: 1/7/1948
Description: 7:35 p.m. Base personnel at Clinton County AFB [now Wilmington Air Park] near Wilmington, Ohio, where Skyhooks are launched a couple years later, watch a quickly maneuvering object. It dances up and down and changes from red to green before speeding to the southwest. Sgt. LeRoy Ziegler thinks he can detect a faint exhaust trail. Project Sign calls it Venus, because it disappears about the time Venus does.

Event 1843 (A70735A9)

Date: 1/7/1948
Description: 7:15 p.m. Air Traffic Controller and pilot Alex A. Boudreaux and VHF Direction-Finding (DF) Operator and amateur astronomer Frank M. Eisele, 103rd AACS Squadron, at Lockbourne AFB [now Rickenbacker Air National Guard Base] in Lockbourne, Ohio, spot a bright object to the southwest of the airfield that appears and disappears intermittently. Fighter pilot USAF Capt. Charles E. McGee sees the object on runway 23 landing approach when he is at about 1,800 feet. The light seems to be at about 3,000 feet to the southwest about 4–5 miles away, then later on the ground to the west about 6–7 miles away. USAF VHF DF Operator and pilot Albert R. Pickering, Detachment 733, 103rd AACS Squadron, is awakened by the sudden emergence of a lighted amber- colored round or oval object about the size of a C-47 or larger [60+ feet] dropping out of the overcast bank 10,000 feet overhead. Lockbourne Control Tower at the same time radios a report of the object, which then maneuvers over to Commercial Point about 3–5 miles away to the west-southwest, then makes three full 360° circles over one spot in 30-40 seconds per turn over the runway, at a speed of more than 500 mph, leaving a luminous, amber- colored trail or exhaust about 5 times its length. Then the UFO goes to another location and does more 360° turns. At one point, it disappears into the overcast for one minute, then reappears. Just before departing, it hovers or "appeared to touch down" on the grass extension past the end of the Lockbourne AFB runway for 10 seconds then leaves at 120° (ESE) heading into the overcast. It is also sighted by the pilot of a C-45 at 5,000 feet off the right wing at 7:53 p.m.

Event 1844 (B9136BC4)

Date: 1/7/1948
Description: 1:00 p.m. Kentucky State Police telephone Commanding Officer Col. Guy F. Hix's office at Godman Army Airfield in Fort Knox, Kentucky, reporting an unidentified object near Elizabethtown, Kentucky. Another call to Hix comes from state police at about 1:10 p.m. of an observation by a civilian in Madisonville, Kentucky, through a Finch telescope of a cone-shaped object about 100 feet tall by 43 feet wide, at an altitude of 4 miles and moving at 10 mph. This is apparently General Mills Skyhook balloon Flight B, which passes about 40 miles to the southwest of Madisonville. Other reports come in from Lexington and Mannsville, Kentucky.

Event 1853 (4E4A7026)

Date: 1/22/1948
Description: Project Sign officially launches at Wright Field. The primary investigators are Capt. Robert R. Sneider (project chief), Alfred Loedding (T-3 engineer), Lawrence Truettner (T-2 engineer), and Col. Albert Deyarmond (analyst in Intelligence Analysis Division). Also involved are Maj. Raymond Llewellyn (chief of special projects branch), Lt. Howard W. Smith, George W. Towles, and others as assigned. How much interest Col. Howard McCoy takes in the project is unknown. Its task is to collect, collate, evaluate, and distribute information on sightings in the atmosphere "which can be considered of concern to national security." Ruppelt later says that to be considered an "unknown," it has to come from a competent observer and contain a reasonable amount of data.

Event 1864 (52598B4B)

Date: 2/18/1948
Description: 5:00 p.m. A smoke trail begins over Nebraska and runs south. A bolide explodes over Norcatur, Kansas, and the concussion from the blast breaks windows and rocks buildings over a wide area of Kansas, Nebraska, and Oklahoma. A huge shower of meteoritic stones fall over a large area of Norton County, Kansas, and Furnas County, Nebraska. Two Army B-29 bombers circle the area until nightfall. A farmer near Stockton, Kansas, sees a hovering object that leaves a bare spot in the ground. Kenneth Arnold is persuaded that reports of the Norton County meteorite fall might actually have been UFO-related. Astronomer Lincoln LaPaz directs the recovery of the massive achondritic meteorite in 1948. More than 100 stones are recovered, including one weighing about one ton.

Event 1869 (A32D230F)

Date: 3/12/1948
Description: Maj. Earl S. Browning Jr., in a memo to the European command of the 970th CIC, writes that the Horten brothers have been located and interrogated by US officials. Walter Horten has remained in Germany as an officer in the German Air Force. He thinks that sufficient types of flying wing prototypes existed when the Russians invaded Germany and may have served as models for flying discs. Reimar Horten had emigrated to Argentina when the war ended.

Event 1875 (145292F2)

Date: spring 1948
Description: Kenneth Arnold visits the Landing Aids Experiment Station in Arcata, California, and interviews Kenneth W. Ehlers, a radar technician (and later physicist) working on airport operational systems, including radar. He has been accumulating information on unidentified radar targets (he calls them “gizmos”) that cannot be seen with the naked eye and sending reports on their flight paths to Navy meteorologist Florence Van Straten and Luis Walter Alvarez, the inventor of Ground Control Approach System radar. In many cases, the target indicates a small solid target flying around 30 mph. The targets always fly in the same path from northwest to southeast, along the coast. Sometimes they

come to a complete halt; at other times they split into two objects, merging later. Ehlers notes that the targets have been attributed to insects, but he is skeptical. Later, he suspects they might be plasmas occurring at the inversion layer, but that does not explain their behavior.

Event 1878 (CB00DA4C)

Date: 3/25/1948
Description: Aztec area NM landing and retrieval incident near Hart Canyon. UFO detected by 3 strategically located radars in the southwest, including a powerful experimental radar in the Four Corners region. The Army OSI and the IPU put on Red Alert and the ADC activated the local military units when a UFO crashed in the vicinity of Aztec, NM. When the saucer got into range of a Special High-Powered radar at the Four Corners Range (Utah, Arizona, New Mexico, Colorado) it began to flutter and wobble from side-to-side and took a trajectory towards the ground. It seems that the beam from this special radar had an ill-effect on the control system of the saucer. The 100 ft. saucer crash-landed on Mr. H.D.'s (initials) property. H.D. and family were sworn to secrecy. Note: This may have been the White Sands 1948 incident mentioned by Virgil Armstrong.

Event 1879 (D2B58BAD)

Date: 3/25/1948
Description: 5:00 a.m. According to writer Frank Scully, who hears the tale from a scientist he refers to as "Dr. Gee" and a Texas oilman, a UFO crashes on a rocky plateau off Hart Canyon Road east of Aztec, New Mexico. When Air Force investigators and government scientists arrive on the scene, they crawl through a broken porthole and find the bodies of 16 small humanlike beings (3–3.5 feet tall) dressed in the "style of 1890." Their skin is charred a chocolate color, apparently as a result of the rush of terrestrial air through the shattered window. After a thorough study, the scientists conclude that the "vehicle probably flew on magnetic lines of force." Segments of the craft, as well as the bodies, are supposedly transported to Wright Field in Ohio. Dr. Gee, who claims to have been on the scene, said the UFO is likely from Venus, as Martians "would probably be three or four times as large as human beings." Soon afterward, a crash occurs in Arizona and 16 bodies are taken from the wreckage. A third spaceship goes down near Phoenix with 2 dead occupants. The story turns out to be a hoax dreamed up by two con men named Silas Newton and Leo GeBauer ("Dr. Gee," although Scully claims this was a composite character incorporating 8 informants, one of whom is said to be geophysicist Carl A. Heiland). The hoax is loosely based on a 1949 science fiction film titled The Flying Saucer. GeBauer and especially Newton are in later years involved in various swindles and fraudulent mining claims. In 1987, William S. Steinman and Wendelle C. Stevens release UFO Crash at Aztec, which draws on speculation, rumor, unnamed informants, and paranoia to defend and embellish the original story. The latest to champion the Aztec crash is a North Carolina man named Scott Ramsey, who with his wife Suzanne has spent thousands of dollars looking for and interviewing witnesses and trying to prove it involves a real UFO crash and coverup in his 2015 book The Aztec UFO Incident. Ramsey thinks the object was tracked on radar by Air Force Station P-8 near El Vado Dam.

Event 1880 (87E3B65C)

Date: 4/1948
Description: Morning. US Weather Bureau meteorologist Walter A. Minozewski at the Richmond, Virginia, weather station and his staff catch sight of a bright metallic, elliptical disc while they are tracking a small ceiling balloon at 15,000 feet. He checks his observation through a theodolite telescope. The disc flies just below the balloon and remains in sight for 15 seconds, appearing much bigger than the balloon. It has a flat, level bottom and a dome on top. It remains on a westward heading at high speed, then vanishes off into the distance.

Event 1882 (5ECF861A)

Date: 4/1/1948
Description: 9:55 a.m. USAF 1stLt. Robert W. Meyers is leading a flight of four P-47s from the 67th Fighter Group about 9 miles southeast of Sorsogon City, Luzon, Philippines. At 1,500 feet, he notices an unusual silvery object about 3 miles to the east. Shaped like a flying wing or half-moon with a "turtle back," it resembles no military craft in use at the time. The object flies below the squadron at 200 mph and an altitude of about 1,000 feet. Meyers estimates it is about 30 feet wide and 20 feet long. When he attempts to contact the other three P-47s, he realizes his radio is dead. As he makes a 270° left turn to get a closer look, the object makes a 90° left turn and moves away at tremendous speed. It is only visible for about 5 seconds.

Event 1883 (0A86D325)

Date: 4/1/1948
Description: At 9:55 a.m. a ten meter wide silver half disc maneuvered in the sky over Manila in the Philippines and made a number of ninety-degree turns. Lt. Meyers of the U.S. Air Force was leading a flight of four F-47S Thunderbolt fighters of the 67th Fighter Squadron and was flying south at 1,500 ft altitude when he saw a half-moon shaped "flying wing" or crescent about 30 feet wide and 20 feet long, with a small dorsal fin. It was flying on a northerly heading at about 1,000 feet three miles to his east. It made a 90° left turn and leveled out on a westerly heading accelerating rapidly to vanish in five seconds. There was no trail. Estimated terminal velocity was about 11 miles per second or 39,000 mph. Radio interference was reported at the time.

Event 1885 (CA7C50E2)

Date: 4/3/1948

Description: At 6:35 a.m. in San Martino, Lombardy, Italy bus driver Guiseppe Langiano and railway stationmaster Sr. Bavota saw a luminous orange domed disc hovering about 10 meters above the ground at Fara Di Cigno which stopped 12 meters away from them. It was shaped like an inverted bowl, about 10-15 meters in diameter, and surmounted by a transparent looking dome or "upside-down cup." It was also emitting a very bright beam of white light. A humanoid being floated down to the ground from the object. He wore a stiff, metallic looking one-piece garment with heavy metallic gauntlets. He looked like a "big puppet" about 1.5 meters (5 feet) in height. He had "two round holes in place of eyes." When Sr. Langiano approached, it re-entered the UFO, which then took off.

Event 1886 (883076D1)

Date: 4/5/1948
Description: Afternoon. At Holloman AFB, near Alamogordo, New Mexico, three highly trained balloon observers (Joseph Olson, Johnson, and Chance) are working on a secret project for the Air Force's Watson Laboratories. They see two objects. One observer follows one object, and the others follow the second as they diverge. All are certain that the objects aren't balloons. They are large, whitish, roundish, very high, faster than any aircraft, and perform rapid, erratic motions. One object is lost at a low altitude. The other goes up quickly and seems to just disappear. The observation lasts about 30 seconds. The case is deemed important enough to send Alfred Loedding and one of Clingerman's assistants, Lt. Col. James C. Beam (the head of Project Sign), to New Mexico to interview Project Mogul scientist James W. Peoples and the other witnesses. Unfortunately, they are gone when Sign arrives. (They are later interviewed at the USAF Watson Laboratory complex in Red Bank, New Jersey.) The witnesses are very sure of themselves and the case is classed as "Unidentified." While at Holloman, Loedding and Beam talk with Lt. Herbert G. Markley, who has worked with the Watson team. Markley remembers one of them speaking of unusual radar returns from their equipment, but later the Watson personnel say that these were probably just "angels" (spurious echoes due to atmospheric microstructures, insects, equipment malfunction, or other stimuli). Markley does report that UFOs are seen around Holloman often. He himself has seen a disc in late August 1947 and flat, round aeroforms on at least two further occasions.

Event 1906 (27BE206D)

Date: 5/15/1948
Description: During the Zebra nuclear detonation at Enewetak Atoll in the Marshall Islands, a manned aircraft accidentally flies through the mushroom cloud. Because the pilot and crew "suffered no ill effects," the Air Force decides that piloted aircraft could collect samples. The Los Alamos, New Mexico, personnel assigned to remove the

filters from the B-17 drones have apparently carried out the same procedure on X-Ray and Yoke without problems, but this time three of them suffer radiation burns on their hands serious enough to be hospitalized and need skin grafting. One of the men who carries out the procedure for Yoke is then also found to have burns on his hands and is also hospitalized but is discharged on May 28. Once again, the drone tank gives trouble and bogs in the crater, but the soil samples are retrieved by the backup drone tank. Both tanks are subsequently dumped in the ocean.

Event 1909 (DA97E3D6)

Date: 5/25/1948
Description: Jumping from a coal train at night in post-war Wesserbillig, Luxemborg 45-year-old Mr. Klotzbach suffered severe leg injuries and experienced a lot of bleeding. He fainted, but surprisingly when he woke up he found himself inside a UFO. The UFO occupants spoke to him in German. They shared with him some undisclosed messages, and he next experienced a further loss of time. He awoke again four days later in Luxemborg, legs fully healed.

Event 1910 (2313B3D5)

Date: late 5/1948
Description: 11:40 a.m. Sgt. T. G. Jones and three other officers and two crew are aboard a York transport aircraft, accompanied by a formation of six Meteor jets, cruising at 10,000 feet above the Oxford/Bicester area in England, bound for RAF Acklington. Visiting US Maj. Robin Olds is in one of the jets. They encounter a 100-foot oval object with three bumps or protrusions on the bottom, as Jones describes it through binoculars. Ground radar tracks the object, which is stationary and above 25,000 feet. Two jets go up to try to get a better look and get within a few thousand feet.

The object departs vertically at a speed of 1,500 mph.

Event 1913 (E7A0788E)

Date: 5/28/1948
Description: 3:00 p.m. USAF Reserve 1st Lt. Alexander Kokolonis is flying a C-47 at 6,000 feet six miles east of Monroe, Michigan, when he sees out of the navigator's window three discs 2 miles to the left. He estimates they are 300– 400 feet in diameter, silvery-gold, and traveling well over 500 mph. They are seen for only 10–15 seconds. Shortly afterwards, Kokolonis sees two similar objects and he alerts M/Sgt Ernest Davis Jr., who also sees them.

Event 1914 (13B31DFB)

Date: 5/31/1948
Description: 1:20 p.m. A cigar-shaped object moves through the sky from the northwest at terrific speed over Wilmington, North Carolina. Mrs. H. D. Alspach, Mrs. Charles Colvin, and Mrs. Isabell Hufham see the object emit smoke. It appears about 3 feet long. It slows down over the Cape Fear River, veers off to the east, and then speeds away at a high altitude.

Event 1920 (FF79E6C6)

Date: 6/16/1948
Description: Soviet test pilot Arkady Ivanovich Apraksin is flying at an altitude of 6.5 miles above a solid layer of clouds south of the Kapustin Yar site, Astrakhan Oblast, Russia. He sees an unconventional aircraft in the shape of a cucumber with cones of light radiating from it descending across his path. The base tells him it has tracked the object on radar and given it instructions to land, but it does not respond. Apraksin is ordered to intercept it and open fire if it refuses to land. When he closes to within 6 miles, the light beams open up like a fan and shine into his aircraft, blinding him. The plane's electrical systems malfunction. He glides the plane to a safe landing after the UFO disappears. Apraksin is interrogated heavily.

Event 1921 (0929825B)

Date: 6/16/1948
Description: A banana or cucumber-shaped object with beams of light was tracked on radar when it descended across the course of Russian test pilot Aprasksin flying over the Kapustin Yar test flight facility in Astrakhan, Soviet Union. The experimental aircraft he was flying experienced a total electrical failure when it was hit by a cone of light, with the engine and controls failing. Although temporarily blinded, he was able to glide the plane to a landing.

Event 1922 (591ED556)

Date: 6/18/1948
Description: The National Security Council issues Directive 10/2, calling for covert action against the USSR, and granting the authority to carry out covert operations against "hostile foreign states or groups" that could, if needed, be denied by the US government. To this end, the Office of Policy Coordination (OPC) is created inside the new CIA. Frank Wisner, the head of the OPC, answers not to the CIA director, but to the secretaries of defense, state, and the NSC, and the OPC's actions are a secret even from the head of the CIA. Most CIA stations have two station chiefs, one working for the OSO, and one working for the OPC.

Event 1923 (268FF329)

Date: 6/19/1948
Description: A silver cigarette-like object appeared above the Soviet Kapustin Yar secret atomic/missile test site.

Several military planes were sent to intercept the object. One of them likened the “flying cigarette” to a rocket, but the UFO managed to emit a bright beam that blinded the pilot. It is said that both the plane and the UFO crashed and the wreckages were taken to the underground hangars before they could attract attention.

Event 1925 (AE4731F2)

Date: summer 1948
Description: USAF Maj. Edwin A. Jerome reports that a high-speed radar target appears during an inspection visit at Goose Bay AFB [now CFB Goose Bay], Labrador. It is calculated at going 9,000 mph at an altitude of 60,000 feet. The commanders assume that the US equipment is faulty, but the Canadians have tracked the same target. The following day, an object hovers over the base at 45,000 feet and moving only 10 mph. (NICAP, “Edwin Jerome Radar Case”; UFOEv, pp. 83–84; Yurko Bondarchuk, UFO Sightings, Landings, and Abductions, Methuen, 1979, pp. 151–152; Chris Rutkowski and Geoff Dittman, The Canadian UFO Report, Dundurn Press, 2006, pp. 51–52; Chris Rutkowski, Canada’s UFOs: Declassified, August Night, 2022, p. 264) Summer [possibly 1958] — Early afternoon. Aircraft instrumentation engineer Victor G. Didelot watches an elliptical UFO moving rapidly west to east roughly parallel to the shoreline of Lake Erie in Erie, Pennsylvania. It suddenly and silently ascends vertically at three times its horizontal speed and disappears.

Event 1933 (A3D4B79A)

Date: 7/7/1948
Description: A silver, disc-shaped object allegedly crashes some 30 miles south-southwest of Laredo, Texas. US servicemen are reportedly dispatched from a nearby military base to cordon off the UFO crash site until a special US retrieval team arrives to examine the wreckage and carry it away to a military base in San Antonio, Texas. Supposedly the badly burned body of a nonhuman entity is recovered from the crash site. Ufologist Leonard Stringfield hears rumors of the crash in 1977, but few further details emerge. Early in 1978, Stringfield describes the humanoid found at the crash site as "about 4 feet, 6 inches tall, completely hairless, with hands that had no thumbs." That description seems to fit the body shown in two photographs that are mailed to Willard F. McIntyre in December 1978. The body depicted in the photos sent to McIntyre has come to be known as the "Tomato Man" due to its large, roundish head. Many UFO researchers, including Ron Schaffner and Kevin Randle, believe the body is that of a human pilot who is badly disfigured by intense heat following a plane crash. They argue that one of the photos shows a pair of eyeglasses, such as a human pilot would wear, near the body.

Event 1936 (27C8C3B1)

Date: 7/11/1948
Description: Burlington, Vermont – A fresh wave of UFO reports started Sunday, July 11, 1948 when Robert H. Streeten of West Bolton, Vermont notified authorities that he had sighted a "flying saucer" at 4:40 p.m. Three hours later Mrs. Ralph Holmes, wife of a University of Vermont physics professor, said she observed a fiery object whizzing through the sky. Miss Alice Giroux, a University of Vermont coed, and Miss Irene Audette of Hartford, Connecticut, a visiting skier, both reported seeing a flying saucer. One Vermonter, Dr. C. H. Vaughn of Burlington, said he saw a bluish-white flying saucer land in Massachusetts between Concord and Lexington. He was driving his car when he saw the object. Altogether, 20 people reported sighting flying saucers–round ones, square ones, and a few with handsome flue tails–in Chittenden and Franklin Counties.

Event 1950 (8C44B19C)

Date: 7/24/1948
Description: Chiles-Whitted UFO encounter: At roughly 2:45 AM on July 24, 1948, two commercial pilots, Clarence S. Chiles and John B. Whitted, claimed to have observed a "glowing object" pass by their plane before it appeared to pull up into a cloud and travel out of sight. The object closed on their DC-3 in a matter of seconds, and both men later said they saw the object fly past the right side of their plane at high speed before it pulled "up with a tremendous burst of flame out of its rear and zoomed up into the clouds." They observed the object for a total of ten to fifteen seconds. Chiles and Whitted stated that the object "looked like a wingless aircraft…it seemed to have two rows of windows through which glowed a very bright light, as brilliant as a magnesium flare."

Event 1952 (226A810C)

Date: 7/25/1948
Description: Chief of Air Force Intelligence Gen. Charles Cabell phones McCoy's office at Wright-Patterson AFB in Ohio. Sign is ordered to get into the field immediately and investigate the Chiles-Whitted case. By that afternoon, Loedding, Deyarmond, and Llewellyn (now apparently director of Project Sign) are flown by Capt. Clarence Groseclose to Atlanta, Georgia.

Event 1953 (0FE01EC9)

Date: 7/26/1948
Description: Six people in Chamblee, Georgia briefly saw a luminous football-shaped UFO that glowed, bobbed, weaved, and maneuvered over the town at 9:30 p.m. It flew off rapidly toward the south at an estimated 5,000 feet altitude. The Air Force explanation was that they saw a meteor.

Event 1954 (2F618B03)

Date: 7/26/1948
Description: Loedding, Deyarmond, and Llewellyn interview Chiles and Whitted in the Henry Grady Hotel, Atlanta, Georgia. They are impressed with their account. Mulling the case through September, Project Sign is disturbed even more than the Mantell incident, according to Ruppelt. Capt. Sneider considers the shape aerodynamically feasible; consultant J. Allen Hynek says it might be a fireball but considers that "far-fetched."

Event 1961 (37714514)

Date: 7/29/1948
Description: 9:18 a.m. James Toney and Robert Huggins, both employees of an Indianapolis, Indiana, rug cleaning firm, are in a truck headed west when they see a shiny, propeller-shaped, aluminum object with 10–12 small cups protruding

from either blade. It is 6–8 feet long and flying silently above the trees at 30 feet altitude some 300 feet away heading south. It approaches to about 100 feet at its closest. The object glides across the road at 25–30 mph in a slight descent then makes a 20° bank to the east and goes down in a wooded area. Toney and Huggins stop the truck and get out to look, but the object has disappeared behind trees. A later search finds no traces.

Event 1995 (720BF3C0)

Date: 9/30/1948 (approximate)
Description: Project Sign officer Capt. Robert R. Sneider has decided that the time has come to climax Project Sign's task and write the required "Estimate of the Situation." Every intelligence operation's task is ultimately to present such a best-guess summary, strongly backed with as much fact as possible. Using the Chiles-Whitted case as the core and collecting around it many cases from the summer of 1947 to September 1948, Sneider composes the document. The most recent case known to have been listed in the document is the September 23 Los Alamos National Laboratory sighting in New Mexico. Two prominent USAF intelligence officers (Ruppelt and Dewey J. Fournet Jr.) see the document in 1952. "It was a rather thick document with a black cover and it was printed on legal-sized paper. Stamped across the front were the words TOP SECRET." Ruppelt says the Estimate concludes that the best evidence indicated an extraterrestrial origin for UFOs. Sneider is probably the primary author. Deyarmond, Loedding, and Truettner almost certainly are part of the writing. Llewellyn certainly looks in. All these people, as well as higher-ups in Clingerman's and McCoy's offices, must approve it, at least in some sense. And an Estimate of UFOs as extraterrestrial is no small thing to assent to. The Estimate is probably addressed to Chief of Staff Gen. Hoyt Vandenberg, but it really is meant for Director of Intelligence Gen. Charles Cabell. It is probably sent near the end of September, just before the George Gorman "UFO dogfight" in Fargo, North Dakota, on October 1. It probably lands in Garrett's Collections office and is hand-carried to Cabell. Cabell may or may not be shocked. With a pro-ETH Wright-Patterson intelligence group on one side, an anti-ETH Pentagon Intelligence Requirements Office on the other, and open-minded collections officers and the powerful Research and Development chief (Gen. Donald L. Putt) in between, Cabell doesn't want to decide this on his own. He hands the Estimate further upstairs to Vandenberg himself, who rejects it and bats it back to Cabell with a strong sense of disapproval. Ruppelt adds that some months later the Estimate is completely declassified and "all but a few copies" are destroyed.

Event 2000 (8C7732D7)

Date: 10/1/1948
Description: 8:30 p.m. 2d Lieut. George F. Gorman of the North Dakota National Guard, flying an F-51 near Fargo, North Dakota, spots an object traveling east to west. He describes it as a light 6–8 inches in diameter displaying

incredible movements. He repeatedly gives chase beginning at 9:07 p.m., but each time is outmaneuvered by the light, which moves up to 600 mph. On his first pass he gets as close as 500 feet from the light at about 5,000 feet altitude. Gorman climbs to 14,000 feet but stalled out, unable to intercept the light, which is at about 16,000 feet. The light makes evasive and aggressive maneuvers, such as seeming to try to ram the F-51. When it drops to 11,000 feet, Gorman attempts to dive at it, but the light pulls up, rises vertically, and disappears at high speed. The light is also seen by airport control tower operators Lloyd D. Jensen and Manuel E. Johnson, as well as others on the ground and pilot Arthur E. Cannon flying a Piper Cub at 1,600 feet. Jensen watches the dogfight through 6x30 binoculars, the UFO appearing perfectly round with sharp edges and no fuzzy outline. Project Sign personnel arrive within hours and interview the witnesses. Eventually they conclude the object was a balloon, with evasive maneuvers the product of Gorman's imagination, since ground observers do not see anything comparable. Some ufologists, among them Aimé Michel and James E. McDonald, have rejected the balloon explanation.

Event 2001 (5763B92C)

Date: 10/1/1948
Description: The first Joint Army-Navy-Air Force Publication (JANAP) 146, based on Bernard Baruch Jr.'s CIRES system, is issued. It consists of instructions for military and civilian personnel on how to report sightings of enemy aircraft, missiles, submarines, and surface vessels. This version does not include UFOs. It is tabled shortly afterward by Maj. Gen. Cabell.

Event 2002 (9D07824B)

Date: 10/7/1948
Description: A set of letters, composed not by Sneider but actually by Samuel Z. Hunnicutt, a member of T-2 and the Sign team, and approved by MCI heavyweights McCoy, Clingerman, and Leland Money, goes out to the CIA, US Army Intelligence, and the Office of Naval Intelligence. The query: What domestic technological developments do you know of that might explain UFOs and help us differentiate them from inimical (Soviet) foreign developments?
Reference: Eberhart
Reference: Michael D. Swords, "Project Sign and the Estimate of the Situation," JUFOS 7 (2000): 50
Source ID: 1262

Event 2003 (1AFF1C25)

Date: 10/7/1948
Description: A document from Project Sign to Garrett and Cabell is an upbeat Sneider report on the initial investigation of the Gorman dogfight, making the object sound extremely unusual and intelligent in behavior. This is almost like a supplement to the Estimate.

Event 2004 (53EEC148)

Date: 10/12/1948
Alternate date: 10/22/1948
Description: Project Sign's Col. William R. Clingerman writes a letter to USAF Chiefs of Staff requesting a study of UFOs by the RAND Corporation, similar to the one made by USAF R&D in July, especially the possibility that "some of the unidentified aerial objects that have been reported both in the United States and in foreign lands may have been experimental spaceships. it is believed more likely that they represent the effort of a foreign nation, rather than a product from beyond the Earth."

Event 2005 (AB111F8F)

Date: late 1948
Description: The search for a suitable US location for nuclear testing, codenamed "Project Nutmeg," commences under the direction of expert meteorologist and Navy Captain Howard B. Hutchinson. The government is looking for a place where nuclear tests would have little impact on the American people or the American economy. Five primary sites are considered: Dugway Proving Ground, Utah; Alamogordo–White Sands Guided Missile Range, New Mexico; an area in Nevada between Fallon and Eureka; the Tonopah–Las Vegas Bombing and Gunnery Range (the site finally chosen in 1950, now part of Nellis Air Force Base); and the Pamlico Sound area off the coast of North Carolina.

Event 2006 (647C2079)

Date: 10/15/1948
Description: 11:05 p.m. On night patrol, 1st Lt. Oliver "Bud" Hemphill Jr. of the 68th Fighter Squadron is flying a Northrup F-61 Black Widow some 50 miles northwest of Fukuoka, Japan, when the crew picks up an object on radar going 200 mph. As he closes to intercept, the object speeds up to 1,200 mph then slows down again. The plane tries closing in six times, but each time the object speeds away. On one pass the crew sees the object's silhouette, which looks like a "rifle bullet" 20–30 feet long. The object "seems cognizant of the whereabouts of the F-61 at all times." Radar operator Barton Halter thinks it is a "new type of aircraft."

McDonald, "Statement on Unidentified Flying Objects," in Symposium on Unidentified Flying Objects, Hearings, US House Committee on Science and Astronautics, 90th Cong., 2nd Sess., July 29, 1968, pp. 69–70; Hynek UFO Report, pp. 134–137; Sparks, p. 40
Source ID: 1264
Source: EberhartUFOI

Event 2007 (C581501E)

Date: 10/15/1948
Description: An F-61 "Black Widow" fighter tracked UFO on radar and tried to intercept it 6 times without success. It would speed up from 200 mph to 1200 mph, leaving the interceptor behind. Description: shaped like a rifle bullet and apparently 20 to 30 feet long

Type: ufo sighting

Event 2008 (974A27F0)

Date: 10/15/1948
Time: 11:05 PM
Description: Witnesses: pilot Halter and radar operator Hemphill of a P-61 “Black Widow” night fighter. Up to six objects tracked on radar, only one seen visually. Dull or dark object shaped like a dirigible with a flat bottom and clipped tail end. Six seen on radar separately Pilot attempted to close on visual object, but it dove away fast.
Type: ufo sighting

Location: Fusuoka, Japan
Source ID: 15
Source: BerlinerBBUnknowns

Event 2009 (2EE8F5CD)

Date: 10/15/1948
Description: At 11:05 p.m. U.S. Air Force pilot Halter and radar operator Hemphill in a propeller driven P-61 “Black Widow” night fighter tracked up to six objects on radar over Fusuoka, Japan. The six bogeys were seen on the radar by Hemphill, and his radar picked up the targets five miles ahead of the plane. Only one of the bogeys was seen visually. It was a dull or dark object, shaped like a bullet or dirigible with a flat bottom and with a heel-shaped clipped tail end. Pilot Halter attempted to close on the visual object, but it dove below the F-61, then reappeared, and finally took off with a burst of speed.

Event 2011 (A9EB740E)

Date: 10/24/1948
Description: Mr. and Mrs. Sanders were driving northwest on Highway 52 towards Moorhead, Minnesota (46.88° N, 96.78° W) when they saw a brilliant golden-white round object suddenly appear as if a light had been switched on. It was about three miles away to the northeast at 1,000 feet altitude in a gradual climb traveling at an estimated 600-1,000 mph and heading west towards Moorhead. It made no sound, and was about half the size of a full moon in angular size. When they reached the northern outskirts of Moorhead the object suddenly made a right turn and one second later disappeared by suddenly switching off. The Air Force said they had seen a meteor.

Event 2017 (11E1CD24)

Date: 11/3/1948
Description: Gen. Charles Cabell writes a firm letter to Wright Field in Ohio, asking Project Sign for another Estimate. It is possibly composed by Maj. Aaron "Jere" Boggs or Col. Edward H. Porter at the USAF Defensive Air Branch. While admitting that the objects seem real, it also cautions that they are not identified. (Read: You may not identify them as extraterrestrial craft.)
Reference: Eberhart

Source ID: 1270
Source: EberhartUFOI

Event 2018 (A50685B5)

Date: 11/3/1948
Description: Against most predictions, Harry S. Truman wins the US presidential election against Republican Thomas E. Dewey. Secretary of Defense James Forrestal, like everyone else, expects to have a new boss in January. His relationship with Air Force Secretary Stuart Symington has deteriorated, and he has not obtained a budget consensus from the Joint Chiefs. His mental health, physical condition, and authority are deteriorating. He is convinced that "foreign-looking men" are following him and that Symington is spying on him. Secret Service Chief Urbanus E. Baughman begins to think Forrestal is suffering from a "total psychotic breakdown."
Reference: Eberhart
Source ID: 1269
Source: EberhartUFOI

Event 2019 (66E19D86)

Date: 11/4/1948
Description: A USAF Europe document transmits some information on the Swedish ghost rockets. "They have been reported by so many sources and from such a variety of places that we are convinced that they cannot be disregarded and must be explained on some basis which is perhaps slightly beyond the scope of our present intelligence thinking." One of the objects was observed crashing into a lake by Swedish Gen. Helge Jung and his party. A salvage operation was unsuccessful. USAF officers visit Swedish Air Intelligence officials who have reached the conclusion that "these phenomena are obviously the result of a high technical skill which cannot be credited to any presently known culture on earth." The document is distributed to the CIA (which in response to a FOIA request claims no record), Armament Intelligence Branch, and AMC.

Event 2021 (CADEACF9)

Date: 11/8/1948
Description: A letter is sent with Col. McCoy's signature to Gen. Cabell. Written by Sign operative Albert Deyarmond, it is overtly submissive but covertly rebellious. It contains several comments agreeing with Cabell that the UFO phenomenon is not identifiable and that no concrete physical proof exists to identify it. At the same time it drops all sorts of hints, doubtless the same arguments used in the original Estimate, that the objects really are extra- terrestrial whether the Pentagon thinks so or not: It mentions the ETH; it mentions plotting waves against planetary approaches and finding a correlation; it mentions the books of Charles Fort as indicating that this has been going on for at least a century; it mentions that odd shapes (like the Chiles-Whitted case) can fly but require more advanced power plants than we have.

Reference: Col. H. M. McCoy, "Flying Object Incidents in the United States," November 8, 1948; Michael D. Swords, "The McCoy Letter," IUR 22, no. 1 (Spring 1997): 12–17, 27; Michael D. Swords, "Project Sign and the Estimate of the Situation," JUFOS 7 (2000): 51, 63–64; Swords 62, 65, 494– 496
Source ID: 1273
Source: EberhartUFOI

Event 2022 (E2DF3590)

Date: 11/12/1948
Description: Project Sign personnel travel to the National Bureau of Standards in Washington, D.C., to attempt to convince Cabell and Vandenberg on the ETH. It includes Sneider, and perhaps Deyarmond, Loedding, Truettner, and McCoy. On the Pentagon side, Boggs and Cabell are there and perhaps Vandenberg, and they are having none of the ETH. Back at Wright-Patterson AFB in Ohio, Deyarmond and Truettner begin writing a sanitized Project Sign report. More scientific oversight is requested for Sign personnel. The Scientific Advisory Board and George Valley of MIT are to be made aware of all cases. So too are Boggs's office, ONI, and maybe even the NBS. Hynek is to be formally commissioned for an assessment, as well as Irving Langmuir and Project Rand.

Location: Andrews AFB
Source: Maj2

Event 2028 (EF12AE7F)

Date: 11/23/1948
Description: An aerial encounter with a red UFO involving radar and visual confirmation occurred over Germany on this night at 10:20 p.m. Two U.S. Air Force Captains flying in a F-80 fighter, and a 1st Lt. from the 23rd Fighter Squadron on the ground at Furstenfeldbruck AFB saw the reddish star-like object to the east moving south over Munich at 200-500 mph, turning slightly southwest and then southeast. Captain Slater in the F-80 called the Racecard DF Radar

Station which tracked the unidentified target at 27,000 feet and 30 miles to the south of Munich, climbing to 40,000 feet at 40 miles south of Munich, then circling around in a high speed ascent.

Event 2041 (8F2B971A)

Date: 12/5/1948
Description: 9:05 p.m. Pilot Capt. William R. Goade is flying a USAF C-47 from Denver to Phoenix. Just west of Las Vegas, New Mexico, he and his copilot Maj. Roger Carter spot a bright green flash. Some 22 minutes later, an identical flash rises from the east slope of Sandia Peak and follows a parabolic curve as the C-47 passes 20 miles northeast of Albuquerque. Capt. Ernest Van Lloyd and the crew of Pioneer Airlines Flight 63 also see the second object, described as first orange, then green.

Event 2045 (B7B16FF3)

Date: 12/8/1948
Description: Two AFOSI officers, Capts. Melvin E. Neef and John J. Stahl Jr., interview every agency that might know something about green-flare operations but come up short. That evening, they are flying a T-7 out of Kirtland AFB, Albuquerque, New Mexico, at 5,000 feet when they see a brilliant green light, larger and more brilliant than a meteor or flare, traveling a flat trajectory 2,000 feet above them. They see it for 2 seconds before it burns out.

See also: 11/1/1948
Source: Maj2

Event 2049 (66DAB13E)

Date: 12/10/1948
Description: The revised Project Sign report is issued, Air Intelligence Report Number 100-203-79, "Analysis of Flying Object Incidents in the U.S." (AIR 203) [Some copies are confusingly dated April 28, 1949.] This is the culmination of Sign's work since early August, augmented by ONI collaboration over the past two months. UFOs are not extraterrestrial (the idea is hardly noticed). UFOs are probably real, but if so, there is a small chance that they are Soviet and therefore dangerous. All in all, the word "Soviet" dominates the commentary.

Source ID: 1291
Source: EberhartUFOI

Event 2050 (19F914EF)

Date: 12/12/1948
Description: A silent green fireball flew over Bernal, New Mexico toward the west for 2.2 seconds at a low altitude, then ascended. It was seen by Dr. La Paz, a meteor expert who later prepared a report on these anomalous green fireballs. He concluded that what he saw was not a meteor.

Event 2051 (B1623C0C)

Date: 12/12/1948
Description: 9:02 p.m. Lincoln LaPaz and two USAF officers (Sandia Base Intelligence Officer Lt. Allan B. Clark and Sandia's AF-Civil Air Patrol Liaison Officer Maj. Charles L. Phillips) see a green fireball near Bernal, New Mexico. He calculates that it is flying directly over Los Alamos National Laboratory, and it maintains its horizontal flight at the low altitude (for a meteor) of 8–10 miles. LaPaz arranges with the Atomic Energy Security Service to set up a patrol with Speed Graphic cameras to try to photograph the fireballs.

Event 2056 (5C3D60FB)

Date: 12/20/1948
Description: 8:54 p.m. Shortly after they have packed up their Speed Graphic cameras provided by LaPaz to try to photograph the green fireballs, personnel (William D. Wilson, Buford G. Truett, Clifford E. Strang, and George S. Skipper) at an Atomic Energy Security Service post west of Los Alamos, New Mexico, spot a blue-white fireball moving in a nearly flat trajectory. Two objects separate from the main body and trail behind it. Thanks to an independent observation at another site, LaPaz is able to triangulate its flight path as 7–8 miles, west to east toward Los Alamos.
Reference: Eberhart

Source ID: 1299
Source: EberhartUFOI

Event 2057 (F74CB75D)

Date: 12/20/1948
Description: In a confidential memo to Lt. Col. Doyle Rees, LaPaz argues that the green fireball he saw on December 12 was no meteor he has ever studied. He writes that the object moved far too slowly to have been a meteor and left no "trail of sparks or dust cloud" as would be typical of meteors flying at low altitudes. Other anomalous characteristics were the intense lime-green color, low altitude of only 8–10 miles yet exhibiting no sound, flat rather than arced trajectory, and turning on and off like a light switch. The interest in green fireballs inspires the creation of an informal group, the Los Alamos Astrophysical Association, whose members, all scientists and engineers with security clearances, are permitted to examine some classified Project Sign reports. This is essentially the beginning of Project Twinkle.

Event 2061 (69BD2A44)

Date: 1949
Description: 1:00 a.m. A group of soldiers of the 2nd Armored Division stationed at Fort Hood, Texas, are tasked with standing guard over a plateau in a remote, fenced-off part of the base. After a few weeks, they see bright lights in the sky. They approach the plateau and descend slowly and silently. Suddenly, part of the plateau opens up and they can see light coming from inside. The lights descend into the opening, which closes over them.

Type: ufological event
Reference: Leon Davidson
Location: Dayton, OH
Source: Maj2

Event 2068 (E3B158AA)

Date: 1/1949
Description: Project Sign personnel begin to be reassigned. Loedding disappears from project records. Deyarmond's attention goes elsewhere. Truettner makes one last serious attempt at interviewing about nuclear propulsion (at Oak Ridge, Tennessee) and is given a negative opinion on UFOs by Col. Ralph L. Wassell. He, too, disappears from the

project. The civilian members are relieved of their duties and reassigned to other intelligence tasks within T-2. For Loedding in particular, his role and prestige are never the same. After a few further years of intelligence work, both he and Truettner leave AMC. For the higher military ranks (Llewelyn and Sneider), all we know is that they are soon no longer involved, perhaps not even assigned to the same base. Even Clingerman and McCoy become less involved, perhaps because they have also heard that their tenures will soon be up and they will be sent to school and then transferred. The only persons left active on the project are two of the lower ranks: Lieut. Howard W. Smith and civilian George W. Towles. Their job is reduced basically to collection and filing. In this condition, or worse, the Air Force commitment to a UFO investigation project will remain until the summer of 1951.

Event 2073 (13F14C1D)

Date: 1/4/1949
Description: 2:00 p.m. USAF pilot Capt. Paul R. Stoney, on the ground at Hickam Field [now part of Joint Base Pearl Harbor–Hickam] near Honolulu, Hawaii, sees a flat, white, elliptical object about the size of a T-6 aircraft, circle at about 3,000 feet while oscillating to the right and left. It is apparently several miles off the base and slowly circling. It is bright white on the underside and darker on top and possesses no other structures. It proceeds for 15 minutes to make "rhythmical undulation" maneuvers in a cyclical manner. The "object seemed to maneuver under control at all times completing 360° turns and 90° turns." The object then "departed climbing (into the northeast) at accelerated speed out of sight."

Event 2086 (1FADAE16)

Date: 1/27/1949
Description: 10:20–11:20 p.m. Capt. Eckerman Sannes, acting chief of the Aircraft Branch at Eglin AFB near Valparaiso, Florida, and his wife are driving slowly on Cortez Road between Bradenton and Cortez, Florida, when they observe a "cucumber-shaped" object. The object, seen through binoculars, seems as long as two Pullman cars, with 7 lighted, square windows. It is throwing sparks and approximately 8–10 miles away. In the first sighting at 10:20 p.m., the object approaches from the south going north, moving from an altitude of 8,000 feet in a gradual descent until lost behind trees. In the second sighting at 11:20 p.m., the object is seen in the north, heading south and making a gradual turn to the west. It descends then climbs with a bouncing motion (up 4,000 feet, down 2,000 feet) at about 400–500 mph, resulting in an overall climb and loss to view at an altitude of around 40,000 feet. The bouncing appears to start after the final 270° course change to the west.

Event 2090 (D3CA573A)

Date: 1/31/1949
Description: MEMO, Director of FBI: Flying Saucers have been discussed by the OSI, FBI and the Fourth Army and is "considered TOP SECRET by Intelligence Officers of both the Army and the Air Forces." It was thought that the first UFOs over Sweden were of Russian origin. Memo also makes reference to the Eastern Airlines sighting of July 25, 1948. Also, on 10 different days, between 12/05/48 and 01/06/49, sightings of UFOs were concentrated over the A.E.C. plant at Los Alamos, N.M. (Circulation of this Memo to: El Paso, Little Rock, Dallas, Oklahoma City)
Type: memo

Event 2091 (0E26D413)

Date: 1/31/1949
Description: Kirtland AFB in New Mexico notifies the Pentagon that it will launch an immediate investigation of the green fireballs, noting that "local commanders [are] perturbed by implications of phenomena." LaPaz speaks to dozens of witnesses of the January 30 fireball and manages a rough triangulation of the fireball's 143-mile path from Amarillo to Lamesa, Texas. He estimates its speed at 25,000–50,000 mph, with a beginning altitude of 60,000 feet and a final altitude around 40,000 feet. LaPaz accompanies search teams to bring back any fragments. They end up in the area of Lamesa but give up after a few days of fruitless search. He later tells AFOSI agent Paul Ryan that the fireballs are artificial, perhaps radio-controlled missiles directed by enemy agents in the Southwest.

Event 2092 (D6037CEF)

Date: 1/31/1949
Description: The FBI field office in San Antonio, Texas, issues a memo on UFOs, "Protection of Vital Installations." It is sent to Hoover, G-2, ONI, OSI, and mentions a meeting among these groups on UFOs, "considered top secret by intelligence officers of both the army and the air forces."

Event 2093 (48A7E39D)

Date: 2/1949
Time: 1630
Description: C. A. V. an oil company employee, 30, was driving to Lima when he saw a shiny disk at ground level. He walked toward it for 10 min. Three figures came out as he was 20 m away. They looked like mummies, had joined legs and one large foot. They "slid" along the ground. They were covered with a strange "towely" skin, asked the witness where they were, had a lengthy discussion with him, and took him for a trip in their craft.

Event 2094 (CC48D5B1)

Date: 2/1949
Alternate date: 3/1949
Description: 4:30 p.m. A representative of the International Petroleum Company, a subsidiary of Standard Oil of New Jersey, is driving noth along the Pan-American Highway about 6 miles south of Lima, Peru, when he sees a metallic disc hovering low above the desert on his right. He walks over to it, and three mummy-like creatures about 5 feet tall emerge. They speak to him in both English and Spanish, explaining to him that they come from another star system, are concerned about our use of atomic energy, use solar power, no longer have sex, and reproduce by subdividing. They invite him inside the disc, which from the inside has transparent walls. He sees no instruments, only a padded ledge.

Event 2095 (F8822AD8)

Date: 2/1949
Description: Part of the Final Report of Project SIGN, written by Prof. George Valley, of MIT stating: "If there is an extraterrestrial civilization which can make objects as are reported, then it is most probable that its development is far in advance of ours. Such a civilization might observe that on earth we now have atomic bombs and are fast developing rockets. In view of the past history of mankind, they would be alarmed. We should, therefore, expect at this time above all to behold such visitations."

Event 2103 (D5EE0B9E)

Date: 2/11/1949
Description: Project Sign releases a final sanitized report, "Unidentified Aerial Objects: Project 'Sign,'" Technical Report F-TR-2274-1A, authored by Lawrence Truettner and Albert B. Deyarmond and approved by Col. Clingerman (chief of USAF Technical Intelligence Division) and Col. Howard McCoy (chief of the Intelligence Department). 72 pages are visible in the NICAP copy and 1,537 pages (some illegible) are available on the Blue Book microfilm. Its conclusions are based on 273 reports (243 US and 30 foreign) and it summarizes the characteristics of four types of UFOs: flying discs, cigar-shaped objects, spherical objects, and balls of light. It acknowledges the possibility that "these aerial objects are visitors from another planet" and refers to commentary in Appendix D by James Lipp of the RAND project. "No definite and conclusive evidence is yet available that would prove or disprove the existence of these unidentified objects as real aircraft of unknown and unconventional configuration. It is unlikely that positive proof of their existence will be obtained without examination of the remains of crashed objects. Evaluation of reports of unidentified objects is a necessary activity of military intelligence agencies. Such sightings are inevitable, and under wartime conditions rapid and convincing solutions of such occurrences are necessary to maintain morale of military and civilian personnel. In this respect, it is considered that the establishment of procedures and training of personnel is in itself worth the effort expended on this project." Truettner and Deyarmond, in a between-the-lines rebuke of Cabell's order not to consider the ETH, recommend that if enough cases are examined and proven to have no security risks, then the project should be terminated. The report is distributed to AMC, USAF Intelligence Directorate, ONR, Cambridge Labs, Air Weather Services, Hynek at Ohio State University, the RAND Project, and the USAF Scientific Advisory Board.

Event 2108 (87155BA0)

Date: 2/16/1949
Description: A Conference on Aerial Phenomena is held at Los Alamos Scientific Laboratory in New Mexico with military representatives Lincoln LaPaz, Norris E. Bradbury, Marshall Holloway, Frederick Reines, and Edward Teller in attendance. Representatives from Project Grudge are noticeably absent. LaPaz tells the attendees that while most meteors are blue-green, the green fireballs are described as pale green or yellow-green. Normal meteors rarely move in long, horizontal paths with nearly constant velocities. He says there are 10 incidents that strongly fit the pattern and 20 others that might. The scientists agree to set up a series of instrument stations to photograph and analyze the fireballs. Teller thinks the fireballs might be electrical-optical phenomena. Navy Commander Richard S. Mandelkorn, who is in attendance, writes in his report that "there is cause for concern of the continued occurrences of unexplainable phenomena of this nature in the vicinity of sensitive installations."

Event 2109 (9927E26A)

Date: 2/17/1949
Description: 5:57 p.m. University of New Mexico Professor of Civil Engineering Marvin May sees a brilliant white object in the west at 6° elevation for less than 6 minutes in Albuquerque, New Mexico. The object is first round then shifts to an ellipse as it approaches, then it appears to be elongated like a bent pipe with corners, one full moon in length. It makes a slight climbing turn to the north, shifts to peach color as it makes a rapid sharp turning climb to the south, disappearing in cloudless sky by diminishing in size and brightness. At the same time, 100 guards at Sandia Base, New Mexico, including the officer of the guard, see a yellow-orange cigar-shaped object for seven minutes.

Event 2113 (C939BFF0)

Date: 2/18/1949
Description: A Fourth Air Force letter quotes Project Sign's requirements for radar reporting, as stated by the Continental Air Command (NORAD's predecessor) on February 4. The USAF Air Defense Command is subordinate to ConAC at this time. The requirements admit that a "large number of targets appearing on radar screens remain unidentified." It refers to McCoy's November 30, 1948, letter on Sign's preference for radar tracks of aerial objects that show extremely fast or slow speeds, vertical or near vertical ascent or descent, extraordinary maneuverability, and extreme altitudes.

Event 2116 (0B966CDE)

Date: 2/24/1949
Description: Groseclose and Smith have an unpleasant exchange with Neef, LaPaz, Agent Jack Boling, and Army Maj. Godsoe, who says it's not worth AFOSI's time to conduct investigations for AMC. The AMC officers retort that the fireballs are not an Army concern. Groseclose and Smith say they are concerned with all anomalous aerial phenomena. Disgusted, Godsoe leaves the room. Groseclose and Smith then turn on LaPaz, criticizing him for only sending AMC raw data and not finished analyses. LaPaz says he is on leave as a volunteer and must go back to the University of New Mexico, unless he sees a contract. However, AMC agrees to set up a network of observation posts with cameras, transits, and trained personnel.

Event 2121 (068FEF31)

Date: 3/6/1949
End date: 3/7/1949
Description: 8:30 p.m. Army Pvts. Martin Fensterman and Frank Luisi, on security patrol near Killeen Base [now West Fort Hood], Texas, a nuclear weapons storage site, see a flash of pale blue light in the sky to the northeast. At 8:55 p.m., a quarter mile away, Pvt. Harold Moore sees a white light with an orange trail flash across the western horizon. At 9:00 p.m., from inside the base boundary, Sgt. Hubert Vickery and Pfc. John Ransom notice a pale blue-white light streaking across the western sky low over the horizon. Between 1:15 and 2:00 a.m., four more security patrols report burst of lights like a flash bulb.

Event 2139 (658C6431)

Date: 4/3/1949
Description: In Dillon, Montana construction company owner Gosta Miller and three others watched an unidentified flying object shaped like two plates attached face-to-face at 11:55 a.m. The object had a matte bottom and a bright aluminum top. The dimensions of the object were estimated to be 20-feet in diameter by 4-5 feet thick. It rocked or rotated in six cycles, descended, rocked, flew, and rocked. All of these maneuvers happened very fast.

Event 2140 (5AB2FEE2)

Date: 4/4/1949
Description: William Parrott, former Air Force pilot and Major, sighted a round object with a curved bottom and dull coloring at 10:20 p.m. in Merced, California. The object gave off a clicking sound until overhead. Parrott's dog reacted by barking and running around while the UFO was in sight, about 35 seconds.

Event 2142 (B1283BEE)

Date: 4/5/1949
Description: 10:00 p.m. A huge green fireball with a red afterglow is seen streaking approximately 300 feet above the southern slope of Fejarito Mountain, near Los Alamos, New Mexico. It disappears behind the mountain. Another fireball is seen at 11:00 p.m., and the next two nights.

Event 2144 (82F5DE2B)

Date: 4/9/1949
Description: At 4:30 p.m. an orange colored UFO was seen over some telephone lines by J. Bova at the Davis Monthan Air Force Base in Arizona. The object suddenly moved from right to left, then moved again passing behind the telephone pole. It then returned to its original position, finally engaging in some erratic movements and ascending into a cloud. It changed color as it did so, from orange to white.

Event 2147 (08B4501C)

Date: 4/14/1949
Description: Col. Reid Lumsden, commander of the AFOSI district office at Kelly AFB [now Kelly Field Annex] in San Antonio, Texas, hands the Army reports of flares at Killeen Base to Col. William Carpenter, deputy director of special investigations at the Pentagon. Carpenter promises to investigate. (Clark III 542) April 16 and 18 — Mysterious flares are again observed at Killeen Base, Texas.

Event 2149 (75891D99)

Date: 4/19/1949
Description: AFOSI at Kirtland AFB, New Mexico, sends to USAF headquarters a list of all green fireball reports it has investigated (39 in all) from December 5 to April 12. The common characteristics of most of the incidents are: "a. Green color, sometimes described as greenish-white, bright green, yellow-green, or blue green. b. Horizontal path, sometimes with minor variations. c. Speed less than that of a meteor, but more than any known type of aircraft. d. No sound associated with observation. e. No persistent trail or dust cloud. f. Period of visibility from one to five seconds."

Event 2152 (9DEB1616)

Date: 4/24/1949
Description: A high speed, maneuvering object was tracked with a theodolite by five government contractors from General Mills as it sped through the sky. They were at a missile range near Arrey, New Mexico at 10:20 a.m. It looked like a featureless, whitish featureless ellipse, and its length was 2.5 times its width. After 60 seconds it disappeared in a sharp vertical climb.

Event 2153 (DCB0D85A)

Date: 4/24/1949
Description: 10:30 a.m. General Mills meteorologist Charles B. Moore and four Navy Skyhook balloon launch crewmen (Navy Chief Fire Controlman William Akers, Davidson, Fitzsimmons, Moorman) see a white, round object, shadowed yellowish on one side, cross the sky from the south to the east, three miles north of Arrey, New Mexico. Joseph Gordon Vaeth is present as the Navy representative in charge of ground handling. Moore tracks it for 60 seconds on a theodolite. The distance is unknown, but assuming the object is 57 miles away, it would have a velocity of 18,000 mph, a width of 40 feet, and a length of 100 feet; but this is speculative.

Event 2154 (051CCA88)

Date: 4/24/1949
Description: Arrey, NM: Aerologist Charles B. Moore, Jr., while tracking a weather balloon for General Mills Co. with a theodolite, suddenly noticed a UFO rapidly crossing the sky. He and 4 other technicians turned the 25 power theodolite to track the UFO. It was a featureless ellipse, its length about 2–1/2 times its width. After about 60 seconds

the object disappeared in a sharp climb. Based on measurements with the mountain range behind it, it was calculated to be going between 18,000 mph and 25,000 mph (in the atmosphere!).
Type: ufo sighting

Event 2159 (6158D651)

Date: 4/27/1949
Description: Rees, Kaplan, and LaPaz brief Armed Forces Special Weapons Project personnel at Sandia Base, New Mexico. LaPaz outlines plans for a network of visual, photographic, spectrographic, and radar observations covering Los Alamos, Sandia, and White Sands. Scientist William D. Crozier of the New Mexico School of Mines offers to handle air sampling. Rees urges that the Killeen Base in Texas be included. Kaplan, who says the project is "of extreme importance" because "these occurrences relate to the National Defense of the United States," recommends LaPaz to handle the project.

Event 2160 (2337BAA7)

Date: 4/27/1949
Description: A 22-page memorandum for the press (629-49) on "Project Saucer" is released by the Pentagon Office of Public Information, scheduled deliberately to coincide with part one of Shalett's article in the Saturday Evening Post. The writer is unknown, but it is more pro-ETH than the current Project Grudge mentality, listing several solid and dramatic cases. It concludes: "The 'saucers' are not a joke. Neither are they a cause for alarm to the population." The discrepancy between Shalett's mostly dismissive tone and the positivity of the Project Saucer statement causes Maj. Donald E. Keyhoe to wonder if there is a major disagreement about UFOs within the Air Force.

Event 2161 (4C0CE51D)

Date: 4/27/1949
Description: 9:20 p.m. Two Army patrolmen southeast of Killeen Base, Texas, see a blinking violet light no more than 1.5 inches in diameter and only 10–12 feet from them, 6–7 feet above the ground. During the 60-second observation, the light passes through the branches of a tree. At 9:25 p.m., 2 miles away, four Army soldiers see a 4-inch light with a 2–4-inch metallic cone attached to the back. It silently approaches them in a level flight at 60–70 mph. It disappears to the southwest at a distance of 150 feet. At about 9:37 p.m., a 2-inch-wide white light appears 100 feet away to the northwest, flying in a zig-zag fashion in a level path 6 feet above the ground. It vanishes abruptly. A third light shows up at 9:39 p.m. in the west-southwest.

Event 2163 (A007846D)

Date: 4/28/1949
Description: USAF Director of Intelligence Charles Cabell sends a report on "Unidentified Aerial Objects" to the Joint Intelligence Committee. It summarizes the history of Project Sign up to its redesignation as Grudge and adds an appendix on "Unidentified Aerial Objects: Fact and Discussion," which is basically a short version of the sanitized February 11 Sign report, with some green fireball information added. It recommends sending reports of unidentified "light phenomena" to the scientific community and reports of "atomic powered craft of unusual design" to the AEC. It concludes that "There are numerous reports from reliable and competent observers for which a conclusive explanation has not been made" and that some "involve configurations and described performance which might conceivably represent an advanced aerodynamical development. A few unexplained incidents surpass these limits of credulity. It is unlikely that a foreign power would expose a superior aerial weapon by a prolonged ineffectual penetration of the United States." This essentially resurrects the ETH as a possibility, without clearly stating it.

Event 2166 (EC421315)

Date: 4/28/1949
Description: 5:45 p.m. Howard Hann [Hamm?], a Mr. Hubert [Huber?], and Tex Keahey see a very large, bright, sausage- shaped object travel from northeast to southwest over the rim of the Catalina Mountains near Tucson, Arizona, over a period of 12 minutes. The object is shiny metallic and reflects the sun, apparently revolving as it moves like the "slow roll of an airplane." There is no noise, nor is there exhaust or a vapor trail. There are no wings or engines or

“protuberances of any sort.” It appears to be traveling at 300–600 mph.

Event 2177 (B04E1CE5)

Date: 5/5/1949
Description: 10:00 a.m. The Fourth US Army has approached AFOSI in San Antonio to offer assistance in investigating green fireballs and the Killeen lights. They arrange a meeting with AFOSI, ONI, CIC, the FBI, and the Armed Forces Special Weapons Project at Camp Hood, Killeen, Texas, the first of several weekly meetings. Army and Navy officials agree that the fireballs remain unexplained. AFSWP personnel believe they are natural phenomena; AFOSI and FBI give no opinion. The Fourth Army urges AFOSI to create an observation system, even though it had just secretly created one of its own on May 4.

Event 2181 (61AE5914)

Date: 5/6/1949
Description: At Killeen Base, Camp Hood, Texas a UFO observation network set up two days earlier, employing Army artillery observers, tracked their first object. They sighted and triangulated on a brilliant light 4000 yards in the distance. It moved very slowly, dropping from an altitude of 1200 feet to 440 feet. It was the apparent size of a half dollar at arm's length. Its color was pinkish to green, and was in sight for 50 minutes. The main witness was Lt. Mardell E. Ward.

Event 2182 (D83C9251)

Date: 5/6/1949
Time: 9:35 AM
Description: Witness: C. G. Green. Two shiny, disc-like objects rotated around each other and banked. Then one shot upwards with a grey trail and rejoined the other. The sighting lasted 5 minutes.
Type: ufo sighting

Event 2183 (73E081A0)

Date: 5/6/1949
Description: At 8:30 a.m. EDT witnesses Stump, Herman and Quinn in Sidney, Ohio saw a bright object about half a mile to the west moving south at high speed. It left no trail and made no sound. One of the witnesses said it was too bright to tell what shape it had, but the others said it had a flat, circular shape. It was in sight for two minutes.

Event 2184 (D90409A7)

Date: 5/6/1949
Description: Soviet test pilot Arkady Ivanovich Apraksin takes a new airplane for a flight at the Kapustin Yar site, Astrakhan Oblast, Russia. At its maximum ceiling of 9.3 miles, he encounters a cucumber-shaped object, similar to the one he encountered on June 16, 1948, that directs cones of light at his aircraft from a distance of 6–7 miles. The lights cause his communications equipment to fail and damage part of his plexiglass cockpit canopy that results in a loss of air pressure. He manages to land on the banks of the Volga River 30 miles from Saratov. He wakes up in a hospital in Saratov. He again undergoes intense interrogation, psychotherapy, and medical procedures.

Event 2185 (C09F217D)

Date: 5/6/1949
Description: Col. Lumsden of the San Antonio, Texas, AFOSI office informs headquarters that the "matter has reached a fairly serious stage and some positive action is necessary." He does not send this message to Project Grudge. Headquarters responds quickly and orders him to investigate all sightings but reminds him to inform AMC.

Event 2186 (ED5A84C9)

Date: 5/6/1949
Description: On this day, a decorated Soviet test pilot named Apraksin was flying over the Volga River in Russia, 40 kilometers north of the city of Saratov, when his aircraft's electrical system was knocked out of operation by a cone of light from a cucumber-shaped UFO after he attempted to approach it. He was blinded by the light, but managed to land the crippled aircraft despite his incapacitation in an abrupt emergency landing. He then lost consciousness and was confined to hospital to recuperate.

Event 2198 (CB749487)

Date: 5/18/1949
Description: Walter Winchell, in his "On Broadway" syndicated column, writes: "The N.Y. World-Telegram on Saturday [May 14] confirmed this reporter's exclusive report of several weeks before—which newspapermen have denied—about the Flying Saucers . . . Said the front-page piece in the W-T: 'Air Force people are convinced the flying disc is real. The clincher came when the air force got a picture recently of three discs flying formation over Stephenville, Newfoundland. [The July 10, 1947, hole-in-the-cloud case?] They outdistanced our fastest ships. Some air force men believe the discs are a new type flying machine utilizing gyroscopic principles' . . . At the time we added that the reality of the flying discs or saucers could not be denied truthfully."

Event 2218 (ACD044B4)

Date: 6/6/1949
Description: 9:05 p.m. Two observation posts at Killeen Base, Fort Hood, Texas, spot a hovering orange light. Lts. Virgil Williams and Marvin L. Jones are at one site and Lts. Bernard G. Raferty and Alfred H. Jones are at the other. When they triangulate its location, they find it is 3 miles south of one observation post and 4.5 miles south of the plotting center, hovering 5,280 feet in the air. It is 30–70 feet in diameter. Suddenly it starts moving in level flight, then bursts into small particles. The duration is less than 3 minutes. This observation involves the first real- time triangulation of a UFO sighting.

Event 2227 (4AB05FBC)

Date: 6/22/1949
Description: Three women (one a schoolteacher, another a biologist working at Oak Ridge, Tennessee, and a third who is the wife of a member of the Security Division, AEC, Oak Ridge) observe an odd trio of “flying saucers” for about 15 minutes: “It was described as consisting of two identical rectangular-shaped objects which appeared to be coordinated in movement and which moved in wave-like motion. The third object was circular in shape and appeared to be in level flight between and above the two rectangular objects. The rectangular objects appeared to be bright metal on top but dark underneath, while the color of the circular object was the same as that of frosted glass. The ‘flying saucer,’ when last sighted, was in level flight and was flying in a northwesterly direction. The weather was clear with high cumulus clouds. The ‘flying saucer’ flew at speed of from 10 to 15 mph over an area just about the center of Oak Ridge.”

Event 2230 (6B3D3A47)

Date: 7/3/1949
Description: A blue-green fireball was sighted at dawn north of Vaughn, Montana. It lit up the sky from horizon to horizon. At 10:40 a.m. 200 spectators watched three identical disc-shaped objects fly over an air show being held in Longview, Washington. Another disc-shaped flying object was sighted in Astoria, Oregon at 1:00 p.m. At 3:00 p.m. in Sterling State Park on the shore of Lake Erie in Michigan, Mr. D. Swarz was watching 2 AT6 airplanes when his attention was drawn to a metallic disc high above moving rapidly in opposite direction. The object went south over the western end of Lake Erie and was gone in 11 seconds.

Event 2231 (8341095B)

Date: 7/3/1949
Description: 10:40 a.m. Aeronautical engineer Molt Taylor, airport manager at Longview, Washington, is preparing for an air show when someone points out an object in the sky to the northwest. He announces it over the PA system to the crowd of 150–200 observers, including pilots, who watch a metallic disc cross to the southeast with a falling-leaf motion. Estimated altitude is 30,000 feet at 300 mph, with the approximate size of 100 feet. A second object is seen at 10:49 a.m. for 2 minutes. A third sighting takes place at 11:25 a.m. An object approaches from the west at about the same altitude, oscillating at 48 per minute, and disappears into the sun.

Event 2233 (0D43DE95)

Date: 7/13/1949
Description: Kaplan responds to a July 1 letter from Gen. Charles P. Cabell inquiring about his April visit to Los Alamos, New Mexico. He explains that he has deliberately waited two months to report because he wanted to have a cooling off period from the deep impression the New Mexico witnesses had on him. Moreover, he wants to see if the green fireballs are still reported (they are) before he recommends a full-scale instrumented program. He says that Norris Bradbury, the Los Alamos lab director, has urged that a classified scientific conference be held to discuss the phenomena. Kaplan suspects that the fireballs are an auroral phenomenon, but concedes that their horizontal motion and southern appearance are "difficult to explain." He recommends a photographic and spectrographic patrol that would stay on to look out for the fireballs.

Event 2236 (4DB9C900)

Date: 7/24/1949
Description: 12:03 p.m. Henry Clark, manager of a flying service, is flying a Piper PA-16 Clipper at 19,000 feet 10 miles northwest of Mountain Home, Idaho, when he sees a tight formation of 7 delta-shaped objects, 35–55 feet in diameter near his plane. They make a perfect and unbanked right turn 1,500 feet ahead of his plane, then they turn right again, passing the aircraft at about 450–500 mph. Clark's engine runs rough during the sighting, which lasts 10 minutes. After he lands, he finds all his spark plugs burned out. When Blue Book investigates the case, they confiscate the spark plugs.

Event 2240 (0AC34ED3)

Date: 7/24/1949
Time: 12 noon
Description: Witness: Henry Clark, manager of a flying service, flying a Piper Clipper. Seven delta-shaped objects, 35-55' in span, 20-30' long, 2-5' thick; light colored except for a 12' diameter dark circle at the rear of each. They flew in a tight formation of twos with one behind, and made a perfect, but unbanked, turn. During the 10 minute sighting, they displayed decreasing smooth oscillations. Clark's engine ran rough during the sighting, and upon landing was found to have all its spark plugs burned out.

Event 2250 (991C4A7C)

Date: 8/10/1949
Description: USAF's AMC issues a final 600-page report, "Unidentified Flying Objects—Project Grudge," Technical Report 102-AC-49/15-100, or "The Grudge Report," authored by Lt. Howard W. Smith and George W. Towles. Hynek's April analysis is included as an appendix. Based on 237 cases, Hynek finds that 32% can be explained astronomically. Others say 12% are balloons, 33% are other misidentifications, hoaxes, or insufficient information. That leaves 23% (55) classed as unknowns. Despite this, witnesses are mostly deluded, hysterical, lying, or crazy, and "further study along present lines would only confirm the findings presented herein." The report concludes there is little evidence to prove UFOs are real and do not represent a security threat. It recommends that press releases be created to "aid in dispelling public apprehension." On the other hand, it suggests that military and government agencies interested in "psychological warfare" be informed of the findings. Appendix D is written by USAF Scientific Advisory Board member George E. Valley, who writes that extraterrestrial civilizations "might observe that on Earth we now have atomic bombs and are fast developing rockets. In view of the past history of mankind, they should be alarmed. We should, therefore, expect at this time above all to behold such visitations." Project Grudge enters a period of dormancy until July 1950. The report is classified Secret until August 1, 1952.

Event 2253 (C9D8F4D5)

Date: 8/17/1949
Description: Lincoln LaPaz submits the fifth of a series of reports on "anomalous luminous phenomena." He notes that "Many of the green fireballs now appearing descend in nearly vertical paths, whereas, in earlier months almost all of the green fireballs observed moved almost horizontally. There appears to be a concentration of New Mexico incidents near weekends, especially on Sunday and near the hour of 8:00."

Reference: Eberhart
Reference: Loren E. Gross, UFOs, a History: 1949 July–December, The Author, 1988, pp. 28–29
Source ID: 1410
Source: EberhartUFOI

Event 2254 (833E6C91)

Date: 8/18/1949
Description: LaPaz and USAF scientists meet with William D. Crozier to find out about his July 25 dust collection in Socorro, New Mexico. Crozier says he thinks the copper particles may have come from a campus building, although samples from the open country contain the same particles. LaPaz notes that copper is extremely rare in meteorites, although it might explain the yellow-green color of the fireballs. He suggests that further air and ground samples be taken in areas where the fireballs are seen.

Event 2257 (BB7AC81F)

Date: 8/19/1949
Description: 8:15–11:00 p.m. Rev. Gregory Miller, pastor of the St. Peter and Paul Church in Norwood, Ohio, has purchased from Army surplus an 8-million-candlepower searchlight for his church carnival. Sgt. Donald R. Berger of ROTC of the University of Cincinnati is to operate it. During the festivities, Berger's sweeping searchlight suddenly flashes across a stationary circular object in the sky. Miller and others join in and observe. When Berger moves the searchlight away, the disc continues to glow. Hundreds of calls are received by Cincinnati Post and Cincinnati Enquirer offices regarding fireballs and comet-like objects all across the Cincinnati area this first night. The searchlight picks up the same or similar objects on nine further occasions, the last being on March 10, 1950.

Event 2278 (6A6C2113)

Date: fall 1949
Description: A radar-tracking UFO case takes place at a key atomic base (probably Los Alamos, New Mexico). The base radar scope covers 200 miles of sky up to 100,000 feet. A legitimate radar contact tracks five apparently metallic objects at a great height moving south and crossing the radar scope in less than 4 minutes (an average of about 4,500 mph).

Event 2282 (4E98DA28)

Date: 9/26/1949
Description: 6:30 p.m. Lester Wolfe and five others 5 miles southeast of Lexington, Nebraska, are threshing wheat when they see three objects coming from the general direction of the sun (southwest). As the objects move, they give off a dazzling brilliance. They maintain a level flight with two of the objects changing positions as they fly. The power of the illumination remains constant throughout the incident (no pulses or flashes). Once the objects reach a direction northwest of the observers, they make a smooth 90° turn straight upwards and climb rapidly out of sight. Dean Wolfe is a recent graduate of a two-year course in aeronautical design and thinks the objects look like domed discs when viewed face forward, but are more like stubby, wingless, tailless fuselages when seen from the side. About 5 miles away, Don, Minnie, Elmer and Irene Ballheim see two fast-moving objects flying in the distance at level flight before abruptly turning straight up and flying upward. This group of people does not know their distant neighbors.

Event 2292 (1FAB3C11)

Date: 10/14/1949
Description: 1:15 p.m. Harley C. Marshall, manager of public relations at Palomar Observatory in San Diego County, California, is driving away from the observatory when he sees a perfect "V of V's" formation of about 16–18 silver objects without tails or wings overhead traveling at high speed to the northwest and emitting a sound like jets. He stops and watches them disappear behind the cloud cover. Returning to the observatory, he phones electrician Benjamin B. Traxler, who at 1:20 p.m. sees one dark UFO traveling to the southwest. Marshall checks the Navy Electronics Laboratory Geiger counter on site and sees that the needle has jumped off the scale for several seconds. For the next 10 days, another 21 incidents of off-scale cosmic-ray detector incidents occur at scattered times, fitting a periodic 1.5-hour time schedule, a phenomenon not seen before or after, and unexplainable by equipment failure or radio interference from aircraft. Two representatives of the Office of Naval Research and two from the Naval Electronics Laboratory in Point Loma, California (Joseph P. Maxfield and G. L. Bloom), visit the observatory to investigate the readings, but not before they stop in at Alice Wells's Palomar Gardens Café on the way in. After George Adamski claims he has seen increased UFO activity in the area (including a sighting about the same time as another observation by Traxler on October 21), they ask him if he would send them any photos he might take with one of his telescopes. He gives them a copy of a telescopic photo he took in February 1949 with his 15-inch reflector. The Naval Electronics Lab later attributes the photo to "electric discharge which frequently occurs in cameras during film pulling in dry or cold climates." Several Navy aircraft of differing prop and jet types are flown near the observatory using radio, altimeter, and radars on October 21 and November 2 in an unsuccessful effort to trigger the Geiger counter.

Event 2293 (1CB44F66)

Date: 10/14/1949
Description: At another conference in Los Alamos, New Mexico, attended by 16 representatives of AFOSI, AMC (Joseph Kaplan and Maj. Frederic C. E. Oder), Fourth Army, the FBI, AFSWP, and Los Alamos scientists (Edward Teller, George Gamow, and Stanislaw Ulam), the green fireballs are identified as probably atmospheric in origin, but more observational data is needed. LaPaz and Neef speak at length. Oder's Cambridge Research Laboratory at Hanscom AFB in Bedford, Massachusetts, is selected for a field project, under LaPaz's supervision.

Event 2294 (1CC1804A)

Date: 10/23/1949
Description: In Norwood, Hamilton County, Ohio outside of Cincinnati a black-and-white motion picture film was made showing a large disc-shaped craft hovering in a searchlight beam; it emitted five triangular or delta-shaped objects. The entire event began at 7:15 p.m., lasted over 210 minutes, and was witnessed by more than 50 people.

Event 2295 (D62EB202)

Date: 10/23/1949
Description: 7:15–10:45 p.m. Rev. Gregory Miller has set up his searchlight once again at St. Peter and Paul Church in Norwood, Ohio. Sgt. Berger turns on the light and picks up a large object in the beam. At about 10:00 p.m., the searchlight picks up two distinct groups of five triangular objects that seem to emerge from the main disc. They descend on the beam then turn out of it. The same performance is repeated 30 minutes later. About 50 persons, including newspaper reporters observe the objects. Miller takes several photographs and asks Sgt. Leo Davidson of the Norwood police department to film the display. He uses three rolls, 25 feet each, and a Hugo-Meyer F-19- 3" camera with telephoto lens. Davidson also takes 10 still photographs of the large disc-shaped object that flies in and out of the searchlight beam, using a Speed-Graphic camera with a 14-inch Wallensach telephoto lens. Two of these are exceptional shots, showing both the parent object and the smaller group. These two pictures are last seen by Time-Life correspondent Harry Mayo, who has prepared a feature story for Time, which was to include them. But Mayo's story and Miller's photos were not used in Time or Life and, in spite of requests by Miller, these two photos are never returned.

Event 2302 (98948C34)

Date: 11/11/1949
Description: 6:30 p.m. USNR Commander J. R. Bodler is in charge of a merchant vessel (possibly the USS Hemminger) in the Strait of Hormuz between the Persian Gulf and the Gulf of Oman. He observes a huge, pulsating submarine light wheel, some 1,000–1,500 feet in diameter, one mile from his ship. It is revolving around an ill-defined center with streaks of light like searchlight beams moving counterclockwise "like the spokes of a gigantic wheel." He thinks it is caused by natural phosphorescence, stimulated by some marine life.

Event 2311 (566E82F0)

Date: 12/2/1949
End date: 12/3/1949
Description: The US government releases radioactive fission products at the Hanford Site plutonium production facility in eastern Washington in an operation called Green Run. The radioisotopes are supposed to be detected by US Air Force reconnaissance. Sources cite 5,500–12,000 curies of iodine-131 are released and an even greater amount of xenon-133. The radiation is distributed over 500,000 acres encompassing three small towns and causes the cessation of intentional radioactive releases at Hanford until 1962, when more experiments commence. There are some indications that many other tests are conducted in the 1940s prior to Green Run, although this is a particularly large test. Evidence suggests that filters to remove the iodine are disabled during the test.

Event 2313 (7F81F446)

Date: 12/4/1949
Description: 5:00 p.m. Mario Restier is returning home from his father's place in Volta Redonda, Rio de Janeiro, Brazil, when he notices a disc land about 32–50 feet from the road. He hears a voice telling him not to be afraid and asking if he wants to know what it's all about. Two beings about 5 feet 5 inches emerge from the UFO wearing togas and helmets. Restier asks them if they believe in God, and they answer, "God is one." Encouraged, he enters the craft where he is offered a trip, put in a tub filled with liquid, and taken on a trip to a city on another world. He is shown a screen that depicts human nature, ambitions, and violence. After about 6 hours, he is returned to the spot where he was abducted. Returning to his father's house, he finds it is April 14, 1950, and has lost nearly four months of earth time.

Event 2330 (41FA1B92)

Date: 1/1950
Description: Keyhoe meets with Gen. Sory Smith, director of public relations for the Air Force; Maj. Jesse E. Stay and Jack T. Shea, press officers; and Maj. Jere Boggs, Pentagon liaison to Project Grudge. Most of the interview involves questions for Boggs. Keyhoe is given two looseleaf notebooks with summaries of "Project Saucer" cases. His request to visit Wright-Patterson AFB in Ohio to look at the actual case files is turned down weeks later.

Event 2331 (E9C4532A)

Date: 1/1950
Description: On the Seattle, Washington, to Anchorage, Alaska, route, an air freighter is paced for five minutes by a UFO. When the pilots try to close in, the craft zooms away at terrific speed. Later, the airline head reports that intelligence officers quizzed the pilots for hours. “From their questions,” he said, “I could tell they had a good idea of what the saucers are. One officer admitted they did, but he wouldn’t say any more.”

Event 2334 (5CFB729B)

Date: 1/6/1950
Description: Three military witnesses, including one named Zimmerman, were flying in a U.S. Air Force C-47 transport plane near Howard, Kansas on this day when they sighted a silverly metallic, football-shaped object flying on a straight level flight path. They estimated the object was between 30 and 60 feet long, was flying at 2,000 feet altitude at a speed of 400 mph.

Event 2336 (5F827084)

Date: 1/7/1950
Description: 10:15 p.m. The assistant maintenance officer at Holloman AFB is driving south of Corona, New Mexico, when he sees a green fireball. It descends at a 60° angle, then levels out and travels 10° east before dropping out of sight behind a mountain. When first seen, it is yellowish-white, changes to orange as it descends, then turns bright blue-green as it levels out and disappears.

Event 2338 (75375A11)

Date: 1/12/1950
Description: 11:25 p.m. A B-29 aircraft is flying over the Gulf of Mexico (southwest of Florida) on a course of 260° when three objects are noted on the radar scope orbiting the B-29 from all quadrants. The objects are noticed by the radar operator, aircraft commander, navigator, and bombardier. One object is first sighted on a bearing of 330° traveling south. The objects travel across the scope in approximately 15–20 seconds on the 100-mile range setting. In a few minutes this object is joined by two others, which disappear in a few minutes. At short ranges the object is large and well-defined on the radar scope. The object goes off for about 100 miles, turns and comes in as if for an attack, passes through the center of the scope, and emerges on the other side. The estimated speed of the object is 2,500–3,000 mph. The one object remains on the radar scope for approximately 30 minutes, following the B-29 all the time. The radar operator switches ranges on the scope and picks up the object on the 20- and 50- mile settings. Twice the object comes to within 20 miles of the aircraft and then apparently has the ability to hover, because the movement on the radar scope ceases for 5–15 seconds. After altering course the object no longer appears, but the radar is jammed for approximately 10 minutes. The crew makes no visual sighting.

Event 2339 (73F693E8)

Date: 1/12/1950
Description: The AF Directorate of Intelligence quietly cancels the special intelligence collection directives to various government agencies for reporting UFO incidents, though routine intelligence channels still require UFO reporting, per AFCIR-CC7, "Reporting of Information on Unconventional Aircraft." Cancellation is a follow-up to the widely announced closure of "Project Saucer." AFOIN Director Gen. Charles P. Cabell believes that in fact AMC is taking its UFO project underground by announcing the closure. Months later Cabell discovers that AMC Intelligence under Col. Harold E. Watson is not running a secret UFO investigation, and Cabell is forced to make up for AMC's negligence by conducting his own UFO investigations via his AF Intelligence staff.

Event 2346 (F619BA1D)

Date: 1/22/1950
Description: 2:40 a.m. Navy patrol pilot Lieut. Smith makes a routine security flight out of Naval Air Station Kodiak [now Coast Guard Base Kodiak], Alaska. He obtains a radar reading on an object 20 miles north. It quickly vanishes. At 2:48, he tracks a similar object 10 miles southeast. Kodiak radar reports no known aircraft in the vicinity, but they are seeing the same track. At 3:00 a.m., the tug USS Tillamook is south of Kodiak when one of the men on deck sees a "very fast-moving red glow light, which appeared to be of exhaust nature." The object comes from the southeast, moves clockwise around Kodiak, and returns to the southeast. Another officer sees it for 30 seconds and describes it as a "large ball of orange fire." At 4:40 a.m., Lieut. Smith picks up another blip moving so fast that it leaves a trail on his screen. His crew sees the UFO close a five-mile gap in 10 seconds, an apparent speed of 1,800 mph. Witnesses report two orange lights that rotate around a common center. The object makes a sharp turn and heads directly towards Smith's plane. Smith considers this a threatening situation and turns off his lights; the UFO flies by and disappears. At least 35 copies of Smith's report are sent to FBI, CIA, AFOSI, and the State Department. None are ever officially released or published.

Event 2347 (11F62A76)

Date: 1/22/1950
Description: U.S. Navy patrol plane pilot, Lt. Smith, was on routine security flight when he picked up a radar track on an UFO, two times. Smith then radioed Kodiak radar station and was advised that no known traffic was in his radar area. Moored south of Kodiak was the USS Tillamook with Master Morgan standing on watch. Suddenly, at 3 a.m., "a very fast moving red glow appeared to be of exhaust nature, seemed to come from the south-east, moved clockwise in a large circle in the direction of, and around Kodiak and returned out in a generally south-east direction. The UFO was moving so fast that it was actually leaving a streak on Smith's radarscreen. It was estimated to be moving at a speed of

1800 mph. Described as “two orange lights rotating about a common center like two jet aircraft making slow rolls in tight formation.” The UFO then made an abrupt turn and headed directly towards Smiths’ aircraft in a threatening gesture so Smith quickly turned off all of his lights turn make his plane less conspicuous in the inky colored sky. The UFO flew by him and disappeared in the south-east in a matter of minutes.

Location: Kodiak, Alaska
Source: Maj2

Event 2348 (CAFB72A5)

Date: 1/22/1950
Description: At around 4:00 a.m. a radar blip was detected approaching the Kodiak Islands at 1,800 mph over Kodiak, Alaska, according to airborne radar. It then buzzed several planes and boats. A U.S. Navy plane failed to intercept the UFO because it was too highly maneuverable. It had two orange lights rotating about the center, and made no detectable sound.

Event 2350 (9376EAE2)

Date: 1/24/1950
Description: At 4:50 p.m. a UFO shaped like a hemisphere with a flattened lower part, and estimated to be 70-80 meters in diameter, maneuvered in the sky five miles away from a C-45 transport plane flying from Pope AFB in Halifax County, North Carolina. The C-45, flying at an airspeed of 160 mph, could not catch up with it. The object oscillated with a pendulum motion. The Air Force explanation was that the object sighted by military pilots Fehrevach and Edwards was a balloon.

Event 2351 (33098C05)

Date: 1/24/1950
Description: 4:50 p.m. USAF Capt. G. B. Edwards and copilot Theron C. Fehrevach are flying a C-45 transport plane from Pope AFB [now Pope Field], Fayetteville, North Carolina, to Bolling AFB [now Joint Base Anacostia- Bolling], Washington, D.C. While at 5,000 feet near Blacksburg, Virginia, Fehrevach notices a dark, 200–250 foot in diameter,

hemispherical parachute-shaped object above them about 5–10 miles away. A large black smoky region is below it, possibly obscuring the lower portion of a sphere. The UFO is darker than the 50% cloud cover and "easy to distinguish as not being cloud." The object moves smoothly without any noticeable turn radius. Edwards puts the C-45 into a climb to 7,000 feet so they are at the same altitude as the UFO and turns to head directly toward it. Army Courier Service passenger 1st Lt. John H. Van Santen is alerted by Fehrevach and also sees the object move right then left again, then they all see the object recede at high speed and disappear. About 90 seconds later the object reappears about 30°–45° to the right of their heading, then oscillates right to left. It moves horizontally to dead ahead again and disappears by receding in the distance at high speed.

Date: 2/24/1950
Description: At 1:15 p.m. 16 A.E.S.S. inspectors watched an aluminum colored, round UFO hovering over Los Alamos, New Mexico. It moved around for 20 minutes as if observing the nuclear facility, zigzagged, and shot straight up in the sky. At 1:55 p.m. two Albuquerque, New Mexico Municipal Airport Weather Observers, Luther McDonald and Harrison Manson, watched a white, slightly elongated oval-shaped UFO for 90 seconds through a theodolite while it flew straight and level.

Event 2377 (7CA8C022)

Date: 2/25/1950
Description: Los Alamos, New Mexico. Twelve Atomic Energy Commission security inspectors sighted a cylindrical UFO at 3:55 p.m. while at the Los Alamos nuclear facility. It was silver colored and was flashing, and had tapered ends. The object flew slowly and then sped up, fluttered and oscillated, and changed course. The observations by the various individuals lasted from three seconds up to two minutes.

Event 2382 (2F12114D)

Date: 3/1950
Description: Naval Commander Robert Bright McLaughlin, in charge of a team of Navy scientists at White Sands Proving Ground, New Mexico, writes about the Charles B. Moore sighting of April 24, 1949, in a True magazine article and speculates on saucer propulsion systems. McLaughlin writes that the saucers are indeed "spaceships from another planet, operated by animate, intelligent beings." The Navy, having gotten a preview of the article, removes him from White Sands and gives him an assignment at sea aboard the destroyer USS Bristol.

Event 2385 (AF48A514)

Date: 3/1/1950
Description: Military and civilian radars tracked a UFO flying at between 40,000 and 80,000 feet near Knoxville, Tennessee. At 11:15 a.m. Stuart Adcock, a Knoxville radio amateur with experience in radar technology, called the local FBI agent, Mr. Robey, to report that he had detected an object using a surplus military radar set. The object was circling at at altitude of about 40,000 feet over Oak Ridge nuclear facility. Mr. Adcock reported another detection the next day. No planes were scheduled in the area at the time. The US Air Force suggested that the visual sightings may have been due to a mirage.

Event 2389 (8EAFC5D3)

Date: 3/5/1950
Description: At 1:30 a.m an ex-Air Force officer driving on Highway 80 in Saltsburg, Pennsylvania said he watched a turtle shell-shaped disc hovering at low altitude. The 15 meter wide object kept away from him when the witness attempted to approach it. At 7:00 a.m. on this same date twenty witnesses watched a 25 foot wide, extremely bright UFO maneuver in the sky over Gering, Nebraska. It appeared to change shape as it flew off toward the southeast. In the afternoon a metallic flying disc trailing some kind of ribbon hovered, darted about, and jumped into some clouds over Houston, Texas. It left flying toward the east. That night in Bloomfield, New Mexico a dark, five-foot diameter disc paced a car. When the driver stopped the car the object circled the car, then sped away at a high speed.

Event 2394 (4200DE78)

Date: 3/8/1950
Description: Mid-morning. TWA pilot Capt. W. H. Kerr reports to the CAA that he and two other TWA pilots (D. W. Miller and Malvern H. Rabeneck) are watching a UFO hovering at high altitude near Dayton, Ohio. The CAA has already received about 20 other reports about it from Vandalia, Ohio. ATIC control tower operators at Wright- Patterson AFB pick it up visually and on radar ("a good, solid target"). Four F-51 interceptors are sent up. They see it as a huge, round, metallic object, but clouds move in. The object climbs vertically out of sight at high speed. ATIC calls it the planet Venus, with radar returns from ice-laden clouds.

Event 2396 (3C61E9E1)

Date: 3/9/1950
Description: 7:45 p.m. A crew of three radar controllers at Selfridge Air Force Base [now Selfridge Air National Guard Base] near Mount Clemens, Michigan, is busy monitoring the night flying units of the 56th Fighter-Interceptor Group. 1st Lt. Francis E. Parker, 1st Lt. Frank K. Mattson, Sgt. McCarthy, and Cpl. Melton observe an intermittent target on the height range indicator (HRI) scope of the CPS-4 radar at 47,000 feet altitude and higher. Further indications of what Parker describes as a well-defined, clear target like an aircraft are picked up with increasing regularity over the next 45–60 minutes. During this time, the target seems to stay in the area where the F-80s are flying, but 20,000 feet above them. The radar operators are monitoring two different systems—a CPS-5 radar operating on long-wave frequencies at 40,000 feet, and a CPS-4 radar operating on short-wave frequencies—and the target appears on both scopes simultaneously without fade. The speed varies from a hover in low-density air to nearly 1,500 mph, well in excess of the fastest operational jet at the time, and a climb rate of up to 7,000 feet per minute.

Event 2397 (7E4DDDF7)

Date: 3/10/1950
Description: An oval-shaped, aluminum colored object hung in sky at 40,000 feet altitude over Indian School Road southeast of Phoenix, Arizona at 6:00 p.m. It was estimated to be 200 feet in diameter, tapering to narrower proportions in the rear. It moved silently through the sky with a red fiery trail one hundred feet long, but left no vapor trail. It was gone from sight in 4 to 5 seconds.

Event 2422 (3A771B51)

Date: 3/18/1950
Description: At a ranch in Lago Argentino, Argentina, Mr. Wilfredo H. Arevalo, a rancher, saw two objects, one of which landed at 6:30 p.m. He walked within 150 meters of the aluminum looking craft that gave off a blue-green vapor with "an intense smell of burning benzene." A large, flat section on top was revolving above a glass cabin in which could be seen four tall men with pallid faces, dressed in something like cellophane, working at various instruments. When they saw him they shone a light in his direction while a blue light illuminated the craft. The vapor increased and flames, alternately red and green, shot out of the base while the object rose with a faint hum. Both craft flew away toward Chile, leaving bluish trails.

Event 2425 (A589905E)

Date: 3/18/1950
Time: 1830
Description: A rancher, Wilfredo H. Arevalo, saw two objects, one of which landed. He walked within 150 m of the aluminum-looking craft which gave off a greenish-blue vapor and "an intense smell of burning benzine." A large, flat section on top was revolving above a glass cabin in which could be seen four tall men, dressed in something like cellophane, working at various instruments. They saw him and shone a light in his direction while a blue light illuminated the craft; the vapor increased and flames (alternately reddish and greenish) shot out of the base while the object rose with a faint hum. Both craft flew away toward Chile, leaving bluish trails.

Event 2426 (4DA5BF97)

Date: 3/19/1950
Description: In 1950 in Sonderborg, Denmark at 2:30 a.m., mechanic J. Matiszewski heard a whistling sound that drew him outside. He then watched a UFO land in a meadow. When he approached to within 50 meters he suddenly felt paralyzed, and he observed that birds and cows in the vicinity were also unable to move. He stood motionless as four handsome men with brown complexions, wearing shiny black suits and translucent helmets, emerged from the craft and engaged in repair activities.

Event 2427 (CC411B27)

Date: 3/20/1950
Description: 9:26 p.m. Chicago and Southern Airlines Capt. Jack Adams and First Officer G. W. Anderson Jr., flying a DC-3 at 2,000 feet and heading west from Memphis, Tennessee, to Little Rock, Arkansas, see a circular disc 100 feet in diameter approximately over Hazen, Arkansas. In the top center of the object is an extremely bright light blinking at an estimated 3 flashes per second. The bottom of the object appears to have 9–12 symmetrical oval or circular portholes in a circle approximately 75% of the distance from the center to the outer edge. The object passes directly in front of the airliner at a distance of not more than 2,640 feet and approximately 1,000 feet higher than the airliner. They watch the object for 25–35 seconds. Adams estimates its speed is greater than 1,000 mph.

Event 2428 (96BAA4CE)

Date: 3/20/1950
Time: 9:26 PM
Description: Witnesses: Chicago & Southern Airlines Capt. Jack Adams, First Officer G. W. Anderson, Jr. One 100' circular disc with 9-12 portholes along the lower side emitting a soft purple light, and a light at the top which flashed 3 times in 9 seconds, flew at not less than 1,000 m.p.h. It was seen for 25-35 seconds.

Event 2429 (65034004)

Date: spring 1950
Description: Commander Augusto Vars Ortega of the Chilean Navy takes about 1,200 feet of color film of UFOs—one above the other, turning at tremendous speeds—in Antarctica. When NICAP asks the Chilean Embassy about the film in 1956, it tells Keyhoe that the film is classified and not available.

Event 2430 (C519BAB2)

Date: 3/21/1950
Description: 1:00–1:30 p.m. Sergeant Woods at Sandia Base, New Mexico, reports four round, silvery objects to the northeast. The objects appear to be more maneuverable than any known aircraft. The maneuvers are similar to those in dogfights involving two aircraft, but there seems to be no similarity to a conventional plane. They make right-angle turns and reverse direction instantaneously. The duration is about 30 minutes. Other witnesses at Sandia and Kirtland AFB report similar observations.

Event 2432 (D0D7D3E7)

Date: 3/22/1950
Description: FBI "Guy Hottel" Memo: 3 saucers recovered in NM (corroborating Frank Scully's later book on 8/50).
Description: Circular with raised centers, approx. 50 ft. diam. Each one occupied by 3 bodies, only 3 ft. tall, dressed in metallic suite, taped like high-speed flyers. It is believed that a very high powered Radar Station interfered with their control mechanisms, causing them to crash.
Type: memo

Event 2433 (2B2467DC)

Date: 3/22/1950
Description: 11:00 a.m. Eleven sergeants in the 4925th Test Group watch a UFO northwest of Kirtland AFB, New Mexico. The shape is "similar to a flying wing air craft and tan in color, turning to brown around the edges." It first travels northwesterly at 25,000–30,000 feet, then turns north and disappears with a tremendous burst of speed.

Event 2434 (BE32D9E9)

Date: 3/22/1950
Description: FBI agent Guy L. Hottel writes to FBI headquarters about a rumor that three UFOs have crashed and are recovered in New Mexico. They are 50 feet in diameter and "each one was occupied by three bodies of human shape but only 3 feet tall, dressed in metallic cloth of a very fine texture. Each body was bandaged in a manner similar to the blackout suits used by speed flyers and test pilots." It goes on, "According to Mr. [redacted], informant, the saucers were found in New Mexico due to the fact that the Government had a very high-powered radar set-up in that area and it is believed the radar interferes with the controlling [sic] mechanism of the saucers." The informant is probably Silas M. Newton or Leo GeBauer. On March 25, 2013, the FBI issues a release saying that the Hottel memo was simply a second- or third-hand claim "that we never investigated. Some people believe the memo repeats a hoax that was circulating at that time, but the Bureau's files have no information to verify that theory."

Event 2441 (ECE5BB98)

Date: 3/26/1950
Description: Several discs were seen from a Lebanese airliner off the coast of the ancient city of Acre (now Akko), Israel. They were travelling north and flying at a high altitude while emitting trails of smoke. At 11:15 a.m. five disc-shaped UFOs were seen, first three, then another two, flying over Bruswick, Georgia. They were silver in color, and flew at 30,000 feet altitude at a speed greater than 1,800 mph.

Event 2443 (05243151)

Date: 3/27/1950
Description: Radio broadcaster Henry J. Taylor, on his syndicated radio program Your Land and Mine, announces the "wonderful news" that saucers are in fact US secret weapons, which will reassure the nation when the US Air Force confirms it. Within days, the story is twisted to specifically credit the Navy's alleged "top secret" project the Flying Flapjack Vought XF5U. The story is apparently disinformation planted by ex-Hollywood writers in the CIA Office of Policy Coordination's Political and Psychological Warfare staff headed by Joseph Bryan III, a future president and board chairman of NICAP.

Event 2447 (6C5E36A2)

Date: 3/28/1950
Description: Samuel Eaton Thompson is on his way home to Centralia, Washington, from Markham. He drives through a wooded area between Morton and Mineral and decides to stop to take a break. On foot, he comes upon a large, globe-shaped craft hovering above a clearing. Naked children with dark tans and blond hair are playing on steps that lead from an open door to the side of the UFO. Several naked adults—humanoid, attractive, and also deeply tanned—then appear at the ship's door. After realizing that Thompson means them no harm, they beckon him closer. The crew consists of 20 adults and 25 children, the latter from about 5–15 years of age. Thompson claims to have spent the next 40 hours with the humanoids. They are from Venus, he learns, and have stopped at Earth despite the fact that other Venusian saucers have been shot at by Earth-based military forces. The Venusians further claims that they are vegetarian and that they

never grow ill. Thompson also claims the Venusians are naïve and childlike; they do not know who has built their flying saucers and seem to possess little to no curiosity. He goes back to get a camera and tries to take photos, but the object is too bright to appear on film. Thompson returns home on March 30.

Event 2470 (60BBB00F)

Date: 4/7/1950
Description: The National Security Council presents President Truman with Report 68 (NSC-68), a 56-page top secret policy paper that provides the "blueprint for the militarization of the Cold War." It advocates a large expansion in the military budget, the development of a hydrogen bomb, and increased military aid to US allies for the containment of Communist expansion. It essentially warns Truman that the US is losing the Cold War. Truman does not approve it until 1951.

Event 2472 (9994289D)

Date: 4/8/1950
Description: Later that day shortly before noon near Amarillo, Texas, David Lightfoot, age 12, and his brother Charles saw a disc land behind a hill. They were able to walk up to it and touch it. It was the size of a car tire, about 30 cm high, with a rounded top that rotated. It had a pivot between the base and the top. It took off very fast. The faces and arms of the boys later became red with welts.

Event 2473 (4E8714AB)

Date: 4/8/1950
Description: At 2:00 a.m. Mr. Earl Baker, a metal worker in Kokomo, Indiana was awakened by his dog and observed an object outside his bedroom window only 60 meters away hovering at a low altitude. It was a gray metallic disc, five meters in diameter and 15-feet thick. It was shaped like a top with a kind of "conning tower" turret on top. It had three ports on the rim giving off a blue light. It was oscillating, spinning slowly, and had three portholes shining with a blue-white light. It hovered for about 2 minutes and then left toward the north at high speed.

Event 2488 (A5FA14BC)

Date: 4/18/1950

Description: CAA observers in Clarendon, Texas saw an unidentified object to the southeast, while observers in Childress, Texas about 50 miles to the SE saw the object to the northwest, and triangulated the stationary object about midway between, near Memphis, Texas. The sighting began around 9 a.m. and the object was on radar for four hours. This radar-visual case involved the crew of an F-61C as it was flying over Memphis around 11:00 a.m. as well as separate ground radars. A silver sphere that tilted was seen, and it did not move significantly despite winds aloft. Northrop engineering test pilot Max Stanley and observers Lloyd Balsam and Sam F. West were asked to intercept the object when they took off in their F-61C (AF 8357) from Amarillo on an MX-775 test of a Navaho missile celestial guidance test. A B-36 was also scrambled and took off from Fort Worth to intercept. On the same day at 10:50 a.m. two military wives in Sherman, Texas saw 18-20 flat silent silver discs race to the north, then maneuver for 4-5 minutes.

Event 2494 (39ADBE32)

Date: 4/24/1950
Description: 10:00 p.m. Bruno Facchini steps outside his house on the outskirts of Abbiate Guazzone, Varese, Italy, and notices something flashing near a power line. He goes to investigate and encounters a landed disc with an open door and steps leading down. Three or four men in diving suits and helmets are inside. One seems to be welding a pipe. Facchini speaks to them, but they respond with growling sounds. One points a small "camera" at him that emits a beam that knocks him over. Facchini lies still while the repairs are completed, and the UFO takes off.

Event 2514 (B6799FD1)

Date: 5/11/1950
Description: 7:30 p.m. Evelyn Trent, who lives on a farm nine miles from McMinnville, Oregon [near Sheridan, Oregon], is walking back to her farmhouse after feeding rabbits. Before reaching the house, she sees a slow-moving, metallic disk-shaped object heading in her direction from the northeast. She yells for her husband Paul, who is inside the house; he comes out and also sees the object. After a short time, he goes back inside to get a camera and manages to take two photos of the object before it speeds away to the west. Paul Trent's father briefly sees the object before it flies away. The Trents assume they have seen some exotic military aircraft. They do not develop the film in the camera until they use it up and show the photos only to a few friends. Eventually it reaches the cover of Life magazine, but the Trents show no desire to make any money from the photos. Although the Colorado project initially thinks the photos seem genuine, three Interface Pilote pour l'Analyse de Clichés d'OVNIs researchers in 2013–2015 claim to find evidence of a model suspended from a string. Researcher Brad Sparks finds major mathematical and scientific errors in IPACO's work, which actually supports a UFO conclusion.

Event 2515 (C98C4706)

Date: 5/11/1950
Description: Two famous UFO photographs were taken on this evening by Mr. Paul Trent in McMinnville, Oregon. The UFO was also witnessed by his wife. The images show a dark metallic, asymmetric hat-shaped disc. The upper structure was described as like a "parachute canopy", with slightly off-center triangular post or antenna. It hovered, rocking slowly like a rowboat riding at anchor, and made no sound. The photos were published in Life Magazine.

Event 2517 (08C857A6)

Date: 5/15/1950
Description: Afternoon. Architect Enrique Carotenuto Bossa is driving in an isolated region in Bahía Blanca Partido (possibly between Macachín and Estación Hidalgo Ferrocarril Sarmiento), La Pampa, Argentina, when he sees a metallic disc resting on the ground to the left of the highway. He stops the car to investigate, approaches it, and sees an open door in its side. He goes inside and sees a "curved divan with three seats, two of which were occupied by small beings covered from head to foot (except for an opening for the face (in a kind of tight-fitting overall of a brown color." The bodies are about 4 feet tall, and their faces seem charred or burnt. In front of them is a screen with "rays playing on it," and on top of the screen is a rotating globe. The engineer runs out and drives back to his hotel. He returns the next day with two companions and finds only an ash heap. But they look up and see three UFOs—one a cigar-shaped object and two discs, hovering above them at 1,800 feet. The discs merge with the cigar and speed away.

Event 2519 (DF6602C4)

Date: 5/17/1950
Description: On this night a military witness reported that a saucer-shaped object landed at the Amarillo, Texas airport for five minutes. Its touchdown set the grass on fire. It took off and flew to the west. There was an OSI investigation. On the same night a dark, "absolutely solid smoke ring" sped through the clouds of Timperley, Cheshire, England. It was the size of a plane.

Event 2525 (9BC3F3CD)

Date: 5/24/1950
Description: During an MX-674 Tarzon controllable vertical bomb test at Holloman AFB, New Mexico, Floyd Fannon and other USAF crew members see eight unidentified objects. They separately track and film two of the objects down

the North American Aviation missile firing range. Project Twinkle cinetheodolite station P-8 films one object to the northeast for 6 frames (1.0 sec) moving uniformly to the south. Cinetheodolite station P-10, located 5.7 miles down range to the north from P-8 and 7 feet higher, films another object, hence no triangulation is possible.

Event 2527 (5CEEB710)

Date: 5/29/1950
Description: 9:20 p.m. Capt. Willis T. Sperry, copilot Bill Gates, flight engineer Robert Arnholt, a stewardess, and several passengers on an American Airlines DC-6 airliner headed southwest out of Washington, D.C., en route to Nashville, Tennessee, are flying at 7,500 feet at 250 mph. About 7 miles west of Mount Vernon, Virginia, Gates alerts Sperry to a bright blue or bluish light ahead of them and increasing in size. Sperry makes an evasive 45° turn to the right and the object passes from 11 o'clock to 7 o'clock position to the left at a slightly higher altitude. The light very briefly passes between the aircraft and the upper part of the moon, revealing an object with a long silhouette (somewhat reminiscent of a submarine) without visible wings or empennage. The blue light is on the front of the object. Sperry turns left back onto his original course to get the object back in view, but it apparently stays stationary for about 30 seconds. Gates then notices the object circling around to the right side. Sperry banks right again, while the object paces the airliner about 20–30 seconds before it climbs to the east at a 30° angle at "fantastic" speed and disappears.

Event 2528 (AF027A86)

Date: 5/29/1950
Description: At 9:15 p.m. an American Airlines DC-6 flying at 8000' altitude, climbing from Washington, D.C. and approximately over Rappahannock, Virginia encountered a spindle-shaped UFO. The object changed course to parallel the plane, then circled the aircraft, and reversed direction before it went out of sight very fast. It had a blue light on its front end. The sighting lasted approximately one minute, and the object was not detected on radar. There were three witnesses among the crew: Sperry, Bates, and Arnholt.

Event 2535 (743A3F79)

Date: 6/17/1950
Description: Oskar Linke and his 11-year-old daughter Gabriele are walking toward Haselbach, Thuringia, East Germany, in the twilight when she notices something about 420 feet away. It appears to be two men dressed in shiny metallic clothing who are stooped over and looking at something on the ground. Linke approaches to 30 feet away, looks over a small fence, and sees a large object about 40 feet in diameter that looks like a huge frying pan. It has two rows of holes in its periphery and a black conical tower about 9 feet high. The two men suddenly jump inside. The inside lights up, the object starts humming and rises slowly from the ground, rotating like a top. It rises from the ground with the aid of a central cylinder and is surrounded by flames, then takes off in the direction of Stockheim. Later he finds a circular depression in the ground at the spot. Linke resettles in West Berlin in 1951. He tells his story to a notary there on July 1, 1952, which is how it turns up in the Western press and explains a confusion in the date of the sighting.

Event 2536 (440B3B95)

Date: 6/17/1950
Description: Oskar Linke and his 11-year-old daughter saw two little men in silver suits in a forest outside of Hasselbach, Germany in 1950. His motorcycle had gotten a flat tire and they were pushing it toward the village around 2:30 a.m. when his daughter Gabriele pointed to what she thought was a young deer about 150 yards away. He approached and realized that what she had seen were apparently human figures, wearing shimmering metallic clothing. They stood about 1.5 meters (4 feet) in height, and one of them wore a light on its chest that flashed at regular intervals. He stealthily approached to about 30 feet from them, peering over a small ridge. Next to them was a pan-shaped disc, approximately 40-50 feet (15-20 meters) in diameter. The object was metallic and had two rows of holes along the sides each about a foot in diameter, spaced 1.5 feet apart. Out of the top rose a ten-foot high black, cylindrical "conning tower."

When his daughter called to him it apparently alarmed the two figures, for they rushed back to the object, clambering up the side of the conning tower and disappearing inside. The outer rim of the disc in which the holes were sunk began to glow a blue-green color, and a humming sound started. As the glow and sound increased, the tower was retracted into the center of the object, and the whole object rose from the ground. From the swirling effect he got the impression the object was spinning like a top. The color of the disc turned to red as it took off. A two-meter circular depression of

compressed ground, freshly made, was found at the landing site, with ground indentations. At the time Mr. Linke lived in communist controlled East Germany. He told his story to a judge and U.S. Military intelligence when he was able to cross into West Germany two years later.

Event 2546 (8F9AD7A1)

Date: 6/30/1950
Description: Midnight. Rev. Ross Vermillion, a former bomber pilot, and his wife are driving 9 miles west of Kingman, Kansas, when they see a bright red light hovering over US Hwy 54 near Cunningham, Kansas. They estimate it to be about 250 feet in diameter with a small canopy on top. The family of druggist Dwayne Mulnix of Meade, Kansas, also sees the object and they stop and watch it for about 20 minutes along the highway. They begin to drive closer, but it speeds away. As seen in the bright moonlight, the object looks made of bright metal and has an elliptical body "as big as the cross-section of a B-29" with a rotor turning counterclockwise around its body.

Event 2548 (738C728F)

Date: 7/1950
Description: Mid-day. Electronics engineer Cliff Booth is having lunch in his office at a private contractor's building at Holloman AFB, New Mexico, when he gets a call that a UFO has been reported by one of the range stations. Booth and an Askania cinetheodolite operator are asked to drive to another range station with a manually operated Askania and look for the object. Through the finders on the theodolite the object presents a side view to the observers and appears to be cigar-shaped and metallic, with a straw-colored iridescent radiance or luster. It also has fins one-third of the way back from the front of the fuselage and a row of at least three oblong ports extending to the rear of the object and located above the center line of the fuselage. The ports are a dark smoky gray but not luminescent. The object hovers in an almost horizontal position, elevation 20°–25°, azimuth northeast. Shortly after the men focus the instrument on the object to take a film, it begins maneuvering. Turning toward the camera, the object moves in, and the men can see the front—a round shape with the fins extending out from the sides. It then drops abruptly, as though beginning to fall, but stops. It moves toward the camera, turns sideways, then drops as before, but this time it exposes the side view again. The operator leaves to report the coordinates to headquarters, and when he returns the object is gone. The men turn over their exposed film to the Data Reduction Division for development and analysis. A week or so later they are called in and questioned by a young first lieutenant unknown to them who asks them over and over again if they have taken pictures and to describe the object they had seen. Then they are asked if they can identify the film of the object they photographed. One of the men becomes angry about the questioning, telling the officer he had seen what he reported, had photographed the object, and is convinced it is some sort of a vehicle from outer space. He is shown a film of 14 frames on a Recordak projector. The black-and-white presentation shows a blurred ellipsoid with a dark center, but no

details. (Puzzled about the film, he later talks to a mathematician-analyst employed by Land-Air, Inc.; she conjectured the object had been oscillating in the air, preventing a stable image.) The men are then told by their superiors to forget the whole thing.

Event 2552 (2CE5AD01)

Date: 7/1950
Description: Armed Forces Special Weapons Project concludes a top secret study, named Project Nutmeg, to search for an atomic weapons site in the continental US. AFSWP concludes that a site on the Air Force's Las Vegas Bombing and Gunnery Range in Nevada is the right place. President Truman approves the location, known as Frenchman Flat.

Event 2554 (FC4E3634)

Date: 7/2/1950
Description: Dusk. While picnicking on the shore of Sawbill Bay on Marmion Lake, western Ontario, an anonymous employee of the Steep Rock Iron Mine claims to have seen a UFO resting on the water's surface. A hatch opens and 10 figures, 3–4 feet tall, emerge, wearing shiny, metallic clothing. They seem to be drawing in lake water with a hose. The object soon rises and hovers, then swiftly takes off. The story appears in the mine's house newsletter, then gets picked up by some Canadian newspapers and Fate magazine in its February/March 1952 issue. However, Robert Badgley, a Scarborough, Ontario, member of APRO, finds in 1974 that Steep Rock employee Gordon Edwards had written the fictitious tale to entertain readers of the newsletter and to satirize saucer stories.

Event 2555 (DB3F12E4)

Date: 7/2/1950
Description: Steep Rock Lake, Ontario, Canada. A man and his wife saw a double saucer with portholes and a rotating antenna come to rest on the surface of the lake. Ten figures, four feet tall, dressed in shiny clothing, emerged and walked on deck like robots "changing direction without turning their bodies." Their faces could not be seen. One of them wore a red cap, had darker arms and legs and seemed to be their leader. They immersed a hose in the lake, apparently extracted water, and then took off. Fishermen later reported a green moss formed on the lake.

Event 2556 (16D26F44)

Date: 7/2/1950
Description: In a story strangely similar to that of Mr. Kiehl (Aug., 1914) (Case 40) a man and his wife saw a double saucer with portholes and a rotating antenna come to rest on the surface of the lake. Ten figures, 1.20 m tall, dressed in shiny clothing, emerged and walked on deck like robots "changing direction without turning their bodies." Their faces could not be seen. One of them wore a red cap, had darker arms and legs and "seemed to be their chief." They immersed a hose in the lake, then took off. Fishermen later reported a green moss forming on the lake.

Event 2557 (6B2B57CB)

Date: 7/4/1950
Description: Evening. Aerojet engineer Daniel Fry is alone during the holiday at White Sands Proving Ground, New Mexico, when a flying saucer appears and hovers just above the ground. Fry approaches and strokes its surface when a voice booms, "Better not touch the hull, pal, it's still hot." After some conversation with the disembodied extraterrestrial named Alan, he is invited on board the craft, which flies him to New York and back in 30 minutes. Fry has further encounters and becomes a celebrity on the contactee circuit. He finally meets Alan in person in 1961.

Event 2583 (DDF7EF15)

Date: 8/4/1950
Description: The crew (Master Nils Lewring, Chief Mate Jacob Koelwyn) of the M/V Marcala in the North Atlantic between Nova Scotia and the US Eastern seaboard watch an aluminum-colored cylinder-shaped UFO, apparently 10 feet in diameter, 50–100 feet above the surface. It initially moves 25 mph, makes no noise, wobbles slightly, disappears over the horizon, then reappears. The ship's captain watches the object through binoculars for 90 seconds. One of the other witnesses describes the sighting as "one of the most frightening experiences I have ever had."

Event 2586 (DEA0F87C)

Date: 8/5/1950
Description: On this day one of the most famous UFO movies of all time was shot in Great Falls, Montana. The 16mm film was shot by Nick Mariana and was witnessed by his secretary, Virginia Raunig. It shows aluminum colored discs, "like two new dimes", hovering in the sky at a distance of two miles. It was sent to the U.S. Air Force for analysis, but when it was returned Mr. Mariana claimed many frames from the first part of the film, those showing the best closeup images of the objects, had been deleted. The existing film consists of 280 frames of 16mm film. The UFOs first hovered, then moved smoothly at very high speed (400 mph) in an arch beind a water tower. The objects estimated diameter was 50 feet.

Event 2591 (2D57331E)

Date: 8/15/1950
Description: 11:30 a.m. Nicholas Mariana and his secretary Virginia Raunig are inspecting the Great Falls, Montana, baseball stadium in preparation for a game. He walks up to the grandstand and notices two fast-moving bright lights "like two new dimes in the sky." He rushes to his car, parked 60 feet away, and gets his 16mm movie camera from the glove compartment. He films the objects passing behind a water tower, which provides a frame of reference for measuring distance, size, altitude, azimuth, and speed. In October he takes it to an Air Force officer for analysis. USAF notes that two jet interceptors were in the area and might be the objects on the film, but Mariana and Raunig had seen those too. Controversy soon arises when Mariana claims that the first 35 frames of his film—which he says most clearly show the UFOs as rotating disks—are missing. People in the Great Falls area who view Mariana's film support him. They claim that the missing frames clearly show the UFOs as spinning, metallic disks with a "notch or band" along their outer edges. USAF personnel deny this accusation and insist that they have removed only a single frame of film that was damaged in the analysis. In 1952, Blue Book reviews the film; so does Robert M. L. Baker Jr. in 1954, and the Colorado project in 1967. All studies of the film agree that it was not faked and that the objects appear to be disc-shaped.

Event 2592 (33188D06)

Date: 8/15/1950
Description: A top secret meeting on UFOs takes place at the Metropole Building on Northumberland Avenue in London, England. It is chaired by Hugh Young, deputy director of intelligence, and attended by representatives of the Secret Intelligence Service and Wing Commander Myles Formby of the Air Ministry's technical intelligence branch. Young explains that Henry Tizard, chief scientific advisor to the Ministry of Defence, feels that reports of flying saucers should not be dismissed without investigation and has asked that a working party be set up to look into significant reports. RAF Fighter Command is advised that all future reports of aerial phenomena should go to the Flying Saucer Working Party.

Event 2597 (1BD98BD6)

Date: 8/25/1950
Description: 250 miles southwest of Bermuda over the Atlantic Ocean (29.67º N, 67.47º W). At 8:00 p.m. radarman S/Sgt. William Shaffer, flying in a B-29, picked up an unidentified radar blip. The B-29 followed the unidentified target, then passed it at one-quarter-mile distance, whereupon the target followed them for the next five minutes. It passed the B-29 and sped away. A blue streak was seen in the sky three minutes later. Total time of tracking: 20 minutes.

Event 2598 (20648198)

Date: 8/25/1950
Time: 8 PM
Description: Witness: B-29 radarman S/Sgt. William Shaffer. Radar observation, plus possible blue streak 3 minutes later. B-29 followed unidentified target, then passed it at l/4-mile distance, target followed for 5 minutes, then passed B-29 and sped away. Total time of tracking: 20 minutes.
Type: ufo sighting
Reference: BlueBook Unknowns PDF
Location: approx. 250 mi. SW of Bermuda (29' 40' N, 67' 28' W)
Source ID: 45
Source: BerlinerBBUnknowns

Event 2599 (90E829DA)

Date: 8/27/1950
Description: A shiny white 20-foot wide sphere sped into the wind over Brockton, Massachusetts. The Air Force explained it as a balloon.

Event 2600 (DCBFF862)

Date: 8/30/1950
Description: At 1:30 p.m. three local employees of the Air Force Base at Sandy Point, Newfoundland, Canada including

Kaeel and Alexander sighted a dark, barrel-shaped object with a pole extending down from it into the water. The object flew very slowly at 3-5 mph just 15-20-feet above the water for five minutes.
Reference: Johnson
Reference: Don Berliner, Project Bluebook UFO Unknowns
Source ID: 5485
Source: Johnson

Event 2601 (44B4514A)

Date: 8/30/1950
Description: 10:45 a.m. During a Bell Aircraft MX-776 Shrike missile test (for the later Rascal air-to-ground strategic missile) a USAF M/Sgt and eight Bell Aircraft employees at Holloman AFB, New Mexico, see two glaringly bright circular or elliptical objects maintaining relative position to each other following the B-50 Superfortress launch aircraft from above on both the dry run and hot run prior to missile release. The objects give a "strong glare at all times" (not reflected sunlight), maneuver at high estimated speeds up to 10 times the B-50 (roughly 2,500 mph) for short distances, leave no vapor trails, hover, accelerate rapidly, and make abrupt "square" turns with apparent size changing to indicate ascent and descent.

Source: BerlinerBBUnknowns

Event 2603 (3FC5AC9A)

Date: 8/31/1950
Description: V-2 missile test at White Sands Pad 33, Reaches 136.4km attitude (Blossom 7- Nominal performance)
Type: rocket launch
Reference: link
Location: White Sands Pad 33, White Sands Proving Grounds, NM
Rocket type: V-2
Rocket altitude: 136.4km
Source: Maj2

Event 2604 (3A0D3536)

Date: 8/31/1950
Description: 10:00 a.m.–1:00 p.m. After V-2 missile launch no. 51 at Holloman AFB, New Mexico, Project Twinkle cinetheodolite crews track and film multiple objects sporadically several times from different directions at very high speeds over the course of 3 hours. Cinetheodolite station P-5 films an object using a one-frame-per-second 60 cm focal length camera with 35 mm color film. Frames 593 and 595 (2 seconds of nearly 10 minutes of film) show its elevation

angle changing. An attempted interception by four F-86 jets from Kirtland AFB for one hour fails to locate the objects, which apparently return after the jets leave. Cinetheodolite observers note an object with definite shape and 3D depth but indistinct edges and no smoke or trail. The object seems to "rock or oscillate." It is lost when the observer looks away to get an angle reading.

Event 2605 (72B2082D)

Date: 9/1950
Description: 7:00 a.m. Three US Navy planes on a combat mission 100 miles south of the Yalu River in Korea are approached from below by two huge discs, at least 600–700 feet in diameter, traveling at 1,000–1,200 mph. The radar shows them as 1.5 miles away. Suddenly the objects halt, back up, and begin a jittering motion, keeping pace with them, circling above and below. When one pilot readies his guns, the aircraft radar goes haywire, apparently jammed. His radio transmitter is blocked by a buzzing noise. The discs are silvery and shaped like a "coolie's hat, with oblong ports from which emanated a copper-green colored light which gradually shifted to pale pastel-colored lights." A shimmering red ring circles the top portion of the disc. The objects soon speed away in the direction from which they had come.

Event 2606 (ACA2778E)

Date: 9/1950
Description: The first US Army large-scale aerosol vulnerability test occurs in the San Francisco Bay Area, California, using two types of bacteria (Bacillus globigii and Serratia marcescens) and fluorescent particles. Six simulated attacks are conducted, with the conclusion that it is feasible to attack a seaport city with biological aerosol agents from a ship offshore. The first open-air tests with biological simulants are conducted in 1950 in various locales, one of which is off the coast of Norfolk, Virginia.

Event 2609 (01937A52)

Date: 9/5/1950
Description: 4:09 p.m. Flight Lt. Stan J. Hubbard is standing on the watchtower at Farnborough Airfield, Hampshire, England, with five other officers, one of whom is Wing Commander Frank Jolliffe. They all see, at a range of 10– 15 miles, a light gray disc following a rectangular flight path, consisting of a "falling leaf, horizontal flight, an upward "falling leaf," then another horizontal stretch. The Working Party concludes they have imperfectly viewed some conventional aircraft.

Event 2611 (6060465F)

Date: 9/8/1950
Description: Henry Holt publishes Frank Scully's Behind the Flying Saucers, the first book on UFOs. It sensationally claims that the US government has retrieved a crashed flying saucer and several dead pilots. Rep. Edward H. Jenison (R-Ill.) condemns the book as contributing to mass hysteria during a time of war in Korea. USAF Public Information Officer Clare Welch estimates that 3–4 million people have heard about saucers, thanks to the book.

Event 2615 (44351256)

Date: 9/15/1950
Description: Canadian engineer Wilbert B. Smith attends a classified briefing with physicist Robert I. Sarbacher of the US Defense Dept.'s Research and Development Board. Smith asks if there is any truth to the Scully crash- and-retrieval story and Sarbacher replies, "The facts reported in the book are substantially correct." He says that UFOs are "classified two points higher even than the H-bomb." In 1983, Sarbacher confirms the comment to Stanton T. Friedman, although he clarifies that he was speaking about crashed UFOs in general. He tells UFO researcher William Steinman in November 1983 that he "was invited to participate in several discussions associated with the reported recoveries" of UFOs, but is unable to attend the meetings. He claims Vannevar Bush, Eric A. Walker, and John von Neumann are "definitely involved" in the program and probably J. Robert Oppenheimer as well.

Event 2623 (79DBF014)

Date: 9/26/1950
Description: 10:00 p.m. Policemen John Collins and Joseph Keenan are patrolling on Vare Avenue near 26th Street in South Philadelphia, Pennsylvania, when they see something like a parachute drifting down ahead of them at treetop level. It is about 6 feet in diameter and settles in an open field. After summoning Sgt. Joseph Cook and Patrolman James Casper, they go into the field to investigate. When they turn their flashlights on it, it gives off a purplish glow, "almost a mist, that looked as though it contained crystals." Collins touches it and it dissolves in his hand, leaving an odorless, sticky residue. It completely evaporates in 25 minutes. This event inspires producer Jack H. Harris to ask his friend Irvine H. Millgate to come up with a story for what eventually becomes the 1958 horror film The Blob.

Event 2638 (68FA6B67)

Date: 10/15/1950
Description: 4:20 p.m. After taking off from Raleigh, North Carolina, Miami Airlines DC-4 pilot Capt. George A. Woodward and copilot William Bardsley see four round, metallic objects descending slowly near Pope AFB [now Pope Field] at Fort Bragg. They look like two saucers fitted together and are about 100 feet in diameter, flying in a line about 25 feet apart. The pilots pursue the objects for about 3 minutes, but the objects recede then shoot away at tremendous speed. Around the same time, a similar object crosses the path of an Air Force jet near Pope AFB.

Event 2650 (B004A7B4)

Date: 11/7/1950
Description: A military pilot flying a Douglas AD-4Q Skyraider near Lakehurst, New Jersey, engages in a dogfight with a steady white light that he at first mistakes for an aircraft. He gets on its tail, then the light reverses suddenly and passes 100–200 feet above his plane at incredible speed. He again tails it and the same thing happens. The light continues to “turn about me in wide, climbing turns, making about two orbits to my one.” He abandons chase at 11,500 feet.

Event 2653 (C46715AF)

Date: 11/16/1950
Description: Col. Harold E. Watson at AMC brings in news columnist Bob Considine for an in-depth interview on flying saucers. Watson says: "I've seen lots of flying saucers…and every single saucer turned out to be the sun shining off the wing or body of a distant DC-4, or jet, or a weather balloon, or it was a reflection off a water-tank or something else that is readily explainable." He characterizes witnesses as crackpots, religious fanatics, publicity hounds, or practical jokers. Considine asks him about airline pilot witnesses. Watson accuses them of being fooled by optical tricks and the power of suggestion.

Event 2654 (46F8DD38)

Date: 11/17/1950
Description: Telenews Productions releases a 9½-minute short film, The Flying Saucer Mystery, apparently the first UFO documentary. The film's main focus is on the best new evidence of 1950, the alleged first authentic photographs and motion picture film of flying saucers, the two snapshots by farmer Paul Trent, and the film shot by Louisville (Ky.) Times photographer Al Hixenbaugh on June 27, 1950. It also features UFO witness Arthur Weisberger of Tucson, Arizona, describing his sighting, apparently the only record of the event, as well as Donald E. Keyhoe and Admiral Calvin M. Bolster. The film is apparently only shown for a few months and rotates among the Telenews Theaters across the nation. It is lost for decades until it resurfaces in the 1990s.

Event 2659 (8F17FA39)

Date: 11/26/1950
End date: 11/27/1950
Description: 11:50 p.m. A “mysterious lighted object” flashing red, white, and green lights is seen above Huron (South Dakota) Regional Airport. Weather Bureau observer Gene Fowler, Winfield Henry of the Civil Aeronautics Administration, and Gordon Moore and Chet Fuqua, ground personnel at Western Airlines, go up to the roof of the airport administration building for a better look. Fowler is able to watch it through a theodolite used for weather balloons for 8 minutes. He says, “The azimuth reading changed from 147 degrees to 161 degrees during that period and went up seven degrees vertically.” The Rapid City weather bureau and Aberdeen CAA in South Dakota estimate the object is 40–50 miles northwest of Bismarck, North Dakota. The object reappears at 1:30 a.m. and is visible, sometimes hovering, until 3:00 a.m. when it disappears to the northwest. In Aberdeen, CAA aircraft communicator William B. Hiller sees a star-like object at 2:00 a.m. and watches it for 90 minutes. It changes colors, glowing white, green, and red

alternately.

Event 2677 (7B9FF1B0)

Date: 12/6/1950
Description: While F-94s are being tested at Dyess AFB near Abilene, Texas, radar catches a UFO on a high-speed intercept course with the planes. Some personnel see the object shortly afterward. Col. Robert B. Willingham claims it

is not a missile. It makes 90° turns at high speed. NORAD tracks it and the object is said to crash near the Mexican border near Del Rio, Texas. Willingham and a copilot take a light aircraft to the site but are escorted away. They do see part of the crash field and pick up a small piece of metal from the ground. Willingham takes it to a Marine Corps metallurgy lab in Hagerstown, Maryland, for analysis but never sees it again.

Event 2692 (B98E312F)

Date: 12/18/1950
Description: At 8:39 a.m. a circular light changed shape and brilliance as it hovered over Oak Ridge AEC Laboratories, Tennessee. It faded to a star, then flew away to the northwest. There was radar confirmation of the sighting from the nearby McGhee Air Force Base.

Event 2696 (0E6F9C59)

Date: 12/27/1950
Description: Sunset. A TWA flight, piloted by Capt. Art Shutts, is enroute from Chicago to Kansas City. Near Bradford, Illinois, Shutts notices a bright white light ahead of the plane, also flashing red and green occasionally. It begins to "wobble and swerve unsteadily," then streaks back and forth in a north-south line through an arc of 10–30°, changing direction abruptly. He notices that the horizon near the UFO appears to vibrate as if light is distorted, especially after the object puts on a burst of speed. It dims to a pinpoint and begins to slowly move south. Suddenly it lurches, accelerates rapidly, zooms upward at a 45° angle, makes a nearly square turn, plunges downward, and disappears below the horizon to the north. It is visible for 25 minutes.

Year: 1950

Event 2702 (77FFDA69)

Date: Early 1950's
Description: Carson's Field (speculated location), New Zealand: A New Zealand investigator receives a letter from a respected US researcher who spoke with a young American pilot. The pilot mentions he had just been sent on a mission to Australia, where he landed at a vast airport. A gigantic spacecraft was already there, where he meets a group of friendly, intelligent and good-looking men. He was told they were scientists from other planets, and he was to fly them to Scotland for a meeting. He flew them to Scotland and remained with his plane during the conference. He said that scientists from many of the world's nations were also present.

Event 2704 (77BAE6BE)

Date: 1/1951
Description: Author and journalist Bob Considine's article appears in Cosmopolitan, debunking all UFO stories as delusions and hoaxes, and quoting a weary Air Force Col. Harold E. Watson, who has replaced McCoy in Project Grudge. It offends people so badly that many pilots afterward refuse to report UFO sightings to the Air Force. USAF Public Information Officer Clare Welch, who has set this interview up, believes the Air Force has better things to do and is out of step with Cabell's renewed interest.

Event 2709 (C95774AE)

Date: 1/12/1951
Description: At 10:05 p.m. two U.S. Air Force airmen at Stewart AFB in Orange County, New York saw a fireball drop from a high altitude, and then zig-zag. It made clear cut maneuvers, and changed colors. At 11:01 p.m. a saucer-shaped object hovered near Fort Benning, Georgia for 20 minutes, then shot off to the south. U.S. Army 2nd Lt. A. C. Hale saw a light with a fan-shaped wake remain motionless like a star then speed away. It was estimated to be the size of a matchhead held at arms length. There were nine other witnesses. A Project Blue Book unknown.

Event 2713 (89CF588F)

Date: 1/16/1951

Time: Time unknown
Description: Witnesses: Two members of a balloon project from the General Mills Aeronautical Research Laboratory, the manager of the Artesia Airport, and three pilots. The balloon crew was observing their 110' balloon at an altitude of 112,000' when a dull white, round object was spotted. It appeared larger than the balloon, but made no movement. Later, the balloon crew and the others saw two objects from the airport; flying side-by-side, they circled the balloon and flew away to the northeast. The second observation lasted about 40 seconds. Note: there is confusion over the date of this case, with some USAF records showing it as 1952; however, 1951 appears to be correct.
Type: ufo sighting

Event 2717 (08A9CBC0)

Date: 1/20/1951

Description: 9:20 p.m. Sioux City, Iowa, CAA Control Tower operator John M. Williams sees an odd light in the west. Capt. Lawrence W. Vinther and copilot James F. Bachmeier of Mid-Continent Airlines Flight 9 takes off and Vinther is asked by the tower to look for the light. While still in a climbing turn at about 1,000 feet, the pilots spot the object to the north-northwest at about 8,000 feet and 4 miles away. It looks like a B-29 fuselage with wings but no engines and blinks some lights like running lights. The object comes towards the DC-3, flies across the nose within 200 feet, then suddenly reappears on the other side, paralleling them for 2–3 seconds. The object then flies under them and disappears to the northwest. This is one of the first reports to make it into the CIRVIS system specified by JANAP 146.

Event 2718 (B032148E)

Date: 1/21/1951
Description: 4:20 p.m. A UFO that appears to be over the restricted area at Oak Ridge National Laboratory, Tennessee, is sighted on the radarscope of an F-82 fighter. The GCI gives the go-ahead to intercept the target. The radar set on the F-82 is locked on and the run begins. The interception is unsuccessful, and the fighter returns to base. In all, three passes are made at targets, all with radar indications, but they cannot be completed since the target is over the restricted area that includes the X-10 plant.

Event 2720 (F6F7BE2B)

Date: 1/22/1951
Description: 11:00 a.m. USAF pilots Capt. Ernest W. Spradley Jr. of Aerial Photo Lab and Capt. James E. Cocker of All-Weather Flying Division (both based at Wright-Patterson AFB in Ohio), a General Mills Aeronautical lab project engineer named McAleese, and another airman are flying in a C-47 heading east about 50 miles southeast of Holloman AFB, New Mexico, at about 10,000–12,000 feet, tracking a Project Gopher plastic balloon at about 50,000–70,000 feet, when they see a bright star-like object adjacent to the pear-shaped balloon. As they approach and fly under the balloon, they notice the object descend to the balloon's level and grow larger in apparent size until about one-quarter to one-half the size of the 70-foot balloon. It appears to be round and flat like a dime, milky white or silvery in color, with a clear outline. Cocker and McAleese leave the cockpit and go to the astrodome to observe the object. After 3 minutes they see the object separate from the balloon and head west at high speed. After about 1 minute it emits a series of 3 bright photoflashes at one-second intervals and disappears from sight.

Event 2722 (11C4872B)

Date: 1/29/1951
Description: USAF Lt. Col. Milton D. Willis replies to Robert B. Sibley, president of the Aero Club of New England, who has written Secretary of the Air Force Thomas K. Finletter asking that the UFO project be reinstated because pilots are indeed seeing something that could be extraterrestrial. Willis writes that, although the UFO project is disbanded, the Air Force still investigates incidents and sends them to AMC if necessary, and an officer (Willis himself, who has replaced Boggs) monitors all UFO reports. As an aside to his superiors, Willis in a memo notes that "there have been several incidents, during the last six months, which cannot be explained and further investigation may be necessary."

Event 2724 (76FDF535)

Date: 2/4/1951
Description: A young girl, who was to have other UFO encounters later in life, was playing in her garden in Withdean, East Sussex, England between 6:30 and 7:00 p.m. when she saw a hovering disc-shaped object with a transparent dome on top. Inside the dome she could see three men, and they appeared to be looking down at her. The domed object made a descent into the garden and three humanoids with bald, domed heads exited. The men wore khaki-colored outfits, and carried a weird looking object. They floated toward the girl, then reversed direction, reboarded, and took off. Their exit was "like a film in reverse."

Event 2725 (D9D7DE7E)

Date: 2/8/1951
Description: A four engine Super-Constellation R5D Navy transport, flying at a speed of 200 knots at 10,000 feet between Iceland and Newfoundland, saw a UFO ascend from the surface of the Atlantic Ocean in the pre-dawn hours. They watched it on the surface for 8-10 minutes while approaching it, and it was so bright that they thought at first that perhaps the auto-pilot had gone off course and it was the lights from a city. It moved at 1,500 mph with a white flow and with a reddish-purple fiery ring around the rim. It shot up and at the aircraft, and due to the object's high speed, its size and direction of travel it looked like it would collide. The pilot quickly disengaged the auto-pilot and stood by to push the nose of the plane over in hopes that they could pass underneath. Everyone onboard began ducking, including the relief crew. "It stopped its movement toward us and began moving along with us about 45 degrees off the bow to the right, about 100 feet or so below us and about 200 to 300 feet in front of us. It was not in a level position; it was tilted about 25 degrees. It stayed in this position for a minute or so. It appeared to be from 200 to 300 feet in diameter, translucent or metallic, shaped like a saucer." When it moved away it made no turns, and was out of sight in only a few seconds.Gander radar did track the object in excess of 1,800 mph.

Event 2726 (11E83777)

Date: 2/9/1951
Description: 9:55 p.m. The crew (including Lt. Fred W. Kingdon Jr. and US Naval Reserve Lt. Graham E. Bethune) and passengers of a US Navy R5D transport flying west from Keflavík, Iceland, at 10,000 feet about 212 miles northeast of Gander, Newfoundland, observe a large orange-rimmed UFO with a dark center. It is about 400 feet in diameter and first seen moving above the surface of the ocean. As the plane approaches, the object changes colors, executes a sudden 180° turn and disappears over the horizon. Over time, several attempts to disguise the participants have resulted in confusion over the date.

Event 2731 (FFBA3D19)

Date: 2/19/1951
Description: 7:20 a.m. Capt. Jack Bicknell and Radio Officer D. W. Merrifield are flying a Lockheed Model 18 Lodestar aircraft out of Nairobi, Kenya, when they see a bright object hanging motionless about 10,000 above Mount Kilimanjaro in Tanganyika [now Tanzania]. They watch it for 3 minutes, then tell the passengers about it. Bicknell observes it through binoculars and sees a "metallic, bullet-shaped object which must have been over 200 feet long." It has a vertical fin at one end, and at regular intervals along the fuselage are vertical dark bands. It remains completely stationary for 17 minutes. Two passengers take photos of it. Then it begins rising and moving eastward, disappearing at 40,000 feet. It leaves no vapor trail.

Event 2733 (625A0E47)

Date: 2/19/1951
Description: Twelve witnesses flying in an airliner, including two men name Bicknell and Merrifield, while flying near Mount Kilimanjaro in Tanzania sighted a 200 foot long bullet shaped UFO at 7:20 a.m. At one end of the object was a square-cut, vertical fin. The body of the craft was a dull silver cover, but at intervals along the fuselage were dark vertical bands. The object hovered over Mount Kilimanjaro for several minutes, then moved away fast towards the east at an estimated speed of 1,000 km per hour. They took a photograph of it.

Event 2737 (D265A272)

Date: 2/25/1951
Description: Project Twinkle head and chemist Anthony O. Mirarchi at the USAF Cambridge Research Laboratory in Massachusetts tells the Associated Press that he thinks UFOs are not "just balloons" (in response to Liddel's upcoming article) and urges a full investigation of what could be experiments by a "potential enemy of the United States." He says that UFO reports show "maneuvered motion" that are not characteristic of a natural phenomenon. He says the "Navy report is erroneous. It lulls people into a false sense of security." He reminds the nation of the critical installations in New Mexico, including Los Alamos, and argues that they are a target of reconnaissance: "If they were launched by a foreign power, then they could lead to a worse Pearl Harbor than we have ever experienced." He blasts the US government for a policy of "suicide by secrecy." The FBI and Air Force mull prosecuting Mirarchi for violating AFR 205-1.

Event 2740 (56FE7084)

Date: 2/27/1951
Description: Physicist Urner Liddel, Office of Naval Research, says in a Look magazine article that there is not a single reliable UFO report that is not attributable to the cosmic [Skyhook] balloons. The article is based on Liddel's study in

ONR's Research Reviews in March. He claims to have studied "hundreds" of sightings in detail (probably from Project Grudge). As for UFOs sighted by Skyhook scientists themselves, he discounts them because these technicians are not aware of mirages and internal reflections in optical devices.

Event 2741 (F3115DE3)

Date: 3/1951
Description: A ghost light is seen in Suffolk County, Virginia, and investigated by Nansemond County Deputy Sheriff Hurley Jones, who sees the light three times. It looks like a car headlight 5 feet off the ground, three times. Jeston Reid said his father had seen the light in the 1870s. The location is apparently either Turlington Road or Jackson Road [they intersect] south of Suffolk, since locals say the old railroad along the Jackson and Whaleyville logging road used to run down that way, and the light has also been compared to a locomotive headlight. Some 200 people have been gathering along the road, hoping to catch a glimpse.

Event 2742 (C715F568)

Date: 3/1951
Description: 11:30 p.m. Operations Officer Robert Wood is aboard the USS Dyess approximately 125 miles southeast of Cape May, New Jersey, when he picks up a radar target coming in from due east at a speed of 98–104 mph and an altitude of 3,000–4,000 feet. It stops and hovers about 30 miles away. Wood notifies the bridge, and the captain orders the ship to change course toward the object. About 30 minutes later, the UFO suddenly takes off toward the north at 3,000 mph, getting to within 35–40 miles south of Nantucket Island, Massachusetts, before it zooms straight up. Altitude-determining radar tracks the object to 100 miles altitude.

Event 2748 (D35348FF)

Date: 3/14/1951
Description: A group of nine Bell Aircraft engineers are flying at 15,000 feet in a B-50 Superfortress near Holloman AFB, New Mexico, during a test of a secret Bell aircraft. They spot a group of unknown objects flying in a confusing "swirl" that breaks into a V-formation and back to a "swirl," then a V again. The objects are slightly higher than the aircraft and seem to be moving at high velocity. The engineers insist the objects are not geese, which actually can fly this high. (This may be the same incident as the August 30, 1950, case at Holloman.)

Event 2749 (C30961D7)

Date: 3/15/1951
Description: 10:20 a.m. George F. Floate, chief engineer of the Delhi Flying Club, and two assistants observe a swirly white cloud moving from north to south at about 4,000 feet altitude near the club's hanger in New Delhi, India. The cloud is about 700 feet in length. At the end of it a bullet-shaped object appears, approximately 100 feet long and as big around as a C-47 fuselage. The witnesses shout out, and 17–20 people rush out of the hanger and see the object. It heads south for about 3 minutes where it makes an apparent loop, coming back over the field. At the top of the loop it is out of sight, but it is seen again in its dive. After recovering straight and level flight, the UFO proceeds to the southwest until it is lost to sight. Its speed is estimated at three times greater than the cruising speed of a British Vampire jet. The total duration is about 7 minutes. (NICAP, "20+ Top Shelf Witnesses / Metallic Cigar"; Sparks, p. 106) Early spring — Dusk. US Army Pfc. Francis P. Wall is on maneuvers with the 27th Infantry Regiment near Cheorwon, South Korea, when he sees an orange light like a jack-o-lantern coming down a mountain. Artillery airbursts do not seem to harm it. As it approaches, it turns into a brilliant blue-green disc pulsating with light. Wall asks permission to shoot and fires a round from his M-1 rifle at it. The object starts moving erratically from side to side, flashes on and off, and makes an engine-like noise. It sweeps the soldiers with a beam of light, and they feel a burning and tingling sensation. They retreat to their bunkers and continue to watch the object, which is still lighting up the area, and then it shoots away at a 45° angle.

Event 2773 (C5A1B037)

Date: 6/19/1951
Description: Day. Mechanic Joseph Matiszewski hears a whistling sound as he is walking in Sønderborg, Denmark, and sees an object land in a nearby meadow. Approaching to within 150 feet of it, he finds himself paralyzed and notices that birds have stopped singing and cows seem frozen in place. Four men with brown skin and wearing black shiny suits and translucent helmets emerge from the object and send Matiszewski some telepathic messages. Eight smaller objects are ejected from the large one and float above it. Other figures inside the craft and on its deck appear to be making repairs. The objects ascend to about 300 feet and climb rapidly after that. The paralysis subsides.

Event 2777 (FBC12CD8)

Date: summer 1951
Description: A dubious story surfaces in 1956 that three UFOs had appeared above Mexico City International Airport at the same time as a visit by US Secretary of Defense George C. Marshall. (However, there is no record of a visit by Marshall at this time; apparently his first visit to Mexico was a vacation in Cuernavaca in February 1952.) According to the story, Marshall tells a "highly placed American" and "prominent medical scientist" that UFOs are interplanetary and friendly, but they have crashed accidentally on three occasions. In 1965, the American informant is revealed to be Rolf Alexander, who is in fact Allan Alexander Stirling, a New Zealand seaman who had jumped ship in 1920 and entered the US illegally. To support himself he promoted various dubious health cures while concocting a fictitious personal history. His activities were interrupted by prison sentences for mail fraud and embezzlement, and in 1954–1960 he claimed the ability to break up clouds with his psychokinetic abilities.

Event 2781 (BF19CD82)

Date: 7/1951
Description: The radiation-counter network set up at Oak Ridge National Laboratory, Tennessee, in December 1950 by Lt. Col. John R. Hood hits paydirt when a UFO appears, sighted both visually and on radar over the facility. He finds that the radiation counters have detected a significant rise in some kind of emission. Hood wants to expand the equipment, adding a debris-catching pursuit plane. However, information is lacking on this case and any follow- up.

Event 2783 (6EEEDCB5)

Date: 7/4/1951 (approximate)
Description: 10:00 p.m. Future ufologist Irena Scott and her sister Sue are sleeping at their home in Galena, Ohio, when they wake to see a small glowing light circling their bedroom in a meandering movement, but never bumping into

anything. It circles the room three times, maintaining the same shape, brightness, and size (less than one inch). After a few minutes, it moves in tight circles around the chandelier, then spirals downward, makes a noise, and emits tiny lights. Terrified, they rush out of the room and tell their father, who inspects the room but finds nothing.

Event 2814 (1EB59018)

Date: 8/25/1951
Description: 9:10 p.m. Three Texas Technical College professors (geologist Wilbur Irvin Robinson, chemist Aaron Gustav "Gus" Oberg, and petroleum engineer William Lyon Ducker Jr.) are sitting in a backyard at Lubbock, Texas, when they see a fast-moving, semicircular formation of 20–30 lights, as intense as bright stars but larger. Blue-green and silent, they move across the sky in seconds. A second group appears and repeats the performance. Others,

including Carl Hemminger at Texas Tech, report seeing the same objects the same night. J. Russell Heitman, head of the Texas Tech journalism department, says he had seen an identical group of lights several days earlier. The professors watch 10–12 such flights through November 1 (including on September 1 and 5), sometimes accompanied by colleagues Ellis Richard Heineman, E. F. George, Grayson Mead, and John Brand. Some researchers, including Ruppelt and Hynek, think the witnesses are seeing migrating plovers attracted to Lubbock's new vapor street lights, although Ruppelt changes his mind later.

Event 2820 (741DC4C8)

Date: 8/30/1951
Description: 11:30 p.m. A Texas Tech freshman named Carl Hart Jr. sees the same formation of 18–20 lights over Lubbock, Texas, and takes five photos. He gets the roll of film developed the next day and takes it to the Lubbock Morning Avalanche, which puts them out on the Associated Press wire. ATIC examines the photos and notes that the "two rows of spots behaved differently. One row only shows slight variation from a precise V formation throughout, whereas the other now appears to pass from above the first row, through it to a position below." Biologist James Cecil Cross looks at the Lubbock photos under a microscope and rules out the bird explanation. See also Life, Apr. 7, 1952. While investigating the Lubbock Lights, Ruppelt also learns that several people in and around Lubbock claim to have seen a "flying wing" moving over the city. Among the witnesses is the wife of Dr. Ducker, who reports that in August 1951 she observed a "huge, soundless flying wing" pass over her house. Ruppelt knows that USAF does possess a "flying wing" jet bomber, and he feels that at least some of the sightings are caused by the bomber, although he cannot explain why, according to the witnesses, the wing makes no sound as it flies overhead. Ruppelt says that in addition to Project Grudge investigators, another group of people who, "because of their association with the government, had complete access to our files" (scientists convinced of the ETH) were also looking into the Lubbock cases. In March 1955, Ducker sends Ruppelt a telegram indicating that he has figured out that the lights are a "natural phenomenon" and requests no further publicity in his book. However, Texas Tech mathematics professor Ralph Sylvester Underwood has also observed three flights and estimates the objects are at 2,000 feet altitude and flying at 700 mph—much too fast for birds.

Event 2823 (A1E279B9)

Date: 9/1951
Description: 9:00 p.m. Louise McDougall is sitting on the lawn outside her trailer park in Bloomington, California, when she has the feeling someone is watching her. She looks up and sees a flying saucer hovering some 20 feet up. It is lenticular, perhaps 100 feet in diameter, and dull silver metallic in appearance. There are tall, rectangular windows in its lower half, in which can be seen against an amber glow four men, in one-piece "jump suits," with shoulder- length hair. She turns a spotlight on the saucer, whereupon it shoots off silently at incredible speed. About 15 minutes later it returns, hovering in the same spot, the figures still visible at the windows. After 6 or 7 minutes, it takes off again to the southeast. McDougall's husband and three other people also see it.

Event 2828 (8739D3DE)

Date: 9/10/1951
Description: 11:10 a.m. At the Army Signal Corps radar center at Fort Monmouth [now closed], New Jersey, a student operator demonstrating radar functions to a group of visiting officers picks up a target that is moving too fast to be tracked automatically. The object seems to be following the coastline. He follows it off and on for 3 minutes, after which it disappears to the northeast, flying at 700 mph. About 25 minutes later, a T-33 jet trainer piloted by Lt. Wilbert S. Rogers, with Maj. Edward Ballard as passenger, spots a "silver-colored object about the size of a fighter plane" flying at 900 mph at 5,000–8,000 feet over Sandy Hook. It makes a 90° banking turn and disappears out to sea. At 3:15 p.m., a second radar tracking occurs, but this slower object turns out to be a balloon.

Event 2829 (73343669)

Date: 9/10/1951
Description: CONFIDENTIAL Air Intel REPORT: Maj. Ballard and Lt. Rogers while flying at 20,000 ft. in a T-33

spotted a disc-shaped UFO the size of an F-86 flying below them at 8000 ft. It was travelling much faster than they were (900+ mph). It was steady in flight, with no visible means of propulsion and shiny silver in color. The radar station at Ft. Monmouth plotted the same UFO on radar at 1110 EDT flying above 700 mph. (p127 of Ruppelt's book)
Type: ufo sighting

Event 2830 (C91838DC)

Date: 9/10/1951
Description: U.S. Air Force pilots Lt. Wilbert Rogers and Major Ezra Ballard were flying in a T-33 at 20,000 feet from Dover AFB when at 11:35 a.m. EDT they saw a silvery metallic disc-shaped object to their 11 o'clock position and below their aircraft, three miles northeast of Sandy Hook, New Jersey. It was silhouetted against the ground. Rogers immediately turned left and descended to intercept the craft, which then banked revealing its flat round profile, with no appendages. The UFO curved in a tight turn, covering an estimated 30 nautical miles in two minutes at a speed estimated between 1,000-1,500 mph. The object passed within about 8,000 feet distance of the T-33, descending from about 12,000 feet to 5000 feet and heading out to sea at high speed near Point Pleasant. The aerial sighting lasted two minutes and was rated a high reliability unknown by Project Blue Book and Dr. James McDonald.

Event 2838 (AE99BA73)

Date: 9/18/1951
Description: 10:20 p.m. USAF B-36 radar operator Maj. Paul E. Gerhart and navigator Maj. Charles J. Cheever are flying northwest at 239 mph over the Hudson Strait in northern Canada when they pick up radar interference coming from an unidentified aircraft moving away from them to the east about 32 miles away. The anti-jamming device on their radar is turned on at 11:20 p.m. but does not affect the jamming on the radar scope. At 11:35 p.m., a UFO is seen visually on the right side of the B-36, which is flying at 18,000 feet over southwest Baffin Island, Nunavut. The object has all-white "unconventional running lights" and two white flashing tail lights, travels about 35 mph faster than the B-36, crosses the front from right to left heading toward the north-northwest, and is in view about 20 minutes. While the object is still visible at 11:50 p.m., the B-36 autopilot and APQ-24 radar set malfunction, the latter coming back a few minutes later when the object disappears. ECM operators S/Sgt. Donald E. Jenkins and S/Sgt. Doty T. Larimore on two B-36 flights over Labrador on September 19 detect carrier wave signals at several frequencies and some radar-like pulses at other frequencies, all below 1,000 MHz.

Event 2840 (4F7AB166)

Date: fall 1951
Description: Navy pilot Lt. Cmdr. Marvin C. Davies is flying a plane off a CVE class aircraft carrier near Korea when the crew tracks a radar target 3 miles astern. The object has apparently been circling the fleet at an altitude of 5,000 feet and speeds of "slow" to 1,000 mph. The UFO has been tracked on 14 ship radars for 7 hours. It stops circling and takes up a position behind the plane's wingman, remaining there 5 minutes, then departing at high speed.

Event 2841 (9CBE0E16)

Date: 9/23/1951
Description: On this morning a total of seven F-86 fighters were scrambled to chase a UFO that remained over southern California for nearly ninety minutes. Two F-86 jet interceptors were scrambled from George AFB near Victorville,

California then vectored by air defense GCI radar to a target off the Pacific Coast 30 miles west of Long Beach Airport, where the jets circled and then headed east toward Long Beach when the object was seen at 7:55 a.m. PDT at the 12 o'clock high position. It was in a left orbit at about 50,000 feet, above the F-86's. It appeared to be a bright silvery aircraft with highly swept back 45° wings. The F-86's tried to climb to intercept the object but it climbed away in response. Another two F-86's were scrambled from George AFB at about 8:00 a.m. as the first two were running low on fuel and broke off pursuit. The second pair of F-86's was vectored by GCI radar to Camp Pendleton, arrived there at 8:10 a.m. at 43,000 feet, and spotted the object at the one o'clock high position back to the north toward Muroc/Edwards AFB, appearing to be at about 50,000-55,000 feet in a controlled orbit. It looked like a swept wing aircraft that sped up when the F-86's tried to close. The object was again found near March AFB, Riverside, California to the NNW but the jets broke off intercept because they were low on fuel at about 8:20 a.m., landing at 8:45. A third flight of two F-86's were scrambled from George AFB and saw the object shortly after takeoff, heading south. The F-86's made climbing turns up to 43,500 feet under the now round silvery object at 55,000 feet over the San Bernardino Mountains. They broke off the intercept at about 9:25 a.m. A seventh F-86 was scrambled to the south toward Long Beach but the UFO had gone. The Air Force explanation for the sightings was a balloon.

Event 2846 (F14543C3)

Date: 10/1/1951
Description: 10:00 a.m. At the Pentagon, Cummings and Rosengarten brief Cabell, his staff, and a representative from Republic Aircraft Corporation who "supposedly represented a group of top US industrialists and scientists." The meeting is recorded with a wire recorder. Edward Ruppelt, later head of Project Blue Book, hears the recording before it is ordered destroyed and keeps detailed notes about the meeting. Cabell supposedly learns that Grudge is effectively dead and demands to know "who in hell has been giving me these reports that every decent flying saucer report is being investigated?" Cabell says there is a great deal of doubt in his mind as to what the saucers are and that the Grudge report is the "most poorly written, inconclusive piece of unscientific tripe" he had ever read. He orders Grudge to reactivate itself, and Cummings and Rosengarten go back to Wright-Patterson AFB in Ohio to do just that.

Event 2867 (20A89445)

Date: 10/29/1951
Description: V-2 missile test at White Sands Pad 33, 140.9km (Army training test. Payload released but damaged on impact.)
Type: rocket launch
Reference: link
Location: White Sands Pad 33, White Sands Proving Grounds, NM
Rocket type: V-2
Rocket altitude: 140.9km
Source: Maj2

Event 2868 (A523AE57)

Date: 10/30/1951
Description: 6:40 a.m. A group of servicemen are preparing to observe the Buster Charlie atomic test at Area 7 of the Nevada Test Site. Just before the blast, they see at an altitude of a few thousand feet a formation of 18 silvery, rotating, disc-shaped objects, each with a dome, arranged in six groups of three stretched out in a horizontal row. They fly low over the test site, hover for 30–60 seconds, and depart at an angle, disappearing in seconds.

Source: Johnson

Event 2872 (873AB53D)

Date: 11/2/1951
Description: Later that same night, two forest observers were driving in a canyon 50 kilometers north of the Mojave Desert in California when they saw around 11 p.m. a disc-shaped flying object in the southwest sky. They estimated the diameter to be about 30 feet. It was blue-green in color, with well-defined edges, but surrounded by a glow of same color. Stopping their jeep, they signaled to the object, which approached to within a few meters, then flew away, seeming to play with them. Eventually it vanished "like a magician's trick."

Event 2879 (C800B97E)

Date: 11/9/1951
Description: Since October 30, seven green fireballs of exceptional size have been seen over a seven-state area in the American Southwest. Lincoln LaPaz, director of the University of New Mexico Institute of Meteoritics, says that frequency is exceptional: "In fact, there has never been a rate of meteorite fall in history that has been one fifth as high as the present fall. If that rate should continue, I would suspect the phenomenon is not natural." The fireballs travel in straight lines and are completely silent.

Event 2891 (CF9B9805)

Date: 12/1951
Time: 0300
Description: A man from Lincoln was driving to Indiana when he saw a blue light in the northwest sky. It vanished to the southeast. The witness missed a turn, had to go back toward Auburn, and had reached a point northwest of Peru when he saw an orange glow in the sky. Coming near, he observed the glow came from a cauldron-shaped object on the ground, about 12 m from the road. He stopped to examine the object, which measured about 10 m diameter and seemed to be made of cast iron. Thirty cm from the top was a row of windows, 25 cm in diameter, from which the orange light was coming. On the other side was a blue flamelike glow. There was no noise, no sign of life or activity, and no antenna or protrusion. The witness drove away.

Reference: NICAP, “‘Deke’ Slayton / P-51 Encounter”; Sparks, p. 117
Source ID: 1709
Source: EberhartUFOI

Event 2900 (0D2B00BE)

Date: 12/19/1951
Description: Ruppelt travels to the Pentagon with ATIC Chief Col. Frank Dunn. They visit with Maj. Gen. John A. Samford, who has replaced Cabell as USAF director of intelligence and who seems “familiar with the general aspects of the problem.” Samford’s aide, Gen. William M. Garland, tells them that ATIC has the sole authorization to carry out UFO investigations for the entire US military (not exactly true), and they discuss security problems posed by UFOs at sensitive installations. Ruppelt reveals that his preliminary analysis of UFO sighting patterns has uncovered a disturbing correlation of unexplained sightings around nuclear weapons facilities and highly classified nuclear stockpile sites and some SAC strategic air bases. Gen. Samford orders ATIC to conduct an exhaustive statistical study to verify Ruppelt’s findings, using the newly established ATIC Project WHITE STORK contract with the research think tank Battelle Memorial Institute in Columbus, Ohio (which eventually spends $100,000 on the study, Subproject PPS-100,

confirming Ruppelt's pattern).

Event 2904 (BD66B33E)

Date: 1952
Description: José Manuel Rodríguez Delgado, a Spanish physiologist at Yale University, coauthors what he claims is the first peer-reviewed paper describing deep-brain stimulation of humans. Over the next two decades, he implants electrodes in some 25 subjects. Most are schizophrenics and epileptics at the now-defunct State Hospital for Mental Diseases in Howard, Rhode Island, where Delgado's occasional collaborator Hannibal Hamlin is a staff psychiatrist. Delgado is reticent discussing his experiments on humans. He is more enthusiastic recalling research on monkeys, chimpanzees, and gibbons, which he kept both at Yale and in open-air compounds in the Bahamas and New Mexico. He explores the effects of stimulation not only on individuals but also on groups. In one demonstration, he implants a stimoceiver (a tiny electrode able to receive and transmit signals over FM radio waves) in a macaque who terrorizes his cage-mates. Delgado installs a lever in the cage that, when pressed, activates the stimoceiver in the bully and pacify him. A female in the cage soon figures out the lever's significance and yanks it often and with gusto.

Event 2908 (AF6EC31D)

Date: 1952
Description: 6:30 a.m. A carpool of people on their way to work at United Airlines in San Mateo, California, observe five smaller objects merging with a much larger, diamond-shaped object. The big one is about 150–200 feet long, charcoal or gunmetal in color, and is hovering 50–75 feet above some salt flats. The UFOs are directly in front of them to the east, about 1,500–1,800 feet away. One of the witnesses, airplane mechanic Leonard L. Musel, said the smaller objects entered the large object through a "transparent tail or sleeve." After they were aboard, the bigger UFO turned edgewise and zoomed off at a fantastic speed.

Date: early 1952
Time: 2242
Description: A fiery, spherical object made a right-angle turn during an observation by a C-54 crew flying from Westover to Goose Bay. It was also seen from the ground by the control tower and by two men who plunged to the earth when the object made a low pass at them. It went away at 2247.

Event 2913 (F4500A6B)

Date: 1/1952

Time: 2230
Description: A 38-year-old rancher saw a "shooting star" that suddenly stopped in mid-air between him and a mountain. It was seen spinning in a clockwise direction. It had one red window periodially facing the observer. It went down toward the Little Powder River and came up again. The witness turned his car to send light signals, to which the object seemed to respond by stopping its red window facing the witness's location. Spinning resumed, the object rose and came down. A similar craft arrived and both went into the deep valley, out of sight.

Event 2914 (8DDC328B)

Date: 1/1952
Description: Jim and Coral Lorenzen found the Aerial Phenomena Research Organization in Sturgeon Bay, Wisconsin. Soon, a man claiming to have an intelligence background becomes an active supporter and tries to lead the Lorenzens into "metaphysical areas of research." Coral Lorenzen rebuffs these attempts. She discovers what seem to be the impressions of an intelligence report about her on one of his letters. In the summer, two suspicious men posing as building contractors seem to be lurking around her home as well as the homes of the APRO treasurer and secretary the same day.

Event 2915 (BA55C083)

Date: 1/1952
Description: Some 74% of the CIA's money goes toward covert operations. It has already infiltrated many US labor, business, church, university, student, and cultural groups, usually channeling the money through foundations. This year it begins HTLINGUAL, a secret project to intercept mail destined for the USSR and China. It also targets domestic peace and civil rights activists. It lasts until 1973, photographing 2 million envelopes and opening 215,000 letters.

Event 2918 (1593BD0F)

Date: 1/3/1952
Description: Brig. Gen. William M. Garland, Assistant for the Production of Intelligence, writes a secret memorandum for General John A. Samford that lays down the investigative shortcomings of Project Grudge and suggests policies and agendas for the immediate future. Garland mentions that the aircraft inventions and models by the Horten brothers had fallen into the hands of the Soviets at the end of World War II.

Event 2919 (F17B9432)

Date: 1/6/1952
Description: Contactee George Van Tassel, living at Giant Rock in the Mojave Desert near Landers, California, receives the first of many psychic messages from extraterrestrial starship commanders. This one is from "Lutbunn, senior in command of first wave, planet patrol, realms of Schare. We have your contact aboard 80,000 feet above this place." Other messages soon come from Elcar, Clota, Totalmon, Latamarx, Noma, Leektow, Luu, Oblow, Kerrull, Locktopar, Molca, Clatu, Hulda, Lata, Singba, and others. One of his contacts, Ashtar, will become a metaphysical superstar, and in the years ahead many contactees will channel communications from him. These aliens seek to raise humanity's "vibrationary attunement" so that earthlings will not threaten the wise and peace- loving space people. Van Tassel reprints many of these messages in a misleadingly titled book, I Rode a Flying Saucer!

Event 2920 (B29E5823)

Date: 1/7/1952
Description: A dot appeared in the western sky over the Apple Valley Airport in San Bernardino County, California that grew to a golden shining disc, 100 feet in diameter. The UFO cavorted for several minutes, made 90 degree turns, and flew away at twice the speed of a jet. It also was completely silent. The witness was a 57-year-old man named Mattern.

Event 2922 (23E0D6DD)

Date: 1/20/1952
Description: 7:20 p.m. Two master sergeants, both intelligence specialists, are walking down a street at Fairchild AFB near Spokane, Washington, when they notice a large, bluish-white, spherical object approaching from the east. It passes north of their position, traveling horizontally and silently, and disappears in the west. They notice it has a long blue tail. It travels underneath low cloud cover at 4,700 feet at 1,400 mph.

Event 2923 (3E008739)

Date: 1/21/1952
Description: 9:50 a.m. A Navy pilot lieutenant commander in a TBM Avenger chases a white, dome-shaped object over Mitchel AFB [now closed] on Long Island, New York. It accelerates rapidly, makes a 180° turn, and heads out to sea. He estimates it is traveling at least at 300 mph. It looks like a parachute canopy and has a dark undersurface. Although there is a balloon in the area, but its flight path is completely different.
Reference: Eberhart
Reference: NICAP, "TBM Chases Climbing and Accelerating Object"; Ruppelt, pp. 121–123; Sparks, p. 118
Source ID: 1727
Source: EberhartUFOI

Event 2924 (9F508CE5)

Date: 1/21/1952
Description: Two pilots of a Navy TBM plane from Mitchel AFB on Long Island, New York chased a white, circular, domed disc at 9:50 a.m., which finally accelerated and outdistanced them, climbing away. The TBM torpedo plane was flying at 6000 feet altitude when the crew first spotted the object. The disc was very light on top, but dark on the underside. It was estimated to be from 20 to 30 feet in diameter, at a minimum distance of only 2000 feet. When it was first seen it was at 200 feet, and then climbed to the plane's altitude. It started a rapid climb from there and soon vanished from sight. The official Air Force explanation at the time was that it was a balloon, which nearly everyone who has reviewed the case doubts.

Event 2925 (EA5C0D26)

Date: 1/22/1952
Description: At 12:20 a.m. a radar station at Murphy's Dome, Alaska tracked a UFO moving at 1,500 mph at 23,000 feet. Three F-94s were vectored in. There were solid radar returns on the ground radar as well as two airborne radars. At one point the short range radar stopped working, preventing anything being tracked close to the station. The third jet approached to within 200 meters of the UFO, but pulled up for fear of a mid-air collision. No radar malfunctions were found.

Source: Johnson

Event 2926 (861A1A16)

Date: 1/22/1952
Description: 12:20 a.m. At a northern Alaska outpost, Murphy Dome Air Force Station, radar captures a UFO traveling 1,500 mph at 23,000 feet. When an F-94 is sent to intercept, the target stops, slows down, reverses course, and heads directly for the radar station. It comes within 30 miles, then disappears from the screen. The F-94 heads back to refuel, and a second fighter is scrambled. This pilot gets a strong radar return. At first, the object is almost stationary, but then it dives suddenly, at which point ground radar picks it up again. A third F-94 is sent up, also tracks the object on radar, and closes to within 900 feet. At this point, the pilot pulls away to avoid a collision, as the UFO is nearly immobile. Since none of the pilots obtained a visual sighting, the Air Force concludes that the radar returns are weather-related, although the pilots strongly dispute this.

Event 2927 (EEDB542B)

Date: 1/29/1952
Description: Brig. Gen. William M. Garland, USAF Assistant for Production of Intelligence, and his staff are briefed at the Pentagon on the status of Project Grudge by Edward Ruppelt, who with his colleagues at ATIC has prepared sighting maps that show a concentration of cases at White Sands and Los Alamos, New Mexico; Killeen Base, Texas; Oak Ridge, Tennessee; and Dayton, Ohio (where Wright-Patterson AFB is situated). At this meeting, Garland introduces a new intelligence policy that emphasizes the use of instrumentation for intelligence collection, including the detection and tracking of UFOs (the basis for terminating Project Blue Book as an intelligence function). As an interim last-chance measure to prove whether anecdotal sightings have any value, Garland approves Ruppelt's publicity plan to draw in UFO reports from the public so that triangulations might be obtained. This leads to Garland secretly backing the Life magazine article. Apparently on the same day, Garland gives the welcoming address to the secret MIT Lincoln Laboratory (Ruppelt calls it the Beacon Hill group) in Cambridge, Massachusetts, where he tells the assembled scientists to study ways USAF intelligence methodology can be revolutionized through the use of technology. (Later Garland sends Ruppelt, Col. Sanford H. Kirkland Jr. of ATIC, and Lt. Col. William A. Adams of AFOIN, to brief the Lincoln Lab scientists on UFOs on March 26 and in April 1952, respectively)

Event 2929 (991E9774)

Date: 1/29/1952
Description: On his trip to the Pentagon to brief Gen. William M. Garland, Ruppelt visits the AFOIN offices and discovers they have more complete files than ATIC in Dayton, Ohio, does. He arranges to have copies made of the missing files for him at Project Grudge (though multiple visits are required to obtain the copies and Ruppelt probably does not succeed in getting everything). The offices with UFO files include the Technical Capabilities Branch (TCB) of the Evaluation Division and the Collection Control Branch of the Collection Division.

Event 2933 (B89A3E24)

Date: 2/2/1952
Description: 7:35 p.m. Radar operators aboard the aircraft carrier USS Philippine Sea pick up an unidentified target off the east coast of Korea. It is first detected at a distance of 25 miles; when it closes to 20 miles, it makes a wide turn to the east directly away from the carrier, accelerating from 600 to 1,800 mph at 52,000 feet altitude. It splits into two targets 5–12 miles apart on a slightly zigzag course to the north. They disappear about 110 miles away. Observers on the carrier see three exhaust flames.

Event 2944 (B0B2B0CF)

Date: 2/22/1952
Description: The now-completed Site Able is renamed Manzano Base, New Mexico, and turned over to the operational control of the Air Force. What appear to be secure bunkers are visible to people (mostly military personnel) who go to a recreational camping area nearby known as Coyote Canyon. The military, however, never officially confirms the nature of the activities at Manzano Base [now part of Kirtland Air Force Base]. At one point, a military spokesman says that Manzano Base has nothing to do with Sandia Base. Manzano has since been identified as the first of six original National Stockpile Sites for nuclear weapons. The other original NSS installations similar to Manzano are: Site Baker at Killeen Base, adjacent to Gray AFB [now Robert Gray Army Airfield] at Fort Hood, Texas; Site Charlie at Campbell AFB [now Campbell Army Airfield] near Hopkinsville, Kentucky, and adjacent to Fort Campbell; Site Dog at Bossier Base, adjacent to Barksdale AFB near Bossier City, Louisiana; Lake Mead Base, adjacent to Nellis AFB, Nevada; and Medina Base, adjacent to Lackland AFB [now Joint Base San Antonio], Texas.

Event 2952 (02B428B1)

Date: 3/1952
Alternate date: 4/1952
Description: 5:00 a.m. Two women cryptographers in the US Naval Reserve stationed at the US Naval Training Center at Port Deposit, Maryland, are out taking a walk outside the base on a dirt road. They notice a red light off to one side above the trees. It starts moving toward them and stops about 100 feet above the road in front of them, about 300 feet away. The object is a 250-foot black disc with two large red lights at each side, an illuminated dome, and smaller lights along the rim. A hole opens in the bottom and phosphorescent white sparks drop toward the ground and disintegrate when they hit the road. The two reservists sprint the quarter-mile back to the base.

Event 2954 (2C60A824)

Date: 3/3/1952
Description: Robert Emmett Ginna Jr. of Life visits ATIC at Wright-Patterson AFB in Dayton, Ohio, to obtain material

for his UFO article. Walther Riedel, former German rocket scientist at Peenemünde, Germany, tells Ginna he has kept notes on UFO sightings from all over the world: "I am completely convinced that they have an out-of-world basis." He also meets with visits Air Force UFO spokesman Albert M. Chop. AMC claims it is investigating every serious UFO report, but it can't find the files he requests. Ginna becomes suspicious.

Event 2960 (244F35EF)

Date: 3/14/1952
Description: Evening. US Secretary of the Navy Dan A. Kimball is flying to Hawaii when he sees two discs moving at 1,500 mph. The UFOs circle his plane twice, then move on 50 miles east to another Navy plane carrying Adm. Arthur W. Radford. The UFOs circle Radford's plane then zoom up out of sight. Kimball sends a report to the Air Force, but hears nothing back, despite USAF demanding reports from all Navy witnesses. Kimball threatens to initiate Naval reports on UFOs through ONR to be kept separate from Blue Book. Keyhoe hears about this from both Kimball and Chief of ONR Adm. Calvin M. Bolster. The report is never made public.

Event 2961 (51725D29)

Date: 3/19/1952
Description: Ruppelt and other representatives of ATIC meet with the commander of the Air Defense Command, Gen. Benjamin W. Chidlaw, and Gen. Grandison Gardner and his staff in Colorado Springs, Colorado, on getting radar scope camera films as UFOs are being tracked. "They agreed with it in principle and suggested that I work out the details with the Director of Intelligence for the ADC, Brigadier Gen. Woodbury M. Burgess." Chidlaw promises to issue a directive to all units explaining procedures in UFO situations, including the scrambling of interceptors. This is issued, apparently in April. Burgess assigns Maj. Vernon L. Sadowski of his staff to be liaison to Project Grudge., and the Ground Observer Corps is brought into the UFO reporting net.

Event 2969 (DF87F962)

Date: 3/26/1952
Description: Five trials are conducted through April 21 by the US Army Chemical Corps under Operation Dew. The tests release zinc cadmium sulfide along a 100-to-150-nautical-mile line approximately 5–10 nautical miles off the coast of Georgia, North Carolina, and South Carolina. Two of the trials disperse clouds of zinc cadmium sulfide over large areas of all three states. The tests affect over 60,000 square miles of populated coastal region. The Dew I releases are from a Navy minesweeper, the USS Tercel. The conclusion is that long-range aerosol clouds can obtain hundreds of miles of travel and large-area coverage when disseminated from ground level under certain meteorological conditions.

Event 2975 (1A3E538D)

Date: 3/29/1952
Description: Two fiery discs are sighted over the uranium mines in the southern part of the Belgian Congo near Elisabethville [modern Lubumbashi, Democratic Republic of the Congo]. With a diameter of approximately 36– 45 feet, they travel in a precise and light manner, both vertically and horizontally. They emit hissing and buzzing sounds. Changes in elevation from 2,400 to 3,000 feet are accomplished in a few seconds. The discs often move down to within 60 feet of the treetops. A Commander Pierre of the Belgian Air Force sets out in pursuit in a fighter plane from the city airport. On his first approach he comes to within about 260 feet of one of the discs. Suddenly they hover in one spot then takes off in a unique zigzag flight to the northeast at an estimated speed of 930 mph. Pierre gives up his pursuit after about 15 minutes.

Event 2976 (79963B34)

Date: 3/29/1952

Description: 11:20 a.m. Near Misawa, Japan, USAF Lt. David Conant Brigham is flying a T-6 target plane on a practice intercept mission for two F-84s. The first F-84 overtakes him at 6,000 feet when the T-6 pilot notices a small disc gaining on the interceptor. The UFO curves toward the F-84, decelerates rapidly, then flips on edge in a 90° bank. It flies between the two aircraft, pulls away, flips again, passes the F-84, crosses in front, and accelerates out of sight in a near vertical climb. Both pilots notice the object, which comes within 30–50 feet of the T-6. The pilot estimates it is only 8 inches in diameter. There is a ripple around the edge.

Event 3008 (42A40E20)

Date: 4/12/1952
Description: North Bay, Ontario, Canada. At 9:30 p.m. Royal Canadian Air Force Warrant Officer E. H. Rossell and Flight Sgt. R. McRae sighted a round amber object that flew fast, stopped, reversed direction, and climbed away at a 30-degree angle during the two-minute observation. They said it with terrific speed, twice the speed of an F-86.

Source: BerlinerBBUnknowns

Event 3015 (A1BE8D23)

Date: 4/15/1952
Description: That evening in Gardena, California a set of unidentified nocturnal lights flew silently to the north slowly, pulsating at regular intervals. The bright white light had a red glow preceeding it and one behind. When the white light went off the red glows seemed to merge to form a semi-elliptical red glow. It abruptly changed direction in a zigzag maneuver.

Event 3017 (05CD27E8)

Date: 4/15/1952
Time: 7:40 PM

Description: Witness: Mr. Hayes, brother of Master Sergeant. Two faint objects observed flying fast along the horizon for 6-8 seconds, using 20x spotting telescope.
Type: ufo sighting
Reference: BlueBook Unknowns PDF
Location: Santa Cruz, California
Source ID: 94
Source: BerlinerBBUnknowns

Event 3018 (588C081B)

Date: 4/16/1952
Description: ADC becomes frantic about a possible Soviet attack. Air Force Intelligence warns Brig. Gen. Woodbury Burgess, at ADC Headquarters, Ent AFB [now the US Olympic Training Center] in Colorado Springs, Colorado, that a classified source (possibly an electronic intercept) has provided an "indication" of ominous Soviet military activity. With the simultaneous appearance of two waves of unidentified targets, there is no alternative. At 3:10 a.m., ADC Commander Gen. Frederic H. Smith Jr. orders America's first nationwide Air Defense Readiness alert.

Event 3019 (CE8904E6)

Date: 4/16/1952
Description: At 10:26 p.m. a U.S. Air Force captain and his neighbor in Shreveport, Louisiana saw a bright white object make a fast approach, reverse direction, then change shape from a flat circular object to a thin lens. It also changed color from pink to red. Its speed was estimated at 1285 mph, and showed a red exhaust tail after making its turn. It was ten times brighter than the brightest star.

Event 3038 (226D79C1)

Date: 4/18/1952
Description: 12:07 p.m. Detachment 21 of the 618th Aircraft and Warning Squadron, Japan Air Self-Defense Force, picks up a radar target over the Korea Strait north of Kyushu Island, Japan, moving at 2,700 mph.
Reference: Eberhart
Reference: NICAP, "Object Tracked at 2,700 MPH"; Sparks, p. 127
Source ID: 1779
Source: EberhartUFOI

Event 3039 (A3FAC07C)

Date: 4/19/1952
Description: At 2:30 p.m. a silvery cigar-shaped object flew over Brooklyn, New York. It had a light orange streak two-thirds of the way to the top of the object for its entire length. It flew into a cloud, causing a sparkling light to emanate from the cloud, and did not emerge. That night in Chestertown, Maryland a yellow-orange disc-shaped UFO that was self-luminous moved through the sky in a zigzag motion. It passed over the eastern horizon in two minutes, leaving a trail. At 10:30 p.m. 50 or more pale orange lights in a V formation were seen flying in the sky over Toronto, Ontario. They crossed 30 degrees of sky in seconds.

Event 3046 (E0ACE456)

Date: 4/21/1952
Description: A flying disc was sighted in Tuxedo, Manitoba at 8:26 p.m. Four minutes later several discs and cylindrical UFOs were sighted in Molson, Manitoba. The UFOs were changing colors quickly, and one object stopped in flight, reversed direction, and backtracked by shooting off toward the north. At 10:15 p.m. there were two separate sightings of nocturnal lights glowing green and white in Winnipeg, Manitoba. One of the lights made a ninety-degree turn and turned back in flight toward the south.

Event 3052 (32186097)

Date: 4/23/1952
Description: 10:45 a.m. Engineers Carl Hawk and Marvin Harvey are at Sandia Base, Albuquerque, New Mexico, when they look up to watch a jet fighter as it shoots to the north above the Sandia Mountains. They also notice a soundless, flat, rectangular, wing-like object streaking through the sky from east to west above Tijeras Canyon. The object is completely black except for a distinct, bright yellow "V" on its bottom. Two slight points extend from its rear corners.

Hawk estimates that it is passing overhead at 2,000 feet altitude at 200–400 mph and is roughly 60 feet wide by 20 feet long. They watch it for 10 seconds until it disappears in a cloud above downtown Albuquerque.

Event 3053 (04CEE4C1)

Date: 4/23/1952
Description: 9:30 a.m. R. C. Munroe, engineering standards section head for Raytheon Manufacturing Company, notices an object near an AT-6 Texan trainer aircraft above Lexington, Massachusetts. He estimates its altitude at 40,000 feet. It decelerates abruptly and goes into a flat turn. He writes, "It is inconceivable to me that any human being could have withstood the deceleration or acceleration displayed by this aircraft."

Event 3059 (0F12D629)

Date: 4/25/1952
Description: UFO sighted flying over San Jose, CA, near Mt. Hamilton by two scientists, Dr. W (biochemist; name withheld) and Dr. Y (bacteriologist, name also withheld). Description of hovering disk: at about 50 ft. it appeared to be 4 to 5 ft. in diam. The wobble of the disk allowed them to estimate it's thickness to be approx. 1.5ft. No sound or means of propulsion observed. Later they observed a higher flying silvery disc approx. 100 ft. in diam. Next to it more UFOs appeared and bobbed around like boats in a stream. The objects disappeared around 11:15 a.m. The two scientists decided not to report the incident to Moffett Field for fear of ridicule.
Type: ufo sighting

Event 3061 (D902F18A)

Date: 4/25/1952

Description: 11:00 a.m. A biochemist and a bacteriologist are driving to their office in San Jose, California, when they see a metallic-looking disc rotating around a vertical axis and wobbling. It is moving slowly over the office and is about 4–5 feet in diameter. It flies in a slow arc. Then they see a black object hovering at a high altitude under an overcast. This one is about 100 feet in diameter. Two identical objects come into view out of the clouds. The three objects "jittered about like boats in a stream." Then the small disc stops spinning, hovers, then shoots upwards, followed by one of the black objects. The remaining two objects linger another minute or so, then take off separately. The episode lasts 15 minutes. The biochemist calls Moffett Field in Santa Clara County, but hangs up before reporting the sighting, which they describe as a "most disturbing experience." The object "utilized some propulsion method not in the physics books."

Event 3062 (CA2D6516)

Date: 4/27/1952
Description: At 4:15 p.m. H. A. Freytag and three male relatives, including a minister, sighted a silver oval-shaped UFO that rolled across the sky in Roseville, Michigan. The UFO descended and stopped. Two silver cigar-shaped objects appeared, one departing to the east and one to the west. A third silver cigar-shaped object flew by at high speed. These sightings lasted for 45 minutes.

Event 3076 (A884B37C)

Date: 5/1952
Description: Army radar specialist Jay Nogle is stationed near Washington, D.C., when he picks up an unknown target on his M33 scope at an altitude of 18,000 feet about 130 miles from the capital (which would put it over eastern Pennsylvania). Two other Army units also detect the object, which remains stationary for 30 minutes before moving. By the time the object reaches the edge of the radar scope, it is traveling at 1,000 mph. The report goes all the way to the Pentagon, where orders are given to fire on it if it returns. Nogle says that radar targets are frequently seen in May or June, and units have their antiaircraft guns loaded after the first incident. When fighters are scrambled from McGuire AFB [now part of Joint Base McGuire-Dix-Lakehurst] in Burlington County, New Jersey, the targets move speedily out of range.

Event 3079 (C88EC7AC)

Date: 5/1/1952
Time: 10:50 AM
Description: Witnesses: three men on the arms range, plus one Lt. Colonel 4 miles away. Five flat-white discs about the diameter of a C-47's wingspan (95') flew fast, made a 90^ turn in a formation of three in front and two behind, and darted around, for 15-30 seconds.
Type: ufo sighting
Reference: BlueBook Unknowns PDF
Location: George AFB, California
Source ID: 111
Source: BerlinerBBUnknowns

Event 3080 (6231C345)

Date: 5/1/1952
Description: 10:50 a.m. At George AFB [now Southern California Logistics Airport] near Victorville, California, five independent witnesses in the base control tower see a group of five white discs moving in formation for about 30 seconds. The objects appear very maneuverable, seem to almost collide, then break away in a right-angle turn. They are traveling an estimated 900–1,200 mph and are 1,000–1,200 feet in diameter. Four miles away at Apple Valley, California, the base's wing director of personnel, playing on a golf course, sees one of the UFOs at the same time.

Event 3081 (884A392D)

Date: 5/1/1952
Description: 1:45 p.m. Albuquerque Journal composing room employee Eugene Cline sees four silvery objects seemingly playing tag with a formation of 12 Air Force bombers—either B-29s or B-50s—flying west over Albuquerque, New Mexico. The round objects are keeping up with the planes at the same altitude, moving in a "tumbling or pitching manner." One object shoots straight up and takes off in a southerly direction. About the same time, workmen (one of them Howard Burgess) erecting an antenna at nearby Sandia Base watch three UFOs pass directly overhead. One comes from the west and moves south; another comes from the north and moves south; and a third, tan-colored rather than silver like the others, passes low overhead and looks like a "cylinder tumbling end over end." Burgess and the others are debriefed and sworn to secrecy about what they have witnessed.

Event 3082 (4713F289)

Date: 5/1/1952
Description: 9:10 a.m. Air intelligence officer Maj. Rudolph Pestalozzi and an airman standing outside the Davis-Monthan AFB base hospital, Tucson, Arizona, watch two shiny, round objects overtake a B-36 flying above. The objects slow down to match the plane's speed and remain in formation with them for 20 seconds. Then they make a sharp, no-radius turn away from the B-36, moving away a bit. Then one of the objects stops and hovers. Both are silent, and the crew estimates they have a diameter of 20–25 feet and a thickness of 10–12 feet.

Event 3086 (0DCE0816)

Date: early 5/1952
Description: A meeting is held in the Pentagon office of Stefan Possony, acting chief of the Directorate of Intelligence Study Group under Maj. Gen. John A. Samford to hear Harvard University astronomer Donald Menzel express his views. Present are Possony, Capt. Edward J. Ruppelt, ATIC chief Col. Frank Dunn, Brig. Gen. William M. Garland, Possony's assistant Leslie Rosenzweig, and one other officer. Menzel announces that he has solved all UFO reports and claims to have helped out in the development of the cameras in Project Twinkle. His attitude irks everyone in the meeting. When he asks the Air Force to support his views in upcoming publications in Time and Look, Gen. Garland gets angry. Col. Dunn says that Blue Book would have put some money into more formal versions of his experiments, but he can only offer a statement that Menzel has told them of his theory. Now Menzel gets agitated, saying it is no theory. He refuses to leave them a copy of his book to pass on to Joseph Kaplan and J. Allen Hynek. In the evening, Possony speaks with astronomer Francis J. Heyden at Georgetown University, who tells him that Menzel's work is based on no more than a "couple of meaningless high school physics experiments."

Event 3094 (E037FBCF)

Date: 5/7/1952
Description: Five very clear photographs were taken on this day at 4:30 p.m. in Barra da Tijuca, Rio de Janeiro, Brazil. They show a disc-shaped object with a double protuberance on top. Its estimated size was 300 feet in diameter. An apparent discrepancy with some shadows was explained by the Brazilian UFO investigator, Dr. Olavo T. Fontes, as having been due to some broken leaves. The witnesses were named Keffel and Martins. The Brazilian Air Force conclusion on the photos is that the "object is several kilometers from the camera."

Event 3097 (EBFF5891)

Date: 5/7/1952
Description: 4:30 p.m. Magazine writer Ed Keffel, in the company of João Martins, takes five photographs of a UFO over Barra da Tijuca, Rio de Janeiro, Brazil. In the first, the UFO resembles an airplane coming directly toward them over a large group of trees. The second shows the object as disc-shaped. The third photo is taken as the object tilts slightly, showing both the top with a slight dome and the now obvious disc shape. More trees, including a very tall palm, can be seen in the photograph. The fourth picture, taken as the object tilts the other way, shows a raised ring on the bottom. The final picture is taken as the object is nearly vertical, seen over part of the ocean and some distant hills. The UFO disappears shortly afterward. NICAP does not see any negatives and is skeptical. The Colorado project finds a "glaring internal inconsistency" in the illumination and dismisses the photos as hoaxes. Today, the best evidence seems to suggest the case is a hoax, perpetrated by two magazine writers who wanted an interesting story.

Event 3100 (9569F24A)

Date: 5/8/1952
Description: 2:27 a.m. Pan American Airways pilot Clayton C. Gallagher and his copilot, flying a Lockheed Constellation aircraft at 8,000 feet en route from San Juan, Puerto Rico, to New York, see a light, 10 times the size of an airplane landing light, approach them over the Atlantic Ocean east of South Carolina. It streaks past their left wing about a quarter mile away, followed by two smaller orange balls of fire. Probable meteor.

Event 3103 (12EE35D8)

Date: 5/9/1952
Description: Two F-86 pilots saw a round, silver object flying north from George AFB, California at 10:20 a.m. A Project Blue Book "unknown." At 12:30 two more UFOs were seen moving with the current or breeze at a slow speed. They were silver metallic in color, with a dark spot in the center, and at certain angles gave off a glare.

Event 3104 (A492C427)

Date: 5/10/1952
Description: At 11:40 p.m. four yellow disc-shaped objects approached the Savannah River AEC nuclear facility near Ellenton, South Carolina from the south at a very low altitude. They flew straight and level for a short period of time, but they had to rise to pass over tall tanks on the ground. They made no sound, and weaved left to right as they flew. Four DuPont workers were the witnesses.

Event 3105 (6277B395)

Date: 5/10/1952
Description: RESTRICTED USAF Intelligence Report signed by Col. William L. Travis, Chief USAF Intelligence Division. stating: at 2030 hours, in the city of Paphos, S.W. Cypress, a group of persons including a noted British Scientist sighted an UFO which appeared to rise sharply from the level of the sea and disappeared into the sky. It was of a circular shape and emitted a luminous light. It appeared to waver back and forth before fading out of sight directly overhead.
Type: ufo sighting

Event 3106 (370D280A)

Date: 5/10/1952
Description: 10:45 p.m. Four employees of DuPont Corporation at the AEC's Savannah River Laboratory near Jackson, South Carolina, see four disc-shaped objects approach, then two other discs pass high overhead from different directions. They are a luminous yellow-gold color and move at a high rate of speed. One of the discs approaches at such a low altitude that it must ascend to pass over some tall tanks at the facility. One witness says that the objects are weaving from left to right while continuing on a steady course. The case is investigated by the FBI and passed on to the Pentagon and the Atomic Energy Commission.

Event 3108 (C45B8FA1)

Date: 5/10/1952
Description: 3:00 p.m. USAF Lt. Col. Maurice G. Bechtel and his wife are in the yard of their home in Albuquerque, New Mexico, when they see two silvery disc-shaped objects flying straight and level, one after the other, moving southwest to northeast at above 20,000 feet. The first object seems to waver on its axis, the second object follows a similar path but at a higher altitude. The first object is the size of a B-36 at high altitude. Bechtel alerts the radar station but it is unable to track the objects.

Event 3109 (DCADF4DD)

Date: 5/10/1952
Time: 10:45 PM
Description: Witnesses: 4 duPont employees at the Savannah River nuclear plant. Up to four yellow, disc-shaped objects were seen on five occasions between 10:45 and shortly after 11:15.
Type: ufo sighting
Reference: BlueBook Unknowns PDF
Location: Ellenton, South Carolina
Source ID: 115
Source: BerlinerBBUnknowns

Event 3110 (5EA64838)

Date: 5/12/1952
Description: A restricted military document shows that a UFO was sighted at 2145 hours UST 40 miles west of Roswell, New Mexico. The object was blue-green in color and its estimated altitude was 30,000-40,000 feet. The object traveled three times over approximately the same triangular course. The rate of speed could not be estimated precisely, but was faster than a jet aircraft. The intensity of its color brightness varied with the object's altitude

Event 3111 (72706D1F)

Date: 5/12/1952
Description: "Blue Flash" phenomenon reported over Seattle on front page of NY Times, reported as possible meteor but meteorologists were not convinced as it did not follow the usual patterns
Type: anomalous phenomenon
Reference: Dr. Leon Davidson

Reference: NY Times
Location: Seattle, WA
Source: Maj2

Event 3112 (6A500D29)

Date: 5/12/1952
Description: 8:45 p.m. A UFO is seen by Walker AFB T/Sgt. Raymond Bare in a car in downtown Roswell, New Mexico. The object is blue-green in color, and its estimated altitude above the terrain is 20,000–30,000 feet. It appears to be about 40–50 miles distant over some low mountains east of Ruidosa. The object travels three times over approximately the same south-to-north / east-to-west, swaying, triangular course. Rate of speed cannot be precisely estimated but is faster than that of jet aircraft. Intensity of color brightness varies with the object's altitude. The Air Force explains it as the planet Venus, but Venus is on the other side of the earth at the time.

Event 3115 (07B8EABD)

Date: 5/13/1952
Description: At 3:15 a.m PST an F9F pilot taking off from El Centro Naval Air Station, California saw what appeared to be a shooting star diving at an angle of 60 degrees. At around the same time the El Centro's Sheriff's Office received reports of five "flying saucers" as large as B-36's with a light underneath. They disappeared to the southwest at terrific speed. All together there were four separate reports of UFOs in the El Centro area on this date.

Event 3122 (CA5C4062)

Date: 5/15/1952
Description: An U.S.A.F. F-51 aircraft flying over North Korea watched an unidentified object following a jet interceptor at 6:35 p.m. The object was subsequently in front of the F-51, with a positive radar lock-on. At 6,000 yards distance the object pulled away with an acceleration of 20 G's. At 8:00 p.m. a silvery oval object was seen below two F-86E jets flying south of Changson-Ni, North Korea at 8,000-10,000 altitude. The object was estimated to be 20 miles away, and travelled at a speed of 1,200 -1,500 mph in a "rolling maneuver."

Source: BerlinerBBUnknowns

Event 3126 (35DB39D7)

Date: 5/23/1952
Description: After 11:00 p.m. Lockheed worker Orfeo Angelucci is driving home on Victory Boulevard from his job in Burbank, California, when he senses a force and sees a red, glowing UFO. After a while he begins to follow it, and after he crosses the Los Angeles River and turns onto Forest Lawn Drive, he gets to within 30 feet of it when it hovers. Just before it streaks away, two smaller green globes, 3 feet in diameter, shoot out of it and approach him. He hears a voice saying, "Don't be afraid, Orfeo, we are friends." This begins his contact with benevolent beings from other planets.

Event 3127 (673E6B31)

Date: late 5/1952
Description: 1:00–3:00 a.m. Royal Canadian Navy Commander George R. McFarlane is officer of the watch on the Canadian warship HMCS Iroquois in the Pacific Ocean between Hawaii and Guam en route to Korea. He sees many different lights, some single, others in formations of 3, 5, or 6, appearing and disappearing instantly. Suddenly one of the objects appears off the port bow at close range and low elevation. McFarlane and the signalman on watch see that the light is attached to a disc-shaped object with two dozen black windows running along its side. It hovers nearby for at least 15 minutes.

Event 3134 (BC0955DF)

Date: 5/28/1952
End date: 5/29/1952
Description: During a night refueling mission at 8:10 p.m., the crews of five USAF B-29 bombers see green spherical objects. The primary sighting takes place near Albuquerque, New Mexico, and involves three B-29s flying at 15,000 feet. Another sighting takes place around 11:30 p.m. about 10 miles southwest of Tulsa, Oklahoma. That crew is flying at 25,000 feet. Three hours later the final sighting takes place near Enid, Oklahoma, also with a B- 29 at 25,000 feet. The aircrews making these reports do not think the objects are meteorites.

Event 3138 (0253CFB1)

Date: 5/29/1952
Description: Gulf of Mexico near the Florida Keys – At approximately 1700 hours two eliptically shaped objects, larger than a fighter aircraft, were observed from the USN aircraft carrier Oriskany CV-34. One observer watched the objects through a telescope, while the radar officer viewed the objects on the radar scope. The objects had a bubble dome on the top. Each object flew at an estimated altitude of between 10,000 and 15,000 feet at a supersonic speed and left a white vapor trail. The objects' course paralleled that of the carrier. The duration of the sighting was from 15 to 20 seconds.

Event 3144 (BDB35F72)

Date: 5/31/1952
Description: 9:30 p.m. Mr. R. Baits is on the beach at Derna, Libya, with three companions when he notices a soft orange- yellow light traveling soundlessly toward them from inland at great speed and in a straight line. Suddenly, as it reaches a point overhead, it swerves to the east over the town, gaining height. After a few seconds it moves to the south and begins zigzagging until it fades away into the background of stars.

Event 3145 (C96868CB)

Date: 6/1952
Description: Jet pilots allegedly discover the wreck of a flying disc on Spitsbergen in the Svalbard archipelago, Norway. It is taken to Narvik, where it is identified as either a Russian or extraterrestrial device. Other variants of the legend claim it is a Nazi device or that it is actually discovered on Heligoland, Germany, in the North Sea. Nick Redfern suspects the story is planted by either Soviet or US intelligence.

Event 3147 (BDF39FA7)

Date: 6/1952
Description: Sunset. In Tombstone, Arizona, Navy Lieut. Cmdr. John C. Williams, his wife Josephine, and a guest see a "huge circular object" flying toward them from the direction of Tucson. Suddenly it stops in mid-flight, hovers, then reverses direction and retraces its course. A few seconds later it returns, stops gain, and appears to oscillate and tilt from one side to the other. Again it reverses its course, repeating everything 2–3 more times.

Event 3150 (D872EE1B)

Date: 6/1952
Description: In the wake of mass public and governmental interest in UFOs kindled by the provocative Life magazine article, CIA intelligence experts Sidney N. Graybeal (Chief, Guided Missiles Branch, Weapons and Equipment Division, Office of Scientific Intelligence) and Irl D'Arcy Brent (Chief, Ground Branch, W&E Division, OSI) prepare a summary of the UFO subject for the CIA/OSI hierarchy based on the past several years of OSI intelligence (and OSI predecessor documents going back to ghost rockets of 1946) and mentioning sightings going back to the Bible. The possibility of swamp gas in Michigan as an explanation for UFOs is suggested by Brent (foreshadowing the Hynek swamp-gas fiasco in Michigan in 1966). This report has never been acknowledged or released by the CIA despite FOIA litigation. Its existence and contents are revealed in Brad Sparks's interviews with Brent and Graybeal and other OSI officials in 1975–1976.

Event 3155 (A9F83968)

Date: 6/1/1952
Description: Morning. The chief of a radar test section for Hughes Aircraft Company tracks an unidentified target coming across the San Gabriel Mountains north of Los Angeles, California. It is moving at 180 mph toward Santa Monica at an altitude of 11,000 feet. The object suddenly triples its speed to 550 mph, turns, and climbs over Los

Angeles at 35,000 feet per minute. The target then levels out for a few seconds, goes into a high-speed dive, and levels out again at 55,000 feet. They lose the blip somewhere near Riverside.

Event 3169 (405A318C)

Date: 6/5/1952
Description: On this evening in 1952 three cases occurred that were listed by the Air Force Project Blue Book as "unknowns." At 6:15 p.m. in Albuquerque, New Mexico a shiny disc was reported moving through the sky by a military witness. Its speed was estimated as 5-6 times faster than a F-86 jet and was seen for six seconds. At Offutt Air Force Base in Nebraska three security guards saw a large red nocturnal light hover 1000 feet over the main gate to the Strategic Air Command's major airbase at 11:00 p.m. At the same time, eight star-like objects were seen flying over

Lubbock, Texas. The first two lights flew over in a trailing formation and the others followed singly.

Event 3199 (66D90AFB)

Date: 6/15/1952
Description: 4:20 p.m. A round shiny object is seen over Gordonsville, Virginia. At 4:25 p.m., the crew of a commercial airliner reports a silver sphere over Richmond, Virginia. At 4:33 p.m., a Marine fighter jet is scrambled from Marine Corps Base Quantico in Prince William County, Virginia, and attempts to intercept a target south of Gordonsville but fails and returns to base. At 5:43 p.m., an Air Force fighter attempts to intercept the same shiny sphere but after reaching 35,000 feet turns back. At 7:35 p.m., a UFO emitting a golden glow is seen over Blackstone, Virginia. Fighter jets from Langley AFB in Hampton, Virginia, are scrambled, but the object is gone by the time they get there at 8:05 p.m.

Event 3206 (E1AC46BB)

Date: 6/17/1952
Description: Two cases from Project Blue Book's list of unexplained reports occurred on this day in 1952. On Cape Cod, Massachusetts, a bright light crossed the sky in front of a USAF F-94 fighter plane at 1:28 a.m. local time. The light was observed for 15 seconds. Later that evening at McChord AFB outside of Tacoma, Washington many military observers tracked 5-6 discs with a theodolite as USAF F-94 jets pursued them.

Event 3218 (1D32796A)

Date: 6/19/1952
Time: 2:37 AM
Description: Witness: 2nd Lt. A'Gostino and unidentified radar operator. One red light turned white while wobbling. Radar tracked a stationary target during the 1 minute sighting.
Type: ufo sighting
Reference: BlueBook Unknowns PDF
Location: Goose Bay, Labrador, Canada
Source ID: 143
Source: BerlinerBBUnknowns

Event 3219 (F0836A3E)

Date: 6/19/1952
Description: 2:37 a.m. At Goose Bay AFB [now CFB Goose Bay], Labrador, radar men pick up a UFO track. 2nd Lt. A'Gostino and others outside see a strange, red-lighted object come in over the field. The radar blip suddenly enlarges, as if the device has banked, exposing a larger surface to the radar beam. The watching airmen see the red light wobble or flutter. After a moment the light turns white and quickly disappears. Apparently, the unknown craft has gone into a steep climb. Keyhoe assumes the radar and visual sightings are simultaneous, but Blue Book records indicate they are separate.

Event 3231 (268605E2)

Date: summer 1952
Description: Mrs. Rogers saw an object descend slowly and pass across a pasture at 7 m altitude. She stopped her car and observed it was “wobbling” in mid-air, was shaped like a turtle, and showed three oarlike protrusions that moved slowly. Estimated dimensions: 5 by 4 m, 1 m thick. It was greenish-gray in color, emitted a blue flame, but showed no other light.
Type: ufo sighting
Reference: Barker 78 (Vallee)
Location: Martin County, Texas
Source ID: 91
Source: ValléeMagnonia

Event 3232 (DEB8728F)

Date: Summer 1952
Description: While Operation INTERCEPT was in effect, two North American F-86 Operation INTERCEPT Sabre fighters were vectored onto a target UFO. The pilots had a broad daylight view of the UFO and fired tracer bullets at it before it accelerated out of range. The officer who fired the bullets was debriefed by his Colonel (name withheld) and

the base commander told Capt. Ruppelt to destroy the report (according to Ruppelt himself).

Event 3234 (C323BD31)

Date: 6/22/1952
Description: Near the Korean front in 1952, two sergeants sighted an orange disc four feet in diameter just above an airstrip. It dove vertically, emitting a red flame 2-5 feet long as it did so, and stopped momentarily 100 feet over the end of the runway. The object then flew to the west, circled back taking about 45 to 60 seconds to execute the 180-degree turn, flashed, the flew on to the east. A second bright flash was seen followed by complete darkness: the disc had vanished. No sound was heard coming from the object. The case was unexplained by Project Blue Book.

Event 3251 (395D2F51)

Date: 6/23/1952
Description: In Owensboro, Kentucky at 10:00 a.m. National Guard Lt. Col. O. L. Depp and another man heard a sound like an airplane and witnessed two objects looking like "giant soap bubbles", reflecting yellow and lavender colors. They flew one behind the other for five seconds, then vanished from view.

Event 3254 (F66EC0CE)

Date: 6/25/1952
Description: At 20:23 p.m. over Suwon, Korea a silver coin-shaped object was seen spinning in a counterclockwise direction. The edges of the disc were dark blue, with its diameter seven times larger than its thickness. It changed course, paused, then rose vertically straight up. A bright yellow-white egg-shaped light flew at a slightly higher elevation than the planet Venus over Chicago, Illinois. Occasionally had a red tail light visible. It made a large continuous circle in the night sky at a slow speed. Project Blue Book "unidentified" case.

Event 3275 (D765C808)

Date: 6/29/1952
Description: At 9:05 p.m. EDT a BOAC airliner with 22 witnesses aboard tracked a group of at least seven objects for 18 minutes over Canada, first encountering the objects around Sept-Iles in Quebec. The objects were seen flying in and out of broken cloud cover. There were six small ovals and a larger dark object, which was continually changing shape. It was described as changing shape "like a swarm of bees might do." The six smaller orbs were "strung out in a line." The explanation provided by the US Air Force, that they were witnessing Mars, was impossible at the time.

Description: Pilots Nash and Fortenberry see 6 discs.
Type: ufo sightings
Reference: Keziah Poster
Source: Maj2

Event 3281 (954B79BB)

Date: 7/1952
Description: The administration and faculty of Ohio Northern University, in Ada, Ohio, announce the formation of Project A: Investigation of Phenomena, saying that members of the engineering, pharmacy, law, and liberal arts colleges will examine the evidence for UFOs under the direction of Dean Warren L. Hickman. Project A personnel seek reports from the public and collect newspaper clippings. The project receives a disappointing 54 completed questionnaires, far lower than the 200 they would like for a scientific sampling. However, they do estimate that about 20% involve "unnatural phenomena." After unsuccessful attempts to obtain reports from Civilian Saucer Investigation in Los Angeles and other groups, the university closes the project down in mid-1954.

Event 3282 (F35CF5A8)

Date: 7/1/1952
Description: 7:25 a.m. A Ground Observer Corps spotter sees a UFO headed southwest across Boston, Massachusetts. Two F-94s are scrambled. Erwin W. Nelson and his wife at Lynn, Massachusetts, notice two vapor trails from the climbing jets, look around, and see in the west a bright silver "cigar shaped object about six times as long as it was wide" heading over Boston at a very high altitude. An identical UFO is following the first some distance back. No vapor trails are visible. The witnesses watch the F-94s search back and forth far below the UFOs. At 7:30, USAF Capt. Robert E. Metcalf, petroleum officer for the 6520th Test Support Wing, and USAF air policemen M/Sgt James Stiner and M/Sgt Joseph R. Bosh, 6520th Air Police Squadron, at Hanscom Field, Bedford, Massachusetts, see the two jets, look for what they are intercepting, and see to the east a 100-foot-long silvery ellipse "fatter than a cigar" traveling southwest. At two points, the object seems to hover, then continues at about 40,000 feet. The object's path intersects contrails of the two jets heading southeast. Metcalf loses sight of the object on his way to the tower after a few minutes, then sees it again at about 7:40 a.m., noting it has increased distance "considerably," but finally loses sight of it at the tower.

Event 3284 (BAF5E485)

Date: 7/1/1952
Description: Lynn, Massachusetts - At about 7:25 in the morning two F-94's were scrambled to intercept a UFO that a Ground Observer Corps spotter reported was travelling southwest across Boston. Radar couldn't pick it up so the jets were vectored into the general area. At 7:30 a.m. a man and his wife in Lynn noticed the two vapor trails from the F-94 interceptors and looked around the sky to see if they could spot what the jets were after. They saw a bright silver cigar-shaped object "about six times as long as it was wide" moving southwest. As they watched they saw an identical UFO was following the first one some distance back. Both were moving just a little faster than the two jets. The UFOs appeared to be at a very high altitude, and the couple watched as the two F-94's searched back and forth far below the UFOs. The Air Force lists the explanation of the objects as probable balloons.

Event 3285 (692BE83B)

Date: 7/1/1952
Description: 8:40–9:15 a.m. Two silvery objects move south along the East Coast and hover near Fort Monmouth, New

Jersey, for about 5 minutes at 50,000 feet. As radar at Fort Monmouth detects the objects, they put on a burst of speed and head southwest toward Washington, D.C., confirmed visually. At about 12:00 noon, a physics professor at George Washington University in D.C. sees a grayish UFO hovering and arcing back and forth across the sky for about 8 minutes. He guesses about 500 people are watching the object.

Event 3286 (D4D8538E)

Date: 7/2/1952
Description: 11:10 a.m. As he is driving on a highway seven miles north of Tremonton, Utah, US Navy Chief Petty Officer Delbert C. Newhouse and his wife see a strange object in the sky. Newhouse pulls the car to the side of the road, gets out, and watches 12–14 UFOs at about 10,000 feet. Looking like "two pie pans, one inverted on top of the other," they are clustered in a loose formation, "milling around." He takes about 75 seconds worth of film through the telephoto lens of his 16mm movie camera, though the objects have receded a bit to shiny points of light. At one point a single object leaves the pack, heading east, and Newhouse holds the camera still so the UFO crosses the field of view. He repeats the procedure 3-4 times. Blue Book obtains the film and sends it to the USAF Photo- Reconnaissance Laboratory and the Navy's Photo Interpretation Laboratory. Both analyses eliminate the possibility of aircraft or birds.

Event 3304 (8E65BD5B)

Date: 7/9/1952
Description: 12:45 p.m. USAF Maj. Claude K. Griffin is driving one mile north of Colorado Springs, Colorado, when he sees a luminous white object shaped like an airfoil moving slowly and erratically like a corkscrew. He estimates its size at 100 feet, distance at 15–20 miles, and altitude at 30,000 feet, heading northwest. Griffin stops the car to watch for 12 minutes. USAF Maj. E. R. Hayden and his wife come out of their house and look at the object in a 4x rifle scope. He describes it as rectangular, silver on one side, and black on the other. It flutters as it moves slowly north-northwest above 20,000 feet 20 miles away. It gains altitude and gradually diminishes to a black dot, then accelerates to a high speed and disappears.

Event 3308 (9DE801CE)

Date: 7/10/1952
Description: 8:18 p.m. Capt. James E. Lundy and First Officer Leon Blanks are flying a National Airlines C-60 airplane 15 miles south of Quantico, Virginia, when they see an object resembling an aircraft landing light. The object becomes brighter as it approaches from the north. It then performs a climbing turn away from the aircraft and its appearance changes, resembling a light emitted by a red flare. Visible for 10 minutes, it is flying too fast for any known aircraft.

Event 3309 (727EBAB7)

Date: 7/11/1952
Description: Oscar Linke, former Wehrmacht major, and his daughter Gabrielle, 11, had to leave their motorcycle when they had a flat tire. Inside the woods the girl noticed two men in silvery suits examining the ground in a clearing near a pink disk-shaped object, 8 m in diameter, showing a double row of openings around the rim and a black turret on top. One of the men had a flashing box. Both men went inside, and the disk vibrated, rose along the turretlike cylinder, then spun faster and rose out of sight.

Event 3313 (20FD5E8D)

Date: 7/12/1952
Description: 8:42 p.m. O'Hare AFB weather observer Capt. W. J. Shea and a civilian, Jane Morrison, watch three lights, one main red light with smaller white lights on each side, traveling 500 mph at 40,000–50,000 feet over Montrose Beach, Chicago, Illinois, from the west-northwest. They accelerate to the south and make a 180° turn heading north-northwest, then disappear. The UFO is seen by 400+ people, with 14 others making reports to the 4706th Defense Wing located at O'Hare Airport.

Event 3314 (2AA6695D)

Date: 7/12/1952
Description: 9:04 p.m. Two USAF F-86 Sabre jets with the 62nd Flight Squadron are flying at 22,000 feet on a routine training mission (or on a scramble mission) over Arlington Heights, Illinois. Capt. Robert W. Casey Jr., after coming out of a right turn, sees an oblong yellowish lighted object with an exhaust moving in a straight course about 15 miles away south of Elgin, Illinois, at 22,000 feet traveling at 800 mph. The F-86 pursues at maximum speed, but the object pulls away. Both pilots hear a strange radio transmission on their restricted communications channel during the pursuit saying the name of the pursuit pilot, Casey, in an ethereal "ghost-like" monotone. Apparently, this is a prank by Casey's fighter pilot buddies at the 62nd who are monitoring his channel, though this is later officially denied by the 62nd.

Event 3315 (BF1DF1F8)

Date: 7/12/1952
Description: At 3:30 p.m. four elliptical-shaped objects, one-third the size of a transport plane, flew four abreast in formation at a high rate of speed over Annapolis, Maryland. They stopped in mid-air, executed a 90-degree turn, then accelerated and vanished in mid-air. At 9:00 p.m. an object the size of a B-36 bomber was picked up on radar flying over Kirksville Air Force Base, Missouri at a speed of 1,700 mph.

Event 3318 (07D230EB)

Date: 7/14/1952
Description: 9:12 p.m. Some 8,000 feet above the Chesapeake Bay in Maryland/Virginia, Capt. William B. Nash and copilot First Officer William H. Fortenberry, flying a Pan American Airways DC-4, see six crimson dots at 30°. The dots are streaking in their direction like tracer bullets. As they get closer, they resolve into reddish-orange circles, about 100 feet in diameter and 15 feet thick, with sharply defined edges. Nash says they are holding a "narrow echelon formation." When they are nearly underneath the aircraft, "they flipped on edge, the sides to the left of us going up and the glowing surfaces facing right. While all were in the edgewise position, the last five slid over and past the leader so that the echelon was now tail foremost." Then they all flip over again into a flat attitude. Two new, brighter UFOs join the formation, and the lights of all eight objects blink out then come on again. They all speed westward (Nash estimates 6,000–12,000 mph) and climb in a graceful 45° arc. The entire sighting lasts only 15 seconds. Possible corroboration comes from a sighting in Camden, New Jersey, although the date is uncertain.

Event 3322 (F1307425)

Date: 7/14/1952
Description: At 7:40 p.m. a group of three engineers in Hillandale, Alabama watched a round glowing object descend to the north, then make an instant reversal in direction and head south. At 8:00 p.m. a famous sighting occurred over Chesapeake Bay near Norfolk, Virginia by two pilots named Nash and Fortenberry. The men were flying a DC-4 aircraft for Pan American Airways when they sighted six luminous reddish-orange disc-shaped objects that were joined by two brighter discs. They were each estimated to be 100 feet in diameter, and they suddenly flipped on edge, revealing a flat, coin-like shape. They made a sharp turn, blinked off and on in unison, and then flew off in formation as the disappeared in the distance.

Event 3327 (7070CB02)

Date: mid 7/1952
Description: Ruppelt says that rumors persist that the Air Force is braced for an expected invasion by UFOs. "Had these rumormongers been at ATIC in mid-July they would have thought that the invasion was in full swing." He talks to a scientist "from an agency that I can't name" about the build-up of UFO reports. From his study of reports, the scientist predicts that "within the next few days they're going to blow up and you're going to have the granddaddy of all UFO sightings. The sighting will occur in Washington or New York, probably Washington." Brad Sparks identifies the scientist as Stefan T. Possony, acting chief of the AFOIN Special Study Group and adviser to Gen. John A. Samford.

Event 3330 (82C504D1)

Date: 7/16/1952
Description: 9:35 a.m. US Coast Guard photographer Seaman Shell R. Alpert sees several bright lights through a window screen (no glass) from his position inside the photo lab at Coast Guard Air Station Salem [now Winter Island Marine Park], Massachusetts, while cleaning a camera. He watches them for 5–6 seconds, calls out to Hospitalman 1st Class Thomas E. Flaherty from sick bay to see them. The objects dim then brighten suddenly. Alpert grabs a camera and films 4 roughly elliptical irregular blobs of light in formation through the screen, on Super XX cut film 4-by-5-inch format. The lights disappear suddenly in a flash. The photo is explained as showing reflections of light sources from inside the building, but this ignores the fact that the window is open, and the camera is not pointed through glass.

Event 3331 (DEBBCA58)

Date: 7/16/1952
Description: 9:00 p.m. Paul R. Hill, an aeronautical research engineer, is watching the sky with his future wife, Frances Hoback, on Chesapeake Avenue (near LaSalle Avenue) in Hampton, Virginia, when he notices two amber- colored lights coming in over Hampton Roads from the south at 500 mph. They slow down and make a U turn, moving side by side until they revolve around each other at a high rate of speed in a tight circle 200–300 feet in diameter. A third UFO comes racing up from the direction of Virginia Beach and falls in several hundred feet below the other two, making a V formation. A fourth UFO comes in from up the James River and joins the group, which heads south at 500 mph. “Their ability to make tight circling turns was amazing.” Around 9:03 p.m., the four UFOs have moved out of sight to the south.

Event 3346 (9E140557)

Date: 7/18/1952
Description: Early morning. American Airlines pilot Capt. Paul L. Carpenter, First Officer George Fell, and Flight Engineer Quilici watch several dull-red objects with a "yellowish tinge" speeding around in the air at an altitude of 25,000– 30,000 feet near Denver, Colorado, during a non-stop flight from Los Angeles to Chicago. A maximum of three objects are seen at one time over a 2-minute period. Carpenter says they seem to be about 100 miles away. The first object is moving south by southeast. One minute after it disappears, two more come into view going westward and another one eastward. "The two traveling westward disappeared about two seconds then reappeared traveling eastward."

Event 3361 (801B7093)

Date: 7/19/1952
Description: Washington, D.C.: Long range "overfly" RADAR picked up a formation of seven blips that were 15 miles south and not far from Andrews AFB. Radar operator, Ed Nugent, thought that they were military traffic until two of the targets suddenly accelerated at fantastic speeds and disappeared off the radar scope. These strange UFOs were monitored by Harry Barnes, Senior Controller, and controllers Howard Cocklin and Joe Zacko. Also, Andrews AFB had also been tracking the UFOs as they intruded over the White House which was Washington Air Space restricted air space. The UFOs were traveling at speeds of up to 7000 mph before stopping abruptly and then cruising about in unconventional patterns.

Source: Maj2

Event 3371 (D4482E7E)

Date: 7/19/1952
End date: 7/20/1952
Description: 11:40 p.m. Air traffic controller Edward Nugent at Washington National [now Ronald Reagan National] Airport's Air Route Traffic Control (ARTC) in D.C. picks up a formation of seven objects on his long-range radar. They are southeast of Andrews AFB [now Joint Base Andrews] in Prince George's County, Maryland, moving along at 100–130 mph. Two of the targets suddenly accelerate and vanish off the scope within seconds. One apparently reaches a speed of 7,000 mph. A second, shorter-range radar in the airport control tower (operated by Howard Cocklin and Joseph Zacko Jr.) and another at Andrews AFB has also tracked the objects. For 6 hours, between 8 and 10 UFOs are tracked on radar. Senior Air Traffic Controller Harry G. Barnes says that "They followed no set course, were not in any formation, and we only seemed to be able to track them for about three miles at a time…. I can safely deduce that they performed gyrations which no known aircraft could perform." Several Capitol Airlines pilots (one of them Capt. S. C. "Casey" Pierman) see the objects visually as white or orange lights in restricted air space over the White House and Capitol. Ground observers at Andrews (Capt. Harold C. May, Staff/Sgt Charles Davenport) watch red or orange lights.

Radar and visual sightings are also taking place at Bolling AFB [now Joint Base Anaconda-Bolling] in Washington, D.C. By 3:00 a.m., the UFOs are all gone, just as two F-94 interceptors arrive belatedly from New Castle AFB [now New Castle Air National Guard Base] in Delaware. The jets depart, and the UFOs return, observed by Capt. Howard Dermott, a Capitol Airlines pilot, and Sgt. Davenport at Andrews. Radar trackings continue, the last at 5:30 a.m. Civilian radio engineer E. W. Chambers sees five huge discs circling in a loose formation; they tilt upward and leave in a steep ascent. Blips appear on radar for at least another day, until the evening of July 20.

Event 3380 (5080DE8C)

Date: 7/21/1952
Description: 10:30 a.m. Radar used to measure wind velocity in the upper atmosphere at Dobbins Air Force Base, Marietta, Georgia, detects an unusual object flying at 50,000 feet. Observing the blip are four radar technicians who state that "it could have been an electromagnetic phenomenon but they did not believe it was." A second blip appears on the radar moving toward the wind-finding weather balloon and passing through it three separate times. USAF officials report "in private conversations" that the object moves at 1,200 mph, slows considerably for 3–5 minutes, then disappears. The Civilian Defense director in Atlanta, George M. "Pup" Phillips, receives a report of the object but has "no details." Col. Murray C. Woodbury, commander of the 35th Air Division at Dobbins, checks with "defense officials in Washington" before telling the press that such reports are sent to the Air Technical Intelligence Center (Project Blue Book) in Dayton, Ohio, for evaluation. Surprisingly, he admits, "We try to intercept such objects and identify them, but so far we have been unsuccessful."

Event 3390 (AF5858E0)

Date: 7/21/1952
Time: 8:10 PM
Description: Witnesses: one military officer, two enlisted men. One aluminum, delta-shaped object with a vertical fin, flew straight and level, and then hovered during a 3 minute sighting.
Type: ufo sighting
Reference: BlueBook Unknowns PDF
Location: Rockville, Indiana
Source ID: 185

Event 3391 (C7FD3D25)

Date: 7/22/1952
End date: 7/23/1952
Description: 10:50 p.m. Crews of several USAF F-94 jet interceptors from Dover AFB, Delaware, make 13 visual sightings and one radar tracking of blue-white lights around Trenton, New Jersey, continuing until 12:45 a.m. White, green, and blue lights are seen by ground observers and F-94 pilots moving in arcs and blinking out suddenly. One F-94 crew gets a radar lock-on from 30,000 feet away of an object the size of an F-94. At 9,000 feet distance, the object makes a sharp right turn, suddenly drops in height, and disappears.

Event 3392 (936D4679)

Date: 7/22/1952
End date: 7/23/1952
Description: 10:30 p.m. An air traffic control tower operator at MacDill AFB in Tampa, Florida, watches for 30 minutes a red-greenish-blue object to the west-southwest at about 45° elevation with 2 other objects to the north of it, smaller and lower in elevation. He sights another object to the south-southeast about 30° elevation at 11:30 p.m. MacDill radar tracks an object at 12:03 a.m. 37 miles away at 41,200 feet altitude heading almost directly toward the base at 532 mph. It also tracks an object to the south-southeast at an altitude of 41,000 feet (reportedly Navy and CAA radars also track the object). At 12:08 a.m., the pilot and copilot of a B-29 bomber on landing approach are vectored by MacDill tower operator to investigate the UFO. They see a high-speed object at 40,000 feet heading towards MacDill and traveling faster than the B-29. The B-29 fire control radar locks onto the object and prepares to fire just as the UFO changes course and disappears at 4,600 mph. Four airmen at the MacDill radar site see an object as it passes nearly overhead. MacDill radar loses the object at about 12:15 a.m. Civilians in Tampa also see two yellowish-orange discs maneuvering around the air base.

Event 3393 (89395A5B)

Date: 7/22/1952
Description: 10:20 p.m. A bluish-green UFO is seen over Boston, Massachusetts, and a few minutes later it is picked up by GCI radar. When Ground Control vectors an F-94 toward the UFO, the pilot sees the UFO near Braintree and locks on to it with his own radar. But the object easily leaves the jet behind.

Event 3400 (9764856F)

Date: 7/22/1952
Description: Pikes Peak Broadcasting Company President Joseph H. Rohrer gives a lecture (one of a series) on flying saucers at a chamber of commerce meeting in Pueblo, Colorado. He mixes a few genuine cases with some crashed saucer fiction, claiming that 7 discs have been retrieved by the US government, three of them forced down in Montana. One occupant has survived, he says, a little man 3 feet tall who is later kept alive in a secret site in California. Rohrer claims he has been inside a 100-foot-diameter disc in 1942, but he has made up these stories for entertainment purposes.

Event 3401 (12101956)

Date: 7/22/1952
Description: At 10:50 a.m. Mr. D. Weins, the Los Alamos Airport control tower operator at the AEC Los Alamos nuclear research facility in New Mexico, and two others, saw eight round, aluminum-colored objects. They were described as large and very fast moving UFOs. They made several sudden turns and reversals, and were seen for 25 minutes. An unexplained Project Blue Book report.

Event 3408 (573B9AF6)

Date: 7/23/1952
Description: 7:15 p.m. Many witnesses at Lockbourne AFB [now Rickenbacker Air National Guard Base] in Lockbourne, Ohio, including visiting Capt. Eugene E. McManus from Turner AFB [now Naval Air Station Albany] in Albany, Georgia, observe four round, fluorescent white objects hovering near the base at 75,000 feet. An Air force pilot named Capt. Swartz in Flight Service at Wright-Patterson AFB, Dayton, Ohio, radios in the report that the objects are balloons. Two F-84 jets are scrambled at 8:15 p.m. and identify them as a balloon cluster. The objects, seen over many other areas of central Ohio (Capt. Edward J. Ruppelt says he was called out to see it over Wright- Patterson), are probably USAF reconnaissance balloons sent up from Clinton County Airport in Wilmington, Ohio.

Event 3418 (BADBD039)

Date: 7/23/1952
Description: 2:15 a.m. Seaman Henry J. Arnpriester is on watch at Nahant (Massachusetts) Coast Guard Station [now closed] when he sees two bluish lights approximately 5 feet in diameter. They appear as flat, disc-shaped objects having no aerodynamic features and move without sound or exhaust trail at a speed faster than a four-engine airliner at an altitude of 1,100 to 2,000 feet. When they are approximately 1.5 miles from the point of observation, they execute an extremely sharp turn similar to the path of a ball bouncing off a wall.

Event 3427 (915D2091)

Date: 7/24/1952
Time: night
Description: A man who was fishing in the Serchio River saw a disk hovering for 10 min. From it hung a hose that plunged into the water. The object was 20 m in diameter, with five propellers in the rear and a dome with something like blades on top. An orange glow could be seen through slits along the deck. A man wearing a diving helmet looked at the witness through a window, and he received a kind of electric shock as a “green ray” hit him. He looked up with difficulty, in time to see the object fly away toward the east. Six days later a stranger with a foreign accent contacted the witness and intimidated him.

Event 3433 (9D3C9D2C)

Date: 7/24/1952
Description: 3:40 p.m. Two USAF pilots, Lt. Col. John L. McGinn and Lt. Col. John R. Barton, are flying a B-25 out of Hamilton AFB [now closed] in Novato, California, for Colorado Springs. They are over Carson Sink, Nevada, at 11,000 feet when they see three unknown objects make a left bank and fly to within 400–600 yards of the plane. They are three bright silver, delta-wing craft with no tails and no canopies. The pilots see a clean upper triangular wing with a definite ridge that runs from the nose to the tail. They estimate the speed as at least three times that of any conventional jet.

Event 3436 (52371477)

Date: 7/25/1952
Description: Capt. J. W. Titus of the 140th Wing Medical Group sees two oval-shaped objects flying in formation at 400– 600 mph in Portales, New Mexico. They are silent and leave no vapor trail. At one point, they make an abrupt 80° turn and fly off to the north.

Event 3437 (9D4CE502)

Date: 7/25/1952
Alternate date: 4/25/1952
Description: 3:00 a.m. Carlo Rossi is on his way to a fishing spot on the Serchio river near San Pietro a Vico, Lucca, Italy. He notices an odd light above the river and finds that it belongs to an enormous disc-shaped object with a transparent dome. It is about 82 feet in diameter and apparently taking up water through a long tube. The object is standing in the river on three legs and has a ladder reaching down next to the tube. Rossi thinks it is hovering by means of propellors. Suddenly a porthole opens, and a human figure looks out and notices him. Rossi begins to leave, but a green ray passes above his head and he feels an electric shock. The object takes off and disappears to the west.

Event 3438 (8E2074FD)

Date: 7/25/1952
Description: A man who was fishing in the pre-dawn hours in the Serchio River in the Tuscany region of Italy saw a disc hovering for ten minutes. From it hung a hose that plunged into the water. The object was 20 meters in diameter, with five propellers in the rear and a dome with something like blades on top. An orange glow could be seen through slits along the deck. A man wearing a diving helmet looked at the witness through a window, and he received a kind of electric shock as a "green ray" hit him. He looked up with difficulty, in time to see the object fly away toward the east. Six days later a stranger with a foreign accent contacted the witness and intimidated him.

Event 3442 (218E314D)

Date: 7/26/1952
Description: In Washington, D.C. on this date, from 8:00 p.m. until after midnight, radar operators at several airports tracked many unidentified blips by radar all over the Washington area, at varying speeds. Airline pilots reported spotting unidentified lights during this period as well. Sharp UFO targets on the ARTC radar at National Airport at 9:08 p.m. and 9:15 p.m. Visual sightings were reported by civilians four times, near Herndon, Virginia and from Maryland. A National Airlines flight near Andrews AFB saw a UFO "directly over the airliner."

Event 3443 (B5A4A7A8)

Date: 7/26/1952
End date: 7/27/1952
Description: 8:15 p.m. Flying saucers return to the nation's capital, only one week after a massive number of radar-visual UFO sightings above restricted air space in Washington, D.C. At 8:15 p.m., pilot Capt. Berkow and a stewardess of a National Airlines flight near Washington National Airport [now Ronald Reagan National] see several objects resembling the glow of a cigarette high above them. The lights move at around 100 mph. Soon, the airport and Andrews AFB in Maryland are tracking a dozen UFOs throughout much of the sky, all traveling 90– 100 mph. By midnight, two F-94s are scrambled from New Castle AFB in Delaware to intercept them. National Airport staff hustle newspaper reporters away from the air traffic control tower, saying that interceptions are classified (but Project Blue Book chief

Capt. Edward J. Ruppelt suspects that the Air Force does not want the press around when they finally get a good look at a saucer). The UFOs are seen on radar for 2 hours, but when the jets approach, the blips disappear. When the pilots return to base, they show up again. Reports are reaching Langley AFB about rotating objects that give off alternating colors over Newport News, Virginia. Another F-94 is scrambled, the pilot gets a radar lock, and the target speeds away. At National Airport, the objects reappear shortly before dawn, and two more F-94s are scrambled. The pilots obtain radar locks; again, the objects speed away. USAF press spokesman Albert M. Chop is in the airport radar tower and notes that everyone there believes the targets are "very probably caused by solid metallic objects." One F-94 pilot, Lieut. William Patterson, says, "I saw several bright lights. I was at my maximum speed, but even then I had no closing speed." A USAF air intelligence report later states that the radar crew is emphatic that the returns are solid and not temperature inversions. In 1969, however, Colorado project physicist Gordon David Thayer concludes that the radar events involved temperature inversions. He believes the visual sightings were caused by meteors and scintillating stars. University of Arizona atmospheric physicist James McDonald disagreed, arguing that Thayer's own data did not support his conclusion. Colorado project psychologist Michael Wertheimer interviews many of the radar operators; nearly all disagree with the inversion explanation and maintain that all experienced radar operators have no trouble identifying such phenomena.

Event 3444 (0AB04AB0)

Date: 7/26/1952
Description: Washington, DC: Long range "overfly" RADAR picks more blips, just one week after the previous invasion of restricted air space over Washington, D.C. Capt. Ruppelt told Maj. Dewey Fournet to get over to the airport in Washington. Fournet was a radar specialist with Project HOLCOMBE and arrived at the airport with Al Chop, AF Press Officer, just in time to see the UFO blips on the radar sets and to hear ground-to-air conversations of the pilots of two F-94s vectored towards the UFOs.

Event 3454 (89C3331D)

Date: 7/27/1952
Description: In Nevada at four o'clock in the morning highway worker Truman Bethurum had finished working the night shift and decided to visit a nearby hilltop called Mormon Mesa because he heard it was a good place to look for seashell fossils. After he parked his truck he used a flashlight to hunt for seashells, but he had no luck finding any, and after searching for an hour or so he returned to the truck and napped awhile. A "mumbling around the truck" awakened him. The mumbling came from eight to ten olive-skinned beings speaking an unintelligible language. All were about 4 feet 8 inches to 5 feet tall. They were not dwarfs but fully developed men. The strange men made no effort to disturb him, although Bethurum said he was afraid to attempt a getaway.

He was still in the truck cab when one man spoke to him in a foreign tongue. Bethurum shook his head, indicating he could not understand. Then the small man said: "You name it." It was perfect English, recalled Bethurum, who answered: "My God, you can speak English, too?" "We have no trouble with any language," replied the man. Bethurum then climbed out of the truck and stopped, awestruck. He saw a flying saucer parked about 75 yards away from his truck. It looked like burnished stainless steel. Bethurum shook hands with all the "friendly" men and asked if their captain was around. The spokesman for the group volunteered to escort Bethurum to the captain, and led him toward the parked craft. Meanwhile, Bethurum looked around and saw that the short men were "Latin types," with complexions "something like Italians." All were neatly dressed in uniforms similar to those "worn by Greyhound bus drivers." All had coal black hair and dark eyes. Their skin complexion was perfect and had no wrinkles or blemishes. The spokesman for the group took hold of Bethurum's right elbow. While holding the arm the man seemed to "have me in his power

completely. He gave the impression of great strength." Soon the group arrived at the ship. Bethurum described it as being metallic. He learned that it measured 300 feet in diameter and was "six yards deep in the center." A three-foot metal rim with beveled edges surrounded the saucer-shaped craft, and the rim was about two feet thick. The ship had no rudder or stacks. They entered the ship through a large door that Bethurum estimated was 4 ½ feet wide and about 10 to 12 feet long. It was located atop the ship close to the metal rim around the edge. Inside he met the woman captain, Aura Rhanes. He described her as having a "slender" Latin-type face. She wore a "radiant red skirt, black velvet short sleeved blouse and a black beret with red trim." He went into her lounge and they talked. The woman captain said she was from the planet Clarion, which could not be seen from earth.

Source: EberhartUFOI

Event 3462 (1B714D74)

Date: 7/27/1952
Description: At 12:15 a.m. seven "good, solid targets" appeared on radar at National Airport near Washington, D.C. F-94 interceptors were sent from Deleware, but they made no visual contact as the UFOs were gone by the time they arrived. It was noted that there were only minor temperature inversions at the time, and these were not the likely cause of the radar blips. Five minutes later an F-94 pilot made vsual contact with a round UFO. Both the UFO and the F-94 jet were seen on radar flying at the same speed. But when the jet tried to overtake the UFO it disappeared visually and on radar. "Incredible speed of the object," said the pilot.

Event 3478 (171814D3)

Date: 7/28/1952
Description: Early morning. While napping between shifts as a heavy-equipment operator in the Nevada desert, Truman Bethurum is awakened by 8 small men who "seem to be of Latin extraction." They take him to a nearby flying saucer where he meets the captain, a "gorgeous woman, shorter than any of the men, neatly attired, and also having a Latin appearance: coal black hair and olive complexion. She appeared to be about 42 years old," although Bethurum learns that she is hundreds of years old. Her name is Aura Rhanes. Her ship is called a "scow," and her crew is from the planet Clarion, a world that is always on the other side of the moon. He later tells this story and his later adventures in his 1954 book Aboard a Flying Saucer, ghostwritten by Mary Kay Tennison.

Event 3479 (3B3FB564)

Date: End of 7/1952
Description: SECRET MEMO to Director, CIA, from H. Marshall Chadwell, Office of Scientific Intelligence stating: ATIC has set up a worldwide reporting network for Flying Saucers and major Air Force bases have been ordered to make INTERCEPTIONS of UFO's. Battello Memorial Institute is to handle machine indexing of all official reported sightings. From 1947 to date, there have been 1500 official sightings with 250 of them in 1952 alone. Of the 1500, 28% remain UNEXPLAINED. UFO's are of such importance that the matter should be brought before the National Security Council.

Event 3480 (0686EA69)

Date: 7/28/1952
Description: UK Prime Minister Winston Churchill writes to William Sidney, Secretary of State for Air, and scientific adviser and friend Lord Cherwell, saying, "What does all this stuff about flying saucers amount to? What can it mean? What is the truth? Let me have a report at your convenience." The response, dated August 9, begins: "The various reports about unidentified flying objects, described by the Press as 'flying saucers,' were the subject of a full Intelligence study in 1951" [presumably the report by the Flying Saucer Working Party].

Type: historical event
Reference: Keziah Poster
Location: Washington DC
Source: Maj2

Event 3482 (2D61EB2C)

Date: 7/29/1952
Description: 10:00 a.m. President Truman tells his air force liaison, Robert B. Landry, to find out what is going on with UFOs. Landry calls ATIC and eventually reaches Ruppelt, who tells him that weather may have caused the radar targets, but there is no proof. He later learns that Truman is listening in. There is some evidence that Truman or Landry soon contact the National Security Council directly to find out how to proceed with the UFO problem.

Event 3483 (F9053384)

Date: 7/29/1952
Description: Early morning. CAA radar tracks 8–12 UFOs at a time traveling 100–120 mph in a 10-mile arc around Washington, D.C. When an Eastern Airlines pilot tries to check on the radar targets at the request of the CAA at 3:00 a.m., he sees nothing. The targets disappear from CAA radar when the airliner approaches then come back in behind him after he passes through the area.

Event 3484 (EB58BF9E)

Date: 7/29/1952
Description: 1:30 a.m. An Air Defense Command radar outside of Osceola, Wisconsin, picks up some unidentified targets. Four F-51s from St. Paul, Minnesota, are scrambled, but the targets are moving around so quickly that it is impossible to vector in on a single target. The F-51 pilots see many lights; one pilot at 25,000 feet sees an object blaze across the nose of his airplane. Two other pilots vainly try to climb up to a hovering light that is in the same position as the radar targets. ATIC's Robert M. Olsson and Wendell Swanson explain the radar incident as a temperature inversion and the visual sighting as a meteor.

Event 3485 (C03808F8)

Date: 7/29/1952
Description: There are 39 unexplained UFO reports recorded in the UFOCAT database for this day. Most are lacking any detail and so fall into the category of "insufficient information." All but five come from the United States.
Reference: Johnson
Source ID: 4471
Source: Johnson

Event 3486 (8AABEC7D)

Date: 7/29/1952
Description: At 1:30 a.m. radar operators on the ground in Osceola, Wisconsin witnessed several clusters of up to 10 small radar targets and one large target. The small targets moved from southwest to east at 50-60 knots (60-70 mph), following each other. The large object moved at 600 knots (700 mph). One hour total time. The pilot of a F-51 Mustang in flight confirmed a visual sighting of one of the targets.

Event 3491 (8EF142C5)

Date: 7/29/1952
Description: Langley AFB, Virginia. At 2:30 p.m. USAF Captain D.G. Moore, of military air traffic control, sighted a UFO coming toward the air base that flew at an estimated speed of 2,600 mph below an altitude of 5,000 feet. It was in sight for two minutes. Twenty minutes later Captain Moore and electronics technician W. Y. Hope tracked a UFO on radar moving away. The object stopped for two minutes, then moved away again very, very fast. Total duration four minutes.

Source ID: 1956
Source: EberhartUFOI

Event 3502 (D43BE87B)

Date: 7/29/1952
Description: 9:35 p.m. Marine Pfc Ralph C. Mayher, using 16 mm film exposed at 24 frames per second, obtains footage of a high-speed UFO over Miami Beach, Florida. Retaining a few frames for personal study, Mayher submits the main portion of the film to the Air Force for analysis. The film is never returned, and no analysis report is ever released. Enlargements of a few frames show a fiery looking, roughly circular object, symmetrical, with two small peaks or projection on opposite sides of the disc. The CIA examines the film in 1957 and returns it with no comment or analysis. The Mayher case features prominently in the subsequent lawsuit by Ground Saucer Watch against the CIA and is important because it is a confirmed case of direct interaction of the CIA with a witness, clearly indicating that there was CIA interest in the subject.

Event 3504 (E4E3A33D)

Date: 7/29/1952
Description: 4:00 p.m. The Air Force holds its largest and longest press conference since the end of World War II. Maj. Gen. John A. Samford, director of USAF intelligence, leads it. He is accompanied by Eighth Air Force Maj. Gen. Roger M. Ramey, director of operations and commander of the Eighth Air Force; USAF Col. Donald L. Bower, Technical Analysis Division, Air Technical Intelligence Center (ATIC), Wright-Patterson AFB, Dayton, Ohio; Project Blue Book head Capt. Edward J. Ruppelt; USAF Capt. Roy L. James, ATIC radar specialist; and Burgoyne L. Griffing, electronics branch, ATIC. Samford says that the Air Force has been monitoring US air space since 1947. Approximately 20% of

UFO reports come from "credible observers of relatively incredible things," which keeps the Air Force concerned. He explains that the Washington, D.C., sightings earlier in July were caused by "weather phenomena" that caused radar beams to bend and pick up objects on the ground. James offers more technical explanations about temperature inversions that cause radar echoes. Pro-UFO Maj. Dewey J. Fournet Jr., USAF public relations officer Al Chop, and Navy radar specialist Lieut. John Holcomb are conspicuous by their absence.

Event 3508 (8BAC1855)

Date: 7/29/1952
Description: An FBI memo from Victor P. Keay on "Flying Saucers" discusses a classified briefing about UFOs by Cmdr. Randall Boyd Jr. of the Air Intelligence Estimates Division to Norman W. Philcox, an FBI liaison to the Air Force. The Air Force has "failed to arrive at any satisfactory conclusion" on UFOs. Reports are being received from all parts of the US and distant parts of the world. Boyd explains that USAF has made no progress in ascertaining the nature of UFOs, but it is filing them into three classifications: reports by civilians on the ground, reports by commercial or military pilots, and reports by pilots that are confirmed by radar or ground observations. He concludes by writing that it is "not entirely impossible that the objects sighted may possibly be ships from another planet such as Mars," but he adds that "air intelligence is fairly certain that these objects are not ships or missiles from another nation in this world."

Event 3516 (5403FA1D)

Date: 7/30/1952
Description: Flight Sgt. Roland Hughes of No. 20 Squadron RAF is on a training flight in a de Havilland Vampire FB-9 jet fighter and returning to base at RAF Oldenburg, Germany, when he sees a "gleaming silver, metallic disc" drop down from above and fly alongside his aircraft for several seconds before speeding off. The object is about 100 feet long. Its surface is shiny "like tinfoil," highly reflective, and "without a single crease or crinkle in it." On August 5, Hughes is ordered to fly to RAF Faßberg for further questioning. He arrives and finds a number of officers, including his commander and the UK Minister of Supply, Duncan Sandys (Winston Churchill's son-in- law), who asks Hughes how many beers he had before his saucer sighting. The Air Commanding Officer then reveals that the object had also

been tracked on radar going faster than any known aircraft. This convinces Sandys that the case is a serious one, a view that he communicates to Lord Cherwell, the government's chief scientific adviser, in a letter, saying there is "ample evidence of some unfamiliar and unexplained phenomenon."

Event 3521 (683B7C3F)

Date: 8/1/1952
Description: 9:50 p.m. Scripps-Howard reporter Howard Doyle Kline sees a cluster of glowing white objects overhead in Albuquerque, New Mexico. The objects shift around into various patterns, including a perfect V at one point. Their shifts in position are incredibly swift and fantastically violent, he says. "They made" a flying saucer believer out of me." He reports the incident to Lincoln LaPaz, University of New Mexico meteoriticist, and Col. William A. Matheny, commander of the 34th Air Defense Division. The report, which is one probably used in Maj. Dewey Fournet's Motion Study, is missing from the Project Blue Book files.

Event 3524 (59E3A569)

Date: 8/1/1952
Description: 10:51 a.m. An Air Defense Command radar site on Campbell Hill at Bellefontaine, Ohio, tracks a target 20 miles NNW of Wright-Patterson AFB, traveling 500 mph against the wind. It vectors two F-86s piloted by Maj. James B. Smith and Lt. Donald J. Hemmer. They make visual contact but climb to 48,000 feet twice without reaching it. Smith gets a weak return on his radar gun sight and shoots a gun camera film of a white or silvery sphere estimated at 60,000 feet. They break off the intercept at 11:13 a.m. about 100 miles west-southwest of Dayton. The film reportedly shows a

UFO in the upper right of the frames with noticeable motion to the lower left. Although Blue Book Capt. Edward J. Ruppelt's assistants Lt. Anderson G. Flues and Lt. Robert Olsson initially declare the case an "unknown," Ruppelt changes that evaluation a few weeks later after ATIC Technical Analysis Division Chief Col. Donald L. Bower transfers out, explaining it as two separate but coincidental IFOs—a weather balloon and a jet. Ruppelt goes to great lengths to debunk the case in his ADC briefings to the Robertson Panel.

Event 3527 (71C12034)

Date: 8/2/1952
Description: 3:00 a.m. USAF 1st Lt. W. A. Theil and enlisted man Edwards see a red ball with a trail of blue flame fly straight and level over Lake Charles, Louisiana. (Sparks, p. 165) August 2 [or July 30] — George Hunt Williamson and his wife Betty are visited in Prescott, Arizona, by two other metaphysics enthusiasts, Alfred C. Bailey and his wife Betty of Winslow, Arizona. This evening, in the course of an automatic-writing experiment using a sort of Ouija board, they receive a message from an extraterrestrial in a spacecraft. In the days and weeks that follow, "Nah-9 of Solar X Group" and many other planetary and star people communicate with them. The space people call earth "Saras." Nah-9 says that the good men of Saras must unite with good space people to avert a calamity. More Ouija sessions take place through August 17. A message comes through that they will be contacted via radio with an International Morse Code message on August 22. Bailey approaches a coworker on the Santa Fe Railroad, a ham radio operator named Lyman Streeter, and asks for his help in picking up the space signals.

Event 3541 (C1CBB5AC)

Date: 8/5/1952
Description: 11:45 p.m. A complex radar-visual sighting takes place at Haneda AFB [later Tokyo International Airport], Japan. Control tower operators watch a disc as it passes over Tokyo Bay at about 1,500 feet. It is a dark round shape surrounded by a bright light with a curved outer edge and smaller lights around it. While being tracked on radar, a scramble alert is issued at 11:55 p.m., and an F-94 Starfire jet from nearby Johnson Air Base [now Iruma Air Base] in Sayama, Saitama Prefecture, goes after the object. The interceptor, piloted by 1Lt. Wesley R. Holder and Radar Observer 1Lt. Aaron M. Jones Jr., chases the object, which speeds away while being tracked by onboard radar. During the next 30 minutes, the UFO disappears and reappears throughout the sky, vanishes when the jet closes in, performs intricate maneuvers, and at one point splits into three radar targets. The jet searches over Tokyo Bay until 12:33 a.m. when it is recalled.

Event 3543 (5DB2C5AD)

Date: 8/5/1952
Description: Another famous case, a radar-visual confirmation, occurred in Japan on this day. A UFO hovered over the Haneda U.S. Air Force base near Tokyo and had several ground military witnesses in addition to radar tracking. It looked like a dark shape with a light, and it flew at 330 knots, then hovered, then performed a variety of maneuvers. It was tracked by airborne radar for 90 seconds.The UFO moved off at extreme speed, and then divided into three parts.

Event 3545 (3A5F3E63)

Date: 8/5/1952
Description: 9:46–12:00 midnight. A visual sighting is made at 9:46 p.m. by an observer on the ground at Manassas, Virginia, who spots a brilliant oval flying south. About 10:50 p.m., Andrews AFB in Maryland picks up two unidentified blips moving slowly and steadily away from Washington, D.C., on a course toward Mount Vernon, Virginia. Minutes later the fluorescent screens at Andrews show two more UFOs to the east of the field moving for a short distance, stopping, and then moving again. The speed of the targets is a slow 60 mph. The height of the targets is unknown. Planes from both Andrews AFB and Bolling AFB are sent up to investigate but rainy weather forces them to turn back after they reach 15,000 feet altitude. Around 12:00 midnight yet another target appears on radar, and jets from New Castle AFB in Delaware are scrambled. The jets see no UFOs when they arrived over Washington; however, a spokesman for Andrews radar tells the press that "no radar sightings were made while the planes were overhead."

Event 3555 (944A69D8)

Date: 8/7/1952
Description: 9:08 a.m. Mrs. Susan Pzuhl (or Pfuhl) observes over San Antonio, Texas, four round UFOs that give off a color similar to white-hot metal. The objects appear to be approximately 18 inches in diameter and are observed one at a time at intervals of approximately 20 minutes. With the exception of one object that moves slowly, the speed must have been 3 times as fast as a propeller-driven aircraft. No sound can be heard. Their maneuvers consist of radical directional change by the first object, straight and level flight by the second object, a slight directional change by the third object, and a large circular maneuver by the fourth object. An aircraft passes under the fourth object with no apparent reaction by the plane or the object. It vanishes suddenly like an extinguished light. Duration is 70 minutes.

Event 3562 (B3E806D5)

Date: 8/9/1952
Description: At 10:50 a.m. a military witness named Raley at Chennault Air Force Base, Louisiana saw a disc-shaped object that flew very fast for five minutes, and hovered for two seconds. A Project Blue Book "unidentified" case.

Event 3563 (5C9C0BCA)

Date: 8/10/1952
Description: 5:38 p.m. Roy E. Munson is resting in his hammock at 1231 Widergren Drive, Rockford, Illinois, when he sees a disc-shaped object moving west to east and streaking across the sky in 6 seconds. Within minutes, another appears on the same flight path. Some family members and neighbors join him to watch the objects, which keep appearing for the next 90 minutes by which time a total of 54 have gone by. Munson alerts the CAA operator at the Rockford airport, who calls O'Hare Airport in Chicago, which sends two USAF jet interceptors to the area. They appear just as the last of the discs, which seem surrounded by a haze, disappears. Of the 54 objects, 36 appear larger that the others and move faster. Fifty follow the straight west-to-east path out of sight. Three deviate from the path to the north, and one deviates to the south.

Event 3565 (F9D805C4)

Date: 8/12/1952

Description: In Toulouse, Haute-Garonne department, France more than a dozen witnesses saw a white disc-shaped object that stopped over the city in the middle of the afternoon. It was joined by two more similar looking objects, and then all three flew away fast together.

Event 3566 (FD2956BE)

Date: 8/12/1952
Description: At 9:48 p.m. two military witnesses sighted two disc-shaped UFOs while in flight over Wink, Texas. The objects were described as aluminum colored, and shaped like pie-pans. They rose rapidly from a lower altitude and passed the plane.

Event 3567 (D18A30CE)

Date: 8/12/1952
Description: 1:43 a.m. An Air Force F-94B jet fighter from Dover AFB in Delaware is flying at 20,000 feet when both the pilot and his radar crewman sight a glowing object 45° to their left and at a lower altitude, with the waters of the Delaware Bay as a dark backdrop. Curious, the jet pilot adjusts his course and heads directly at the object, which is stationary. In an apparent reaction, the object loses some of its brilliance and diminishes in size, apparently moving away. The pilot determines that the object had halted above Cape May, New Jersey, where it again hovers. Without success, the pilot tries to raise the local CCI station on the radio on F channel to request a radar scan of the Cape May area. Low on fuel, the pilot cannot pursue the UFO any further, so he breaks off the chase and heads for home. The UFO follows the jet, increasing in apparent size as it draws near and overtakes it. Eventually, the UFO loses interest and flies away to the south.

Event 3568 (E41F2B71)

Date: 8/13/1952
Description: 9:45 p.m. In Tokyo, Japan, US Marine Corps pilot Maj. James D. McGough sees an orange light fly a left orbit at 8,000 feet and 230 mph, then spiral down to no more than 1,500 feet, remain stationary for 2–3 minutes, and go out. An attempted interception is unsuccessful.

Event 3569 (78DBDD21)

Date: 8/13/1952
Description: 9:10 p.m. A witness in Oakland, California, calls Hamilton AFB [now closed] in Novato to notify them he is watching "two balls of fire" making a 10-mile circle and leaving in the direction of Hamilton. When the report is

made to Capt. Kenneth Broden, Hamilton AFB Airdrome Officer, he orders an F-94 jet scrambled to search the bay between Oakland and the air base.

Event 3571 (66885BEF)

Date: 8/13/1952
Time: 9:45 PM
Description: Witness: USAF Marine Corps pilot Maj. D. McGough. One orange light flew a left orbit at 8,000' and 230 m.p.h., spiralled down to no more than 1,500', remained stationary for 2-3 minutes and went out. An attempted interception was unsuccessful.

Event 3572 (514D8A95)

Date: 8/13/1952
Description: While flying over Tokyo, Japan at 9:45 p.m. USAF Marine Corps pilot Major D. McGough sighted an orange light that flew a left orbit at 8,000' and 230 mph. It then spiraled down to no more than 1,500 feet altitude, remained stationary for 2-3 minutes more, and went out. An attempted interception was unsuccessful.

Event 3573 (C9F1B2F7)

Date: 8/13/1952
Description: Night. Pioneer Airlines pilot Capt. Max M. Jacoby sees a mystery light while on a routine test flight out of Dallas Love Field, Texas. He tries to intercept it, but the light evades him and disappears.

Event 3574 (41582FE5)

Date: 8/13/1952
Description: Around 7:00 p.m. Two civilians in the Tampa, Florida, area watch three UFOs. One object changes its course abruptly to the west, moving in excess of 600 mph. The same object hovers for about 5 minutes then moves at an excessive rate back to the east and resumes its course to the north and disappears. The two other objects do not alter course but disappear to the north.

Event 3575 (6A423B5A)

Date: 8/14/1952
Description: Australian Minister for Air William McMahon states facetiously in Parliament that flying saucer reports are "probably based on flights of imagination," but indicates he will "cause a thorough investigation to be made."
Reference: Eberhart
Reference: Swords 376
Source ID: 1990

Event 3576 (41CAB836)

Date: 8/14/1952
Description: The CIA's special UFO study group meets for the first time and is given a summary (probably written by A. Ray Gordon, project officer of the CIA's Physics and Electronics Branch) of UFO history, an analysis of Project Blue Book, and a discussion of explained sightings and theories about unexplained sightings.

Event 3577 (3B9C7D44)

Date: 8/14/1952
Description: 7:20 p.m. People on the docks of Phillippeville [modern Skikda], Algeria, see an enormous red disc leaving behind a greenish trail. At 9:15 p.m., two people in Constantine, Algeria, watch a luminous object flying at high speed. It emits a bright light.

Event 3578 (6D769F00)

Date: 8/14/1952
Description: 10:30 p.m. A yellow ball of light undulates up and down and from side to side over the Mathieson chemical plant in Lake Charles, Louisiana. It is also seen to shoot ahead abruptly and come to a halt in the same manner. Witnesses estimate that the ball passes over at 5,000 feet, growing fainter and fainter as it moves away.

Event 3579 (2764E43F)

Date: 8/14/1952
Description: At around noon, inflight over Rockhampton, Queensland, Australia an RAAF Vampire fighter pilot encountered a large circular light, from which 6-10 small lights emerged and surrounded the larger object. The sighting lasted five minutes.

Event 3580 (3EACCF52)

Date: mid 8/1952
Description: 10:30 p.m. John D. Moorman, deputy sheriff of Starke County, is fishing in a boat with Surphin Casper on the Tippecanoe River about 3 miles northwest of Monterey, Indiana. Moorman looks up and sees 7–8 objects hovering. They watch for a few seconds until the objects move away to the west. About half of them return east momentarily, and all of them disappear by blinking out.

Event 3581 (80304A10)

Date: 8/15/1952
Description: 4:20 a.m. Ground Observer Corps observers in Davis, California, see a rainbow-colored, round object hovering in the air. Soon they notice eight more objects of a strange appearance. At 5:30 a.m., two more UFOs are seen, one moving west while the other moves east. The Air Force scrambles a F-94 jet interceptor to search the area at altitudes of 10,000–20,000 feet. The military claims the pilot can see nothing unusual, although the GOC spotters say that the UFOs and the jet are both visible in the sky at the same time and possibly at the same altitude. At 5:00 a.m., in Napa, California, GOC post observer Diane Robinson sights a “cigar-shaped silver thing” traveling at tremendous speed at 10,000 feet toward the southwest.
